

Rule 202 Particulate Matter Concentration

(Recodified 12/17/19)

- 1 PARTICULATE MATTER CONCENTRATION:** A person shall not discharge into the atmosphere from any source, except as allowed by Rule 203 Sections 2.1.1 and 2.1.3 of this Regulation, particulate matter in excess of 0.3 grains per cubic foot of gas at standard conditions.

When the source involves a combustion process, the concentration must be calculated to 12 percent (12%) carbon dioxide (CO₂). In measuring the combustion contaminants from incinerators used to dispose of combustible refuse by burning, the carbon dioxide (CO₂) produced by combustion of any liquid or gaseous fuels shall be excluded from the calculation of 12 percent (12%) of carbon dioxide (CO₂).
