# Colusa County Department of Behavioral Health Vision Statement

• • •

The Colusa County Department of Behavioral Health will provide high quality consumer centered and family friendly, prevention, education and clinical services to residents of Colusa County. We will promote recovery/wellness through independence, hope, personal empowerment and resilience. We will make access to services easier, services will be more effective, produce better outcomes and out-ofhome and institutional care will be reduced. All of our Behavioral Health services will be designed to enhance the wellbeing of the individuals and families who it is our privilege to serve.

## **County Description**

Colusa County is identified as a rural community with a population of approximately 21,500 according to the United States Census. Colusa County is made of a total of ten communities, with Colusa being the seat of the County. More than half of the population identifies as Hispanic or Latino with Spanish being the threshold language. The Hispanic/Latino population often fluctuates according to the crop season, as Colusa County's economy is supported by the production of agriculture. Colusa County also has a small percentage of American Indian and Alaska Native at approximately 2.7%. The median household income according to the United States Census is approximately \$52,000. Being a small, rural community brings challenges when striving to reduce stigma and discrimination around seeking mental health services. The Mental Health Services Act (MHSA) has allowed the opportunity for the community to become better educated on mental health through collaboration, integration of services, and developing more culturally competent services county wide.

#### **Introduction to MHSA**

The Mental Health Services Act (MHSA) or Prop 63 was passed in 2004 in order to address the unique mental health needs of communities. The act requires a 1% tax to those who have an income exceeding one million dollars. These funds go towards preventative services and direct services for children, Transitional Age Youth (TAY), adult, and older adults who identify as being severely emotionally disturbed or severely mentally ill. MHSA promotes community collaboration, cultural competence, client and family driven services focused on wellness, recovery, and resilience through an integrated approach. The act also seeks to raise awareness and reduce stigma and discrimination around mental health.

## **Program Components**

MHSA consists of five funding components, each of which addresses specific goals for priority populations, key community mental health needs, and age groups that require special attention. The programs developed under these components draw on the expertise and experience of behavioral health and primary health care providers, various community-based organizations, school districts, community programs and centers, institutions of higher education, law enforcement/the judicial system, and local government departments and agencies. The five components are:

- 1) Community Services & Supports (CSS): Services that focus on community collaboration, client and family driven services and systems, wellness, recovery and resilience, integrated service experiences for clients and families, as well as serving the unserved and underserved
- 2) Prevention & Early Intervention (PEI): Services that promote wellness, foster health, and prevent the suffering that can result from untreated mental illness.

- 3) **Innovation** (**INN**): An innovation program can be designed to:
- A) Introduce a new mental health practice or approach that is new to the overall mental health system.
- B) Make a change to an existing practice in the field of mental health, including application to a different population.
- C) Apply to the mental health system a promising community-driven practice that has been successful in non-mental health contexts or setting.
- 4) Capital Facilities & Technological Needs (CFTN): This component works towards the creation of a facility that is used for the delivery of MHSA services to mental health clients and their families or for administrative offices.
- 5) Workforce Education & Training (WET): The WET component facilitates the development of a diverse workforce that can provide outreach to unserved and underserved populations, provide services that are linguistically and culturally competent and relevant, and includes the viewpoints and expertise of clients and their families/caregivers.

#### **Stakeholder Process**

1) Community collaboration is defined in the MHSA legislation as a process by which clients and/or families receiving services, other community members, agencies, organizations, and businesses work together to share information and resources in order to fulfill a shared vision and goal(s). Community meetings are used to facilitate community participation.

2) A 30-day public comment period allows for further stakeholder input on the Annual

Update/Three Year Plan.

3) A public hearing held in conjunction with the Behavioral Health Board meeting is the

final step in the stakeholder process which allows for any final comments or questions by

the public.

**Stakeholder Meetings Held** 

Colusa Stakeholder Meeting: 10 participated on March 5, 2020

Arbuckle Stakeholder Meeting: Scheduled for March 16<sup>th</sup> Cancelled due to Covid-19

Williams Stakeholder Meeting: Scheduled for March 18th Cancelled due to Covid-19

Maxwell Stakeholder Meeting: Scheduled for March 26th Cancelled due to Covid-19

**MHSA Programs** 

**Community Services and Supports (CSS) Programs** 

**Program Name:** WRAP Around

**Program Description:** WRAP Around provides intensive wrap around services to children and

youth who could benefit from a more integrated approach to services. WRAP is client and family

driven and focuses on wellness, recovery, and resilience. Staff works with the client to build

natural supports within the community through collaboration with other departments in the

community and the client's family.

**Program Name:** Full Service Partnership

**Program Description:** A "whatever it takes" method of services is provided to consumers of all

ages (children, transition age youth, adults, and older adults) who meet specific requirements.

Specific requirements include: being at risk for homelessness, psychiatric hospitalization, and

incarceration as a result of a mental illness. Consumers are provided with intensive services in

collaboration with natural supports and services other than mental health. Support can include

housing, transportation, education, vocational training, food, and clothing.

This program faces high numbers of people who are at risk for homelessness. There is limited

restricted income housing in the community and it is difficult to support clients in this area.

MHSA has assigned a housing case manager to focus on implementing opportunities to seek

funding to assist restricted income opportunities.

10

**Program Name:** Multi-Disciplinary Team

Program Description: Children System of Care - Outreach and Engagement allows for community collaboration and outreach through the Multi-Disciplinary Team (MDT) meetings. MDT meets monthly and includes representatives from various county service departments such as schools, Child Protective Services (CPS), Probation, and Victim Witness to discuss children's cases. The focus of the meetings is to identify the needs of each case and how agencies can address those needs collectively through wellness, recovery, and resilience models. Therapists and case managers from the children's team are present at this meeting to integrate client-centered service and provide in home support services when needed. This meeting is also where cases are presented for referral to the WRAP Around program.

**Program Name:** Safe Haven Wellness and Recovery Center

**Program Description:** Safe Haven is a peer supported drop-in center that serves adults and older adults who are in recovery from substance abuse, coping with mental illness, and or avoiding isolation. The center provides a number of recovery and resiliency focused groups as well as skill building groups that are run by peers and Behavioral Health staff. Two peer support specialist positions are funded to provide support in linking members to other services in the community through collaboration and outreach events, which allow for increased awareness around mental health and reduce stigma and discrimination in the community. Members can also participate in the Safe Haven Leadership and Advocacy Committee, to aid in the day-to-day operation of the center. This allows for growth in leadership skills and peer advocacy.

**Prevention and Early Intervention (PEI) Programs** 

**Program Name:** 2<sup>nd</sup> Step

**Program Description:** This program works in collaboration with the Colusa County Office of

Education 2<sup>nd</sup> Step services in various schools of the community. 2<sup>nd</sup> Step works with students

in kindergarten to third grade, focusing on socially appropriate behaviors between the teacher

and the student, peer to peer, and classroom behaviors. Students are taught in a classroom setting

in a variety of activities involving music, dancing, and storytelling. Through this program

students are able to develop appropriate coping and social skills as they progress through

elementary school.

**Program Name:** Friday Night Live (FNL)/Club Live (CL)

**Program Description:** Friday Night Live/Club Live (FNL/CL) programs are youth led action

groups that meet weekly on high school or middle school campuses throughout Colusa

County. The programs build leadership skills, broaden young people's social networks, and

implement youth led projects to improve school climate and reduce youth access to alcohol and

other drugs. Through the positive youth development model, individuals focus on their strengths

and their potential to contribute positively to their own lives and their communities.

12

**Program Name:** MHSA Infant to 5

**Program Description:** Mental Health Service Act (MHSA) Infant to 5 Program is designed to

provide access, engagement and prevention behavioral health services in collaboration with

Colusa County Office of Education's infant to preschool programs. These services include:

1) Biannual observations in each infant, toddler and preschool setting to assess behavioral

concerns

2) Coaching staff related to children behavioral concerns in the classroom, and

ideas/skills to address with parents

3) When appropriate, suggest referrals to Colusa County Behavioral Health

MHSA Infant to 5 will provide a four to six week parenting class at school sites to educate and

coach basic emotional support skills to parents of Infant to 5 children. These services will

include cultural sensitivity to Hispanic children and parents in efforts to build community and

strengthen parenting skills.

**Program Name:** Life and Leadership- A Circle of Solid Choices

**Program Description:** This project will introduce new practices that engage Native American

youth in an open and dedicated system of resiliency development by utilizing culturally adapted

approaches to combat suicide and risky behaviors among Native youth. The pilot includes a

comprehensive approach to resiliency development combined with increasing competency

designed to encourage mental wellness, combined with "safety net" circles that timely identify

needs for early intervention and or treatment. The project is offered to all youth living in a Native

13

American household/home on the Cachil Dehe Reservation/Rancheria in Colusa County. The youth will experience the program by going through three components with the support of a case manager. The first would be the Talking Circle which is a place for youth who need a private, supportive environment to discuss topics such as abuse, bullying, trauma, and healing with a Tribal counselor. The second component would be the youth enrichment program which would build Native youth's life skills such as goal setting, effective communication and money management, to name a few. Cultural education will also be included such as language revitalization and cultural songs. Lastly, the Solid Choices component will have Native youth choose from four internship options. The four options are work experience, college bridges, Tribal traditions, or school success. This will allow for the Native youth to actively make positive choices for their future. Overall, the project intends to provide a safety net for those who need a helping hand, complimented by clinicians and professionals as needed; provide a tribally sensitive arena for positive skill competency development; provide an individualized option for directed life experience. Combined, these three components will have the emphasized intent to steer participants away from social isolation, build foundations for seamless back and forth transition between Native and non-Native environments, and provide the opportunity for selfdirection through individual choice-based activities.

Program Name: Cultural Competency Committee

Program Descriptions: This committee was originally established in 2015. The department has reinstated it now that an Ethnic Services Manager (ESM) has been identified at the end of November 2019. The ESM has developed new membership in the Cultural Competency Committee that is made up of behavioral health staff. These members can speak to different cultures and sub-cultures served at the agency based on their self-identified culture and their role within Colusa County Department of Behavioral Health. This committee will also serve to carry-out items in the Cultural Competency Plan (CCP).

#### **Innovation (INN) Programs**

Program Name: Social Determinants of Rural Mental Health

Program Description: The Social Determinants of Rural Mental Health Project (SDRMHP) is a program designed to examine and address some basic life factors that contribute to mental health for people in a rural communities. Social determinants of mental health are currently being studied by the World Health Organization (WHO) and are part of the U.S. Department of Human Services Healthy People 2020 initiative. Attention is being paid to the social determinants of mental health in a public health approach to improve the lives of persons with mental illness. Understanding these basic determinants has the potential to improve mental health outcomes when applied appropriately as part of mental health interventions. The intent is to identify, support and stabilize life domains to improve the quality of life for persons with mental health issues. The basic social determinants to be studied will be:

#### 1. Safe and secure housing

- 2. Access to healthy, nutritious food choices
- 3. Transportation access
- 4. Unemployment
- 5. Access to education
- 6. Discrimination/Social exclusion
- 7. Adverse Childhood Experiences (ACE)

The project will study the presence of adverse childhood experiences by administering the ACE to participants. Individualized assessments will be made to determine the needs or deficits in the areas of employment, transportation, nutrition and housing. Treatment interventions focus on these areas of study will track the services provided and the outcomes achieved. A meta-analysis will be conducted to measure the impact of these interventions on overall treatment outcomes.

Another component of this program will be to engage the Full Service Partnership (FSP) process to organize services and provide specific supports in the above areas of need. By engaging persons identified as having these social determinants as part of their mental health condition will allow for pragmatic solutions and specific interventions that are likely to improve treatment outcomes. Adult services teams will work directly with participants in this program.

A final aspect of this program will have to do with the allocation of limited resources. If social determinants of rural mental health can help define need and direct the best use of resources we are more likely to improve treatment outcomes. As a small rural county with limited resources it is important for us to do what we can to make the best determination of the allocation of resources that get the best results for clients. This program has yet to be approved by the Mental Health Services Oversight and Accountability Commission.

**Workforce Education and Training (WET) Programs** 

**Program Name:** Workforce Education and Training Action Volunteer Program

**Program Description:** WET Action Volunteer program focuses on wellness, recovery, and resilience by giving consumers an opportunity to build vocational skills that can be used in the workforce. The program provides opportunities to adults and older adults of the community. Volunteers are offered job-related trainings, participate in community outreach events, and can be connected with job employment opportunities. The volunteers also have the opportunity to

operation of the Safe Haven Drop-in Center. Leadership allows for growth in leadership skills

participate in Leadership which is a group of appointed individuals who assists in the day-to-day

and peer advocacy. WET funding is no longer forthcoming as of 2018. This program is currently

supplemented by CSS funding.

**Program Name:** Training/Internship/Student Loan Repayment

**Program Description:** This program provides incentive to the Department of Behavioral Health

staff to not only continue with their education, but to continue with providing services to the

Colusa County community. Supervision for registered interns and scholarship funds are available

to assist in the repayment or full repayment of student loans for staff pursuing a Bachelor's in the

Mental Health field, Master's degree in Social Work, or Marriage and Family Therapy.

TOTAL	16	21	37

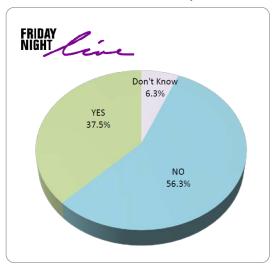

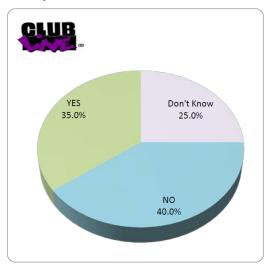

### Socioeconomic Status: Youth Who Qualify for Free/Reduced Lunch

To assess socio-economic status, youth were asked to report if they qualified for free or reduced lunch at school. Effective July 1, 2018, through June 30, 2019, participants from households (size of 4 people) with incomes at or below \$ 46,435 per year may qualify for free or reduced meals. For the full list of income eligibility guidelines, go to: https://www.cde.ca.gov/ls/nu/rs/scales1819.asp.

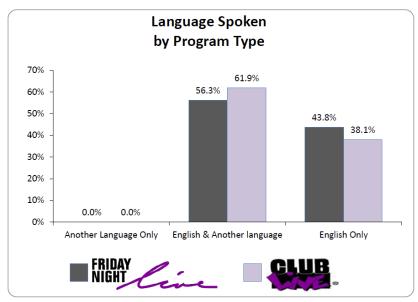

## Percent of Youth who Reported that they Qualify for Free Reduced Lunch

## Language

Survey respondents reported which language is spoken by their families:

Language	FNL (N)	CL (N)
Spanish	9	12
Italian	0	1

<sup>\*</sup>This list includes the most frequently reported.

# **Primary Ethnicity**

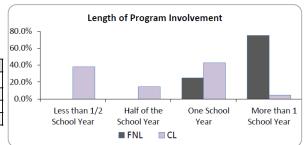

Youth were asked to select the option that best describes their ethnicity or cultural background and then their specific ethnicity.

Race/Ethnicity Categories	FNL (%)	CL (%)
African American / Black	11.8%	0.0%
Asian/Pacific Islander	5.9%	0.0%
Middle Eastern/North African	0.0%	0.0%
Hispanic/Latino	64.7%	57.1%
Multi-Ethnic	0.0%	4.8%
Native American	0.0%	0.0%
White/European	17.6%	38.1%
Decline/Not Listed	0.0%	0.0%
Don't Know	0.0%	0.0%
Total	100%	100%

## **Length of Program Involvement**

Youth who took the survey were asked how long they have been involved in the program:

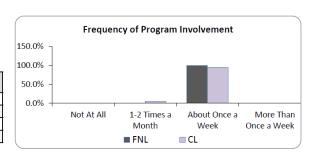

Involvement	FNL	CL
Less than 1/2 School Year	0.0%	38.1%
Half of the School Year	0.0%	14.3%
One School Year	25.0%	42.9%
More than 1 School Year	75.0%	4.8%

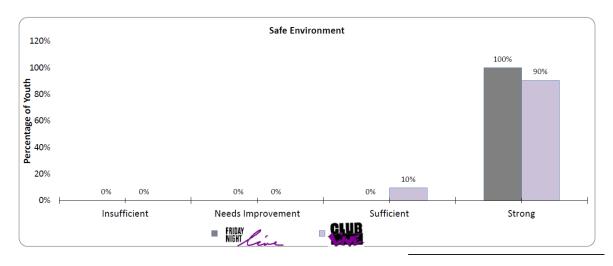

# **Frequency of Program Involvement**

Youth were asked to report how frequently they participated in FNL/CL activities in the past month:

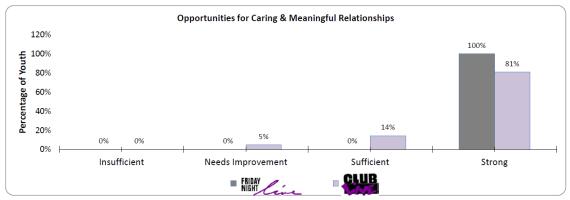

Frequency	FNL	CL
Not At All	0.0%	0.0%
1-2 Times a Month	0.0%	4.8%
About Once a Week	100.0%	95.2%
More Than Once a Week	0.0%	0.0%

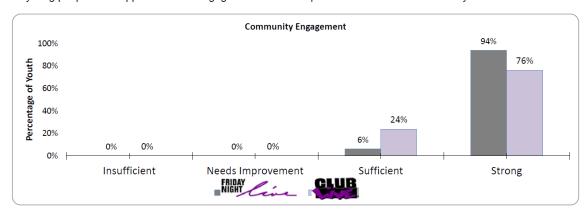

Do young people feel like FNL/CL provides a safe environment?

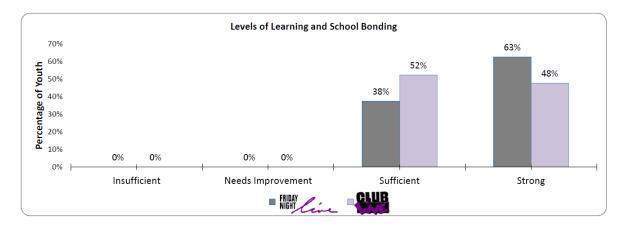

Do young people feel the program provides opportunities to develop and build caring and meaningful relationships?

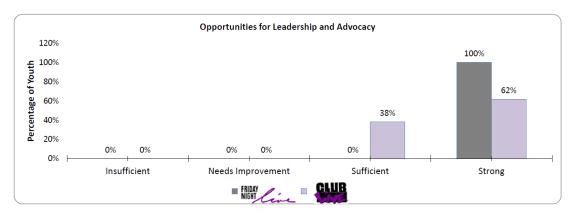

Do young people have opportunities to engage with and develop connections in their community?

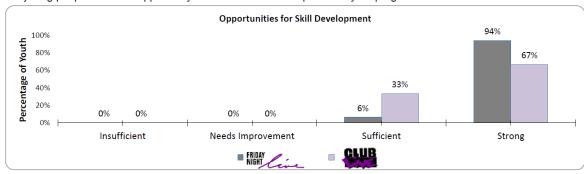

Does being part of your program help youth feel more excited about and committed to school?

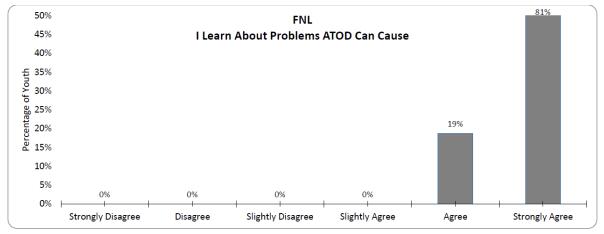

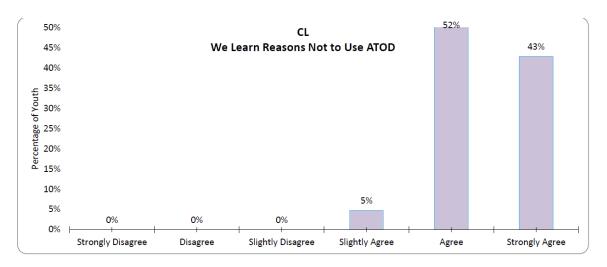

Do young people have the opportunity to build their leadership skills in your program?

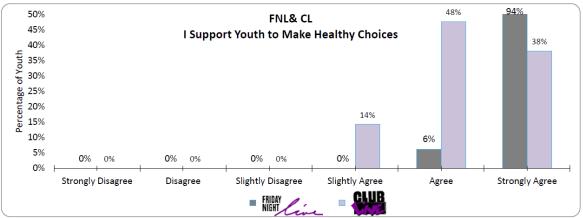

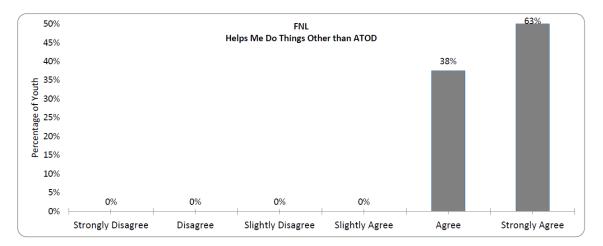

Do young people have the opportunity to build their leadership skills in your program?

#### Why is being in Friday Night Live important to you?

A total of 16 youth responded to this question, of these most (n=10) stated that being involved in their community and making a difference was the most important part of the program.

"It is important because I get to make a positive impact on my community."

"Because I get to help more people in the community."

"It gives me a chance to do important things to better my school."

"It's is a fun way to change issues present in our community."

"I get to help my community and bring awareness to issues that are important."

Many youth (n=7) stated that relationship building, making and spending time with friends, especially in the context of helping their school and community, was the most important part of the program.

"It has taught me to build relationships and how to make a positive change."

"It helps me meet and make new friends."

"It's important to me because I get to meet new friends and come closer with them."

"I like working with my friends on projects to help our school."

## A couple of youth noted that the safe environment FNL provides was most important.

"I felt very safe here and was able to be myself."

"I feel very safe here and my experiences through my years of FNL make me want to stay."

### Why is being in Club Live important to you?

#### A total of 21 youth responded to this question.

**Building friendships:** Almost all of the participants (n=18) reported that building friendship and spending time together was the best part of the program.

"I enjoyed hanging out with my friends during the meetings."

"Getting to talk with and meet new people

"Having all the different ages of kids and just everyone can come together so well."

"Being with other people who care."

"I enjoyed working with the adults since they're funny."

**Activities and Conferences:** Many of the participants (n=6) stated that the activities, games and conferences were the most important part of the program. Youth stated they helped them meet new people, build relationships, and get involved with helping their community.

"I enjoyed the games and teambuilding the most because it was fun and provided me with a chance to work with others."

"I enjoyed the Reach for the Future Conference because I got to meet so many new friends and get closer to my current friends.

"That we do activities and work with other people."

#### **Budget**

Upon review of the MHSA finances, CCDBH fiscal staff found that a total of \$379,114 from Community Services and Supports was supposed to have been moved into the Capital Facilities and Technology account in fiscal year 2018 to 2020 per the three year plan. It had never been transferred; therefore, a thirty day review of a budget amendment was done in April 16<sup>th</sup>, 2020. It was also reviewed and approved by the behavioral health board on April 14<sup>th</sup>, 2020 and board of supervisors on April 21<sup>st</sup>, 2020. A copy of the signed addendum is provided at the end of this report, shown as Figure 1.

For the upcoming three year plan, MHSA would like to move an additional amount of \$415,000 from Community Services and Supports into Capital Facilities and Technology in fiscal year 2020-2021. This will be used for a pending Innovation project, if approved, as well as Microsoft programming updates and other upgraded technology equipment, facility maintenance and upgrades, vehicles, and equipment needed to implement the Social Determinants of Rural Mental Health Innovation project if approved.

In fiscal year 2019/2020 the State has approved \$40 million in Workforce Education

Training (WET) funding for WET programs. For counties to get their share of the funding they
will need to provide a 33% match by 2022. CCDBH will need to provide a local match of
\$15,853 to the state via a grant. The Superior Region (northern California counties) will be
applying to the grant as a collective group, each county providing their local match. If approved,
CCDBH will transfer the funds in fiscal year 2020/2021 and new WET programs will be
developed.

7. Estimated Local Prudent Reserve Balance on June 30, 2022	\$	593,995					
5. Contributions to the Local Prudent Reserve in FY 2022/23		-					
6. Distributions from the Local Prudent Reserve in FY 2022/23		-					
7. Estimated Local Prudent Reserve Balance on June 30, 2023	\$	593,995					

a/ Pursuant to Welfare and Institutions Code Section 5892(b), Counties may use a portion of their CSS funds for WET, CFTN, and the Local Prudent Reserve. The total amount of CSS funding used for this purpose shall not exceed 20% of the total average amount of funds allocated to that County for the previous five years.

## **Summary of Changes from Previous Plan**

- Move a total of \$379,114 from Community Services and Supports into Capital Facilities
  and Technologies due to it not being transferred in the fiscal year reported in the 20182020 three year plan.
- Move an additional amount of \$415,000 from Community Services and Supports into Capital Facilities and Technology in fiscal year 2020-2021.
- Providing a match for regional Workforce Education Training funding in fiscal year
   2020-2021 of \$15,853.
- Remove the Innovation project known as the Forensic Program from the plan as it has been implemented for five years.
- Introducing a potential new Innovation project known as Social Determinants of Rural Mental Health. This project has yet to be approved by the Mental Health Services Oversight and Accountability Commission.
- Reinstating the Cultural Competency Committee under Prevention and Early Intervention.

## Mental Health Services Act Budget Addendum 1

The Colusa County Department of Behavioral Health would like to move funding from its Mental Health Services Act component of Community Supports and Services into its Capital Facilities and Technologies component. The dollar amount that would be transferred would be \$379,114. This funding will be utilized for an existing program and pay for needed facilities expansion and maintenance, technological software and equipment, and transportation vehicles.
