CA Custody Manual

COLUSA COUNTY SHERIFF'S OFFICE

Any organization is only as good as the personnel that are a part of it. Here in Colusa County, our employees and volunteers really are our most valuable resource. For us to be effective, we must provide guidance, direction and leadership, in the form of policies and procedures, in order to accomplish our mission.

This policy manual is a living document that is subject to constant change. New laws, court decisions, County policies, new methodologies and other factors, dictate the need for a continual review of these policies, initiating revisions where necessary and appropriate.

It must be kept in mind that no set of policies, no matter how complete, can hope to address all the situations we may encounter in policing. Therefore, it follows that there will be situations that occur that must be left to the good judgment and discretion of the person involved. This judgment and discretion must be employed with sound reason.

It is every employee's responsibility and duty, to become thoroughly familiar with the contents of this manual. Employees are further responsible for the upkeep and maintenance of their individual copy, including keeping current as updates are made.

CODE OF ETHICS

My fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities or friendships to influence my decisions. With no compromise for crime, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of criminal justice service. I will never engage in acts of corruption or bribery, nor will I condone such acts by other officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession.

The annual inspection should include the following areas in the assessment process:

- (a) **Pre-assessment briefing** - The pre-assessment briefing should begin with a meeting of the Jail Commander, key program staff and service providers. The individual conducting the assessment will need to advise key personnel of the areas they will be inspecting so the appropriate materials will be brought up to date and made available to the assessment team.
- (b) **Policy review** - A review of all jail policies and procedures should be conducted to ensure that those policies are up to date and accurately reflect the requirements and activities related to the jail operation.
- (c) **Record review** - A review of the records that support jail activities, medical records, and the facility's financial records should be conducted to ensure that contractual benchmarks are being met and that any discrepancies are documented and reported as part of the assessment report in an effort to mitigate harm from improper access to or release of records.
- (d) **Benchmark review** - A review of the department-stated goals and objectives should be discussed with the Jail Commander, program managers, and other key providers of programs. This will provide the opportunity to identify any areas that require correction or additional resources or that reflect a successful performance that should be acknowledged and possibly replicated.
- (e) **On-site inspections** - The assessment team should conduct on-site inspections of the facility to verify that activities in the facility are in alignment with goals and objectives and compliant with policies and procedures. Any discrepancies, as well as exceptional efforts on the part of management and staff, should be reported as a part of the jail assessment. An inspection checklist should be used to guide the inspection process.

and to ensure consistency. It is important that the jail assessments be viewed as a credible measurement instrument as many issues identified in the assessment may require significant funding.

- (f) **Develop an action plan** - After the fact-finding described in the previous sections has been accomplished, notes, records, and recommendations should be analyzed and an action plan developed to initiate any needed correction. Documenting successful practices is important to determine if they can be replicated in other areas.
- (g) **Reporting** - The results of the inspection should be compiled into a report and should include recommendations and action plans necessary to ensure continuous improvement in the operation and management of the jail system. The completed report and any analysis and documentation required to justify costs, policy revisions, or any other administrative requirements should be submitted to the Sheriff.
- (h) **Monitor progress** - The Jail Commander should ensure that approved recommendations are being instituted by the responsible program providers.

106.4 POLICY

This department will use a formal annual inspection process of its facility to ensure that practices and operations are in compliance with statutes, regulations, policies and procedures and best practice standards (15 CCR 1029(a)(2)). Inspections will be used to help identify the need for new or revised policies and procedures, administrative needs, funding requirements, evaluation of service providers and changes in laws and regulations.

Standards of Conduct

107.1 PURPOSE AND SCOPE

This policy establishes standards of conduct that are consistent with the values and mission of the Colusa County Sheriff's Department and are expected of all department members. The standards contained in this policy are not intended to be an exhaustive list of requirements and prohibitions, but they do identify many of the important matters concerning conduct. In addition to the provisions of this policy, members are subject to all other provisions contained in this manual, as well as any additional guidance on conduct that may be disseminated by this department or a member's supervisors.

107.2 POLICY

The continued employment or appointment of every member of this department shall be based on conduct that reasonably conforms to the guidelines set forth herein. Failure to meet the guidelines set forth in this policy, whether on- or off-duty, may be cause for disciplinary action.

107.3 DIRECTIVES AND ORDERS

Members shall comply with lawful directives and orders from any department supervisor or person in a position of authority, absent a reasonable and bona fide justification.

107.3.1 UNLAWFUL OR CONFLICTING ORDERS

Supervisors shall not knowingly issue orders or directives that, if carried out, would result in a violation of any law or department policy. Supervisors should not issue orders that conflict with any previous order without making reasonable clarification that the new order is intended to countermand the earlier order.

No member is required to obey any order that appears to be in direct conflict with any federal law, state law or local ordinance. Following a known unlawful order is not a defense and does not relieve the member from criminal or civil prosecution or administrative discipline. If the legality of an order is in doubt, the affected member shall ask the issuing supervisor to clarify the order or shall confer with a higher authority. The responsibility for refusal to obey rests with the member, who shall subsequently be required to justify the refusal.

Unless it would jeopardize the safety of any individual, members who are presented with a lawful order that is in conflict with a previous lawful order, department policy or other directive shall respectfully inform the issuing supervisor of the conflict. The issuing supervisor is responsible for either resolving the conflict or clarifying that the lawful order is intended to countermand the previous lawful order or directive, in which case the member is obliged to comply. Members who are compelled to follow a conflicting lawful order after having given the issuing supervisor the opportunity to correct the conflict will not be held accountable for disobedience of the lawful order or directive that was initially issued.

The person countermanding the original order shall notify, in writing, the person issuing the original order, indicating the action taken and the reason.

Members shall familiarize themselves with policies and procedures and are responsible for compliance with each. Members should seek clarification and guidance from supervisors in the event of any perceived ambiguity or uncertainty.

Discriminatory Harassment

108.1 PURPOSE AND SCOPE

The purpose of this policy is to prevent department members from being subjected to discriminatory harassment, including sexual harassment and retaliation (Government Code § 12940(k); 2 CCR 11023). Nothing in this policy is intended to create a legal or employment right or duty that is not created by law.

108.2 POLICY

The Colusa County Sheriff's Department is an equal opportunity employer and is committed to creating and maintaining a work environment that is free of all forms of discriminatory harassment, including sexual harassment and retaliation. The Department will not tolerate discrimination against a member in hiring, promotion, discharge, compensation, fringe benefits, and other privileges of employment. The Department will take preventive and corrective action to address any behavior that violates this policy or the rights and privileges it is designed to protect.

The nondiscrimination policies of the Department may be more comprehensive than state or federal law. Conduct that violates this policy may not violate state or federal law but still could subject a member to discipline.

108.3 DEFINITIONS

Definitions related to this policy include:

108.3.1 DISCRIMINATION

The Department prohibits all forms of discrimination, including any employment-related action by a member that adversely affects an applicant or member and is based on actual or perceived race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, age, disability, pregnancy, genetic information, veteran status, marital status, and any other classification or status protected by law.

Discriminatory harassment, including sexual harassment, is verbal or physical conduct that demeans or shows hostility or aversion toward an individual based upon that individual's protected class. It has the effect of interfering with an individual's work performance or creating a hostile or abusive work environment.

Conduct that may, under certain circumstances, constitute discriminatory harassment can include making derogatory comments; making crude and offensive statements or remarks; making slurs or off-color jokes; stereotyping; engaging in threatening acts; making indecent gestures, pictures, cartoons, posters, or material; making inappropriate physical contact; or using written material or department equipment and/or systems to transmit or receive offensive material, statements, or pictures. Such conduct is contrary to department policy and to a work environment that is free of discrimination.

108.3.2 RETALIATION

Retaliation is treating a person differently or engaging in acts of reprisal or intimidation against the person because the person has engaged in protected activity, filed a charge of discrimination, participated in an investigation, or opposed a discriminatory practice. Retaliation will not be tolerated.

108.3.3 SEXUAL HARASSMENT

The Department prohibits all forms of discrimination and discriminatory harassment, including sexual harassment. It is unlawful to harass an applicant or a member because of that person's sex.

Sexual harassment includes but is not limited to unwelcome sexual advances, requests for sexual favors, or other verbal, visual, or physical conduct of a sexual nature when:

- (a) Submission to such conduct is made either explicitly or implicitly as a term or condition of employment, position, or compensation.
- (b) Submission to, or rejection of, such conduct is used as the basis for any employment decisions affecting the member.
- (c) Such conduct has the purpose or effect of substantially interfering with a member's work performance or creating an intimidating, hostile, or offensive work environment.

108.3.4 ADDITIONAL CONSIDERATIONS

Discrimination and discriminatory harassment do not include actions that are in accordance with established rules, principles, or standards, including:

- (a) Acts or omission of acts based solely upon bona fide occupational qualifications under the Equal Employment Opportunity Commission and California Civil Rights Council guidelines.
- (b) Bona fide requests or demands by a supervisor that a member improve the member's work quality or output, that the member report to the job site on time, that the member comply with county or department rules or regulations, or any other appropriate work-related communication between supervisor and member.

108.4 RESPONSIBILITIES

This policy applies to all department members, who shall follow the intent of these guidelines in a manner that reflects department policy, professional standards, and the best interest of the Department and its mission.

Members are encouraged to promptly report any discriminatory, retaliatory, or harassing conduct or known violations of this policy to a supervisor. Any member who is not comfortable with reporting violations of this policy to the member's immediate supervisor may bypass the chain of command and make the report to a higher-ranking supervisor or manager. Complaints may also be filed with the Sheriff, the Personnel Director, or the County Administrative Officer.

Any member who believes, in good faith, that the member has been discriminated against, harassed, or subjected to retaliation, or who has observed harassment, discrimination, or

Colusa County Sheriff's Department

CA Custody Manual

retaliation, is encouraged to promptly report such conduct in accordance with the procedures set forth in this policy.

Supervisors and managers receiving information regarding alleged violations of this policy shall determine if there is any basis for the allegation and shall proceed with a resolution as stated below.

108.4.1 QUESTIONS OR CLARIFICATION

Members with questions regarding what constitutes discrimination, sexual harassment, or retaliation are encouraged to contact a supervisor, a manager, the Sheriff, the Personnel Director, the County Administrative Officer, or the California Civil Rights Department for further information, direction, or clarification (Government Code § 12950).

108.4.2 SUPERVISOR RESPONSIBILITIES

The responsibilities of supervisors and managers shall include but are not limited to:

- (a) Continually monitoring the work environment and striving to ensure that it is free from all types of unlawful discrimination, including harassment or retaliation.
- (b) Taking prompt, appropriate action within their work units to avoid and minimize the incidence of any form of discrimination, harassment, or retaliation.
- (c) Ensuring that their subordinates understand their responsibilities under this policy.
- (d) Ensuring that members who make complaints or who oppose any unlawful employment practices are protected from retaliation and that such matters are kept confidential to the extent possible.
- (e) Making a timely determination regarding the substance of any allegation based upon all available facts.
- (f) Notifying the Sheriff or the Personnel Director in writing of the circumstances surrounding any reported allegations or observed acts of discrimination, harassment, or retaliation no later than the next business day.

108.4.3 SUPERVISOR'S ROLE

Supervisors and managers shall be aware of the following:

- (a) Behavior of supervisors and managers should represent the values of the Department and professional standards.
- (b) False or mistaken accusations of discrimination, harassment, or retaliation can have negative effects on the careers of innocent members.

Nothing in this section shall be construed to prevent supervisors or managers from discharging supervisory or management responsibilities, such as determining duty assignments, evaluating or counseling members, or issuing discipline, in a manner that is consistent with established procedures.

108.5 INVESTIGATION OF COMPLAINTS

Various methods of resolution exist. During the pendency of any such investigation, the supervisor of the involved member should take prompt and reasonable steps to mitigate or eliminate any continuing abusive or hostile work environment. It is the policy of the Department that all complaints of discrimination, retaliation, or harassment shall be fully documented and promptly and thoroughly investigated.

108.5.1 SUPERVISOR RESOLUTION

Members who believe they are experiencing discrimination, harassment, or retaliation should be encouraged to inform the individual that the behavior is unwelcome, offensive, unprofessional, or inappropriate. However, if the member feels uncomfortable or threatened or has difficulty expressing the member's concern, or if this does not resolve the concern, assistance should be sought from a supervisor or manager who is a rank higher than the alleged transgressor.

108.5.2 FORMAL INVESTIGATION

If the complaint cannot be satisfactorily resolved through the supervisory resolution process, a formal investigation will be conducted.

The person assigned to investigate the complaint will have full authority to investigate all aspects of the complaint. Investigative authority includes access to records and the cooperation of any members involved. No influence will be used to suppress any complaint and no member will be subject to retaliation or reprisal for filing a complaint, encouraging others to file a complaint, or for offering testimony or evidence in an investigation.

Formal investigation of the complaint will be confidential to the extent possible and will include but is not limited to details of the specific incident, frequency and dates of occurrences, and names of any witnesses. Witnesses will be advised regarding the prohibition against retaliation, and that a disciplinary process, up to and including termination, may result if retaliation occurs.

Members who believe they have been discriminated against, harassed, or retaliated against because of their protected status are encouraged to follow the chain of command but may also file a complaint directly with the Sheriff, the Personnel Director, or the County Administrative Officer.

108.5.3 ALTERNATIVE COMPLAINT PROCESS

No provision of this policy shall be construed to prevent any member from seeking legal redress outside the Department. Members who believe that they have been harassed, discriminated against, or retaliated against are entitled to bring complaints of employment discrimination to federal, state, and/or local agencies responsible for investigating such allegations. Specific time limitations apply to the filing of such charges. Members are advised that proceeding with complaints under the provisions of this policy does not in any way affect those filing requirements.

108.6 DOCUMENTATION OF COMPLAINTS

All complaints or allegations shall be thoroughly documented on the appropriate forms and in a manner designated by the Sheriff. The outcome of all reports shall be:

109.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the development of post orders and the training of members assigned to each post.

109.2 POLICY

It is the policy of this department to develop comprehensive post orders for every position. Copies of the orders should be maintained at each post or available electronically. Members shall be familiar with the post orders before working a position.

109.3 DEVELOPMENT

Clear procedures should be incorporated into post orders for all regular daily activities including, but not limited to, safety checks, head counts, meals, sick call, recreation, clothing exchange, mail distribution and response to emergencies, such as fires, natural disasters and criminal acts.

109.4 REVIEW AND UPDATE

Post orders shall be reviewed at least annually and updated whenever necessary by the Jail Commander or the authorized designee.

The Training Officer shall ensure that all staff members assigned to posts are properly trained to perform all of the duties and responsibilities described in the post orders. This is particularly true in fire, life-safety and the emergency response procedures that have been implemented by the Jail Commander. This may include the use of self-contained breathing apparatus (SCBA) if such equipment is available and/or required by the local fire authority. All training should be documented in each member's training file and retained in accordance with established records retention schedules.

Personnel Complaints

110.1 PURPOSE AND SCOPE

This policy provides guidelines for the reporting, investigation, and disposition of complaints regarding the conduct of members of the Colusa County Sheriff's Department. This policy shall not apply to any questioning, counseling, instruction, informal verbal admonishment, or other routine or unplanned contact of a member in the normal course of duty, by a supervisor or any other member, nor shall this policy apply to a criminal investigation.

110.2 POLICY

The Colusa County Sheriff's Department takes seriously all complaints regarding the service provided by the Department and the conduct of its members.

The Department will accept and address all complaints of misconduct in accordance with this policy and applicable federal, state, and local laws, municipal and county rules, and the requirements of any collective bargaining agreements.

It is also the policy of this department to ensure that the community can report misconduct without concern for reprisal or retaliation.

110.3 PERSONNEL COMPLAINTS

Personnel complaints include any allegation of misconduct or improper job performance that, if true, would constitute a violation of department policy or federal, state, or local law, policy, or rule. Personnel complaints may be generated internally or by the public.

Inquiries about conduct or performance that, if true, would not violate department policy or federal, state, or local law, policy, or rule may be handled informally by a supervisor and shall not be considered a personnel complaint. Such inquiries generally include clarification regarding policy, procedures, or the response to specific incidents by the Department.

110.3.1 COMPLAINT CLASSIFICATIONS

Personnel complaints shall be classified in one of the following categories:

Informal - A matter in which the Shift Supervisor is satisfied that appropriate action has been taken by a supervisor of rank greater than the accused member.

At the discretion of the assigned supervisor or the Internal Affairs Unit, such matters may be further investigated depending on the seriousness of the complaint and the availability of sufficient information.

- (b) Any department member becoming aware of alleged misconduct shall immediately notify a supervisor.
- (c) Supervisors shall initiate a complaint based upon observed misconduct or receipt from any source alleging misconduct that, if true, could result in disciplinary action.
- (d) Anonymous and third-party complaints should be accepted and investigated to the extent that sufficient information is provided.
- (e) Tort claims and lawsuits may generate a personnel complaint.

110.4 AVAILABILITY AND ACCEPTANCE OF COMPLAINTS

110.4.1 COMPLAINT FORMS

Personnel complaint forms will be maintained in a clearly visible location in the public area of the department facility and be accessible through the department website. Forms may also be available at other county facilities.

Personnel complaint forms in languages other than English may also be provided, as determined necessary or practicable.

110.4.2 ACCEPTANCE

All complaints will be courteously accepted by any department member and promptly given to the appropriate supervisor. Although written complaints are preferred, a complaint may also be filed orally, either in person or by telephone. Such complaints will be directed to a supervisor. If a supervisor is not immediately available to take an oral complaint, the receiving member shall obtain contact information sufficient for the supervisor to contact the complainant. The supervisor, upon contact with the complainant, shall complete and submit a complaint form as appropriate.

Although not required, complainants should be encouraged to file complaints in person so that proper identification, signatures, photographs, or physical evidence may be obtained as necessary.

A complainant shall be provided with a copy of the complaining party's statement at the time it is filed with the Department (Penal Code § 832.7).

110.4.3 AVAILABILITY OF WRITTEN PROCEDURES

The Department shall make available to the public a written description of the investigation procedures for complaints (Penal Code § 832.5).

110.5 DOCUMENTATION

Supervisors shall ensure that all formal and informal complaints are documented on a complaint form. The supervisor shall ensure that the nature of the complaint is defined as clearly as possible.

All complaints and inquiries should also be documented in a log that records and tracks complaints. The log shall include the nature of the complaint and the actions taken to address the complaint. On an annual basis, the Jail Commander should audit the log and send an audit report to the Sheriff or the authorized designee.

110.6 ADMINISTRATIVE INVESTIGATIONS

Allegations of misconduct will be administratively investigated as follows.

110.6.1 SUPERVISOR RESPONSIBILITIES

In general, the primary responsibility for the investigation of a personnel complaint shall rest with the member's immediate supervisor, unless the supervisor is the complainant, or the supervisor is the ultimate decision-maker regarding disciplinary action or has any personal involvement regarding the alleged misconduct. The Sheriff or the authorized designee may direct that another supervisor investigate any complaint.

A supervisor who becomes aware of alleged misconduct shall take reasonable steps to prevent aggravation of the situation.

The responsibilities of supervisors include but are not limited to:

- (a) Ensuring that upon receiving or initiating any formal complaint, a complaint form is completed.
 - 1. The original complaint form will be directed to the Shift Supervisor of the accused member, via the chain of command, who will take appropriate action and/or determine who will have responsibility for the investigation.
 - 2. In circumstances where the integrity of the investigation could be jeopardized by reducing the complaint to writing or where the confidentiality of a complainant is at issue, a supervisor shall orally report the matter to the member's Jail Commander or the Sheriff, who will initiate appropriate action.
- (b) Responding to all complainants in a courteous and professional manner.
- (c) Resolving those personnel complaints that can be resolved immediately.
 - 1. Follow-up contact with the complainant should be made within 24 hours of the Department receiving the complaint.
 - 2. If the matter is resolved and no further action is required, the supervisor will note the resolution on a complaint form and forward the form to the Shift Supervisor.

- (d) Ensuring that upon receipt of a complaint involving allegations of a potentially serious nature, the Shift Supervisor and the Sheriff are notified via the chain of command as soon as practicable.
- (e) Promptly contacting the Personnel Department and the Shift Supervisor for direction regarding the supervisor's role in addressing a complaint that relates to sexual, racial, ethnic, or other forms of prohibited harassment or discrimination.
- (f) Forwarding unresolved personnel complaints to the Shift Supervisor, who will determine whether to contact the complainant or assign the complaint for investigation.
- (g) Informing the complainant of the investigator's name and the complaint number within three days after assignment.
- (h) Investigating a complaint as follows:
 - 1. Making reasonable efforts to obtain names, addresses, and telephone numbers of witnesses.
 - 2. When appropriate, ensuring immediate medical attention is provided and photographs of alleged injuries and accessible uninjured areas are taken.
- (i) Ensuring that the procedural rights of the accused member are followed (Government Code § 3303 et seq.).
- (j) Ensuring interviews of the complainant are generally conducted during reasonable hours.

110.6.2 ADMINISTRATIVE INVESTIGATION PROCEDURES

Whether conducted by a supervisor or a member of the Internal Affairs Unit, the following applies to members covered by the Public Safety Officers Procedural Bill of Rights Act (POBR) (Government Code § 3303):

- (a) Interviews of an accused member shall be conducted during reasonable hours and preferably when the member is on-duty. If the member is off-duty, the member shall be compensated.
- (b) Unless waived by the member, interviews of an accused member shall be at the Colusa County Sheriff's Department or other reasonable and appropriate place.
- (c) No more than two interviewers should ask questions of an accused member.
- (d) Prior to any interview, a member shall be informed of the nature of the investigation, the name, rank, and command of the correctional officer in charge of the investigation, the interviewing officers, and all other persons to be present during the interview.
- (e) All interviews should be for a reasonable period and the member's personal needs should be accommodated.
- (f) No member should be subjected to offensive or threatening language, nor shall any promises, rewards, or other inducements be used to obtain answers.
- (g) Any member refusing to answer questions directly related to the investigation may be ordered to answer questions administratively and may be subject to discipline for failing to do so.

Colusa County Sheriff's Department

CA Custody Manual

Personnel Complaints

1. A member should be given an order to answer questions in an administrative investigation that might incriminate the member in a criminal matter only after the member has been given a *Lybarger* advisement. Administrative investigators should consider the impact that compelling a statement from the member may have on any related criminal investigation and should take reasonable steps to avoid creating any foreseeable conflicts between the two related investigations. This may include conferring with the person in charge of the criminal investigation (e.g., discussion of processes, timing, implications).
 2. No information or evidence administratively coerced from a member may be provided to anyone involved in conducting the criminal investigation or to any prosecutor.
- (h) The interviewer should record all interviews of members and witnesses. The member may also record the interview. If the member has been previously interviewed, a copy of that recorded interview shall be provided to the member prior to any subsequent interview.
- (i) All members subjected to interviews that could result in discipline have the right to have an uninvolved representative present during the interview. However, in order to maintain the integrity of each individual's statement, involved members shall not consult or meet with a representative or attorney collectively or in groups prior to being interviewed.
- (j) All members shall provide complete and truthful responses to questions posed during interviews.
- (k) No member may be requested or compelled to submit to a polygraph examination, nor shall any refusal to submit to such examination be mentioned in any investigation (Government Code § 3307).

No investigation shall be undertaken against any correctional officer solely because the correctional officer has been placed on a prosecutor's *Brady* list or the name of the correctional officer may otherwise be subject to disclosure pursuant to *Brady v. Maryland*. However, an investigation may be based on the underlying acts or omissions for which the correctional officer has been placed on a *Brady* list or may otherwise be subject to disclosure pursuant to *Brady v. Maryland* (Government Code § 3305.5).

110.6.3 ADMINISTRATIVE INVESTIGATION FORMAT

Formal investigations of personnel complaints shall be thorough, complete, and essentially follow this format:

Introduction - Include the identity of the members, the identity of the assigned investigators, the initial date, and source of the complaint.

Synopsis - Provide a brief summary of the facts giving rise to the investigation.

Summary - List the allegations separately, including applicable policy sections, with a brief summary of the evidence relevant to each allegation. A separate recommended finding should be provided for each allegation.

Colusa County Sheriff's Department

CA Custody Manual

Personnel Complaints

Evidence - Each allegation should be set forth with the details of the evidence applicable to each allegation provided, including comprehensive summaries of member and witness statements. Other evidence related to each allegation should also be detailed in this section.

Conclusion - A recommendation regarding further action or disposition should be provided.

Exhibits - A separate list of exhibits (e.g., recordings, photos, documents) should be attached to the report.

110.6.4 DISPOSITIONS

Each personnel complaint shall be classified with one of the following dispositions:

Unfounded - When the investigation discloses that the alleged acts did not occur or did not involve department members. Complaints that are determined to be frivolous will fall within the classification of unfounded (Penal Code § 832.8).

Exonerated - When the investigation discloses that the alleged act occurred but that the act was justified, lawful, and/or proper.

Not sustained - When the investigation discloses that there is insufficient evidence to sustain the complaint or fully exonerate the member.

Sustained - A final determination by an investigating agency, commission, board, hearing officer, or arbitrator, as applicable, following an investigation and opportunity for an administrative appeal pursuant to Government Code § 3304 and Government Code § 3304.5 that the actions of a correctional officer were found to violate law or department policy (Penal Code § 832.8).

If an investigation discloses misconduct or improper job performance that was not alleged in the original complaint, the investigator shall take appropriate action with regard to any additional allegations.

110.6.5 COMPLETION OF INVESTIGATIONS

Every investigator or supervisor assigned to investigate a personnel complaint or other alleged misconduct shall proceed with due diligence in an effort to complete the investigation within one year from the date of discovery by an individual authorized to initiate an investigation (Government Code § 3304).

In the event that an investigation cannot be completed within one year of discovery, the assigned investigator or supervisor shall ensure that an extension or delay is warranted within the exceptions set forth in Government Code § 3304(d) or Government Code § 3508.1.

110.6.6 NOTICE TO COMPLAINANT OF INVESTIGATION STATUS

The member conducting the investigation should provide the complainant with periodic updates on the status of the investigation, as appropriate.

110.7 ADMINISTRATIVE SEARCHES

Assigned lockers, storage spaces, and other areas, including desks, offices, and vehicles, may be searched as part of an administrative investigation upon a reasonable suspicion of misconduct.

Colusa County Sheriff's Department

CA Custody Manual

Personnel Complaints

Such areas may also be searched any time by a supervisor for non-investigative purposes, such as obtaining a needed report, radio, or other document or equipment.

Lockers and storage spaces may only be administratively searched in the member's presence, with the member's consent, with a valid search warrant, or where the member has been given reasonable notice that the search will take place (Government Code § 3309).

110.7.1 DISCLOSURE OF FINANCIAL INFORMATION

An employee may be compelled to disclose personal financial information under the following circumstances (Government Code § 3308):

- (a) Pursuant to a state law or proper legal process
- (b) Information exists that tends to indicate a conflict of interest with official duties
- (c) If the employee is assigned to or being considered for a special assignment with a potential for bribes or other improper inducements

110.8 ADMINISTRATIVE LEAVE

When a complaint of misconduct is of a serious nature, or when circumstances indicate that allowing the accused to continue to work would adversely affect the mission of the Department, the Sheriff or the authorized designee may temporarily assign an accused employee to administrative leave. Any employee placed on administrative leave:

- (a) May be required to relinquish any department badge, identification, assigned weapons, and any other department equipment.
- (b) Shall be required to continue to comply with all policies and lawful orders of a supervisor.
- (c) May be temporarily reassigned to a different shift, generally a normal business-hours shift, during the investigation. The employee may be required to remain available for contact at all times during such shift, and will report as ordered.

110.9 CRIMINAL INVESTIGATION

Where a member is accused of potential criminal conduct, a separate supervisor or investigator shall be assigned to investigate the criminal allegations apart from any administrative investigation. Any separate administrative investigation may parallel a criminal investigation.

The Sheriff shall be notified as soon as practicable when a member is accused of criminal conduct. The Sheriff may request a criminal investigation by an outside law enforcement agency.

A member accused of criminal conduct shall be advised of the member's constitutional rights (Government Code § 3303(h)). The member should not be administratively ordered to provide any information in the criminal investigation.

The Colusa County Sheriff's Department may release information concerning the arrest or detention of any member, including a correctional officer, that has not led to a conviction. No disciplinary action should be taken until an independent administrative investigation is conducted.

Personnel Complaints

110.10 POST-ADMINISTRATIVE INVESTIGATION PROCEDURES

Upon completion of a formal investigation, an investigation report should be forwarded to the Sheriff through the chain of command. Each level of command should review the report and include comments in writing before forwarding the report. The Sheriff may accept or modify any classification or recommendation for disciplinary action.

110.10.1 JAIL COMMANDER RESPONSIBILITIES

Upon receipt of any completed personnel investigation, the Jail Commander of the involved member shall review the entire investigative file, the member's personnel file, and any other relevant materials.

The Jail Commander may make recommendations regarding the disposition of any allegations and the amount of discipline, if any, to be imposed.

Prior to forwarding recommendations to the Sheriff, the Jail Commander may return the entire investigation to the assigned investigator or supervisor for further investigation or action.

When forwarding any written recommendation to the Sheriff, the Jail Commander shall include all relevant materials supporting the recommendation. Actual copies of a member's existing personnel file need not be provided and may be incorporated by reference.

110.10.2 SHERIFF RESPONSIBILITIES

Upon receipt of any written recommendation for disciplinary action, the Sheriff shall review the recommendation and all accompanying materials. The Sheriff may modify any recommendation and/or may return the file to the Jail Commander for further investigation or action.

Once the Sheriff is satisfied that no further investigation or action is required by staff, the Sheriff shall determine the amount of discipline, if any, that should be imposed. In the event disciplinary action is proposed, the Sheriff shall provide the member with a pre-disciplinary procedural due process hearing (*Skelly*) by providing written notice of the charges, proposed action, and reasons for the proposed action. Written notice shall be provided within one year from the date of discovery of the misconduct (Government Code § 3304(d)). The Sheriff shall also provide the member with:

- (a) Access to all of the materials considered by the Sheriff in recommending the proposed discipline.
- (b) An opportunity to respond orally or in writing to the Sheriff within five days of receiving the notice.
 - 1. Upon a showing of good cause by the member, the Sheriff may grant a reasonable extension of time for the member to respond.
 - 2. If the member elects to respond orally, the presentation may be recorded by the Department. Upon request, the member shall be provided with a copy of the recording.

Once the member has completed a response, or if the member has elected to waive any such response, the Sheriff shall consider all information received in regard to the recommended discipline. The Sheriff shall render a timely written decision to the member and specify the grounds

Colusa County Sheriff's Department

and reasons for discipline and the effective date of the discipline. Once the Sheriff has issued a written decision, the discipline shall become effective.

110.10.3 NOTICE OF FINAL DISPOSITION TO THE COMPLAINANT

The Sheriff or the authorized designee shall ensure that the complainant is notified of the disposition (i.e., sustained, not sustained, exonerated, unfounded) of the complaint (Penal Code § 832.7(f)).

110.10.4 NOTICE REQUIREMENTS

The disposition of any civilian's complaint shall be released to the complaining party within 30 days of the final disposition. This release shall not include what discipline, if any was imposed (Penal Code § 832.7(f)).

110.11 PRE-DISCIPLINE EMPLOYEE RESPONSE

The pre-discipline process is intended to provide the accused employee with an opportunity to present a written or oral response to the Sheriff after having had an opportunity to review the supporting materials and prior to imposition of any recommended discipline. The employee shall consider the following:

- (a) The response is not intended to be an adversarial or formal hearing.
- (b) Although the employee may be represented by an uninvolved representative or legal counsel, the response is not designed to accommodate the presentation of testimony or witnesses.
- (c) The employee may suggest that further investigation could be conducted or the employee may offer any additional information or mitigating factors for the Sheriff to consider.
- (d) In the event that the Sheriff elects to conduct further investigation, the employee shall be provided with the results prior to the imposition of any discipline.
- (e) The employee may thereafter have the opportunity to further respond orally or in writing to the Sheriff on the limited issues of information raised in any subsequent materials.

110.12 RESIGNATIONS/RETIREMENTS PRIOR TO DISCIPLINE

In the event that a member tenders a written resignation or notice of retirement prior to the imposition of discipline, it shall be noted in the file. The tender of a resignation or retirement by itself shall not serve as grounds for the termination of any pending investigation or discipline (Penal Code § 13510.8).

110.13 POST-DISCIPLINE APPEAL RIGHTS

Non-probationary employees have the right to appeal a suspension without pay, punitive transfer, demotion, reduction in pay or step, or termination from employment. The employee has the right to appeal using the procedures established by any collective bargaining agreement, Memorandum of Understanding, and/or personnel rules.

Colusa County Sheriff's Department

CA Custody Manual

Personnel Complaints

In the event of punitive action against an employee covered by the POBR, the appeal process shall be in compliance with Government Code § 3304 and Government Code § 3304.5.

During any administrative appeal, evidence that a correctional officer has been placed on a *Brady* list or is otherwise subject to *Brady* restrictions may not be introduced unless the underlying allegations of misconduct have been independently established. Thereafter, such *Brady* evidence shall be limited to determining the appropriateness of the penalty (Government Code § 3305.5).

110.14 PROBATIONARY EMPLOYEES AND OTHER MEMBERS

At-will and probationary employees and those members other than non-probationary employees may be released from employment for non-disciplinary reasons (e.g., failure to meet standards) without adherence to any of the procedures set forth in this policy or any right to appeal. However, any probationary correctional officer subjected to an investigation into allegations of misconduct shall be entitled to those procedural rights, as applicable, set forth in the POBR (Government Code § 3303; Government Code § 3304).

At-will, probationary employees and those other than non-probationary employees subjected to discipline or termination as a result of allegations of misconduct shall not be deemed to have acquired a property interest in their position, but shall be given the opportunity to appear before the Sheriff or the authorized designee for a non-evidentiary hearing for the sole purpose of attempting to clear their name or liberty interest. There shall be no further opportunity for appeal beyond the liberty interest hearing and the decision of the Sheriff shall be final.

110.15 RETENTION OF PERSONNEL INVESTIGATION FILES

All personnel complaints shall be maintained in accordance with the established records retention schedule and as described in the Personnel Records Policy.

110.16 REQUIRED REPORTING TO POST

The Sheriff or the authorized designee shall notify the Commission on Peace Officer Standards and Training (POST), on the appropriate POST form, within 10 days of certain correctional officer personnel events, including but not limited to (Penal Code § 13510.9):

- (a) Termination or separation from employment or appointment. Separation from employment or appointment includes any involuntary termination, resignation, or retirement.
 - 1. A POST affidavit-of-separation form shall be executed and maintained by the department and submitted to POST as required by Penal Code § 13510.9 and 11 CCR 1003.
- (b) Events that could affect a correctional officer's POST certification, such as:
 - 1. Complaints, charges, or allegations of serious misconduct (as defined by Penal Code § 13510.8)

4. Civil judgments or court findings based on conduct, or settlement of a civil claim against a correctional officer or the Colusa County Sheriff's Department based on allegations of conduct by a correctional officer

The Sheriff or the authorized designee shall be responsible for providing POST access to or duplication of investigation documentation (e.g., physical or documentary evidence, witness statements, analysis, conclusions) within the applicable time frame provided in Penal Code § 13510.9.

110.16.1 ADDITIONAL NOTIFICATIONS FOR SERIOUS MISCONDUCT

Additional notification shall be made to POST (11 CCR 1207):

- (a) If the imposed disciplinary action is pending appeal or other review through an administrative or judicial proceeding:
 1. The Department shall provide the name of the body conducting the proceeding.
 2. The status of the proceeding, if known.

Anti-Retaliation

111.1 PURPOSE AND SCOPE

This policy prohibits retaliation against members who identify workplace issues, such as fraud, waste, abuse of authority, gross mismanagement, or any inappropriate conduct or practices, including violations that may pose a threat to the health, safety, or well-being of members.

This policy does not prohibit actions taken for nondiscriminatory or non-retaliatory reasons, such as discipline for cause.

These guidelines are intended to supplement and not limit members' access to other applicable remedies. Nothing in this policy shall diminish the rights or remedies of a member pursuant to any applicable federal law, provision of the U.S. Constitution, state and local law, ordinance, or memorandum of understanding.

111.2 POLICY

The Colusa County Sheriff's Department has a zero tolerance for retaliation and is committed to taking reasonable steps to protect from retaliation members who, in good faith, engage in permitted behavior or who report or participate in the reporting or investigation of workplace issues. All complaints of retaliation will be taken seriously and will be promptly and appropriately investigated.

111.3 RETALIATION PROHIBITED

No member may retaliate against any person for engaging in lawful or otherwise permitted behavior; for opposing a practice believed to be unlawful, unethical, discriminatory, or retaliatory; for reporting or making a complaint under this policy; or for participating in any investigation related to a complaint under this or any other policy.

Retaliation includes any adverse action or conduct, including but not limited to:

- Refusing to hire or denying a promotion.
- Extending the probationary period.
- Unjustified reassignment of duties or change of work schedule.
- Real or implied threats or other forms of intimidation to dissuade the reporting of wrongdoing or filing of a complaint, or as a consequence of having reported or participated in protected activity.
- Taking unwarranted disciplinary action.
- Spreading rumors about the person filing the complaint or about the alleged wrongdoing.
- Shunning or unreasonably avoiding a person because the person has engaged in protected activity.

Colusa County Sheriff's Department

CA Custody Manual

Anti-Retaliation

111.3.1 RETALIATION PROHIBITED FOR REPORTING VIOLATIONS

A correctional officer shall not be retaliated against for reporting a suspected violation of a law or regulation by another correctional officer to a supervisor or other person in the Department who has the authority to investigate the violation (Government Code § 7286 (b)).

111.4 COMPLAINTS OF RETALIATION

Any members who feel they have been retaliated against in violation of this policy should promptly report the matter to any supervisor, any command staff member, the Sheriff, or the county Personnel Director.

Members shall act in good faith, not engage in unwarranted reporting of trivial or minor deviations or transgressions, and make reasonable efforts to verify facts before making any complaint in order to avoid baseless allegations. Members shall not report or state an intention to report information or an allegation knowing it to be false or with willful or reckless disregard for the truth or falsity of the information, or otherwise act in bad faith.

Investigations are generally more effective when the identity of the reporting member is known, thereby allowing investigators to obtain additional information from the reporting member. However, complaints may be made anonymously. All reasonable efforts shall be made to protect the reporting member's identity. However, confidential information may be disclosed to the extent required by law or to the degree necessary to conduct an adequate investigation and make a determination regarding a complaint. In some situations, the investigative process may not be complete unless the source of the information and a statement by the member are part of the investigative process.

111.5 SUPERVISOR RESPONSIBILITIES

Supervisors are expected to remain familiar with this policy and ensure that members under their command are aware of its provisions.

The responsibilities of supervisors include but are not limited to:

- (a) Ensuring complaints of retaliation are investigated as provided in the Personnel Complaints Policy.
- (b) Receiving all complaints in a fair and impartial manner.
- (c) Documenting the complaint and any steps taken to resolve the problem.
- (d) Acknowledging receipt of the complaint, notifying the Sheriff via the chain of command, and explaining to the member how the complaint will be handled.
- (e) Taking appropriate and reasonable steps to mitigate any further violations of this policy.
- (f) Monitoring the work environment to ensure that any member making a complaint is not subjected to further retaliation.
- (g) Periodic follow-up with the complainant to ensure that retaliation is not continuing.
- (h) Not interfering with or denying the right of a member to make any complaint.

Colusa County Sheriff's Department

CA Custody Manual

Anti-Retaliation

- (i) Taking reasonable steps to accommodate requests for assignment or schedule changes made by a member who may be the target of retaliation if it would likely mitigate the potential for further violations of this policy.

111.6 COMMAND STAFF RESPONSIBILITIES

The Sheriff should communicate to all supervisors the prohibition against retaliation.

Command staff shall treat all complaints as serious matters and shall ensure that prompt actions take place, including but not limited to:

- (a) Communicating to all members the prohibition against retaliation.
- (b) The timely review of complaint investigations.
- (c) Remediation of any inappropriate conduct or condition and instituting measures to eliminate or minimize the likelihood of recurrence.
- (d) The timely communication of the outcome to the complainant.

111.7 WHISTLE-BLOWING

California law protects members who (Labor Code § 1102.5; Government Code § 53296 et seq.):

- (a) Report a violation of a state or federal statute or regulation to a government or law enforcement agency, including the member's supervisor or any other member with the authority to investigate the reported violation.
- (b) Provide information or testify before a public body if the member has reasonable cause to believe a violation of law occurred.
- (c) Refuse to participate in an activity that would result in a violation of a state or federal statute or regulation.
- (d) File a complaint with a local agency about gross mismanagement or a significant waste of funds, abuse of authority, or a substantial and specific danger to public health or safety. Members shall exhaust all available administrative remedies prior to filing a formal complaint.
- (e) Are family members of a person who has engaged in any protected acts described above.

Members are encouraged to report any legal violations through the chain of command (Labor Code § 1102.5).

Members who believe they have been the subject of retaliation for engaging in such protected behaviors should promptly report it to a supervisor. Supervisors should refer the complaint to the Internal Affairs Unit for investigation pursuant to the Personnel Complaints Policy.

111.7.1 DISPLAY OF WHISTLE-BLOWER LAWS

The Department shall display a notice to members regarding their rights and responsibilities under the whistle-blower laws, including the whistle-blower hotline maintained by the Office of the Attorney General (Labor Code § 1102.8).

111.8 RECORDS RETENTION AND RELEASE

The Records Supervisor shall ensure that documentation of investigations is maintained in accordance with the established records retention schedules.

111.9 TRAINING

Chapter 2 - Organization and Administration

Drug- and Alcohol-Free Workplace

200.1 PURPOSE AND SCOPE

The purpose of this policy is to establish clear and uniform guidelines regarding drugs and alcohol in the workplace (41 USC § 8103).

200.2 POLICY

It is the policy of the Colusa County Sheriff's Department to provide a drug- and alcohol-free workplace for all members.

200.3 GENERAL GUIDELINES

Alcohol and drug use in the workplace or on department time can endanger the health and safety of department members and the public.

Members who have consumed an amount of an alcoholic beverage or taken any medication, or combination thereof, that would tend to adversely affect their mental or physical abilities shall not report for duty. Affected members shall notify the Shift Supervisor or appropriate supervisor as soon as the member is aware that the member will not be able to report to work. If the member is unable to make the notification, every effort should be made to have a representative contact the supervisor in a timely manner. If the member is adversely affected while on-duty, the member shall be immediately removed and released from work (see the Work Restrictions section in this policy).

200.3.1 USE OF MEDICATIONS

Members should not use any medications that will impair their ability to safely and completely perform their duties. Any member who is medically required or has a need to take any such medication shall report that need to the member's immediate supervisor prior to commencing any on-duty status.

200.3.2 MEDICAL CANNABIS

Possession, use, or being under the influence of medical cannabis on-duty is prohibited and may lead to disciplinary action.

200.4 MEMBER RESPONSIBILITIES

Members shall report for work in an appropriate mental and physical condition. Members are prohibited from purchasing, manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol on department premises or on department time (41 USC § 8103). The lawful possession or use of prescribed medications or over-the-counter remedies is excluded from this prohibition.

Members shall notify a supervisor immediately if they observe behavior or other evidence that they believe demonstrates that a fellow on-duty member is impaired due to drug or alcohol use.

Members are required to notify their immediate supervisors of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction (41 USC § 8103).

CA Custody Manual

Drug- and Alcohol-Free Workplace

200.5 EMPLOYEE ASSISTANCE PROGRAM

There may be available a voluntary employee assistance program to assist those who wish to seek help for alcohol and drug problems (41 USC § 8103). Insurance coverage that provides treatment for drug and alcohol abuse also may be available. Employees should contact the Personnel Department, their insurance providers, or the employee assistance program for additional information. It is the responsibility of each employee to seek assistance before alcohol or drug problems lead to performance problems.

200.6 WORK RESTRICTIONS

If a member informs a supervisor that the member has consumed any alcohol, drug or medication that could interfere with a safe and efficient job performance, the member may be required to obtain clearance from the member's physician before continuing to work.

If the supervisor reasonably believes, based on objective facts, that a member is impaired by the consumption of alcohol or other drugs, the supervisor shall prevent the member from continuing work and shall ensure that the member is safely transported away from the Department.

200.7 SCREENING TESTS

The supervisor may require an employee to submit to a screening under any of the following circumstances:

- (a) The supervisor reasonably believes, based upon objective facts, that the employee is under the influence of alcohol or drugs that are impairing the employee's ability to perform duties safely and efficiently.
- (b) The employee discharges a firearm in the performance of duties (excluding training or authorized euthanizing of an animal).
- (c) The employee discharges a firearm issued by the Department while off-duty, resulting in injury, death, or substantial property damage.

- (a) The test will be given to detect either alcohol or drugs, or both.
- (b) The result of the test is not admissible in any criminal proceeding against the employee.
- (c) The employee may refuse the test, but refusal may result in dismissal or other disciplinary action.

- (a) Fails or refuses to submit to a screening test.

200.9 CONFIDENTIALITY

The written results of any screening tests and all documents generated by the employee assistance program are considered confidential medical records and shall be maintained separately in the member's confidential medical file in accordance with the Personnel Records Policy.

Supervision of Incarcerated Persons

201.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure the safety and security of the facility through the application of appropriate staffing levels.

201.2 POLICY

It is the policy of this facility to provide for the safety and security of citizens, staff and incarcerated persons through appropriate staffing levels that are sufficient to operate the facility and perform functions related to the safety, security, custody, and supervision of incarcerated persons.

201.3 SUPERVISION OF INCARCERATED PERSONS

There shall be, at all times, sufficient staff designated to remain in the facility for the supervision and welfare of incarcerated persons, to ensure the implementation and operation of all programs and activities as required by Title 15 CCR Minimum Jail Standards, and to respond to emergencies when needed. Such staff must not leave the facility while incarcerated persons are present and should not be assigned duties that could conflict with the supervision of incarcerated persons (15 CCR 1027).

When a person from each gender is being held at this facility, a minimum of one correctional officer from each gender should be on-duty in the jail at all times.

Staff members shall not be placed in positions of responsibility for the supervision and welfare of incarcerated persons of the opposite gender in circumstances that can be described as an invasion of privacy or that may be degrading or humiliating to the incarcerated persons.

To the extent reasonably practicable, incarcerated person bathrooms will contain modesty screens that preserve privacy without creating areas that cannot be properly supervised.

The Jail Commander or the authorized designee shall be responsible for developing staffing plans to comply with this policy. Records of staff deployment should be maintained in accordance with established records retention schedules (Penal Code § 4021; 15 CCR 1027).

Prohibition on Incarcerated Person Control

202.1 PURPOSE AND SCOPE

The purpose of this policy is to define the requirement that staff should at all times exercise control of the incarcerated person population under their supervision and should prevent incarcerated persons from controlling other incarcerated persons within the facility.

202.2 POLICY

All staff, including support staff, contractors, and volunteers should exercise control and supervision of all incarcerated persons under their control. It is the policy of this department to prohibit any staff member to implicitly allow, or by dereliction of duty allow, any incarcerated person or group of incarcerated persons to exert authority over any other incarcerated person (Penal Code § 4019.5; 15 CCR 1083(b)).

202.3 EDUCATION, DRUG, OR ALCOHOL PROGRAM ASSISTANTS

Nothing in the policy is intended to restrict the legitimate use of incarcerated persons to assist in the instruction of educational or drug and alcohol programs. Any use of incarcerated persons in this manner will be expressly authorized by the Jail Commander in a legally prescribed manner. Any program that uses incarcerated persons to assist in legitimate program activities will be closely supervised by facility employees or vocational instructors. Nothing in this section is intended to authorize an incarcerated person program assistant to engage in disciplining other incarcerated persons.

Equipment Inventory and Supplies

203.1 PURPOSE AND SCOPE

This facility must have the materials, supplies and equipment that are necessary to maintain effective and efficient operations. This policy establishes responsibilities and requirements for purchasing, storing, and inventory of those items.

203.2 POLICY

The Jail Commander shall ensure that all jail property and fixed assets are inventoried annually and that all supplies purchased are reconciled with the invoice prior to payment.

The Jail maintains a secure storage area for the purpose of storing supplies and equipment. The Jail Commander shall maintain oversight of the area.

With the exception of medical supplies, which are ordered by the medical staff, the Auditor's Office is responsible for the purchasing and acquisition of materials and equipment for this facility. Supplies and equipment that are not needed for immediate use should be stored in a secure storage area.

Requisition forms bearing the signature of the Department Finance Director should be completed and received by the Auditor's Office before any supplies or equipment are purchased and distributed to the facility. Any encumbrance to this facility's budget requires review and approval by the Jail Commander and the Finance Director.

The Department's Auditor's Office, in conformance with established policies, is responsible for negotiating all other purchases.

203.3 PURCHASING

The Jail Commander, along with the Finance Director, is responsible for managing the purchasing process to ensure that amounts and types of purchases fall within budget parameters. The Jail Commander must also ensure that this facility's purchasing process complies with applicable laws, regulations, and department policies.

With approval of the Jail Commander and the Finance Director, small purchases of under \$100 that are a critical need may be procured by way of a petty cash voucher.

Personnel with spending authority should adhere to the following strategies:

- (a) Be knowledgeable about the county's requirements and procedures for purchasing goods and services.
- (b) Establish a working relationship with this facility's purchasing agent.
- (c) Provide the purchasing agent with information describing the types of goods and services required to operate the facility.
- (d) Ensure that staff with spending authority follow procedures that outline the process for submission and approval of purchase requisitions.

Colusa County Sheriff's Department

Equipment Inventory and Supplies

- (e) Review purchase requisitions to verify the need, urgency, and priority.
- (f) Monitor service contracts to ensure that this facility is receiving the scope and quality of services specified in the contract.
- (g) Regularly monitor expenditures to make certain the purchase of goods and services is charged to the appropriate accounts and within budget limits.
- (h) Keep purchase records to maintain the integrity and availability of purchasing documents, including requisitions, purchase orders, receiving reports, and invoices.
- (i) Maintain inventory records of disposal in accordance with county requirements and procedures.

203.4 EQUIPMENT INVENTORY

The Jail Commander or the authorized designee will conduct an audit on all supplies and equipment annually. All losses will be reported by the Sheriff to the County Administrative Officer. The Auditor's Office may also conduct an interim audit on all fixed assets in order to maintain a complete and accurate accounting of equipment and its location.

Tool and Culinary Equipment

204.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a tightly controlled process for the use of tools and culinary equipment in order to reduce the risk of such items becoming weapons for the incarcerated person population. While there are times that specific incarcerated workers may need to possess tools or equipment for legitimate daily operations, the possession and use of those tools must be carefully monitored and controlled by staff (15 CCR 1029(a)(6)).

204.2 POLICY

It is the policy of this facility to securely store, inventory, control and monitor the use of tools and culinary equipment to ensure accountability and the secure use of these items (15 CCR 1029(a)(6)).

204.3 CUSTODY TOOLS

Tools include all implements that are maintained within the secure perimeter of the facility to complete specific tasks. These tools include but are not limited to mops, brooms, dustpans, and floor polishers.

All tools, culinary items, or medical equipment shall be locked in secure cabinets or storage rooms when not in use.

Any time tools are brought into a secure area where incarcerated persons are present, staff supervising the area shall count the number of tools brought in to ensure that the same number of tools is taken out.

Any tool that is used within the secure perimeter of the facility must be closely monitored and controlled by the staff supervising the area so that it cannot be used as a weapon (15 CCR 1029(a)(6)). Incarcerated persons who are assigned tasks that require these tools shall be closely supervised.

An inventory of all tools used and stored within the secure perimeter of the facility shall be developed and maintained by the Jail Commander. Tools will be inventoried by an assigned staff member at least once every 24 hours. The loss of any tool will be immediately reported to the on-duty supervisor, who shall initiate immediate action to locate or account for the missing tool, including:

- (a) Detaining and searching any incarcerated person who had access to the tool.
- (b) Conducting a thorough search of the immediate area for the missing item.
- (c) Initiating a facility-wide search.

The staff member responsible for the supervision of the use of the missing tool will prepare and submit a report to the Shift Supervisor documenting the specific tool that is missing and the circumstances of the disappearance. The report will be forwarded to the Jail Commander. A report

Colusa County Sheriff's Department

CA Custody Manual

identifying all members involved in the search should be submitted to the on-duty supervisor documenting their findings.

204.4 MAINTENANCE OR CONSTRUCTION TOOLS

Maintenance or construction tools are those tools and equipment that are brought into and out of the secure perimeter of the facility by employees or contractors to facilitate repairs or construction of the physical plant. Only the tools and equipment needed specifically for the intended work will be permitted into the facility. All tools and equipment will be inventoried and a list of the tools will be provided to the control booth prior to any tools or equipment being brought inside the secure perimeter.

A staff member will check the tools being brought into this facility against the inventory list. Prior to entering the secure perimeter of the facility, the contractor shall be instructed to maintain personal possession of the tools at all times. When it is necessary to complete a task in an area where incarcerated persons are present, the incarcerated persons shall be locked down by staff supervising the area.

When the person has finished working in the area, a correctional officer will ensure that all tools are accounted for by checking the tool inventory. In the event of a discrepancy, the on-duty supervisor shall be immediately notified and appropriate action taken to locate or account for the items. Once all tools have been accounted for, the incarcerated persons may be released from lockdown.

204.5 EXTERIOR-USE TOOLS

Exterior-use tools are those that are used by incarcerated workers outside of the secure perimeter. These tools include but are not limited to the following:

- Handheld tools
- Power tools
- Landscape maintenance tools
- Farm equipment

Only incarcerated workers who are classified to work outside the secure perimeter of the facility will be allowed to possess exterior-use tools. The correctional officer responsible for supervising incarcerated workers on outside work crews will inventory all tools assigned for this purpose at the beginning of the shift.

Any tool issued to an incarcerated worker will be logged with the incarcerated worker's name, the tool type, and serial number documented. When an incarcerated worker is finished with that tool, the responsible staff member shall check the tool against the check-out log and document its return. Incarcerated workers shall not be permitted to pass tools between each other except under the direct supervision of a correctional officer.

All tools will be checked in and noted on the log and returned to the tool storage area at the end of each shift. Until all tools are accounted for, incarcerated workers should not be released from the work assignment.

Colusa County Sheriff's Department

CA Custody Manual

Tool and Culinary Equipment

In the event that an exterior-use tool is missing, the correctional officer shall immediately notify a supervisor. A thorough search for the tool will be undertaken and an incident report shall be completed. Incarcerated workers may only be released from their work assignments when it has been determined that it is safe to do so, and upon the approval of the supervisor. The incident report with all relevant information shall be forwarded to the Jail Commander.

204.6 KITCHEN EQUIPMENT

Culinary tools are located in the kitchen and include common tools used in the preparation, service, and delivery of meals.

All kitchen knives or metal tools with sharp edges shall be stored in a locked cabinet. There shall be an outline of the tool's assigned location in the cabinet so that any tool missing from the cabinet can be easily identified. When in use, all knives shall be tethered to the work area. All tools shall be returned to the secure cabinet when not in use.

The correctional officer assigned to the kitchen shall inventory all kitchen tools at the beginning of their shift and prior to the arrival of incarcerated workers. Kitchen tools will only be issued to incarcerated persons who have been classified as incarcerated workers. Staff will supervise incarcerated workers at all times when they are using tools.

Each tool issued will be assigned to an individual incarcerated worker and logged. The incarcerated worker's name and the tool type will be documented. When an incarcerated worker is finished with a tool, the tool shall be checked in with the correctional officer and documented. Incarcerated workers shall not be permitted to pass tools between each other except under the direct supervision of a correctional officer.

All tools will be returned to the kitchen tool cabinet at the end of each shift and must be accounted for prior to any incarcerated worker being released from the work assignment.

In the event that a kitchen tool is missing, the correctional officer shall immediately notify the on-duty supervisor, who shall initiate immediate action to locate or account for the missing tool. A thorough search for the tool will be undertaken and an incident report shall be completed by the correctional officer responsible for the supervision of the use of the tool. The incident report with all relevant information shall be forwarded to the Jail Commander.

204.7 SERVING AND INDIVIDUAL EATING TOOLS

Serving tools and individual eating tools are those culinary tools located outside of the kitchen. Only incarcerated workers who are assigned to serve food shall be in control of serving tools. These tools shall be assigned to each incarcerated worker by the kitchen correctional officer prior to leaving the kitchen. The tool type shall be documented. Upon returning to the kitchen from serving meals, the incarcerated workers shall individually check their tools in with the kitchen correctional officer, who shall document each one.

In the event that a serving tool is missing, the kitchen correctional officer shall notify a supervisor and a search for the tool shall be initiated.

Eating utensils (forks/spoons/sporks) shall be counted by the correctional officer supervising the meal service prior to and at the completion of each meal. In the event that a utensil is missing, the housing unit shall be immediately locked down and a supervisor notified. A thorough search of the housing unit shall be initiated to locate the tool.

Disposition of Evidence

205.1 PURPOSE AND SCOPE

The purpose of this policy is to provide direction regarding the proper handling and disposition of contraband and evidence to ensure that the chain of custody is maintained so that evidence is admissible in a court of law or disciplinary hearing.

205.2 POLICY

It is the policy of the Colusa County Sheriff's Department to seize evidence and contraband in accordance with current constitutional and search-and-seizure law. Members of this department shall properly handle all contraband and evidence in order to maintain its admissibility. All contraband and evidence shall be handled in a safe manner and in a way that will maintain the chain of custody.

205.3 INITIAL SEIZURE OF EVIDENCE

Any staff member who first comes into possession of any evidence should retain such evidence in their possession until it is properly tagged and booked. When handling evidence and contraband, staff should observe the following safety precautions:

- (a) Unload any firearm located in the approved loading/unloading area outside of the facility. If it is a revolver, the cylinder should be left open. If it is a semi-automatic pistol, the magazine shall be removed and the slide locked back in an open position. The cartridges and/or magazine will be packaged separately and booked with the firearm.
- (b) Sheath any knife or other stabbing instrument in its holster (if any), or attach (tape) stiff cardboard to completely cover the blade.
- (c) Place needles, such as syringes, into a hard plastic container that cannot be punctured by the needle.
- (d) If the contraband is a suspected "home brew (Pruno)" alcoholic beverage, the handling correctional officer shall carefully document and describe the contents of any container and the contents. If criminal charges will be filed, a sample of the liquid should be collected and booked into evidence. The remainder of the liquid may then be disposed of in a safe manner.

205.4 PROPERTY BOOKING PROCEDURE

All property shall be booked prior to the employee going off-duty unless otherwise approved by a supervisor. Employees booking property shall observe the following guidelines:

- (a) Complete the property form describing each item of property separately, listing all serial numbers, owner's name, finder's name and other identifying information or markings.
- (b) Mark each item of evidence with the booking employee's initials and the date booked using the appropriate method to prevent defacing or damaging the value of the property.

205.4.1 NARCOTICS AND DANGEROUS DRUGS

All narcotics and dangerous drugs shall be booked separately using a separate property form. Paraphernalia shall also be booked separately. All narcotics and dangerous drugs shall be properly weighed by the booking staff member. The weight of all narcotics and dangerous drugs shall be documented on the booking form. A copy of the booking form shall be placed with the evidence in the designated locker and shall also be distributed in accordance with current evidence booking procedures.

205.4.2 EXCEPTIONAL HANDLING

Certain property items require a separate process. Bodily fluids, such as blood or semen stains, shall be air-dried prior to booking. In the event bodily fluids must be collected for evidence, Corrections staff shall notify a supervisor and request a Patrol Deputy or a Detective from the Investigations Unit respond for evidence collection.

205.4.3 RECORDING OF PROPERTY

The Sheriff's Technician receiving custody of evidence or property shall record on the property control card their signature, the date and time the property was received, and where the property will be stored.

A property number shall be obtained for each item or group of items. This number shall be recorded on the property tag and the property control card.

Any changes in the location of property held by the Department shall be noted in the property log book.

205.4.4 PROPERTY CONTROL

Every time property is released or received, an appropriate entry on the evidence package and property control card shall be completed to maintain the chain of custody. No property or evidence is to be released without first receiving written authorization from a supervisor or the employee who is managing the case.

Correctional officers desiring property for court shall contact the Sheriff's Technician at least one day prior to the court day.

Colusa County Sheriff's Department

CA Custody Manual

Disposition of Evidence

Request for analysis for items other than narcotics and dangerous drugs shall be completed on the appropriate forms and submitted to the Sheriff's Technician. This request may be filled out any time after booking the property or evidence.

205.4.5 TRANSFER OF EVIDENCE TO CRIME LABORATORY

The transporting employee will check the evidence out of property, indicating the date and time on the property control card, and complete a request for laboratory analysis.

The Sheriff's Technician releasing the evidence must complete the required information on the property control card. The lab forms will be transported with the property to the examining laboratory. Upon delivering the item, the correctional officer will record the delivery time on both copies and indicate the locker in which the item was placed or the employee to whom it was delivered. The original copy of the lab form will remain with the evidence and the copy will be returned to the Records Section for filing with the case.

205.4.6 STATUS OF PROPERTY

Each person receiving property will make the appropriate entry to document the chain of custody. Temporary release of property to a law enforcement authority for investigative purposes or for court shall be noted on the property control card, stating the date, time and to whom it was released.

The Sheriff's Technician shall obtain the signature of the person to whom the property was released and the reason for release. Any employee receiving property shall be responsible for such property until it is returned to property or released to another authorized person or entity.

The return of the property should be recorded on the property control card, indicating date, time and the name of the person who returned the property.

205.5 RELEASE OR DISPOSITION OF UNCLAIMED FUNDS AND PROPERTY

The employee managing the case or a supervisor shall authorize the disposition or release of all evidence and property coming into the care and custody of the Department.

All reasonable attempts should be made to return unclaimed property, found property, or evidence not needed for an investigation.

Release of property shall be made upon receipt of an authorized release form. The release authorization shall be signed by the approving staff member and must match the items listed on the property form or must specify the items to be released. A signature of the person receiving the property shall be recorded on the original property form. Upon release, the proper entry shall be documented on the property control card log and related forms.

The Property supervisor shall ensure that all cash not needed as evidence or funds that are left unclaimed by an incarcerated person, are transferred as soon as practical to the Auditor's Office. A record of the transfer shall be kept in the appropriate incarcerated person file.

The Property supervisor or the authorized designee shall submit a report of presumed abandoned property or funds once a year to the Sheriff and the Auditor's Office, or more frequently as directed.

Colusa County Sheriff's Department

The Property supervisor may dispose of property in compliance with existing laws upon receipt of proper authorization from the Sheriff.

Found property and property held for safekeeping shall be held for a minimum of 90 days during which time the Sheriff's Technician shall attempt to contact the rightful owner if sufficient identifying information is available. If no person appears to prove rightful ownership of the property during this period, the Department shall publish notice of its possession of any property valued at \$250 or more at least once in a newspaper of general circulation. If, after seven days following the publication, a person does not appear to claim ownership, the property shall be sold at public auction. Property valued at less than \$250 shall be sold at public auction if no person appears to prove rightful ownership within 90 days (Civil Code § 2080.3).

If such property is not sold at auction or otherwise lawfully claimed, it may thereafter be destroyed in accordance with applicable law. The final disposition of all such property shall be fully documented in related reports.

The Sheriff's Technician shall release the property upon proper identification presented by the person receiving the property for which an authorized release has been received. A signature of the person receiving the property shall be recorded on the original property form. Upon release, the proper entry shall be documented in the property log.

205.6 DISPOSITION OF PROPERTY

All property not held for evidence in a pending criminal investigation or proceeding, and held for three months or longer because the owner has not been located or has failed to claim the property, may be disposed of in compliance with existing laws, upon receipt of proper authorization for disposal.

Property personnel shall make reasonable efforts to attempt to contact the owner when known. Property not held for any other purpose and not claimed within 90 days after notification (or receipt, if notification is not feasible) may be auctioned to the highest bidder at a properly published public auction. If such property is not sold at auction or otherwise lawfully claimed, it may thereafter be destroyed (Civil Code § 2080.6). The final disposition of all such property shall be fully documented on the property control card and in any related reports (Civil Code § 2080.6).

205.7 UNCLAIMED MONEY

Except as otherwise provided by law, money, excluding restitution to victims, that is in the custody of this department and is no longer needed as evidence, and that remains unclaimed after three years, will be transferred to the general fund after proper notice has been given. Before transferring the money to the general fund, the Department shall publish a notice each week for a period of two consecutive weeks in a local newspaper of general circulation, in accordance with all laws, ordinances and regulations (Government Code § 50050 et seq.). If the money remains unclaimed as of the date designated in the published notice, the money will become the property of this department to fund official custody facility operations. Money representing restitution collected on behalf of victims shall either be deposited into a restitution fund or used for purposes of victim services.

Any individual item with a value of less than \$15, or any amount of money if the depositor/owner's name is unknown, that remains unclaimed for a year or by order of the court, may be transferred to the general fund without the necessity of public notice in accordance with applicable laws, ordinances and regulations (Government Code § 50055).

Records and Data Practices

206.1 PURPOSE AND SCOPE

This policy establishes guidelines for the control and access of confidential records by staff, contractors and volunteers.

206.2 ACCESS TO CRIMINAL RECORDS

Official files, documents, records, electronic data, video and audio recordings and information held by the Colusa County Sheriff's Department or in the custody or control of department employees, volunteers or contractors are regarded as non-public and/or confidential.

Access to confidential paper or electronically generated records in this facility is restricted at various locations according to job function and the need to know. Employees working in assigned areas will only have access to the information that is necessary for the performance of their duties. Granting access to other employees or anyone outside of the work area must meet with supervisory approval. All requests for information received from outside the Department shall be forwarded to the Jail Commander.

Custody staff, volunteers and contractors shall not access, disclose or permit the disclosure or use of such files, documents, reports, records, video or audio recordings or other confidential information except as required in the performance of their official duties and in accordance with department policies, statutes, ordinances and regulations related to data practices.

Custody staff, volunteers and contractors who are uncertain of the confidentiality status of any document should consult with a supervisor or Jail Commander to determine the status of the documents in question.

206.3 STAFF TRAINING

Prior to being allowed to work inside this facility, all custody staff, volunteers and contractors will receive training on department records, policies and confidentiality requirements, including the potential criminal and civil penalties that may result from a breach of confidentiality in violation of this policy and all applicable statutes.

Research Involving Incarcerated Persons

207.1 PURPOSE AND SCOPE

The purpose of this policy is to establish safeguards and guidelines to protect incarcerated persons from being used as research subjects in medical and other research experiments based only on their status as incarcerated persons and without proper approval, review, or informed consent.

207.2 POLICY

The Colusa County Sheriff's Department will conduct and support research that improves operations, enhances professional knowledge, decreases recidivism, and advances the department's mission in accordance with existing laws and with appropriate protection of all incarcerated persons. However, the use of incarcerated persons for medical, pharmaceutical, or cosmetic experiments is prohibited.

207.3 AUTHORIZATION REQUIREMENTS

Prior to initiating any approved research, all persons conducting research in this facility must agree to abide by all department policies relating to the security and confidentiality of incarcerated person files. Based upon the intended use of the research, guidelines will be established regarding what information shall be accessible to the researcher or the research organization.

Any requests for an exception shall include a response to the following questions as part of the proposed research project:

- Who is conducting the research?
- What is the purpose of the research?
- What is the methodology?
- Do the researchers or persons advocating research involving the use of incarcerated persons have an understanding of their ethical responsibilities, including considerations for the establishment of an Institutional Review Board (IRB), as described in 45 CFR 46.301 et seq.?
- Any other information as deemed appropriate by the Jail Commander or Sheriff.

Inquiries regarding proposed research projects from local, state, and federal executive and legislative bodies/agencies will be brought to the attention of the Sheriff immediately by the employee who receives the request. At the direction of the Sheriff, an appropriate and timely response will be made to each legitimate inquiry.

Research or studies involving more than the information identified as public information may require signed release/waiver forms from the involved incarcerated persons. The Sheriff should consult and seek guidance from the legal counsel serving the Department or other legal expert in these matters.

Incarcerated persons are not precluded from individual treatment based on the need for a specific medical procedure that is not generally available. An incarcerated person's treatment with a new

medical procedure by the incarcerated person's own physician shall be undertaken only after the incarcerated person has received a full explanation of the positive and negative features of the treatment, and only with the incarcerated person's informed consent.

207.4 LEGAL CONSIDERATIONS

Any research conducted or supported by the United States Department of Health and Human Services (DHHS) will be required to comply with the provisions of 45 CFR 46.301 et seq.

207.4.1 BIOMEDICAL RESEARCH

Research relating to or involving biological, medical, or physical science shall not be conducted on any incarcerated person. This does not include the accumulation of statistical data in the assessment of the effectiveness of nonexperimental public health programs or treatment programs in which incarcerated persons routinely participate (Penal Code § 3502).

Records-based biomedical research using existing information, without prospective interaction with incarcerated persons, may be conducted consistent with Penal Code § 3500 et seq. and federal law.

207.5 INCARCERATED PERSONS IN COMMUNITY-BASED RESEARCH

When incarcerated persons who are participants in a community-based research protocol are admitted to the facility, the following shall occur:

- (a) The intake nurse shall collect all relevant data, including name and contact information of the treating physician, and all available detail about the treatment regimen and the condition being treated.

This department does not endorse enrolling incarcerated persons in human research studies. Requests to enroll incarcerated persons in human research studies will not ordinarily be approved. However, any request to enroll an incarcerated person into such a study must be reviewed by the Sheriff, the Responsible Physician, and legal counsel, and authorization provided prior to enrollment. Any authorized enrollments shall comply with all state and federal guidelines.

208.4 RELEASE OF INCARCERATED PERSON RECORDS

Incarcerated person records are confidential and shall be used for official business only. Any release of incarcerated person records shall be made only in compliance with a lawful court order or as authorized by state and federal law to persons having a legitimate criminal justice need, or with a consent form signed by the incarcerated person (15 CCR 1045). A copy of the release authorization document shall be maintained in the incarcerated person record file.

208.5 ELECTRONIC RECORD MAINTENANCE

All incarcerated person records and data maintained in an electronic format shall be accessible only through a login/password-protected system capable of documenting by name, date, and time any person who has accessed the information. The Jail Commander shall be responsible for working with the information technology personnel to ensure the security of the data and to develop and maintain a copy of the security plan.

208.6 RECORDS RETENTION

Incarcerated person records shall be maintained consistent with the established records retention schedule.

208.7 INFORMATION SHARING REGARDING IMMIGRATION STATUS

- (a) Sending information to, or requesting or receiving such information from federal immigration officials
- (b) Maintaining such information in department records
- (c) Exchanging such information with any other federal, state or local government entity

Nothing in this policy restricts sharing information permissible under the California Values Act.

Report Preparation

209.1 PURPOSE AND SCOPE

Report preparation is a major part of each correctional officer's job. The purpose of these reports is to document incidents at the facility, refresh the correctional officer's memory, and provide sufficient information for a follow-up investigation and successful prosecution or a disciplinary proceeding. Report writing is the subject of substantial formal and on-the-job training.

209.2 REPORT PREPARATION

Employees should ensure that reports are sufficiently detailed for their purpose and free from errors prior to submission. Reports shall be prepared by the staff assigned to investigate or document an incident, approved by a supervisor and submitted to the Jail Commander or the authorized designee in a timely manner (15 CCR 1044). Reports relating to any incident resulting in death, serious injury or endangerment to staff, incarcerated person, or a visitor; an escape; a major disturbance; a facility emergency, or an unsafe condition at the facility shall be submitted to the Jail Commander as soon as practicable but within 24 hours of the incident. It is the responsibility of the assigned employee to ensure that all the above listed reports meet this requirement or that supervisory approval has been obtained to delay the report. The supervisor must determine whether the report will be available in time for appropriate action to be taken, such as administrative notifications or resolution, investigative leads, or an incarcerated person disciplinary proceeding.

Handwritten reports must be prepared legibly. If the report is not prepared legibly, the employee shall be required by the reviewing supervisor to promptly correct the report. Employees who dictate reports by any means shall use appropriate grammar, as content is not the responsibility of the typist. Employees who generate reports on computers are subject to all requirements of this policy.

All reports shall accurately reflect the identity of the persons involved, all pertinent information seen, heard, or assimilated by any other sense, and any actions taken. Employees shall not suppress, conceal, or distort the facts of any reported incident, nor shall any employee make a false report orally or in writing. Generally, the reporting employee's opinions should not be included in reports unless specifically identified as such.

209.3 REQUIRED REPORTING

Written reports are required in all of the following situations on the appropriate department-approved form unless otherwise approved by a supervisor (15 CCR 1044).

209.3.1 CRIMINAL ACTIVITY REPORTING

When an employee responds to an incident, or as a result of self-initiated activity, and becomes aware of any activity where a crime has occurred, the employee is required to document the activity. The fact that a victim is not desirous of prosecution is not an exception to documentation.

209.3.2 INCIDENT REPORTING

Incident reports generally serve as an in-house notation of occurrences in the facility and to initiate, document, and support the incarcerated person disciplinary process. The Department

Colusa County Sheriff's Department

Report Preparation

shall establish a filing system that differentiates between incident reports, crime reports, and disciplinary actions. This policy does not require the duplication of information on two different forms. Where both exist, cross-referencing facilitates retrieval of one or both.

Incidents that shall be documented using the appropriate approved report include (15 CCR 1044):

- (a) Non-criminal incidents of rule violations by incarcerated persons.
- (b) Attempted suicide or suicidal ideation on the part of an incarcerated person.
- (c) Non-criminal breaches of security or evidence of an escape attempt.
- (d) Non-criminal security threats, including intelligence related to jail activities.
- (e) Significant incidents related to medical issues, health, or safety in the jail.
- (f) Discovery of contraband in the possession of incarcerated persons or their housing areas.
- (g) Detaining or handcuffing any visitor at the facility.
- (h) Traffic collisions involving department vehicles.
- (i) Risk management incidents, including injuries to incarcerated persons and lost or damaged property.
- (j) Accidental injuries of staff, incarcerated persons, or the public.
- (k) Unusual occurrences.

209.3.3 DEATHS

All deaths shall be investigated and a report completed by a qualified investigating officer to determine the manner of death and to gather information, including statements of incarcerated persons and staff who were in the area at the time the death occurred.

Reporting of deaths will be handled in accordance with the Reporting In-Custody Deaths Policy.

209.3.4 INJURY OR DAMAGE BY DEPARTMENT PERSONNEL

Reports shall be taken if an injury occurs that is a result of an act of an employee. Reports shall be taken involving damage to property or equipment.

209.3.5 USE OF FORCE

Reports related to the use of force shall be made in accordance with the Use of Force Policy.

209.4 GENERAL POLICY OF EXPEDITIOUS REPORTING

In general, all employees and supervisors shall act with promptness and efficiency in the preparation and processing of all reports. An incomplete report, unorganized reports or reports delayed without supervisory approval are not acceptable. Reports shall be processed according to established priorities or according to special priority necessary under exceptional circumstances.

Colusa County Sheriff's Department

CA Custody Manual

Report Preparation

209.4.1 GENERAL POLICY OF HANDWRITTEN REPORTS

Some incidents and report forms lend themselves to block print rather than typing. In general, the narrative portion of those reports in which there is a long narrative should be typed or dictated.

Supervisors may require, with the foregoing general policy in mind, block printing or typing of reports of any nature for department consistency.

209.4.1 GENERAL USE OF OTHER HANDWRITTEN FORMS

County, state and federal agency forms may be block printed as appropriate. In general, the form itself may make the requirement for typing apparent.

209.5 REPORT CORRECTIONS

Supervisors shall review reports for content and accuracy. If a correction is necessary, the reviewing supervisor should return it to the reporting employee for correction as soon as practicable. It shall be the responsibility of the originating employee to ensure that any report returned for correction is processed in a timely manner. It shall be the responsibility of the supervisor rejecting the report to follow up on any report corrections not received in a timely manner.

209.6 REPORT CHANGES OR ALTERATIONS

Reports that have been approved by a supervisor and submitted to the Records Section for filing and distribution shall not be modified or altered except by way of a supplemental report. Reviewed reports that have not yet been submitted to the Records Section may be corrected or modified by the authoring employee only with the knowledge and authorization of the reviewing supervisor. Reviewing supervisors should not alter reports. When modifications are required, these should be the responsibility of the authoring employee.

209.7 POLICY

It is the policy of the Colusa County Sheriff's Department that members shall act with promptness and efficiency in the preparation and processing of all reports.

Key and Electronic Access Device Control

210.1 PURPOSE AND SCOPE

The control and accountability of facility keys and electronic access devices are vital factors in maintaining a safe and secure environment for incarcerated persons, staff, volunteers, contractors, and the public (15 CCR 1029(a)(6)). This policy outlines the methods that the Department will use in maintaining strict security of its keys and electronic access devices. For ease of reference, the term "key" as used in this policy includes all physical means of access to or exit from the secure areas of the facility.

210.2 POLICY

It is the policy of this department that all keys used to access secure areas of the facility or to exit the secure areas of the facility are strictly controlled. Employees and supervisors will be held accountable for the security and safety of the facility. All key control activities shall be accurately documented on a daily basis (15 CCR 1029(a)(6)).

210.2.1 KEY IDENTIFICATION

All keys that open any doors within the facility shall be marked with unique identification codes that will allow for quick inventory. Keys that are bundled together as a set shall be numbered or coded with a tag to identify that set. The identifying numbers or code on keys shall not correspond to numbers/codes on locks.

A separate secure document identifying all keys will be maintained by the Department.

210.2.2 KEYSSET CONTENTS

Keysets checked out to staff for use within the secure perimeter of the facility shall not contain any key that would permit access to areas outside the secure perimeter. The armory key shall not be permitted inside the secure perimeter. Exterior door keys shall not be permitted inside the facility except during an emergency requiring access to the exterior doors.

210.2.3 KEY CONTROL

All facility keys shall be maintained in a locked key box within the Booking room. This room shall have controlled access for staff only. Each employee is assigned a PIN to access keys from the KeyTracer system. The KeyTracer system maintains a record of which employee has which set. At the end of a shift, employees shall return all keys through the KeyTracer system.

Under no circumstances shall an employee pass a key or keyset to another employee. All keys must be checked out through the KeyTracer control process. Employees shall not possess any key for which they have not been authorized.

Employees shall not duplicate, mark, alter or manufacture any key without written authorization from the Jail Commander or the authorized designee.

All employees shall, at the beginning and end of their respective shifts, inventory the key box and its contents. All keys must be accounted for before the employee may end his/her shift.

Key and Electronic Access Device Control

Under no circumstances will security keys be made available to inmates regardless of their status.

210.2.4 LOCK POLICY

All security perimeter entrances, Booking doors and cell doors shall be kept locked, except when used for admission or exit of employees, inmates or visitors, and in an emergency. Operators of sallyports shall ensure that only one of the doors of a sallyport is opened at any time for entry or exit purposes, except where the entry or exit of emergency personnel requires the operator to override the doors and allow for rapid entry or exit.

210.2.5 TESTING

Locks to security doors or gates shall be tested for proper function at least monthly to ensure proper operation. This testing shall be documented and a monthly report forwarded to the facility administrator or his designee.

210.2.6 MISSING KEYS

Any staff member who discovers that a key or keyset is missing shall immediately make a verbal report to a supervisor and shall prepare a written incident report as directed by the supervisor. The supervisor shall immediately initiate a search for the missing key. If a reasonable effort to locate the key fails, the supervisor shall order a lockdown of the facility. All inmates shall be locked in their cells/housing units. Inmates shall not be allowed to pass into or out of the facility without being thoroughly searched for the missing key. The supervisor shall, as soon as practicable, notify the Jail Commander regarding the loss of the key, when it was discovered and the circumstances involved.

A methodical and thorough search of the entire facility will be made by the on-duty staff.

Additional staff may be called to assist with the search. If, after a thorough search, the key or keyset is not located, the Jail Commander will determine whether to re-key any locks that may have been compromised, and whether this should be done immediately.

The Jail Commander shall initiate an investigation into the disappearance of the keys to reexamine the procedures for key control, and shall notify the Sheriff of his/her findings. Based upon the findings of the investigation and any recommendations, the procedures governing this policy may be amended.

210.2.7 DAMAGED KEYS OR LOCK

Damaged keys or locks shall be promptly reported to a supervisor. No part of a broken key shall be left in the lock. All portions of the damaged key must be turned in to the Shift Supervisor, who will ensure duplicate keys are provided as needed. Damaged locks shall be replaced or repaired as soon as practicable. Appropriate security measures shall be taken until such time as the lock is properly restored. No lock to a security door or gate shall be permitted to be inoperable or left in an unsuitable condition. No inmate shall be secured in a cell, detention room or area that has inoperable locks.

210.4 EMERGENCY KEY SET

At least one key set containing every key for the facility shall be kept separate from all other key sets in a secure location and made accessible only to the Jail Commander, the supervisor, or the authorized designee in the event of an emergency.

210.5 EXTERIOR DOOR AND ARMORY KEYS

Keys for exterior doors to the facility (excluding Fire Key sets) and the armory shall be kept in a locked cabinet in a secure location, outside of the facility's secure perimeter. Supervisors shall, at the beginning and end of their respective shifts, inventory and account for these keys.

Administrative and Supervisory Inspections

211.1 PURPOSE AND SCOPE

The purpose of this policy is to establish both regularly scheduled and unannounced inspections of the facility's living and activity areas. This is to encourage contact with staff and incarcerated persons and to observe incarcerated person living and working conditions. Inspections may be useful in identifying deficiencies, which can be corrected, as well as processes working properly, which may be replicated elsewhere in the facility.

211.2 POLICY

Tours and inspections shall be conducted by administrative and supervisory staff throughout the jail at least weekly to facilitate and encourage communication among administrators, managers, supervisors, staff employees, incarcerated persons, and the visiting public.

211.3 INSPECTIONS

The Jail Commander is responsible for ensuring that scheduled and unscheduled inspections, visits, and contacts are implemented to minimally include:

- Incarcerated person housing areas
- Booking and receiving areas, including holding cells
- Exercise yard and recreation areas
- Visiting and program areas
- Medical and dental service areas
- Vocational work areas, e.g., the kitchen, janitorial closets

The Jail Commander shall be responsible for designating a qualified person to conduct monthly inspections of all security devices, identifying those in need of repair or maintenance and providing a written report of the results of the inspection. The Jail Commander shall document all action taken to correct identified deficiencies, including maintenance records, and shall retain those records in accordance with established records retention schedules.

211.5 DOCUMENTATION AND REPORTING

Each staff member conducting the inspection or tour shall document the activity in the appropriate station form or facility log. The log should include any significant findings that indicate remedial action or training may be needed. Significant issues of security or safety shall be addressed promptly. Commendable or successful actions that should be replicated elsewhere in the facility should also be noted in the log.

The Shift Supervisor shall review the logs daily and ensure that any deficiencies noted are addressed or forwarded through the chain of command, as appropriate, and that commendable actions are also appropriately addressed.

Perimeter Security

212.1 PURPOSE AND SCOPE

The purpose of this policy is to establish this facility's perimeters, to ensure that incarcerated persons remain inside the perimeters, and that visitor, vendor, volunteer, and employee access is granted only with proper authorization and through designated safety vestibules and sallyports. The secure perimeter of this facility will provide protection from the escape of persons being processed, held, or housed, and will act as a defense against the entry of unauthorized persons. It shall be maintained to prevent contraband from entering the secure areas of the facility (15 CCR 1029(a)(6)).

212.2 POLICY

All entry points to the secure perimeter of the facility shall be monitored and controlled continuously by staff. The entire perimeter shall be inspected, maintained, monitored and continuously assessed to ensure its physical integrity and prevent unauthorized entry, incarcerated person escape and contraband from entering the facility.

212.2.1 VISITORS

This facility shall be maintained as a secure area and no person shall enter any portion of the inner perimeter without specific authorization from the Jail Commander or the authorized designee. All visitors shall be required to provide satisfactory identification, such as a valid driver's license, valid passport or military identification. Visitors shall be required to sign in at the front desk and state the reason for the visit. Visitors must wear a visitor's badge at all times and shall be escorted by one or more staff members at all times while they are in the secure areas of the facility.

212.3 PROCEDURE

The secure perimeter shall be maintained by assigned staff as well as a local law enforcement agency. The Jail Commander or the authorized designee shall ensure that a staffing plan is in place to monitor the secure perimeter of this facility. Suspicious activity at or near the perimeter shall immediately be reported to the Shift Supervisor. The staff shall initiate an appropriate law enforcement response.

Individuals suspected to be in violation of any law may be subject to detention or arrest. Warrant checks should be conducted on all individuals who are on the property without proper authorization. Individuals found to be loitering on or around the perimeter of the facility will be stopped and questioned to determine the circumstances of their presence. They may be denied entrance into the facility.

The assigned staff shall identify all persons seeking to gain access to the secure perimeter of the facility. Persons delivering goods or services shall identify themselves to the assigned staff prior to being allowed access to the delivery area.

Colusa County Sheriff's Department

CA Custody Manual

Perimeter Security

Materials delivered to or transported from the facility's secure perimeter shall be inspected for contraband. Vendors making deliveries into the secure area of the facility will do so under the supervision of custody staff.

Keys to the secure perimeter shall be easily identifiable and issued only in emergency situations or with the authorization of the Jail Commander.

Weapons lockers are provided outside all secure perimeter entrances. All weapons must be secured prior to an individual being allowed to enter the facility.

The sallyport and the secure garage are to be used for the transfer of incarcerated persons.

Operation of the sallyport doors will be done in such a manner as to effectively control movement into and out of the secure inner perimeter of this facility. Assigned staff are responsible for ensuring all perimeter surveillance equipment is in good working order and shall immediately report malfunctions or failures to the on-duty supervisor.

Outer perimeter security may be accomplished by using fencing or another type of barrier. These barriers should be designed to route vehicular and pedestrian traffic away from non-public areas. Outer perimeter lighting should be designed to illuminate all areas of the exterior to allow visual inspection by video monitor or perimeter patrols.

214.6 PROVIDING ADVANCE INFORMATION

To protect the safety and rights of personnel working in this facility, advance information about planned actions by custody personnel, such as movement of persons in custody or the execution of a mass arrest in which field booking is arranged, should not be disclosed to the news media nor should media representatives be invited to be present at such actions except with the prior approval of the Sheriff.

Any exceptions to the above should only be considered for the furtherance of this facility's legitimate purposes. Prior to approving any exception, the Sheriff will consider, at a minimum, whether the release of information or the presence of the media would unreasonably endanger any individual, prejudice the rights of any person, or is otherwise prohibited by law.

A record of all facility tours should be maintained in accordance with applicable retention requirements.

215.5 POLICY

It is the policy of the Colusa County Sheriff's Department to protect the privacy rights of individuals while releasing non-confidential information to interested groups when requests are received. Information that has the potential to affect the safety and security of the Jail or an investigation will not be released.

Victim Notification

216.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure victims of crimes receive notice when an incarcerated person held for those crimes is released or escapes, and that victims receive any other notification required by California law.

216.2 POLICY

It is the policy of this department to act in accordance with all laws regarding victim notification.

216.3 PROCEDURE

The Jail Commander shall ensure that a system is in place for individuals to request release or escape notification on any incarcerated person housed in this facility.

Notification requests or requirements that are known during the booking process should be documented in the appropriate designated section of the incarcerated person's booking file.

In the event that an individual contacts this facility and requests notification on any incarcerated person housed in this facility, staff should notify a supervisor, who will determine whether notifications are required or appropriate, and ensure the notification request and determination is documented in the incarcerated person's file. The supervisor will also ensure that the requesting individual is advised of the determination.

216.4 NOTIFICATION

Members tasked with the release of an incarcerated person or investigating an escape shall verify whether there is a required release notification in the incarcerated person's file.

Members shall document notification efforts in the incarcerated person's file.

Unless ordered by the court or a supervisor, no victim or witness information shall be provided to any incarcerated person by any employee or volunteer of this facility. Any unauthorized access or release of victim information is a direct violation of victim confidentiality and applicable policies, and may subject the person releasing the information to disciplinary action, up to and including termination from employment and/or criminal prosecution.

216.4.1 REQUIRED NOTIFICATIONS

The Shift Supervisor or the authorized designee shall make a reasonable and good faith effort to make all notifications required by law including:

- (a) Notice to any person a court identifies as a victim of the offense, a family member of the victim, or a witness to the offense not less than 15 days prior to the release of any person convicted of stalking under Penal Code § 646.9 or convicted of a felony involving domestic violence (Penal Code § 646.92(a)).
- (b) Notice to any person a court identifies as a victim of the offense, a family member of the victim, or a witness upon escape and capture of any person convicted of violating

Colusa County Sheriff's Department

CA Custody Manual

Victim Notification

Penal Code § 646.9 or convicted of a felony offense involving domestic violence (Penal Code § 646.92(d)).

- (c) Notice to any victim or other affected person who has requested notification that an incarcerated person convicted of the offenses listed in Penal Code § 679.02(a)(13) has been ordered placed on probation and the proposed date of release (Penal Code § 679.02(a)(14)).
- (d) Upon request by the victim, or the next of kin of the victim, if the crime was a homicide, within 60 days of an incarcerated person's placement in a reentry or work furlough program, or of the incarcerated person's escape (Penal Code § 679.02(a)(6)).
- (e) Notice of the release of any incarcerated person to victims of crime who have requested to be notified.
- (f) Notice to law enforcement agencies known to be involved with the case upon any escape and capture of an incarcerated person.

Notification should be made by telephone, certified mail, or electronic mail, using the method of communication selected by the person to be notified, if that method is reasonably available. In the event the person's contact information provided to the Department is no longer current, the Department shall make a diligent, good faith effort to learn the whereabouts of the victim in order to comply with these notification requirements. Notification shall only be left on a messaging system if the person has indicated in the notification request that such notification is acceptable or if staff has attempted and cannot make other contact with the person.

If contact cannot be made and no means exist to leave a message with the person, the Shift Supervisor or the authorized designee should request the law enforcement agency having jurisdiction where the person resides perform a welfare check. Subsequent and continuing attempts shall be made to contact the person using the numbers listed in the notification request. All attempts to contact shall be documented on the victim notification request form.

Vehicle Safety

217.1 PURPOSE AND SCOPE

It is the policy of this department to maintain and operate the vehicles assigned to this facility in a lawful and safe manner. The Department utilizes department-owned motor vehicles for a variety of applications. To maintain a system of accountability and ensure that department-owned vehicles are used appropriately, regulations relating to the use of these vehicles have been established. The term "department-owned" as used in this section also refers to any vehicle leased or rented by the Department.

217.2 USE AND SECURITY OF AGENCY OFFICE VEHICLES

All staff members who operate County-owned or leased vehicles must comply with all applicable state laws and must possess a valid driver's license endorsed for the type of vehicle operated.

217.2.1 USE OF SEAT BELTS

The use of seat belts and other safety restraints significantly reduces the chance of death or injury in case of a traffic collision. This policy establishes guidelines for seat belt use to promote maximum operator and passenger safety, thus reducing the possibility of death or injury as the result of a motor vehicle crash. This policy will apply to all members operating or riding in department vehicles.

All members shall wear properly adjusted safety restraints when operating or riding in a seat equipped with restraints, in any vehicle owned, leased, or rented by this department, while on- or off-duty, or in any privately owned vehicle while on-duty. The member driving such a vehicle shall ensure that all other occupants, including non-members, are also properly restrained.

Exceptions to the requirement to wear safety restraints may be made only in exceptional situations where, due to unusual circumstances, wearing a seat belt would endanger the member or the public. Members must be prepared to justify any deviation from this requirement.

Whenever possible, incarcerated persons should be secured in a prisoner restraint system or, when a prisoner restraint system is not available, by seat belts. The incarcerated person should be in the seating position for which seat belts have been provided by the vehicle manufacturer. The prisoner restraint system is not intended to be a substitute for handcuffs or other appendage restraints.

No person shall operate any department vehicle in which the seat belt in the driver's position is inoperable. No person shall be transported in a seated position in which the seat belt is inoperable.

No person shall modify, remove, deactivate, or otherwise tamper with the vehicle safety belts, except for vehicle maintenance and repair staff, who shall do so only with the express authorization of the Sheriff.

Members who discover an inoperable restraint system shall report the defect to the appropriate supervisor. Prompt action will be taken to replace or repair the system.

Colusa County Sheriff's Department

CA Custody Manual

Vehicle Safety

217.2.2 VEHICLE SECURITY

Department vehicles will be locked and the keys will be secured when not in use. The staff will make every effort to ensure that the vehicles are parked in a secure location.

Under no circumstances will incarcerated persons be allowed to operate a vehicle or have possession of any vehicle keys. Incarcerated workers who are assigned to clean vehicles must be closely supervised by staff.

The loss of any vehicle key shall be promptly reported, in writing, to the on-duty supervisor.

217.2.3 VEHICLE AIRBAGS

In all vehicles equipped with airbag restraint systems, the system will not be tampered with or deactivated. All equipment installed in vehicles equipped with airbags will be installed as per the vehicle manufacturer's specifications to avoid the danger of interfering with the effective deployment of the airbag device.

217.3 VEHICLE INSPECTIONS

All department-owned vehicles are subject to inspection and or search at any time by a supervisor. No member assigned to or operating such vehicle shall be entitled to any expectation of privacy with respect to the vehicle or any of its contents, regardless of who owns the contents.

217.4 VEHICLE SAFETY REPAIRS

Anyone authorized to drive department vehicles is responsible for assisting in maintaining the vehicles so that they are properly equipped, maintained, and refueled and present a clean appearance.

Anyone authorized to drive department vehicles is responsible for inspecting the interior and exterior of any assigned vehicle before placing the vehicle into service and again at the conclusion of their shift. Any previously unreported damage, mechanical problems, unauthorized contents, or other problems with the vehicle shall be promptly reported to a supervisor and documented as appropriate.

Vehicles that are deemed as unsafe shall not be used until necessary repairs are made. The written request for repairs shall be submitted before the operator checks out a replacement vehicle. The Jail Commander or the authorized designee shall monitor the maintenance requests and ensure that the necessary repairs are made before the vehicle is placed back into service.

Annual vehicle safety inspections will be conducted on all vehicles that are owned, leased, or used by the Department. The inspection will be conducted by a qualified individual designated by the Jail Commander. Inspection reports will be forwarded to and maintained by the Jail Commander.

217.5 USE OF PERSONAL VEHICLES

The use of personal vehicles for official business must be approved by the Jail Commander. The Jail Commander or the authorized designee shall verify that the personal vehicle meets the state's insurance requirements. A copy of the insurance card shall be retained in facility files. All policies

Colusa County Sheriff's Department

CA Custody Manual

Vehicle Safety

and procedures applicable to facility vehicles shall apply to the personal vehicle while it is being used for official business.

217.6 COLLISION DAMAGE, ABUSE AND MISUSE

When an County-owned or leased vehicle is involved in a traffic collision, the involved member shall promptly notify a supervisor. A traffic collision report shall be filed with the agency having jurisdiction. The member shall complete an incident report.

When a collision involves an department vehicle or when a member of this department is an involved driver in a collision that occurs in this jurisdiction, and the collision results in serious injury or death or potentially involves any criminal charge, The California Highway Patrol shall be summoned to handle the investigation. If the member is incapable of completing an incident report, a supervisor shall complete the report.

Any damage to a vehicle that was not caused by a traffic collision shall be immediately reported during the shift in which the damage was discovered. It shall be documented in memorandum format and forwarded to the Shift Supervisor. An administrative investigation will be conducted to determine if there is any vehicle abuse or misuse. If it is determined that misuse or abuse was a result of negligent conduct or operation, appropriate disciplinary action may result.

217.7 TOLL ROAD USE

Law enforcement vehicles are not routinely exempt from incurring toll road charges. Pursuant to the non-revenue policy of the toll roads, law enforcement agencies responding to an emergency or incident on the toll roads while on-duty are exempt from paying the toll.

Commuting or returning to the Department after an emergency does not qualify for this exemption; personnel using department-owned vehicles are subject to the toll charge.

To avoid unnecessary toll road violation charges, all members operating a department-owned vehicle on a toll road shall adhere to the following:

- (a) Members operating department-owned vehicles for any reason other than an initial response to an emergency shall stop and pay the appropriate toll charge.
- (b) Members may submit for reimbursement from the Department for any toll fees.
- (c) Members driving department-owned vehicles through a toll plaza or booth during a response to an emergency shall draft a memo to their supervisor within five working days, explaining the circumstances.

217.8 POLICY

The Colusa County Sheriff's Department provides vehicles for official business use and may assign take-home vehicles based on its determination of operational efficiency, economic impact to the [AgencyOffice, tactical deployments, and other considerations.

Staffing Plan

218.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a comprehensive staffing plan and analysis to identify staffing needs sufficient to maintain the safety and security of the facility, staff, visitors, incarcerated persons, and the public.

218.2 POLICY

It is the policy of the Colusa County Sheriff's Department to ensure the safety, security and efficient operation of this facility by assigning custody personnel according to a detailed staffing plan that is developed and maintained in accordance with law.

218.3 STAFFING PLAN REQUIREMENTS

The Jail Commander shall ensure that a staffing plan conforming to the class type and size of this facility is prepared and maintained as described in the following section. The plan should detail all custody personnel assignments, including work hours and weekly schedules, and should account for holidays, vacations, training schedules, and other atypical situations (15 CCR 1027).

At minimum, the staffing plan will include the following:

- Facility administration and supervision
- Facility programs, including exercise and out of cell time
- Incarcerated person supervision and custody
- Support services including medical, food services, maintenance, and clerical
- Other jail-related functions such as escort and transportation of incarcerated persons

218.4 STAFFING ANALYSIS

The Sheriff or the authorized designee shall complete an annual comprehensive staffing analysis to evaluate personnel requirements and available staffing levels. The staffing analysis will be used to determine staffing needs and to develop staffing plans.

This analysis shall include information gathered in collaboration with the health care provider in each facility regarding staffing requirements. The analysis relating to health care personnel shall be annually reviewed for adequacy by the health authority.

The Jail Commander, in conjunction with the PREA coordinator, should ensure that staffing levels are sufficient to consistently and adequately fill essential positions, as determined by the staffing plan (28 CFR 115.13). Relief factors for each classification and position should be calculated into the staffing analysis to ensure staffing levels will consistently meet requirements. Staff should be deployed in an efficient and cost-effective manner that provides for the safety and security of the staff, incarcerated persons, and the public.

The staffing analysis should be used to identify whether required activities are being performed competently and in compliance with current laws and department policies. If deficiencies are noted,

Colusa County Sheriff's Department

Staffing Plan

the staffing analysis should also include recommendations regarding what corrective measures may be needed, including the following:

- (a) Operational change
- (b) Equipment requirement
- (c) Additional training
- (d) Supervisory intervention
- (e) Additional personnel

218.4.1 DATA COLLECTION FOR ANALYSIS

The following data should be collected and included in the annual staffing analysis:

- All categories of leave usage for each staff member working in the jail
- Date of hire or assignment to a jail position for each member
- Date of transfer from the jail to another non-custody position for each member
- Annual hours of authorized overtime expended during the previous year
- Number of part-time or extra personnel hired during the previous year
- Details of any unusual occurrence or significant medical issues in the jail that were related to staffing during the previous year
- Details of claims or litigation, if any, that were related to staffing levels and were initiated against the facility in the previous year

- Any investigations or reports by the grand jury or other government agency, jail monitor, or ombudsperson
- Other data that may influence the number of personnel available to occupy posted positions

218.5 REPORTING

The facility staffing plan shall be made available for review to the Board of State and Community Corrections (BSCC) staff at the time of their biennial inspection. The Jail Commander shall report the results of the BSCC biennial review and recommendations to the officials with fiscal responsibility for the facility (15 CCR 1027).

Personal Communication Devices

219.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the use of mobile telephones and communication devices, whether issued or funded by the Department or personally owned, while on-duty or when used for authorized work-related purposes.

This policy generically refers to all such devices as Personal Communication Devices (PCDs) but is intended to include all mobile telephones, personal digital assistants (PDAs), wireless-capable tablets, and similar wireless two-way communications and/or portable internet-access devices. PCD use includes but is not limited to placing and receiving calls, text messaging, blogging and microblogging, emailing, using video or camera features, playing games, and accessing sites or services on the internet.

219.2 POLICY

The Colusa County Sheriff's Department allows members to utilize department-issued or funded PCDs and to possess personally owned PCDs in the workplace, subject to certain limitations. Any PCD used while on- or off-duty for business-related purposes, or reasonably associated with work-related misconduct, will be subject to monitoring and inspection consistent with applicable law and this policy.

Additionally, the use of a PCD either on-duty or after duty hours for business-related purposes, or reasonably associated with work-related misconduct, may subject the member and the member's PCD records to civil or criminal discovery or disclosure under applicable public records laws.

Members who have questions regarding the application of this policy or the guidelines contained herein are encouraged to seek clarification from supervisory staff.

219.3 PRIVACY EXPECTATION

Members forfeit any expectation of privacy with regard to any communication accessed, transmitted, received, or reviewed on any PCD issued or funded by the Department and shall have no expectation of privacy in their location should the device be equipped with location-detection capabilities. This includes records of all keystrokes or web-browsing history made on the PCD. The fact that access to a database, service, or website requires a username or password will not create an expectation of privacy if it is accessed through department PCDs or networks (see the Information Technology Use Policy for additional guidance).

Members have no expectation of privacy regarding any communications while using a personally owned PCD for department-related business or when the use reasonably implicates work-related misconduct.

219.3.1 CALIFORNIA ELECTRONIC COMMUNICATIONS PRIVACY ACT (CALECPA)

No member is authorized to be the sole possessor of an department-issued PCD. Department-issued PCDs can be retrieved, reassigned, accessed, or used by any member as directed by a supervisor without notice. Member use of an department-issued PCD and use of a personal

Colusa County Sheriff's Department

PCD at work or for work-related business constitutes specific consent for access for department purposes. Prior to conducting an administrative search of a PCD, supervisors should consult legal counsel to ensure access is consistent with CalECPA (Penal Code § 1546; Penal Code § 1546.1).

219.4 DEPARTMENT-ISSUED PCD

Depending on a member's assignment and the needs of the position, the Department may, at its discretion, issue or fund a PCD for the member's use to facilitate on-duty performance. Department-issued or funded PCDs may not be used for personal business either on- or off-duty unless authorized by the Sheriff or the authorized designee. Such devices and the associated telephone number, if any, shall remain the sole property of the Department and shall be subject to inspection or monitoring (including all related records and content) at any time without notice and without cause.

Unless a member is expressly authorized by the Sheriff or the authorized designee for off-duty use of the PCD, the PCD will be either secured in the workplace at the completion of the tour of duty or turned off when leaving the workplace.

219.5 PERSONALLY OWNED PCD

Members may carry a personally owned PCD while on-duty, subject to the following conditions and limitations:

- (a) Permission to carry a personally owned PCD may be revoked if it is used contrary to provisions of this policy.
- (b) The Department accepts no responsibility for loss of or damage to a personally owned PCD.
- (c) The PCD and any associated services shall be purchased, used, and maintained solely at the member's expense.
- (d) The device should not be used for work-related purposes except in exigent circumstances (e.g., unavailability of department communications) or as otherwise authorized by department procedures.
 - 1. Use of a personally owned PCD for work-related business constitutes consent for the Department to access the PCD to inspect and copy the work-related data (e.g., for litigation purposes, public records retention and release obligations, internal investigations).
 - 2. Use of, and data within, a personally owned PCD may be discoverable in cases when there is reason to believe it is associated with work-related misconduct.
 - 3. Searches of a personally owned PCD by the Department should be limited to those matters reasonably associated with the work-related business or work-related misconduct.
- (e) The device shall not be utilized to record or disclose any department business-related information, including photographs, video, or the recording or transmitting of any information or material obtained or made accessible as a result of employment or

appointment with the Department, without the express authorization of the Sheriff or the authorized designee.

- (f) If the PCD is carried on-duty, members will provide the Department with the telephone number of the device.
- (g) All work-related documents, emails, photographs, recordings, or other public records created or received on a member's personally owned PCD should be transferred to the Colusa County Sheriff's Department and deleted from the member's PCD as soon as reasonably practicable but no later than the end of the member's shift.

Except with prior express authorization from their supervisors, members are not obligated or required to carry, access, monitor, or respond to electronic communications using a personally owned PCD while off-duty. If a member is in an authorized status that allows for appropriate compensation consistent with policy or existing memorandum of understanding or collective bargaining agreement, or if the member has prior express authorization from their supervisor, the member may engage in department business-related communications. Should members engage in such approved off-duty communications or work, members entitled to compensation shall promptly document the time worked and communicate the information to their supervisors to ensure appropriate compensation. Members who independently document off-duty department-related business activities in any manner shall promptly provide the Department with a copy of such records to ensure accurate recordkeeping.

219.6 USE OF PCD

The following protocols shall apply to all PCDs that are carried while on-duty or used to conduct department business:

- (a) A PCD shall not be carried in a manner that allows it to be visible while in uniform unless it is in an approved carrier.
- (b) All PCDs in the workplace shall be set to silent or vibrate mode.
- (c) A PCD may not be used to conduct personal business while on-duty except for brief personal communications (e.g., informing family of extended hours). Members shall endeavor to limit their use of PCDs to authorized break times unless an emergency exists.
- (d) Members may use a PCD to communicate with other personnel in situations where the use of radio communications is either impracticable or not feasible. PCDs should not be used as a substitute for, as a way to avoid, or in lieu of regular radio communications.
- (e) Members are prohibited from taking pictures, audio or video recordings, or making copies of any such picture or recorded media unless it is directly related to official department business. Disclosure of any such information to any third party through any means requires the express authorization of the Sheriff or the authorized designee.
- (f) Members will not access social networking sites for any purpose that is not official department business. This restriction does not apply to a personally owned PCD used during authorized break times.

Colusa County Sheriff's Department

CA Custody Manual

Personal Communication Devices

- (g) Using PCDs to harass, threaten, coerce, or otherwise engage in inappropriate conduct with any third party is prohibited. Any member having knowledge of such conduct shall promptly notify a supervisor.

219.7 SUPERVISOR RESPONSIBILITIES

The responsibilities of supervisors include but are not limited to:

- (a) Ensuring that members under their command are provided appropriate training on the use of PCDs consistent with this policy.
- (b) Monitoring, to the extent practicable, PCD use in the workplace and taking prompt corrective action if a member is observed or reported to be improperly using a PCD.
 - 1. An investigation into improper conduct should be promptly initiated when circumstances warrant.
 - 2. Before conducting any administrative search of a member's personally owned device, supervisors should consult with the Sheriff or the authorized designee.

219.8 OFFICIAL USE

Members are reminded that PCDs are not secure devices and conversations may be intercepted or overheard. Caution should be exercised while using PCDs to ensure that sensitive information is not inadvertently transmitted. As soon as reasonably possible, members shall conduct sensitive or private communications on a land-based or other department communications network.

219.9 USE WHILE DRIVING

The use of a PCD while driving can adversely affect safety, cause unnecessary distractions, and present a negative image to the public. Members operating department vehicles should restrict the use of these devices to matters of an urgent nature and should, where practicable, stop the vehicle at an appropriate location to use the PCD.

301.2 OBJECTIVES

The objective for continuing education and professional development is for all members to enhance their knowledge and skills to their fullest potential.

Members who engage in furthering their education in conjunction with skills-based training make for well-rounded employees who can better serve the mission of the Department and the community.

Supervisors should accommodate, to the extent feasible and schedules permitting, requests by personnel for shift adjustments and available leave time to assist personnel with their continuing education and professional development efforts.

This policy is intended to protect the community, employees, visitors, incarcerated persons, and all others who enter the jail, while allowing the facility to fulfill its primary purpose.

Facility emergencies related to fire will be addressed in the Fire Safety Policy.

400.2 POLICY

It is the policy of this department to have emergency response plans in place to quickly and effectively respond to and minimize the severity of any emergency within the facility.

400.3 PROCEDURE

The Jail Commander should develop, publish, and review emergency response plans that address the following (15 CCR 1029(a)):

The emergency response plans shall be made available to the staff, volunteers, and contractors working in the facility as needed.

400.4 LOCKDOWN

Upon detecting any significant incident that threatens the security of the facility, such as a riot or hostage situation, staff shall immediately notify Dispatch and the Shift Supervisor. The Shift Supervisor, or in his/her absence the senior officer on duty, may determine whether to order a partial or full lockdown of the facility and shall notify the Jail Commander as soon as practicable.

If a lockdown is ordered, all incarcerated persons will be directed back to their housing units/cells. All incarcerated persons in transit within the facility will either be escorted back to their housing units/cells or to another secure location (holding cell). The Shift Supervisor should instruct any staff not directly involved in the lockdown to escort any visitors and nonessential contractors out of the facility.

A headcount shall be immediately conducted for all incarcerated persons, visitors, contractors, and staff. The Shift Supervisor shall be immediately notified of the status of the headcount. If any person is unaccounted for, the Shift Supervisor shall direct an immediate search of the facility and notify the Jail Commander of the situation as soon as practicable.

Lockdown is not to be used as a form of punishment. It may only be used to ensure order.

400.5 HUNGER STRIKE

Upon being made aware that one or more incarcerated persons is engaging in a hunger strike, the staff will notify the Shift Supervisor, who will notify the Jail Commander. The Jail Commander should evaluate the basis for the strike and seek an appropriate resolution.

Should the Jail Commander be unable to resolve the grievance leading to the strike, the Jail Commander will notify the Sheriff and provide updates on the status of the hunger strike.

400.5.1 NOTIFICATION OF QUALIFIED HEALTH CARE PROFESSIONALS

The Jail Commander or the authorized designee should notify the Responsible Physician to review, coordinate, and document any medical actions taken, based upon protocols and/or at the direction of qualified health care professionals, in response to a hunger strike.

If an incarcerated person is engaging in a hunger strike due to a mental condition, the appropriate medical protocols for mental illness will be followed.

400.5.2 RESPONSE TO HUNGER STRIKES

Beginning at the line staff level, a resolution to grievances should be sought at the lowest level. The Grievances Policy shall guide staff on resolving incarcerated person grievances.

Colusa County Sheriff's Department

CA Custody Manual

Facility Emergencies

If the hunger strike remains unresolved, the Jail Commander may direct the appropriate staff to examine the incarcerated person's commissary purchases made in advance of the hunger strike, and to monitor commissary purchases made during the hunger strike. Additional staff should be directed to observe the cell area, including trash containers, of the incarcerated persons involved for evidence of food items purchased from the commissary and of food hoarding.

400.5.3 LEGAL GUIDANCE

If all attempts to resolve the grievance are unsuccessful or not reasonably possible, the Sheriff should consider consulting with legal resources or the health authority, as appropriate, to develop other steps to resolve the issues.

400.6 RESPONSE TO DISTURBANCES

The staff should attempt to minimize the disruption to normal facility operations caused by a disturbance by attempting to isolate the disturbance to the extent possible. The staff should immediately notify the Shift Supervisor or the Jail Commander of the incident. 400.6.1 NOTIFICATIONS

400.6.3 REPORTING

The Shift Supervisor or the Jail Commander should direct that an incident report be completed containing the details of the disturbance no later than the end of the shift. If appropriate, a crime report shall be initiated and prosecution sought.

400.7 RIOTS

Riots occur when incarcerated persons forcibly and/or violently take control or attempt to take control of any area within the confines of the jail.

Staff should make reasonable attempts to prevent incarcerated person-on-incarcerated person violence but should take measures to avoid being engulfed in the problem, thereby exacerbating the situation.

400.7.1 RESPONSE TO RIOTS

Once the area of the disturbance is secured and isolated from other areas of the facility, time is generally on the side of staff. If possible, the process of quelling the disturbance should slow down in order for staff to develop response plans, to ensure there are adequate facility personnel

Colusa County Sheriff's Department

CA Custody Manual

Facility Emergencies

to effectively take the required actions, and to ensure that responding staff are appropriately equipped with protective gear.

Staff should evaluate their response given the totality of circumstances in any situation, but generally should not enter the space where a riot is occurring until sufficient staff members are present to safely suppress the riot. Nothing in this policy shall prohibit any staff member from assisting staff members who are being assaulted.

All incarcerated persons who have participated in a riot shall be separated and secured as soon as practicable. If necessary, injured incarcerated persons shall receive a medical evaluation and treatment. If the injured incarcerated person is medically cleared to remain in the jail, the incarcerated person will be reclassified and moved to appropriate housing.

Other housing units must be secured, with sufficient staff remaining at their posts to continue to supervise the unaffected units. When the riot has been suppressed, all involved staff must immediately return to their assigned posts.

400.7.2 QUALIFIED HEALTH CARE PROFESSIONALS RESPONSE

A supervisor or the authorized designee should notify the appropriate qualified health care professionals and identify a staging area for medical emergency responders and for medical triage should it appear to be necessary.

The Responsible Physician or the authorized designee should be included in developing the response plan as it relates to the potential for a medical response, medical triage and treatment activities, and the safety and security of medical personnel during the incident.

400.7.3 NOTIFICATIONS

As soon as practicable, the Shift Supervisor or a responsible staff member shall notify the Jail Commander, who in turn, shall notify the Sheriff.

400.7.4 REPORTING

The Jail Commander or the Shift Supervisor shall direct that a report be written detailing the incident by the end of the shift. If appropriate, a crime report will also be prepared by the responsible law enforcement agency.

400.7.5 DEBRIEFING

All responding staff, including medical responders, shall be debriefed on the incident as soon as practicable after the conclusion of the emergency incident. The staff shall examine the incident from the perspective of what worked, what actions were less than optimal, and how the response to a future incident might be improved.

If appropriate, the details of the incident will be used to develop a training course for responding to facility disturbances. The goal of any debriefing process is continuous improvement. The debriefing should be focused on the incident and an improved response. A moderator should be used to ensure that no individual or group involved in the response is publicly ridiculed.

Facility Emergencies

400.8 HOSTAGES

The Department does not recognize the taking of hostages as a reason to relinquish control of the jail environment. All staff, incarcerated persons, visitors, volunteers, and contractors shall be informed of the "no hostage" policy prior to entering the facility for the first time and shall sign an acknowledgment, which the facility shall retain.

It is the policy of the Colusa County Sheriff's Department to use all available resources necessary to bring about a successful end to a hostage situation (15 CCR 1029(a)(7)(B)).

400.8.1 RESPONSE TO HOSTAGE INCIDENT

Dispatch should immediately be notified at the earliest sign of a hostage incident. Dispatch shall notify the Shift Supervisor and the Jail Commander. The Jail Commander will notify the Sheriff as soon as practicable.

The Shift Supervisor or the Jail Commander shall make every effort to ensure that the hostage incident remains confined to the smallest area possible. All door controls accessible to the incarcerated person shall be disabled. Emergency exits that lead outside the secure perimeter shall be guarded.

400.8.2 NOTIFICATION OF QUALIFIED HEALTH CARE PROFESSIONALS

At the direction of the Shift Supervisor or the authorized designee, the qualified health care professionals should be notified in order to identify a location and form a logistical plan for medical triage. The location also shall serve as a medical staging area for other medical emergency responders.

400.8.3 HOSTAGE RESCUE

Communications with the hostage-taker should be established as soon as practicable. Hostage-taker demands for the staff to open doors will not be met. A hostage rescue team should be immediately summoned and the established protocols for resolving the situation shall be implemented. The Jail Commander and Sheriff should be consulted regarding decisions faced by the hostage rescue team.

400.8.4 REPORTING AND DEBRIEFING

Following the conclusion of a hostage incident, the Jail Commander should direct that an incident report be completed by the end of the shift. All aspects of the incident should be reviewed, focusing on the incident and the outcome, with the intent of using the incident as an opportunity for continuous improvement and to identify additional training or systemic changes that may be required.

400.9 ESCAPES

Upon being made aware that an escape may have occurred, or did in fact occur, the staff member should immediately notify Booking. Booking should notify the Shift Supervisor or the Jail Commander. As soon as practicable, the Jail Commander should notify the Sheriff.

Colusa County Sheriff's Department

CA Custody Manual

Facility Emergencies

Once the escape is verified and immediate actions taken inside the facility (lockdown, etc.), the Shift Supervisor should notify all local law enforcement agencies.

400.9.1 INCARCERATED PERSON COUNTS

As soon as the facility is fully locked down, a full incarcerated person/wristband count should be taken.

All incarcerated persons who are outside of the secure perimeter of the facility (e.g., court, work details) should be located and identified. Any missing incarcerated person should have their identity disclosed and their facility record should be accessed by the Jail Commander (15 CCR 1029(a)(6)).

400.9.2 SEARCH

Concurrent with the lockdown, the area surrounding the facility should be searched for the escapee. Areas where an incarcerated person may be hiding or may have discarded jail clothing should be searched first. Any witnesses should be interviewed.

Classification officers will develop a flyer with the incarcerated person's name, description, latest picture, classification status, and charges, and supply it to the custody staff and local law enforcement. Local law enforcement should also be given the incarcerated person's last known address and a list of their associates.

400.9.3 REPORTING

The Shift Supervisor or a designated staff member should submit an incident report to the Jail Commander. A crime report should also be written regarding the escape. The incident report should focus on events and physical plant weaknesses that contributed to the escape. The Jail Commander should review the reports, interview involved parties, and develop action plans to minimize the risk of future occurrences.

400.10 CIVIL DISTURBANCES OUTSIDE OF THE JAIL

Upon being notified that jail space will be needed in response to a civil disturbance involving mass arrests, the Shift Supervisor should notify the Jail Commander. The Jail Commander should make the determination regarding the magnitude of the event and whether it warrants notification of the Sheriff.

The size of the event may also require a lockdown, suspension of any programs that are not critical to jail operations, and/or implementation of alternate staffing plans. To accommodate the influx of incarcerated persons, the Shift Supervisor shall develop a housing plan that will not adversely affect the safety and security of the facility. Program spaces, such as exercise yards, classrooms, and dayrooms, may be used to temporarily house a limited number of additional incarcerated persons.

In the event that the jail can no longer accept additional incarcerated persons without compromising the safety and security of the facility, mutual aid may be requested from allied counties. Title 15 CCR standards may be temporarily suspended. The Jail Commander shall notify

Colusa County Sheriff's Department

the California Board of State and Community Corrections (BSCC) in writing in the event that such a suspension lasts longer than three days. Suspensions lasting for more than 15 days require approval of the chairperson of the BSCC (15 CCR 1012).

400.11 REVIEW OF EMERGENCY PROCEDURES

The Jail Commander shall ensure that there is a review of emergency response plans at least annually. This review should be documented with reports submitted to the Jail Commander or the authorized designee within 10 days of the review for approval. This review should also include the signatures or initials of the facility staff responsible for the review. At a minimum, the review shall include:

- (a) Assignments of persons to specific tasks in emergency situations.
- (b) Instructions in the use of the alarm systems and signals.
- (c) Systems for the notification of appropriate persons outside of the facility.
- (d) Information on the location and use of emergency equipment in the facility.
- (e) Specification of evacuation routes and procedures.

400.12 TRAINING

The staff shall be trained annually on this policy. This facility will provide emergency preparedness training as part of orientation training for all personnel assigned to the facility and for those who may be required to respond to the facility in an emergency. The staff shall also receive refresher training at least annually in the emergency response plans. The Training Officer is responsible for developing and delivering appropriate initial training and annual refresher training.

Emergency planning training should occur in the form of classroom instruction (or roll call training), mock practical exercises, and drills. Each type of emergency covered in the emergency response plan must be included in the training.

A lesson plan, staff training sign-up sheet with the dates and the times training should be provided, and proof of competency (testing) for each participant should be maintained by the Training Officer.

The Training Officer shall forward an annual report to the Sheriff and the Jail Commander on the status of emergency response plan training. Any training deficiencies identified in this report should be rectified within 90 days of the report.

The facility emergency plans and all training shall be documented by the Training Officer and retained in accordance with established records retention schedules.

Emergency Staffing

401.1 PURPOSE AND SCOPE

The facility must operate at all times as a safe and secure environment, regardless of staffing levels. Consequently, contingency plans must be made in advance for any staffing emergency or planned job action, regardless of the length of the staffing deficit.

The purpose of this policy is to establish roles and responsibilities for creating and implementing emergency staffing plans, providing appropriate emergency staffing training to supervisory and management personnel, and identifying an update schedule and distribution list for the plan, as identified by the Sheriff or the authorized designee.

401.2 POLICY

It is the policy of this department to be prepared to operate a safe and secure facility in the event of a work staffing emergency. Staffing emergencies that could negatively affect the good order of the facility may include but are not limited to an outbreak of infectious disease, a work stoppage or strike by the staff, a natural disaster, or other disruption. The Sheriff, the Jail Commander, or the authorized designee shall be responsible for ensuring that an appropriate emergency staffing plan exists.

401.2.1 EMERGENCY STAFFING

In the event the Jail Commander becomes aware that a staffing emergency exists or may occur, staff members who are present may be ordered to remain at their posts. The Jail Commander will notify the Sheriff. Plans should include measures to achieve minimum staffing for the facility within four hours of a staffing emergency and may include the following operational adjustments:

- The facility may go to a lockdown. Minimum activities, including visiting, exercise and other programs will be suspended only if necessary. Meals, cleaning, medical services, court transportation and attorney visits will continue. Other activities will be assessed by the Jail Commander on a case-by-case basis.
- Supervisory and management personnel may have time-off cancelled or rescheduled for the duration of the staffing emergency.
- Staff from other areas of the department who have custody experience may be used to fill vacancies in the facility.
- Assistance from allied agencies may be requested to help management and supervisors in safely staffing the facility.
- Contracting with surrounding facilities may be necessary if adequate staffing cannot be obtained to safely operate the facility.
- In the event of a health-related staffing emergency, the Department Safety Representative and medical staff shall be notified in accordance with the Communicable Diseases Policy.

401.2.2 LEGAL ASSISTANCE

In cases where the Jail Commander becomes aware that a work stoppage is planned or has occurred, legal counsel should be consulted for assistance in preparing the necessary legal action to either prevent the work stoppage or to cause it to cease. Immediate contact with the employees' representatives may also be necessary to prevent or conclude the job action.

401.2.3 TRAINING

The Jail Commander or the authorized designee should be responsible for:

- (a) Establishing a distribution list for the contingency plan.
- (b) Establishing a periodic review and update of the plan.
- (c) Ensuring that all supervisors and managers are periodically trained on the plan.
- (d) Ensuring that all supervisors and managers are provided a copy of the plan and/or a means to access it in the event of an emergency.
- (e) Documenting all training.
- (f) Maintaining training records for each supervisor and manager and ensuring that those personnel periodically receive appropriate update training on the plan.

Fire Safety

402.1 PURPOSE AND SCOPE

The threat of fire and toxic smoke in the facility represents a significant risk to the safety and security of the community, the staff, incarcerated persons, volunteers, contractors, and visitors. The purpose of this policy is to clearly identify and conform to applicable federal, state, and/or local fire safety codes, and to establish a process of creating, disseminating, and training all individuals in the facility on the emergency plans for fire safety and evacuation.

402.2 POLICY

It is the policy of this department that fire prevention strategies are a high priority.

The Jail Commander shall ensure that a fire alarm and detection and suppression system, as required by law, are installed, maintained, and periodically tested. Any variance, exception, or equivalency issues must be approved by the fire jurisdiction authorities and must not constitute a serious life-safety threat to the occupants of the facility (15 CCR 1029(a)(7)(A); 15 CCR 1032 et seq.).

402.2.1 FIRE CODES

The Department shall conform to all federal, state, and local fire safety codes.

402.2.2 FIRE PREVENTION RESPONSIBILITY

All staff, volunteers, and contractors who work in the facility are responsible for the prevention of fires. They should be trained and given the tools to carry out the tasks necessary to reduce the risk of fire.

402.3 FIRE SUPPRESSION PRE-PLANNING

402.4 FIRE PREVENTION EQUIPMENT

All required fire alarms, sprinklers, and detection devices shall be in good working order at all times.

Should such a device become inoperative, the Jail Commander or the authorized designee shall be responsible for ensuring that emergency repairs are undertaken as soon as possible and that staff is provided with an alternative emergency fire safety and evacuation plan.

Any time any fire prevention system is inoperative and poses a serious life-safety risk, that portion of the facility shall not be inhabited by incarcerated persons or staff.

402.5 FIREFIGHTING EQUIPMENT

The Jail Commander shall ensure that the facility is equipped with the necessary firefighting equipment (e.g., fire hoses, extinguishers) in an amount and in a location as recommended by the local fire authority or other qualified entity. The locations of firefighting equipment will be shown on the facility fire plan (schematic).

While the staff is not trained as fully qualified firefighters, the Jail Commander or the authorized designee will ensure that the staff is trained to initially respond to a fire with the purpose of facilitating the safety of the occupants, including evacuation, if necessary.

402.6 FIRE TRAINING

The Training Officer is responsible for ensuring that within the first six months of assignment to the facility, all staff members receive training on the use of the facility's firefighting equipment sufficient to demonstrate proficiency. The staff should receive refresher training at least annually on the use of firefighting equipment.

Each shift will have at least one staff member who is trained to maintain the facility's firefighting equipment.

402.7 INSPECTIONS

The Department shall be inspected by an appointed staff member who is qualified to perform fire and safety inspections on a monthly basis to ensure that fire safety standards are maintained (15 CCR 1032). These inspections will be focused on, but not limited to, fire prevention, staff training and proficiency, firefighting equipment availability and functionality, alarms, fire detectors, fire safety equipment, and staff familiarity with prevention and suppression techniques, suppression pre-planning, SCBA use, emergency response, fire safety equipment use, and the evacuation plan.

The Jail Commander or the authorized designee shall ensure that staff conduct weekly fire and safety inspections of the facility and that all fire safety equipment is tested at least quarterly (15 CCR 1029(a)(7)(E)).

Colusa County Sheriff's Department

402.7.1 FURNISHINGS

All furnishings allowed in the facility shall meet fire authority standards for fire performance characteristics. Prior to the introduction of any furnishing into the facility, the staff shall receive clearance from the local fire authority as to its appropriateness.

402.7.2 FLAMMABLE, TOXIC, AND CAUSTIC MATERIALS

The Jail Commander, in collaboration with the local environmental health expert, will review the type of materials introduced into the facility to ensure that flammable, toxic, and caustic materials are controlled and used safely. All such materials will be safely stored and only used by incarcerated persons under the direction of the staff.

402.8 EMERGENCY HOUSING OF INCARCERATED PERSONS

The Jail Commander or the authorized designee shall develop a plan for the emergency housing of incarcerated persons in the event of a fire (15 CCR 1032(e)). The plan should include procedures for continuing to house incarcerated persons in the facility, identification of alternate facilities and the potential capacity of those facilities, incarcerated person transportation options, and contact information for allied agencies. This plan shall be reviewed annually and revised if necessary.

Emergency Power and Communications

403.1 PURPOSE AND SCOPE

The Colusa County Sheriff's Department facility must continue to operate as a safe and secure environment regardless of emergencies, including electrical outages. The purpose of this policy is to establish guidelines regarding back-up power and communication systems, and the inspection, preventive maintenance, and testing of the systems to ensure a seamless transition in the event of a loss of power.

403.2 POLICY

It is the policy of this department to ensure that power to critical systems and communications continues to operate within the facility in the event of a loss of power.

403.2.1 PREVENTIVE MAINTENANCE

It is the responsibility of the Sheriff and the Jail Commander to ensure that there is sufficient emergency power to operate all essential lighting, security equipment, safety equipment, and communications systems. The emergency power system should have sufficient fuel to allow the facility to operate continuously for a three-day period, if necessary, without external resources.

The emergency power system should be inspected, tested, and maintained as necessary. In the event that the system fails, the Jail Commander or the Shift Supervisor should contact the designated maintenance authority or repair company to obtain necessary repairs as soon as practicable. If the emergency power system cannot be repaired within eight hours, portable emergency generators should be secured as a temporary emergency power source until the repair or replacement of the primary system occurs.

403.2.2 SAFETY AND SECURITY

All safety and security equipment will be repaired or replaced in an expedited manner by qualified personnel. In the event that safety and/or security equipment become inoperable or damaged and it is not safe to operate a secure portion of the facility, that portion of the facility should be vacated and the incarcerated persons housed elsewhere. Or, staffing should be increased sufficiently for the area to remain safe and secure until the repair can be completed.

403.2.3 INSPECTION AND TESTING

The Jail Commander or the authorized designee is responsible for scheduled testing of emergency power systems (15 CCR 1029). The power system manufacturer should be contacted for the required testing intervals and load information. The emergency power system should be load-tested in accordance with the manufacturer's recommendations or at least quarterly.

All emergency equipment and systems should be inspected and tested by a qualified individual at least quarterly.

Power generators should be inspected and tested by a qualified individual at least weekly.

Emergency Power and Communications

All testing and inspections shall be documented and the results included in a report to the Jail Commander.

Evacuation

404.1 PURPOSE AND SCOPE

The purpose of this policy is to promote planning and to establish procedures, responsibilities, and training requirements for the staff of the Colusa County Sheriff's Department jail in case of fire and other emergency evacuations.

404.2 POLICY

The community, staff, volunteers, contractors, and incarcerated persons should have a well-researched and validated evacuation plan that can be implemented in the event any portion of this facility requires evacuating due to an emergency (e.g., fire, smoke, flood, storm) (15 CCR 1032(d)). All custody staff should be knowledgeable about the evacuation plan, policy, and procedures.

404.3 EVACUATION PLAN

The Colusa County Sheriff's Department maintains an evacuation plan to be implemented in the event of a fire, natural disaster, or other emergency (15 CCR 1032(d)). At a minimum the evacuation plan shall address the following:

- Procedures on how incarcerated persons are to be released from locked areas
- Relocation areas to be used for housing incarcerated persons in the event of a full or partial evacuation
- Notifications
- Training and drill requirements for staff
- Reporting requirements

The Jail Commander shall ensure that the evacuation plan is maintained and updated as needed and is reviewed for accuracy at least annually by a qualified independent inspector and in coordination with the local fire authority.

A current copy of the evacuation plan shall be maintained in the Support Services office and in the command area of each annex facility.

404.3.1 EXITS

All facility exits should be marked with signs that clearly indicate the direction of traffic.

Except for temporary reasons, such as maintenance or repairs, all exits to the facility shall remain free from obstacles at all times regardless of the frequency of use. It is the duty of all staff to remove any obstructions that block, either partially or completely, staff's ability to observe or use any exit.

All housing areas and places of assembly that are designed for occupancy of 50 individuals or more shall have two available exits.

Colusa County Sheriff's Department

Evacuation

404.3.2 EVACUATION PLANS AND ROUTES

Plans for evacuation routes will be posted in all public areas of the facility. All custody staff will be familiar with evacuation routes for incarcerated persons.

404.3.3 EMERGENCY HOUSING OF INCARCERATED PERSONS

The Jail Commander or the authorized designee shall develop a plan on the emergency housing of incarcerated persons in the event of a full or partial evacuation of the facility. The plan will address when incarcerated persons should be housed in place, identification of alternate facilities, and the potential capacity of those facilities, incarcerated person transportation options, and contact information for allied agencies. This plan shall be reviewed at least annually and revised if necessary.

404.4 TRAINING DRILLS

The Jail Commander should ensure that drills of the evacuation plan are conducted at least annually, or more often if required by code, for each shift and at all facility locations. Drills will include staff and volunteers. The local fire agency may be invited to participate in one or more drills annually. Nonviolent and compliant incarcerated persons may participate. Violent and/or dangerous incarcerated persons or those known to be a flight risk will not be involved in the drills.

Drills should be designed to ensure that all staff members are proficient in their duties during each type of evacuation. Each drill should be documented as to its scope and participants. Upon completion of the drill, each staff member will be required to complete a written test to document knowledge and to show proficiency.

Chapter 5 - Incarcerated person Management

Population Management

500.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a system of incarcerated person population accounting that promotes the safety and security of the facility on a daily operational basis. It assembles data that enables the Department to forecast staffing and facility growth needs into the future, and to plan for the associated expenditures.

500.2 POLICY

It is the policy of this facility that an incarcerated person population management system should be established and maintained to account for the admission, processing, transfer, and release of incarcerated persons.

500.3 REPORTS

The Jail Commander or the authorized designee is responsible for ensuring that detailed daily reports of the facility's incarcerated person population are completed and maintained by the staff. The reports shall reflect the average daily population of sentenced and non-sentenced incarcerated persons by categories of gender and juvenile status. The Jail Commander should collect and submit the data to the Sheriff in a monthly report within 10 working days of the end of each month. The Sheriff or the authorized designee should maintain the data in an accessible format for historical purposes and trend analysis and to respond to funding opportunities (see the Crowding Policy) (15 CCR 1040).

500.4 DATA COLLECTION

For each reporting period, the report should include but is not limited to:

Counts

501.1 PURPOSE AND SCOPE

Incarcerated person counts are vital to the security of the facility, the safety of the staff, and the welfare of the incarcerated persons. This policy establishes guidelines for the frequency of incarcerated person counts, which ensures that all incarcerated persons and their status can be accounted for at any time.

501.2 POLICY

It is the policy of this department to account for all incarcerated persons within and under the control of this facility through scheduled and other counts as needed (15 CCR 1029(a)(6)).

501.3 PROCEDURE

The Jail Commander or the authorized designee shall be responsible for creating and maintaining a written procedure establishing the process and frequency of counts. Incarcerated person counts shall be conducted at least once every eight hours. Emergency counts may be conducted at the direction of the Shift Supervisor as needed. Electronic counts shall not be substituted for direct staff observation.

All counts shall be documented on the daily activity log and verified by the Shift Supervisor. Counts shall include all persons in custody, including those on work assignments, furlough and education release, and those who are off-site, such as at the hospital or court.

Any discrepancy in the count should immediately be reported to the Jail Commander and resolved prior to the release of the shift personnel responsible for the count. Members shall notify a supervisor when an individual makes a claim of mistaken identity or identity fraud.

Individuals who can post bail or qualify for a release on their Own Recognizance (O.R.), citation, or Penal Code § 849(b) will be processed and released (15 CCR 1029(a)(5)).

502.3.1 MEDICAL PRE-SCREENING FORM

The arrestee may subsequently be booked if a written medical clearance indicating acceptability for incarceration is provided.

If the facility medical provider is on-duty they may be called for conditions not listed on the medical pre-screening form.

All correctional staff shall undergo periodic training on medical screening issues and practices. This training shall be conducted by the jail medical provider and include use of the screening form, symptom recognition, documentation of observations/responses, and method of referral.

Safety Checks

504.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a requirement for conducting visual safety checks for all incarcerated persons, and for creating and maintaining a log to document all safety checks.

504.2 POLICY

It is the policy of the Colusa County Sheriff's Department that all correctional staff shall conduct safety checks on all incarcerated persons, at a frequency determined by custody status, housing classification, and applicable state law.

504.3 SAFETY CHECKS

The staff shall adhere to the following procedures when conducting safety checks (15 CCR 1027; 15 CCR 1027.5):

- (a) Safety checks shall be conducted twice every 60 minutes and more frequently if necessary.
- (b) Safety checks shall be conducted on an irregular schedule (staggered) so that incarcerated persons cannot predict when the checks will occur.
- (c) Safety checks shall be done by personal observation of the correctional officer and shall be sufficient to determine whether the incarcerated person is experiencing any stress or trauma.
- (d) Cameras and monitors may supplement the required visual observation safety checks, but they shall not replace the need for direct visual observation.
- (e) Safety checks will be clearly documented on permanent logs in accordance with the department Daily Activity Logs and Shift Reports Policy.
- (f) Actual times of the checks and notations should be recorded on the daily activity logs.
- (g) Log entries shall never be made in advance of the actual check. Log entries made in this manner do not represent factual information and are prohibited.
- (h) Special management incarcerated persons shall be checked more frequently as detailed in the Special Management Incarcerated Persons Policy.

504.3.1 SAFETY CHECK DOCUMENTATION

All safety checks shall be documented. Documentation shall include (15 CCR 1027.5):

Safety check documentation shall be reviewed at regular, defined intervals by the Jail Commander or supervisor. The review shall include any noted inconsistent documentation or any untimely completion of safety checks (15 CCR 1027.5).

Special Management Incarcerated Persons

505.1 PURPOSE AND SCOPE

Incarcerated persons who pose a heightened risk to themselves or others require special management, including frequent interaction and increased supervision by staff. Interaction with special management incarcerated persons is essential to maintaining a safe, secure, and humane environment. This policy establishes guidelines and procedures for interacting with special management incarcerated persons in the custody of the Colusa County Sheriff's Department.

505.1.1 DEFINITIONS

Definitions related to this policy include:

Administrative separation - The physical separation of an incarcerated person who has (15 CCR 1053):

- (a) A documented history of activity or behavior, or promoting such activity or behavior, that is criminal in nature, disruptive to facility operations, or affects the safety of the facility, other incarcerated persons, and facility staff.
- (b) Influenced or participated in activity that is criminal in nature or disruptive to facility operations or affects the safety and security of the facility, other incarcerated persons, and facility staff.
- (c) A history of escape or recently attempted escape.
- (d) Committed assault, attempted assault, or participated in a conspiracy to assault or harm other incarcerated persons or facility staff.
- (e) A demonstrated need for protection from other incarcerated persons and facility staff.

This is a non-punitive classification process and must not adversely affect an incarcerated person's health (15 CCR 1053).

Protective custody separation - A level of custody either requested or required for an incarcerated person's protection from others.

Special management incarcerated person - An incarcerated person who is either classified as administrative separation or protective custody separation. Classification as a special management incarcerated person is a non-punitive classification.

505.2 POLICY

This department shall provide for the secure and restrictive housing of any special management incarcerated person but shall not impose more deprivation of privileges than is necessary to obtain the objective of protecting the incarcerated person, staff, or the public (15 CCR 1053).

505.3 SPECIAL MANAGEMENT INCARCERATED PERSONS HOUSING CRITERIA

The safety and security of this facility is dependent on a classification system that identifies incarcerated persons who pose a risk to themselves or to others. Incarcerated persons who pose such a risk must be promptly and appropriately separated from the general incarcerated persons

Colusa County Sheriff's Department

CA Custody Manual

Special Management Incarcerated Persons

population until such time that they no longer pose a risk. Staff must have the ability to promptly separate these incarcerated persons pending further review.

Individuals who may be classified as special management incarcerated persons include but are not limited to incarcerated persons who are:

- In protective custody or court-imposed separation.
- Exhibiting mental health concerns.
- An escape threat.
- A serious violence threat.
- Known to have gang affiliation.
- A known management problem.
- A suicide risk.
- Exhibiting medical issues.
- Physically impaired.

505.4 CIRCUMSTANCES REQUIRING IMMEDIATE SEPARATION

Incarcerated persons will generally be assigned to separation through the classification process. The Jail Commander or the Shift Supervisor has the authority to immediately place any incarcerated person into separation when it reasonably appears necessary to protect the incarcerated person or others (15 CCR 1081(d)).

Reasons that an incarcerated person may be placed into separation include the following:

- (a) The incarcerated person requests protection or is under court-ordered protection, or the staff has determined that the incarcerated person requires protection.
- (b) There is reason to believe the incarcerated person poses a danger to themselves or others.
- (c) The incarcerated person poses an escape risk.
- (d) The incarcerated person requires immediate mental health evaluation and medical housing is not reasonably available.
- (e) The incarcerated person is charged with a disciplinary infraction and is awaiting a disciplinary hearing and in the judgment of the staff, the incarcerated person may become disruptive or dangerous if left in general population.
- (f) The incarcerated person is in the process of being transferred to a higher security classification.
- (g) Other circumstances where, in the judgment of the staff, the incarcerated person may pose a threat to themselves, others, or the security of the facility.

Colusa County Sheriff's Department

CA Custody Manual

Special Management Incarcerated Persons

505.4.1 REVIEW PROCESS

The Jail Commander shall be notified when any incarcerated person is placed into immediate separation and shall be informed of the circumstances leading to the order to separate. Within 72 hours of the incarcerated person being placed into restrictive housing, the Jail Commander or the authorized designee must review the circumstances surrounding the separation to determine which of the following actions shall be taken:

- (a) The incarcerated person is designated for administrative separation.
- (b) The incarcerated person is designated for protective custody.
- (c) The incarcerated person remains separated pending a disciplinary hearing.
- (d) The incarcerated person is returned to general incarcerated person population.

505.5 PROTECTIVE CUSTODY

The correctional officer responsible for assigning classifications to incoming incarcerated persons shall clearly document the reason an incarcerated person should be placed into protective custody. Incarcerated persons in need of protective custody may be placed in a separation unit when there is documentation that the protective custody is warranted and separation is the least restrictive alternative reasonably available.

Incarcerated persons who are in protective custody shall receive all services and programs that are available to incarcerated persons in general population and that are deemed a privilege. Any deviation from allowing usually authorized items or activities shall be documented on the incarcerated person's file.

505.6 MAINTENANCE OF PROGRAMS AND SERVICES

Administrative separation and protective custody shall consist of separate and secure housing but shall not involve any deprivation of privileges other than what is necessary to protect the incarcerated person or staff (15 CCR 1053).

Incarcerated persons who are classified for housing in administrative separation or protective custody shall, at a minimum, be allowed access to programs and services, including but not limited to:

- Incarcerated person telephones.
- Visitation.
- Educational programming appropriate to the incarcerated person's classification.
- Commissary services.
- Library and law library services.
- Social services.
- Faith-based guidance, counseling, and religious services.
- Out of cell time activities and exercise.

- Social and professional visits.

Nothing in this policy prohibits changing the delivery of programs or services to separated incarcerated persons in order to provide for the safety and security of other incarcerated persons and staff.

505.7 REVIEW OF STATUS

The Shift Supervisor or the classification officer shall review the status of all incarcerated persons who are housed in restrictive housing units and designated for administrative separation or protective custody. This review shall occur every seven days for the first two months of separation and at least once every 30 days thereafter. The review should include information about these incarcerated persons to determine whether their status in administrative separation and protective custody is still warranted.

If other reasonable housing options exist that will provide for the safety of the incarcerated person and the facility, the incarcerated person should be moved out of separation. In reviewing an alternative housing decision for an incarcerated person in protective custody, the safety of the incarcerated person should receive the utmost consideration.

505.8 HEALTH EVALUATION REQUIREMENTS

After notification from staff that an incarcerated person is being placed in separation, the Shift Supervisor shall ensure that the following occurs:

- (a) A qualified health care professional shall assess the incarcerated person's health needs and coordinate the appropriate housing assignment.
- (b) If contraindications or special accommodations are noted, the qualified health care professional shall inform the Shift Supervisor and coordinate the appropriate plan for the incarcerated person based on the safety needs of the facility and the medical needs of the incarcerated person.

505.8.1 HEALTH CONSIDERATIONS

Due to the possibility of self-inflicted injury and depression during periods of separation, health evaluations should include notations of any bruises and other trauma markings and the qualified health care professional's comments regarding the incarcerated person's attitude and outlook.

- (a) Unless medical attention is needed more frequently, each incarcerated person in separation should receive a daily visit by medical staff. A medical assessment should be documented in the incarcerated person's medical file.
- (b) A qualified health care professional shall also conduct weekly mental health evaluations.

When an incarcerated person is classified as a special management incarcerated person due to the presence of a serious mental illness and is placed in a separation setting, the staff shall document this in the incarcerated person's file and notify the qualified health care professional. When an incarcerated person is expected to remain in separation for more than 30 days, the qualified health care professional shall be notified.

Colusa County Sheriff's Department

CA Custody Manual

Special Management Incarcerated Persons

Where reasonably practicable, a qualified health care professional should provide screening for suicide risk during the three days following admission to the restrictive housing unit.

505.9 SAFETY CHECKS

A staff member shall conduct a face-to-face safety check of all special management incarcerated persons, including those housed in administrative segregation or protective custody, at least twice every 60 minutes on an irregular schedule. Inmates who are violent, have mental health problems, or demonstrate behavior that is easily identified as out of the ordinary or bizarre in nature should be personally observed by the staff more frequently on an irregular schedule.

Incarcerated persons who are at risk of suicide shall be under continuous observation until seen by a qualified health care professional. Subsequent supervision routines should be in accordance with orders provided by the qualified health care professional.

Special management incarcerated persons shall receive increased monitoring to include, at a minimum:

- (a) A daily visit by the Jail Commander or the authorized designee.
- (b) Visits by members of the program staff, upon request.

All management, program staff, and qualified health care professional visits shall be documented in the appropriate records and logs and retained in accordance with established records retention schedules.

505.9.1 SUBSECTION TITLE

505.10 LOG PROCEDURES

Handwritten logs should be completed in ink. Once an entry is made it should not be modified. If corrections or changes are needed, they should be done by way of a supplemental entry. Electronically captured logs will be maintained in a way that prevents entries from being deleted or modified once they are entered. Corrections or changes must be done by way of supplemental entries. At a minimum the log will contain the following:

- Incarcerated person's name
- Incarcerated person's booking number
- Classification status
- Housing assignment

Colusa County Sheriff's Department

CA Custody Manual

Special Management Incarcerated Persons

- Counseling for behavior
- Removal date and time from special housing

Log entries should be legible, entered promptly, and provide sufficient detail to adequately reflect the events of the day for future reference.

The date and time of the observation or incident and the name and identification number of the staff member making the log entry shall be included on each entry.

Supervisors should review the logs frequently during the shift and enter comments as appropriate. At a minimum, supervisors should enter the date and time of each review.

All safety checks will be documented in detail and should include the exact time of the safety check and the identification information of the employee conducting the check. All documentation will be gathered and provided to the Shift Supervisor or the Jail Commander at midnight each day.

505.10.1 LOG INSPECTION AND ARCHIVE OF LOGS

The Shift Supervisor shall review and evaluate the logs and pass any significant incidents via the chain of command to the Jail Commander for review.

The logs will be retained by the Department in accordance with established records retention schedules, but in no case for less than one year.

Civil Detainees

506.1 PURPOSE AND SCOPE

This policy provides safeguards to ensure that persons held under a civil detainee are afforded appropriate standards of custody.

Nothing in this policy prevents application of discipline under the Discipline Policy.

506.1.1 DEFINITIONS

Definitions related to this policy include:

Civil detainee - Any person in custody held for a reason other than for criminal matters.

Enhanced security concern - A status applicable to a civil detainee that indicates the person poses an enhanced threat to staff or others due to the person's past criminal behavior, criminal sophistication, or other actions.

506.2 POLICY

It is the policy of the Colusa County Sheriff's Department that any confinement conditions placed on civil detainees are for legitimate, non-punitive purposes.

506.3 LESS RESTRICTIVE CONDITIONS

Civil detainees should not be restricted in their activities to any extent greater than that reasonably necessary to maintain order and security, and to ensure their appearance at any arraignments or trials. Generally, the accommodations of these detainees should be above the level of non-sentenced, general population incarcerated persons. The Jail Commander or the authorized designee should institute alternative and less harsh confinement methods for these detainees, while still maintaining security and effective management of the facility.

506.4 SCREENING

Civil detainees should undergo the same screening process as incarcerated persons, including attention to whether the person poses an enhanced security concern.

The Jail Commander or the authorized designee should review the screening documents to ensure any security concerns are appropriately addressed and are part of the detainee's record.

506.5 ORIENTATION

Civil detainees should receive orientation materials explaining the benefits and rules that are applicable to them.

Staff should specifically review the grievance process with the detainees and encourage them to use the grievance process when appropriate.

506.6 CONDITIONS OF CONFINEMENT IN HOUSING

All civil detainees should be housed separately from other incarcerated persons.

Colusa County Sheriff's Department

CA Custody Manual

Civil Detainees

506.6.1 CLOTHING

Civil detainees should be provided a minimum of 50 percent additional clothing exchanges than incarcerated persons in general population and be provided with an extra set of undergarments and socks that they may retain in their housing area.

Civil detainees should be provided an additional storage container for their personal belongings and extra issued clothing.

506.6.2 USE OF RESTRAINTS AND TRANSPORTATION

Civil detainees should not be placed in leg or waist restraints absent an identified security concern.

Civil detainees may be handcuffed in the event that there is a need to control the detainee based on identified security concerns.

Civil detainees should be transported separately from incarcerated persons.

506.6.3 OUT OF CELL TIME

Civil detainees should receive a minimum of 50 percent additional out of cell time (indoor and outdoor) than incarcerated persons in the general population. Out of cell time may be increased by the Jail Commander as resources allow.

506.6.4 ACCESS TO MAIL AND TELEPHONE

Civil detainees shall have the same access to books, periodicals, and magazines as any other general population incarcerated person, except incoming books and magazines must only be censored with a substantial government interest, and only when it is necessary or essential to address the particular government interest. Incoming books, periodicals, or magazines may be justifiably confiscated from a detainee when there is a government interest to:

- (a) Maintain facility security and safety, such as a book covering improvised weapons or promoting aggression.
- (b) Prevent dangerous conduct.
- (c) Comply with a court order or court-ordered treatment plan.

Outgoing and incoming mail may be inspected but not read, unless there is specific and articulable information to believe a particular security or safety issue.

Civil detainees should be provided with a minimum of 50 percent additional telephone access than incarcerated persons in the general population. Civil detainees should be provided with telephone privacy. A reasonable amount of telephone messages should be taken for a civil detainee.

506.6.5 VISITING

Civil detainees should be allowed to receive a minimum of 50 percent additional visitation time than incarcerated persons in the general population.

506.6.6 MENTAL HEALTH CARE

Civil detainees who are detained due to issues related to their mental health should be provided with:

Colusa County Sheriff's Department

CA Custody Manual

Civil Detainees

- (a) An interview with the civil detainee's established mental health care provider and/or a review of the civil detainee's records by an department mental health professional.
- (b) A review of the reasonable options available to address the civil detainee's continued mental health care. The department's mental health professional and the Jail Commander or the authorized designee should identify benefits or restrictions that may advance the purpose of the civil detainee's confinement. Examples include:
 - 1. Restricting or providing special access to books, periodicals, or internet sites as part of the civil detainee's treatment.
 - 2. Providing special access to mental health care professionals or other visitors.
- (c) A conference with the detainee's mental health care provider prior to the decision to discipline the detainee.

506.7 SEARCHES

Strip searches of civil detainees must be justified by probable cause, unless the Jail Commander specifies otherwise based upon an identified security concern. The specified concern shall be documented in the detainee's record. Modified strip searches may be conducted when a detainee has entered an environment where contraband or weapons may be accessed (see the Searches Policy).

Absent an identified security concern or reasonable suspicion that contraband may be found, there should be no unscheduled cell searches of a detainee's personal effects or a cell search when the detainee is not present. Non-invasive cell inspections for security purposes may still be conducted.

Management of Weapons and Control Devices

507.1 PURPOSE AND SCOPE

This policy will address the availability and control of weapons.

507.2 POLICY

It is the policy of the Colusa County Sheriff's Department that the presence and the use of weapons in the jail will be tightly controlled and supervised to reduce the potential for injury. Staff will only carry and use those weapons for which they have been trained in and are qualified to use.

507.3 FIREARMS

With the exception described below, armed personnel shall secure all firearms in gun lockers located at the entry points prior to entering the secure perimeter. Firearms shall not be stored inside the secure perimeter at any time. If it is necessary to load or unload a firearm, personnel shall use the clearing barrels located outside of the facility's secure perimeter to facilitate the safe loading and unloading of firearms.

Firearms shall only be allowed in the secure perimeter of the facility when it is necessary to protect the safety and security of staff, incarcerated persons, contractors, volunteers, or the public.

Firearms shall only be allowed inside the secure perimeter with the approval of the Jail Commander or authorized designee and under the direct supervision of a supervisor.

507.4 OTHER WEAPONS, TOOLS, AND CHEMICAL AGENTS

Department-approved weapons, tools, and chemical agents, including but not limited to pepper projectiles, batons, conducted energy devices (CEDs), impact weapons, weapon-fired projectiles, noise/flash distraction devices, sting grenades, and similar devices, may be possessed and used only by custody staff members who have received department-authorized training and are qualified to use them.

Department-approved weapons, tools and chemical agents shall only be allowed inside the secure perimeter with the approval of the Jail Commander or the authorized designee.

507.5 STORAGE OF WEAPONS, CHEMICAL AGENTS, AND CONTROL DEVICES

The armory shall be located in a secure and readily accessible repository outside of incarcerated person housing and activity areas. It shall be secured at all times. Access to the armory shall be limited to the Jail Commander and the Shift Supervisor or the authorized designee. Only personnel who have received department-approved training in the maintenance of the stored equipment and who have been designated by the Jail Commander are authorized to be inside the armory.

- (c) All security equipment, such as helmets, face shields, stab or protective vests, and handheld shields.
- (d) All department-approved chemical agents.

Explosive materials will be stored in a safe approved by the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) and in compliance with 27 CFR 555.201 et seq.

507.5.1 WEAPONS LOCKER

There should be a secure weapons locker located outside of the secure perimeter of the jail.

507.5.2 INVENTORY

The Jail Commander should designate one or more properly trained staff to be responsible for maintaining all weapons, chemical agents, and control devices in a safe and secure manner, and to inventory and report the condition and availability of the facility's weapons and control devices on a monthly basis.

To facilitate the inventory, all weapons, chemical agents, and control devices shall be stored in assigned locations inside the armory. A log sheet shall be maintained within the armory at all times, detailing the exact location of each item. The removal of any weapon, chemical agent, or control device shall be documented on the log sheet, showing who removed the item, the date and time of removal, and the reason for removal. An additional log entry shall be made indicating the date and time of the item's return.

The Shift Supervisor and the Jail Commander shall be immediately notified in the event that any weapon, chemical agent, or control device is determined to be missing. An immediate and thorough search of the facility shall take place in order to locate the item.

507.5.3 REVIEW, INSPECTION, AND APPROVAL

Every control device and chemical agent will be periodically inspected for serviceability and expiration dates by the Rangemaster or the instructor designated to train on the use of a particular control device or chemical agent. The Rangemaster or the designated instructor is responsible for ensuring replacement of outdated or unserviceable items.

Classification

508.1 PURPOSE AND SCOPE

This policy describes the Colusa County Sheriff's Department's classification process, which is designed to identify security and health issues so that incarcerated persons may be held and housed in such a way as to foster a safe and secure facility (15 CCR 1050).

508.1.1 DEFINITIONS

Definitions related to this policy include:

Civil detainee - Any person held in custody for a reason other than for criminal matters.

508.2 POLICY

It is the policy of this department to process all arrestees and detainees entering this facility to determine whether they will be housed in the facility, cited and released, released on their own recognizance (O.R.) or bail, or released back to the community through an appropriate release mechanism, including alternatives to incarceration programs, such as electronic supervision.

Anyone housed in the facility shall be properly classified according to security and health risks so that appropriate supervision, temporary holding, and housing assignments may be made.

508.3 RELEASE AT OR FOLLOWING CLASSIFICATION

Individuals arrested for intoxication only, with no further proceedings anticipated, should be released as soon as custodial staff reasonably determine they are no longer impaired to the extent that they cannot care for their own safety.

Misdemeanor incarcerated persons who meet criterion established by local courts may be cited and released on O.R. by the Sheriff or the authorized designee. Incarcerated persons who meet the established criteria will be interviewed by classification personnel and a determination will be made whether there is good cause to release the incarcerated person on O.R. (15 CCR 1029(a) (5)).

508.4 CLASSIFICATION PLAN

The Jail Commander or the authorized designee should create and maintain a classification plan to guide staff in the processing of individuals brought into the facility.

The plan should include an initial screening process, as well as a process for determining appropriate housing assignments (28 CFR 115.42). The plan should include use of an objective screening instrument, procedures for making decisions about classification and housing assignments, intake and housing forms, and a process to ensure that all classification and housing records are maintained in each incarcerated person's permanent file. The plan should include an evaluation of the following criteria (15 CCR 1050):

- Age
- Gender identity

Colusa County Sheriff's Department

CA Custody Manual

Classification

- Current charges
- Behavior during arrest and intake process
- Criminal and incarceration history
- Emotional and mental condition
- Potential risk of safety to others or self
- Special management status
- Special needs assessment for vulnerable incarcerated persons
- Behavioral or physical limitations or disabilities and physical/mental health needs
- Medical condition
- Level of sobriety at booking
- Suicidal ideation
- Escape history and degree of escape risk
- Prior assaultive or violent behavior
- The need to be separated from other classifications of incarcerated persons (e.g., gang affiliation, confidential informant, former law enforcement, sexual orientation)
- Prior convictions for sex offenses against an adult or child
- Whether the incarcerated person is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender non-conforming (see the Prison Rape Elimination Act Policy for transgender and intersex definitions)
- Previous sexual victimization
- The incarcerated person's own perceptions of vulnerability
- Whether the incarcerated person is a foreign national and, if so, from what country (see the Foreign Nationals and Diplomats Policy)
- Prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the Department (28 CFR 115.41)
- Any other criteria as deemed appropriate by the Sheriff or the authorized designee
- Any other requirements for a classification plan under 15 CCR 1050

The plan should include a methodology for evaluating the classification process and a periodic review for the purpose of continuous quality improvement.

Information obtained in response to screening questions shall be considered confidential and shall only be made available to those who have a legitimate need to know (28 CFR 115.41).

Colusa County Sheriff's Department

CA Custody Manual

Classification

508.4.1 INCARCERATED PERSON RESPONSE TO SCREENING

Incarcerated persons may not be compelled by threat of discipline to provide information or answers regarding (28 CFR 115.41):

- (a) Whether the incarcerated person has a mental, physical, or developmental disability.
- (b) Whether the incarcerated person is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming.
- (c) Whether the incarcerated person has previously experienced sexual victimization.
- (d) The incarcerated person's own perception of vulnerability.

508.5 INITIAL CLASSIFICATION

The initial classification process is intended to identify predatory, violent, and at-risk incarcerated persons. It should occur early in the intake process to allow for appropriate supervision while an incarcerated person is being temporarily held in this facility and until a decision is made to place the individual into a more permanent housing assignment.

Incarcerated persons should be interviewed by an intake correctional officer as soon as possible in the booking process. The intake correctional officer shall complete the initial classification form. The initial classification form should include a place for the intake correctional officer to make a housing recommendation. This recommendation should be based on the initial classification form, an assessment of the incarcerated person's condition, and the incarcerated person's interview.

The initial classification form shall be placed in the incarcerated person's file and provided to the classification correctional officer, who will, within the limits of available resources, determine the appropriate temporary housing location.

508.6 CLASSIFICATION UPON HOUSING

Once it has been determined that the person arrested will not be released from custody on bail or O.R., a more in-depth classification of the incarcerated person will be conducted as soon as possible but no later than 24 hours after the person's arrival at the facility, after which the person will be moved to more permanent housing.

508.6.1 INTERVIEW

The comprehensive classification process begins with a review of any initial classification information obtained during the reception and booking process, as well as an interview by the classification correctional officer. The review of initial classification documents and the questions, answers, and observations from the incarcerated person's interview will be documented and numerically scored, representing the security level and housing assignment appropriate for each incarcerated person.

Individualized determinations shall be made about how to ensure the health and safety of each incarcerated person (28 CFR 115.42; 15 CCR 1050).

Colusa County Sheriff's Department

CA Custody Manual

Classification

508.6.2 OVERRIDE

The classification correctional officer has the authority to override the scores when it appears necessary to more appropriately assign housing. The override capability exists to use the classification correctional officer's training and expertise in those instances when the numerical scores are not reflective of the incarcerated person's potential security or health risk. All overrides will be reviewed by a supervisor and are intended to be an exception, rather than the rule.

508.7 REVIEWS AND APPEALS

Once an incarcerated person is classified and housed, the person may appeal the decision of the classification correctional officer. The appeal process shall begin at the first-line supervisor level. The decision by the supervisor may be appealed to the Jail Commander or the authorized designee. The decision by the Jail Commander or the authorized designee is final.

508.7.1 PERIODIC CLASSIFICATION REVIEWS

The classification correctional officer shall review the status of all incarcerated persons who have been incarcerated in the facility for more than 30 days. Additional reviews should occur each 30 days thereafter. The review should examine changes in the incarcerated person's behavior or circumstances and should either raise, lower, or maintain the classification status (28 CFR 115.41).

Housing and program assignments for each transgender or intersex incarcerated person shall be reassessed at least twice each year to review any threats experienced by the person (28 CFR 115.42).

Incarcerated person risk levels shall be reassessed when required due to a referral, request, incident of sexual abuse, or receipt of additional information that increases the incarcerated person's risk of sexual victimization or abusiveness (28 CFR 115.41).

508.7.2 STAFF REQUESTED REVIEW

At any point during an incarcerated person's incarceration, a staff member may request a review of the incarcerated person's classification. The reason for the review, the review itself, and the outcome of the review shall be documented in the incarcerated person's permanent file. Nothing in this section shall prohibit staff from immediately moving an incarcerated person to another location in the facility based on exigent circumstances. Under such circumstances, the staff member moving the incarcerated person must immediately document the action and notify the classification correctional officer.

508.8 HOUSING ASSIGNMENTS

Incarcerated persons should be housed based upon the following criteria:

- Classification level
- Age
- Incarcerated persons will be housed in separate units based on gender
- Legal status (e.g., pretrial, sentenced)

Colusa County Sheriff's Department

CA Custody Manual

Classification

- Need for protection or separation
- Criminal sophistication
- Special problems or needs
- Behavior
- Any other criteria identified by the Jail Commander

508.8.1 SEPARATION

Incarcerated persons shall be housed to ensure visual and physical separation based on gender.

Civil detainees shall be housed separately from pretrial and sentenced incarcerated persons.

508.9 CLASSIFICATION SPACE ALLOCATION

The classification plan depends on the ability of the facility to physically separate different classes of incarcerated persons. To ensure that allocated space meets the current population needs, the Jail Commander or the authorized designee should periodically meet with representatives of the classification correctional officers to discuss the fixed resources (e.g., cells, dorms, dayrooms).

The Jail Commander should report at least quarterly to the custody management team any space issues.

508.10 SINGLE-OCCUPANCY CELLS

Single-occupancy cells may be used to house the following categories of incarcerated persons:

- Maximum security
- Administrative separation
- Medical condition or disabilities (upon consultation with medical staff and the availability of medical beds)
- Mental condition (upon consultation with mental health staff and the availability of mental health beds)
- Sexual predators
- Any incarcerated person with an elevated risk of being taken advantage of, being mistreated, or becoming a victim of sexual abuse or harassment
- Any other condition or status for single-occupancy housing

The classification supervisor shall notify the Jail Commander or the authorized designee when single-occupancy cells are not available for housing the above described incarcerated persons. In such cases, a risk assessment shall be used to identify incarcerated persons in the above categories who may be safely housed together.

508.11 PRISON RAPE ELIMINATION ACT (PREA) CONSIDERATIONS

Housing, bed, work, and program assignments should be made to separate incarcerated persons at high risk of being sexually victimized from those at high risk of being sexually abusive (28 CFR

Colusa County Sheriff's Department

CA Custody Manual

Classification

115.42). Incarcerated persons identified as being at high risk for sexually aggressive behavior will be monitored and housed in an area that will minimize the risk to other incarcerated persons and staff. All incarcerated persons identified as being at risk of victimization shall be monitored and housed in an area to minimize the risk to their safety. However, incarcerated persons at high risk for sexual victimization shall not be placed in involuntary protective custody unless an assessment of all available alternatives has been made and it has been determined that there is no available alternative means of separation from likely abusers (28 CFR 115.43; 28 CFR 115.68).

Housing and program assignments of a transgender or an intersex incarcerated person shall include individualized consideration for the incarcerated person's health and safety and any related supervisory, management, or facility security concerns (15 CCR 1050). A transgender or an intersex incarcerated person's views with respect to their own safety shall be given serious consideration.

Lesbian, gay, bisexual, transgender, or intersex incarcerated persons shall not be placed in dedicated facilities, units, or wings solely on the basis of such identification or status, unless such placement is pursuant to a consent decree, legal settlement, or legal judgment (28 CFR 115.42).

508.12 EDUCATION, WORK, AND OTHER RELEASE

Unless a person is incarcerated for an offense for which release is prohibited by law or otherwise prohibited by court order, an incarcerated person in the jail may be released for a period reasonable and necessary for the following reasons:

- To seek or maintain employment
- To attend education classes
- To obtain medical treatment
- Any other reasonable purpose as determined by the Jail Commander or the authorized designee

Education and work-release incarcerated persons who leave the secure perimeter of the jail to complete programs should be housed separately from incarcerated persons in general population.

There should be no contact between the incarcerated persons in general population and those authorized for education, work, or other release. This is to minimize the risk of introducing contraband into the jail and to maintain facility security.

508.13 STAFF TRAINING IN CLASSIFICATION

Classification correctional officers should receive training specific to incarcerated person classification before being assigned primary classification duties. Individuals not specifically trained in classification may work in classification provided that they are under the immediate supervision of a trained and qualified staff member.

Conducted Energy Device

509.1 PURPOSE AND SCOPE

This policy provides guidelines for the issuance and use of the conducted energy device (CED).

509.2 ISSUANCE AND CARRYING CEDS

Only authorized members who have successfully completed department-approved training may be issued and may carry the CED.

The Rangemaster should keep a log of issued CEDs and the serial numbers of cartridges/magazines issued to members.

CEDs are issued for use during a member's current assignment. Those leaving a particular assignment may be required to return the device to the department inventory.

Members shall only use the CED and cartridges/magazines that have been issued by the Department. Cartridges/magazines should not be used after the manufacturer's expiration date.

Uniformed members who have been issued the CED shall wear the device in an approved holster.

Correctional officers who carry the CED while in uniform shall carry it in a holster on the side opposite the duty weapon (Penal Code § 13660).

- (a) The CED shall be maintained in a secure storage location (see the Management of Weapons and Control Devices Policy).
- (b) Each CED shall be clearly and uniquely numbered.
- (c) Members shall sign out their CED at the beginning of their shift and sign in their CED upon finishing the shift unless a member is authorized by the Sheriff or the authorized designee to maintain possession of the CED.
- (d) At the beginning of each shift, the oncoming Shift Supervisor shall inventory all CEDs.
- (e) For single-shot devices, whenever practicable, members should carry an additional cartridge on their person when carrying the CED.
- (f) Correctional officers should not hold both a firearm and the CED at the same time.
- (g) All CEDs shall be clearly distinguishable to differentiate them from the duty weapons and any other device.

Non-uniformed members may secure the CED in a concealed, secure location in the driver's compartment of their vehicles.

509.2.1 USER RESPONSIBILITIES

Members shall be responsible for ensuring that the issued CED is properly maintained and in good working order. This includes a function test and battery life monitoring, as required by the manufacturer, and should be completed prior to the beginning of the member's shift.

CEDs that are damaged or inoperative, or cartridges/magazines that are expired or damaged, shall be returned to the Rangemaster for disposition. Members shall submit documentation stating

Colusa County Sheriff's Department

CA Custody Manual

Conducted Energy Device

the reason for the return and how the CED or cartridge/magazine was damaged or became inoperative, if known.

509.3 VERBAL AND VISUAL WARNINGS

A verbal warning of the intended use of the CED should precede its application, unless it would endanger the safety of members or when it is not practicable due to the circumstances. The purpose of the warning is to:

- (a) Provide the individual with a reasonable opportunity to voluntarily comply.
- (b) Provide other members and individuals with a warning that the CED may be deployed.

If, after a verbal warning, an individual fails to voluntarily comply with a member's lawful orders and it appears both reasonable and feasible under the circumstances, the member may, but is not required to, activate any warning on the device, which may include display of the electrical arc, an audible warning, or the laser, in a further attempt to gain compliance before application of the CED. The laser should not be intentionally directed into anyone's eyes.

The fact that a verbal or other warning was given or the reasons it was not given shall be documented by the member deploying the CED in the related report.

509.4 USE OF THE CED

The CED has limitations and restrictions requiring consideration before its use. The CED should only be used when its operator can safely deploy the device within its operational range. Although the CED may be effective in controlling most individuals, members should be aware that the device may not achieve the intended results and be prepared with other options.

If sufficient personnel are available and can be safely assigned, a member designated as cover for any member deploying a CED may be considered for member safety, as applicable.

509.4.1 APPLICATION OF THE CED

The CED may be used when circumstances reasonably perceived by the member at the time indicate that such application reasonably appears necessary to control a person who:

- (a) Is violent or is physically resisting.
- (b) Has demonstrated by words or action an intention to be violent or to physically resist and reasonably appears to present the potential to harm members, themselves, or others.

Mere flight from a pursuing member, without additional circumstances or factors, is not good cause for the use of the CED to apprehend an individual.

The CED shall not be used to psychologically torment, elicit statements, or punish any individual.

509.4.2 SPECIAL DEPLOYMENT CONSIDERATIONS

The use of the CED on certain individuals should generally be avoided unless the totality of the circumstances indicates that other available options reasonably appear ineffective or would present a greater danger to the member, the subject, or others, and the member reasonably

Colusa County Sheriff's Department

CA Custody Manual

Conducted Energy Device

believes that the need to control the individual outweighs the potential risk of using the device. This includes:

- (a) Elderly individuals or obvious juveniles.
- (b) Individuals with obviously low body mass.
- (c) Individuals who are handcuffed or otherwise restrained.
- (d) Individuals known to have been recently sprayed with a flammable chemical agent or who are otherwise known to be in proximity to any known combustible vapor or flammable material, including alcohol-based oleoresin capsicum (OC) spray.
- (e) Individuals whose position or activity is likely to result in collateral injury (e.g., falls from height, located in water).

Any CED capable of being applied in the drive-stun mode (i.e., direct contact without probes as a primary form of pain compliance) should be limited to supplementing the probe mode to complete the circuit, or as a distraction technique to gain separation between members and the subject, thereby giving members time and distance to consider other force options or actions.

509.4.3 TARGETING CONSIDERATIONS

Recognizing that the dynamics of a situation and movement of the subject may affect target placement of probes, when practicable, members should attempt to target the back, lower center mass, and upper legs of the subject, and avoid intentionally targeting the head, neck, area of the heart, or genitals. If circumstances result in one or more probes inadvertently striking an area outside of the preferred target zones, the individual should be closely monitored until examined by paramedics or a qualified health care professional.

509.4.4 MULTIPLE APPLICATIONS OF THE CED

Once a member has successfully deployed two probes on the subject, the member should continually assess the subject to determine if additional probe deployments or cycles reasonably appear necessary. Additional factors members may consider include but are not limited to:

- (a) Whether it is reasonable to believe that the need to control the individual outweighs the potentially increased risk posed by multiple applications.
- (b) Whether the probes are making proper contact.
- (c) Whether the individual has the ability and has been given a reasonable opportunity to comply.
- (d) Whether verbal commands or other options or tactics may be more effective.

Given that on certain devices (e.g., TASER 10™) each trigger pull deploys a single probe, the member must pull the trigger twice to deploy two probes to create the possibility of neuro-muscular incapacitation.

509.4.5 PREGNANT INCARCERATED PERSONS

Application of the TASER device shall not be used on a pregnant incarcerated person (Penal Code § 4023.8).

Colusa County Sheriff's Department

CA Custody Manual

Conducted Energy Device

509.4.6 OFF-DUTY CONSIDERATIONS

Members are not authorized to carry department CEDs while off-duty.

Members shall ensure that CEDs are secured while in their homes, vehicles, or any other area under their control, in a manner that will keep the device inaccessible to others.

509.4.7 DANGEROUS ANIMALS

The CED may be deployed against an animal if the animal reasonably appears to pose an imminent threat to human safety.

509.4.8 ACTIONS FOLLOWING DEPLOYMENTS

Members should take appropriate actions to control and restrain the individual as soon as reasonably practicable to minimize the need for longer or multiple exposures to the CED. As soon as practicable, members shall notify a supervisor any time the CED has been discharged in compliance with the Use of Force Policy. If needed for evidentiary purposes, the expended cartridge, along with any probes and wire, should be submitted into evidence (including confetti tags, when equipped on the device). The evidence packaging should be marked "Biohazard" if the probes penetrated the subject's skin.

509.5 MEDICAL TREATMENT

Consistent with local medical personnel protocols and absent extenuating circumstances, only qualified health care professionals or members trained in probe removal and handling should remove CED probes from a person's body. Used CED probes shall be treated as a sharps biohazard, similar to a used hypodermic needle, and handled appropriately. Universal precautions should be taken.

All persons who have been struck by CED probes, who have been subjected to the electric discharge of the device, or who sustained direct exposure of the laser to the eyes shall be medically assessed prior to continued processing or returning to housing. Additionally, any such individual who falls under any of the following categories should, as soon as practicable, be examined by paramedics or a qualified health care professional:

- (a) The person is suspected of being under the influence of controlled substances and/or alcohol.
- (b) The person may be pregnant.
- (c) The person reasonably appears to be in need of medical attention.
- (d) The CED probes are lodged in a sensitive area (e.g., groin, area of the heart, head, face, neck).
- (e) The person requests medical treatment.

Any individual exhibiting signs of distress or who is exposed to multiple or prolonged applications shall be transported to a medical facility for examination or promptly examined by paramedics or a qualified health care professional. If any individual refuses medical attention, such a refusal should be witnessed by another member and/or medical personnel and shall be fully documented

Colusa County Sheriff's Department

CA Custody Manual

Conducted Energy Device

in related reports. If an audio/video recording is made of the contact or an interview with the individual, any refusal should be included, if possible.

The transporting member shall inform any person providing medical care or receiving custody that the individual has been subjected to the application of the CED (see the Access to Health Care and the Non-Emergency Health Care policies).

509.6 TRAINING

Personnel who are authorized to carry the CED shall be permitted to do so only after successfully completing the initial department-approved training. Any personnel who have not carried the CED as a part of their assignment for a period of six months or more shall be recertified by a qualified CED instructor prior to again carrying or using the device.

Proficiency training for personnel who have been issued CEDs should occur every year. A reassessment of member's knowledge and/or practical skills may be required at any time if deemed appropriate by the Training Officer. All training and proficiency for CEDs will be documented in the member's training files.

Command staff, supervisors, and investigators should receive CED training as appropriate for the investigations they conduct and review.

Members who do not carry CEDs should receive training that is sufficient to familiarize them with the device and with working with members who use the device.

The Training Officer is responsible for ensuring that all members who carry CEDs have received initial and annual proficiency training. Periodic audits should be used for verification.

Application of CEDs during training could result in injuries and should not be mandatory for certification.

The Training Officer should include the following training:

- (a) A review of this policy.
- (b) A review of the Use of Force Policy.
- (c) Performing weak-hand draws or cross-draws until proficient to reduce the possibility of unintentionally drawing and firing a firearm.
- (d) Target area considerations, to include techniques or options to reduce the unintentional application of probes to the head, neck, area of the heart, and groin.
- (e) Scenario-based training, including virtual reality training when available.
- (f) Handcuffing a subject during the application of the CED and transitioning to other force options.
- (g) De-escalation techniques.
- (h) Restraint techniques that do not impair respiration following the application of the CED.
- (i) Proper use of cover and concealment during deployment of the CED for purposes of member safety.

Colusa County Sheriff's Department

CA Custody Manual

Conducted Energy Device

- (j) Proper tactics and techniques related to multiple applications of CEDs.

509.7 POLICY

The CED is used in an attempt to control a violent or potentially violent individual. The appropriate use of such a device may result in fewer serious injuries to members and suspects.

509.8 SUPERVISOR RESPONSIBILITIES

When possible, supervisors should respond to calls when they reasonably believe there is a likelihood the CED may be used. A supervisor should respond to all incidents where the CED was activated.

A supervisor should review each incident where a person has been exposed to a CED. The device's internal logs should be downloaded by a supervisor or Rangemaster and saved with the related incident report. The supervisor should arrange for photographs of probe sites to be taken and witnesses to be interviewed.

509.9 DOCUMENTATION

Members shall document all CED discharges in the related incident reports in compliance with the department Use of Force Policy and in the CED report forms. Photographs should be taken of any obvious probe impact or drive-stun application sites and attached to the CED report form. Unintentional discharges, pointing the device at a person, audible warning, laser activation, and arcing the device, other than for testing purposes, will also be documented on the report form. Data downloads from the CED after use on a subject should be done as soon as practicable using an department-approved process to preserve the data.

509.9.1 REPORTS

The member should include the following in the incident report:

- (a) Identification of all personnel firing CEDs
- (b) Identification of all witnesses
- (c) Medical care provided to the subject
- (d) Observations of the subject's physical and physiological actions
- (e) Any known or suspected drug use, intoxication, or other medical problems

509.9.2 CED REPORT FORM

As applicable based on the device type, items that shall be included in the CED report form are:

- (a) The brand, model, and serial number of the CED and any cartridge/magazine.
- (b) Date, time, and location of the incident.
- (c) Whether any warning, display, laser, or arc deterred a subject and gained compliance.
- (d) The number of probes deployed, CED activations, the duration of each cycle, the duration between activations, and (as best as can be determined) the duration that the subject received applications.

Colusa County Sheriff's Department

CA Custody Manual

Conducted Energy Device

- (e) The range at which the CED was used.
- (f) The type of mode used (e.g., probe deployment, drive-stun).
- (g) Location of any probe impact.
- (h) Location of contact in drive-stun mode.
- (i) Description of where missed probes went.
- (j) Whether medical care was provided to the subject.
- (k) Whether the subject sustained any injuries.
- (l) Whether any members sustained any injuries.

The Training Officer should periodically analyze the report forms to identify trends, including deterrence and effectiveness. The Training Officer should also conduct audits of CED data downloaded to an approved location and reconcile CED report forms with recorded activations. CED information and statistics, with identifying information removed, should periodically be made available to the public.

Control of Incarcerated Person Movement

510.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a process for the safe and secure movement of incarcerated persons between areas within the facility and transportation from the facility to court, medical appointments, or other jurisdictions (15 CCR 1029(a)(6)).

510.2 POLICY

The staff should be vigilant in the control and movement of incarcerated persons between areas within the facility and when transporting persons outside the secure confines of the facility. Control may be by direct or indirect visual observation. All staff should consider all incarcerated person movement as high-risk activity. The staff should be aware of their surroundings at all times and take necessary steps to prevent the possession and exchange of contraband.

510.3 CONTROL OF MOVEMENT

Staff shall not allow incarcerated persons to leave their assigned housing area unless they have approved activities that may include but are not limited to the following:

- (a) Court
- (b) Transportation to another facility
- (c) Receiving a visit
- (d) Law enforcement interview or to participate in a lineup
- (e) Reporting for work
- (f) Receiving dental or medical care
- (g) Attending educational classes or religious services
- (h) Release
- (i) Facility Emergency
- (j) Any other reason deemed appropriate by staff

510.4 MOVEMENT OF INCARCERATED PERSONS

Movement of one or more incarcerated persons in the facility should be done in an orderly manner with incarcerated persons walking in a single-file line. Staff members should have situational awareness during the movement of incarcerated persons and should consider the design of the facility, areas of poor visibility, and the presence of other persons being moved. The staff should avoid areas where incarcerated persons may have access to contraband items.

510.5 MOVEMENT OF SPECIAL MANAGEMENT INCARCERATED PERSONS

Incarcerated persons should be restrained during movement based upon individual security classification, with higher risk persons in handcuffs, waist chains, and leg irons. An exception to this procedure is when an incarcerated person has a physical disability where restraint devices

Colusa County Sheriff's Department

CA Custody Manual

Control of Incarcerated Person Movement

may cause serious injury. Pregnant incarcerated persons shall be moved in accordance with the Use of Restraints Policy.

Whenever a high-security incarcerated person is not able to be restrained, the staff should compensate by utilizing wheelchairs and should secure the incarcerated person to the chair. It may also be necessary to increase the number of staff present to ensure the safe movement of high-security incarcerated persons.

The staff should be watchful in and around passageways and ensure that sallyport doors are secured to prevent escape.

Use of Force

511.1 PURPOSE AND SCOPE

This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this department is expected to use these guidelines to make such decisions in a professional, impartial, and reasonable manner (Government Code § 7286; 15 CCR 1029(a)(3)).

In addition to those methods, techniques, and tools set forth below, the guidelines for the reasonable application of force contained in this policy shall apply to all policies addressing the potential use of force, including but not limited to the Conducted Energy Device, Use of Restraints, and Electronic Restraints policies.

Retaliation prohibitions for reporting suspected violations are addressed in the Anti-Retaliation Policy.

511.1.1 DEFINITIONS

Definitions related to this policy include:

Deadly force - Any use of force that creates a substantial risk of causing death or serious bodily injury, including but not limited to the discharge of a firearm (Penal Code § 835a).

Feasible - Reasonably capable of being done or carried out under the circumstances to successfully achieve the arrest or lawful objective without increasing risk to the correctional officer or another person (Government Code § 7286(a)).

Force - The application of physical techniques or tactics, chemical agents, or weapons to another person. It is not a use of force when individuals allow themselves to be searched, escorted, handcuffed, or restrained.

Force team technique - The force team technique ordinarily involves trained members clothed in protective gear who enter the incarcerated person's area in tandem, each with a specific task, to achieve immediate control of the incarcerated person.

Serious bodily injury - A serious impairment of physical condition, including but not limited to the following: loss of consciousness; concussion; bone fracture; protracted loss or impairment of function of any bodily member or organ; a wound requiring extensive suturing; and serious disfigurement (Penal Code § 243(f)(4)).

Totality of the circumstances - All facts known to the correctional officer at the time, including the conduct of the correctional officer and the individual leading up to the use of force (Penal Code § 835a).

511.2 POLICY

The use of force is a matter of critical concern, both to the public and to the public safety community. Members are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Colusa County Sheriff's Department

CA Custody Manual

Use of Force

Members must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of public safety duties.

The Colusa County Sheriff's Department recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting members with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation, and a careful balancing of all interests.

511.2.1 FAIR AND UNBIASED USE OF FORCE

Correctional officers are expected to carry out their duties, including the use of force, in a manner that is fair and unbiased (Government Code § 7286(b)).

511.3 USE OF FORCE

Authorized members shall use only that amount of force that reasonably appears necessary given the facts and totality of the circumstances known to or perceived by the member at the time of the event to accomplish a legitimate government purpose such as to gain control of the individual; protect and ensure the safety of incarcerated persons, members, and others; prevent serious property damage; prevent escape; obtain compliance with facility rules and member orders; or to ensure the institution's security and good order (Penal Code § 835a).

The reasonableness of force will be judged from the perspective of a reasonable member on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that members are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain, and rapidly evolving.

Given that no policy can realistically predict every possible situation a member might encounter, members are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident. Members may only use a level of force that they reasonably believe is proportional to the seriousness of the suspected offense or the reasonably perceived level of actual or threatened resistance (Government Code § 7286(b)).

It is also recognized that circumstances may arise in which members reasonably believe that it would be impractical or ineffective to use any of the approved or authorized tools, weapons, or methods provided by this department. Members may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be objectively reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate government purpose.

While the ultimate objective of every encounter is to avoid or minimize injury, nothing in this policy requires a member to retreat or be exposed to possible physical injury before applying reasonable force.

Force shall never be used as punishment.

Use of Force

511.3.1 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE

When determining whether to apply force and evaluating whether a member has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit (Government Code § 7286(b)). These factors include but are not limited to:

- (a) The apparent immediacy and severity of the threat to members or others (Penal Code § 835a).
- (b) The conduct of the individual being confronted, as reasonably perceived by the member at the time (Penal Code § 835a).
- (c) Member/individual factors (e.g., age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of members available vs. individuals).
- (d) The conduct of the involved member leading up to the use of force (Penal Code § 835a).
- (e) The effects of suspected drug or alcohol use.
- (f) The individual's apparent mental state or capacity (Penal Code § 835a).
- (g) The individual's apparent ability to understand and comply with correctional officer commands (Penal Code § 835a).
- (h) The proximity of weapons or dangerous improvised devices.
- (i) The degree to which the individual has been effectively restrained and the individual's ability to resist despite being restrained.
- (j) The availability of other reasonable and feasible options and their possible effectiveness (Penal Code § 835a).
- (k) The seriousness of the suspected offense or reason for contact with the individual prior to and at the time force is used.
- (l) The training and experience of the member.
- (m) The potential for injury to members, incarcerated persons, bystanders, and others.
- (n) Whether the individual appears to be resisting, attempting to evade arrest by flight, or is attacking the member.
- (o) The risk and reasonably foreseeable consequences of escape.
- (p) The apparent need for immediate control of the individual or a prompt resolution of the situation to maintain or restore order.
- (q) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the member or others.
- (r) Prior contacts with the individual or awareness of any propensity for violence.
- (s) Any other exigent circumstances.

Colusa County Sheriff's Department

CA Custody Manual

Use of Force

511.3.2 DUTY TO INTERCEDE

Any correctional officer present and observing another law enforcement officer or member using force that is clearly beyond that which is necessary, as determined by an objectively reasonable correctional officer under the circumstances, shall, when in a position to do so, intercede (as defined by Government Code § 7286) to prevent the use of unreasonable force.

When observing or reporting force used by a law enforcement officer, each correctional officer should take into account the totality of the circumstances and the possibility that other law enforcement officers may have additional information regarding the threat posed by the subject (Government Code § 7286(b)).

511.3.3 ALTERNATIVE TACTICS - DE-ESCALATION

As time and circumstances reasonably permit, and when community and correctional officer safety would not be compromised, correctional officers should consider actions that may increase correctional officer safety and may decrease the need for using force:

- (a) Summoning additional resources that are able to respond in a reasonably timely manner.
- (b) Formulating a plan with responding correctional officers before entering an unstable situation that does not reasonably appear to require immediate intervention.
- (c) Employing other tactics that do not unreasonably increase correctional officer jeopardy.

In addition, when reasonable, correctional officers should evaluate the totality of circumstances presented at the time in each situation and, when feasible, consider and utilize reasonably available alternative tactics and techniques that may persuade an individual to voluntarily comply or may mitigate the need to use a higher level of force to resolve the situation before applying force (Government Code § 7286(b)). Such alternatives may include but are not limited to:

- (a) Attempts to de-escalate a situation.
- (b) If reasonably available, the use of crisis intervention techniques by properly trained personnel.

511.3.4 FAILURE TO INTERCEDE

A correctional officer who has received the required training on the duty to intercede and then fails to act to intercede when required by law may be disciplined in the same manner as the correctional officer who used force beyond that which is necessary (Government Code § 7286(b)).

511.3.5 NOTIFICATION TO SUPERVISORS REGARDING USE OF FORCE

Any use of force by a correctional officer shall be reported immediately to a supervisor (Penal Code § 832.13).

As used in this section, "immediately" means as soon as it is safe and feasible to do so.

Colusa County Sheriff's Department

CA Custody Manual

Use of Force

511.3.6 DUTY TO REPORT EXCESSIVE FORCE

Any correctional officer who observes a law enforcement officer or a member use force that potentially exceeds what the correctional officer reasonably believes to be necessary shall immediately report these observations to a supervisor (Government Code § 7286(b)).

As used in this section, "immediately" means as soon as it is safe and feasible to do so.

511.3.7 PAIN COMPLIANCE TECHNIQUES

Pain compliance techniques may be effective in controlling a physically or actively resisting individual. Members may only apply those pain compliance techniques for which they have successfully completed department-approved training. Members utilizing any pain compliance technique should consider:

- (a) The degree to which the application of the technique may be controlled given the level of resistance.
- (b) Whether the individual can comply with the direction or orders of the member.
- (c) Whether the individual has been given sufficient opportunity to comply.

The application of any pain compliance technique shall be discontinued once the member determines that compliance has been achieved.

511.3.8 RESTRICTIONS ON THE USE OF A CAROTID CONTROL HOLD

Correctional officers of this department are not authorized to use a carotid restraint hold. A carotid restraint means a vascular neck restraint or any similar restraint, hold, or other defensive tactic in which pressure is applied to the sides of a person's neck that involves a substantial risk of restricting blood flow and may render the person unconscious in order to subdue or control the person (Government Code § 7286.5; 15 CCR 1029).

511.3.9 RESTRICTIONS ON THE USE OF A CHOKE HOLD

Correctional officers of this department are not authorized to use a choke hold. A choke hold means any defensive tactic or force option in which direct pressure is applied to a person's trachea or windpipe (Government Code § 7286.5; 15 CCR 1029).

511.3.10 ADDITIONAL RESTRICTIONS

Terms such as "positional asphyxia," "restraint asphyxia," and "excited delirium" continue to remain the subject of debate among experts and medical professionals, are not universally recognized medical conditions, and frequently involve other collateral or controlling factors such as narcotics or alcohol influence, or preexisting medical conditions. While it is impractical to restrict a correctional officer's use of reasonable control methods when attempting to restrain a combative individual, correctional officers are not authorized to use any restraint or transportation method which might unreasonably impair an individual's breathing or respiratory capacity for a period beyond the point when the individual has been adequately and safely controlled. Once the individual is safely secured, correctional officers should promptly check and continuously monitor the individual's condition for signs of medical distress (Government Code § 7286.5).

Colusa County Sheriff's Department

CA Custody Manual

Use of Force

511.3.11 USE OF FORCE TO SEIZE EVIDENCE

In general, members may use reasonable force to lawfully seize evidence and to prevent the destruction of evidence. However, members are discouraged from using force solely to prevent a person from swallowing evidence or contraband. In the instance when force is used, members should not intentionally use any technique that restricts blood flow to the head, restricts respiration, or creates a reasonable likelihood that blood flow to the head or respiration would be restricted. Members are encouraged to use techniques and methods taught by the Colusa County Sheriff's Department for this specific purpose.

511.3.12 MEDICAL CONSIDERATION

Once it is reasonably safe to do so, properly trained members should promptly provide or procure medical assistance for any individual injured or claiming to have been injured in a use of force incident (Government Code § 7286(b)).

511.4 USE OF OTHER WEAPONS, TOOLS, AND CHEMICAL AGENTS ON INCARCERATED PERSONS

511.4.1 NOISE/FLASH DISTRACTION DEVICES

Noise/flash distraction devices, sting grenades, chemical grenades, and similar devices shall be used only at the direction of a supervisor and only by members who have been trained in and are qualified for the use of the devices.

511.4.2 ELECTRONIC CONTROL DEVICES

The use of the conducted energy device (CED) shall be in accordance with the department's Conducted Energy Device Policy.

The use of other electronic devices, such as stun cuffs, stun vests, and stun belts, shall be in accordance with the department's Electronic Restraints Policy.

511.4.3 CHEMICAL AGENTS

Chemical agents shall only be used in the facility as authorized by the Jail Commander or the authorized designee and in accordance with the department's Chemical Agents Training Policy. Oleoresin capsicum (OC) spray should not be used in the medical unit or other designated areas where incarcerated persons are assigned to respiratory isolation or on any incarcerated person who is under control with or without restraints.

Incarcerated persons who have been affected by the use of chemical agents shall be promptly provided with the proper solution to decontaminate the affected areas.

If the incarcerated person refuses to decontaminate, such a refusal shall be documented. If an incarcerated person has been exposed in a cell and not removed from the cell where the exposure occurred, in-cell decontamination shall be afforded to the incarcerated person, including:

- (a) Health-trained custody member advising the incarcerated person how to decontaminate in the cell.
- (b) Clean clothing if the incarcerated person's clothing was contaminated.

Colusa County Sheriff's Department

CA Custody Manual

Use of Force

- (c) Monitoring of the in-cell incarcerated person at least every 15 minutes on an irregular schedule, for a period of not less than 45 minutes, by a health-trained custody member.

511.4.4 PROJECTILE CHEMICAL AGENTS

Pepper projectile systems are plastic spheres filled with a derivative of OC powder. A compressed gas launcher delivers the projectiles with enough force to burst the projectiles on impact, releasing the OC powder. The potential exists for the projectiles to inflict injury if they strike the head, neck, spine, or groin. Therefore, members deploying the pepper projectile system should not intentionally target those areas except when the member reasonably believes the incarcerated person may cause serious bodily injury or death to the member or others. The use of the pepper projectile system is subject to the following requirements:

- (a) Department-approved projectile chemical agents may only be used by members who have received department-authorized training in their use.
- (b) Members encountering a situation that requires the use of the pepper projectile system shall notify a supervisor as soon as practicable. The supervisor shall respond to all such deployments. The supervisor shall ensure that all notifications and reports are completed as required by this policy.

Each deployment of a pepper projectile system shall be documented and, if reasonably practicable, recorded on video. This includes situations where the launcher was directed toward the incarcerated person, regardless of whether the launcher was used. Only non-incident deployments are exempt from the reporting requirement (e.g., training, product demonstrations).

511.4.5 IMPACT WEAPONS

The need to immediately incapacitate the incarcerated person must be weighed against the risk of causing serious injury or death. The head and neck should not be intentionally targeted with an impact weapon, except when the member reasonably believes the incarcerated person may cause serious bodily injury or death to the member or others.

511.4.6 KINETIC ENERGY PROJECTILES

Kinetic energy projectiles, when used properly, are less likely to result in death or serious physical injury and can be used by a trained and qualified member in an attempt to de-escalate a potentially deadly situation.

511.4.7 CHEMICAL AGENTS AND PREGNANT INCARCERATED PERSONS

Pregnant incarcerated persons shall not be pepper sprayed or exposed to other chemical weapons (Penal Code § 4023.8).

511.5 IMMEDIATE AND CALCULATED USE OF FORCE

An immediate use of force occurs when force is used to respond without delay to a situation or circumstance that constitutes an imminent threat to security or safety. For example, the immediate or unplanned use of force by a member may be necessary to stop an incarcerated person from inflicting self-injury or to stop an assault on any other person, including other incarcerated persons. The destruction of government property may require the immediate use of force by a member in

Colusa County Sheriff's Department

CA Custody Manual

Use of Force

some circumstances. A verbal warning should be given before an immediate use of force unless the circumstances preclude it.

If there is no need for immediate action, members should attempt to resolve the situation through voluntary compliance or, if it reasonably appears necessary, the calculated use of force. A calculated use of force is called for when an incarcerated person's presence or conduct poses a threat to safety or security and the incarcerated person is located in an area that can be controlled or isolated, or when time and circumstances permit advance planning, staffing, and organization.

The assistance of available non-custodial members (e.g., psychologists, counselors) should be considered when attempting to resolve a situation without confrontation.

A supervisor shall be present in any situation involving the calculated use of force. The supervisor shall notify the Jail Commander or the authorized designee for approval and consultation prior to any calculated use of force action.

511.5.1 CONFRONTATION AVOIDANCE PROCEDURES

Prior to any calculated use of force, the supervisor shall confer with the appropriate persons to gather pertinent information about the incarcerated person and the immediate situation. Based on the supervisor's assessment of the available information, the supervisor should direct the members to attempt to obtain the incarcerated person's voluntary cooperation and consider other available options before determining whether force is necessary.

The supervisor should consider including the following persons and resources in the process:

- (a) Mental health specialist
- (b) Qualified health care professional
- (c) Chaplain
- (d) Department Records Section
- (e) Any other relevant resources

Regardless of whether discussions with any of the above resources are accomplished by telephone or in person, the purpose is to gather information to assist in developing a plan of action, such as the incarcerated person's medical/mental history (e.g., asthma or other breathing-related illness, hypoglycemia, diabetes), any recent incident reports or situations that may be contributing to the incarcerated person's present condition (e.g., pending criminal prosecution or sentencing, recent death of a loved one, divorce). The assessment should include discussions with members who are familiar with the incarcerated person's background or present status. This may provide insight into the cause of the person's immediate agitation. It also may identify other members who have a rapport with the incarcerated person and could possibly resolve the incident peacefully, without the use of force.

If force is determined to be necessary and other means of gaining control of an incarcerated person are deemed inappropriate or ineffective, then the force team technique should be used to control the person and to apply restraints, if required.

Colusa County Sheriff's Department

CA Custody Manual

Use of Force

Consideration should also be given to preventing exposure to communicable diseases in calculated use of force situations, and to ensuring that medical services personnel are available.

511.6 REPORTING THE USE OF FORCE

Every member use of force is an incident that shall be reported on the appropriate report form.

The documentation will reflect the actions and responses of each member participating in the incident, as witnessed by the reporting member.

The report should include:

- (a) A clear, detailed description of the incident, including any application of weapons or restraints.
- (b) The identity of all individuals involved in the incident (e.g., incarcerated persons, members, others).
- (c) The member should articulate the factors perceived and why the member believed the use of force was reasonable under the circumstances.
- (d) Efforts made to temper the severity of a forceful response, and if there were none, the reasons why.
- (e) Description of any injuries to anyone involved in the incident, including the result of any medical checks that show the presence or absence of injury.

Any member directly observing the incident shall make a verbal report to a supervisor as soon as practicable and include as much of the aforementioned information as is known by the member.

Members shall submit the appropriate documentation prior to going off-duty, unless directed otherwise by a supervisor.

A video recording is required for all calculated use of force incidents and should include the introduction of all members participating in the process. The recording and documentation will be part of the investigation package. The supervisor should ensure the recording is properly processed for retention and a copy is forwarded with the report to the Jail Commander within three working days.

The supervisor responsible for gathering the reports may allow a reasonable delay in preparation of a report in consideration of the immediate psychological and/or physical condition of the involved member.

The Shift Supervisor shall promptly notify the Jail Commander of any incident involving a member employing deadly force, or any incident where a death or serious bodily injury may have been caused by a member.

511.6.1 REPORTING TO CALIFORNIA DEPARTMENT OF JUSTICE

Statistical data regarding all officer-involved shootings and incidents involving use of force resulting in serious bodily injury is to be reported to the California Department of Justice as required by Government Code § 12525.2.

Colusa County Sheriff's Department

CA Custody Manual

Use of Force

511.6.2 REPORT RESTRICTIONS

Correctional officers shall not use the term "excited delirium" to describe an individual in an incident report. Correctional officers may describe the characteristics of an individual's conduct, but shall not generally describe the individual's demeanor, conduct, or physical and mental condition at issue as excited delirium (Health and Safety Code § 24402).

511.7 SUPERVISOR RESPONSIBILITIES

A supervisor should respond to a reported application of force resulting in visible injury, if reasonably available. When a supervisor is able to respond to an incident in which there has been a reported use of force, the supervisor is expected to (Government Code § 7286(b)):

- (a) Ensure a crime scene is established to preserve and protect evidence, if appropriate.
- (b) Ensure that the chain of command is notified and that all necessary health and safety and security measures are initiated.
- (c) Obtain the basic facts from the involved members. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.
- (d) Ensure that the appropriate investigation authority is notified, if appropriate.
- (e) Ensure that any parties involved in a use of force situation are examined by medical staff, regardless of whether any injuries are reported or detectable, and afforded medical treatment as appropriate.
- (f) When possible, separately obtain a recorded interview with all individuals upon whom force was used. If this interview is conducted without the person having voluntarily waived the individual's *Miranda* rights, the following should apply:
 - 1. The content of the interview should not be summarized or included in any related criminal charges.
 - 2. The fact that a recorded interview was conducted should be documented in a property or other report.
 - 3. The recording of the interview should be distinctly marked for retention until all potential for civil litigation has expired.
- (g) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas.
 - 1. These photographs should be retained until all potential for civil litigation has expired.
- (h) Identify any witnesses not already included in related reports.
- (i) Review and approve all related reports.
- (j) Determine if there is any indication that the individual may pursue civil litigation.
 - 1. If there is an indication of potential civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.

Colusa County Sheriff's Department

CA Custody Manual

Use of Force

- (k) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy noncompliance or if for any reason further investigation may be appropriate.

In the event that a supervisor is unable to respond to the scene of an incident involving a reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

511.8 USE OF DEADLY FORCE

Where feasible, correctional officers shall, prior to the use of deadly force, make reasonable efforts to identify themselves as a peace officer and to warn that deadly force may be used, unless a correctional officer has objectively reasonable grounds to believe the person is aware of those facts (Penal Code 835a).

If an objectively reasonable correctional officer would consider it safe and feasible to do so under the totality of the circumstances, correctional officers shall evaluate and use other reasonably available resources and techniques when determining whether to use deadly force. To the extent that it is reasonably practical, correctional officers should consider their surroundings and any potential risks to bystanders prior to discharging a firearm (Government Code § 7286(b)).

The use of deadly force is only justified when the correctional officer reasonably believes it is necessary in the following circumstances (Penal Code § 835a):

- (a) A correctional officer may use deadly force for self-protection or to protect others from what the correctional officer reasonably believes is an imminent threat of death or serious bodily injury to the correctional officer or another person.
- (b) A correctional officer may use deadly force to stop an escaping incarcerated person, or stop a fleeing individual, when the correctional officer has probable cause to believe that the individual has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and the correctional officer reasonably believes that there is an imminent or future potential risk of serious bodily injury or death to any other person if the individual is not immediately apprehended.

Correctional officers shall not use deadly force against an incarcerated person based on the danger that person poses to themselves, if an objectively reasonable correctional officer would believe the incarcerated person does not pose an imminent threat of death or serious bodily injury to the correctional officer or to another person (Penal Code § 835a).

An "imminent" threat of death or serious bodily injury exists when, based on the totality of the circumstances, a reasonable correctional officer in the same situation would believe that an incarcerated person has the present ability, opportunity, and apparent intent to immediately cause death or serious bodily injury to the correctional officer or another person. A correctional officer's subjective fear of future harm alone is insufficient as an imminent threat. An imminent threat is one that from appearances is reasonably believed to require instant attention (Penal Code § 835a).

511.9 USE OF FORCE REVIEW

The Shift Supervisor shall review all related reports of use of force incidents occurring on the Shift Supervisor's command. The review is to determine whether the use of force was in compliance with policy, procedure, and applicable law, and to determine if follow-up action or investigation is necessary. The Shift Supervisor should also ensure that a review packet containing a copy of all pertinent reports and materials is prepared and forwarded to the Use of Force Review Committee.

511.9.1 USE OF FORCE REVIEW COMMITTEE

The review committee shall meet and review all use of force cases within 30 days of the incident. It is the responsibility of the Shift Supervisor to ensure these meetings occur. The committee will comprise the following members:

- (a) The Jail Commander
- (b) One supervisor assigned on a rotational basis
- (c) The Training Unit
- (d) One qualified health care professional
- (e) A correctional officer with advanced use of force training
- (f) Other members as selected by the Sheriff

The committee should render a single finding as to whether the use of force was within policy. Any recommendations for areas identified as needing training, changes in policy, or further investigation into incidents that may lead to member discipline shall be addressed in a separate memorandum to the Training Officer and/or the Internal Affairs Unit, as appropriate.

511.10 TRAINING

The Jail Commander shall work with the Training Officer to ensure legal and facility training mandates are met. This training shall include the following:

- (a) Use of force
- (b) Weapons training
- (c) Self-defense
- (d) Confrontation avoidance procedures:
 - 1. Communication techniques
 - 2. De-escalation techniques
 - 3. Dealing with persons with a behavioral crisis identification
 - 4. Application of restraints
- (e) Forced cell extraction techniques
- (f) Force team techniques
- (g) General restraint training (soft and hard restraints)
- (h) Reporting procedures

- (i) Guidelines regarding vulnerable populations, including but not limited to incarcerated persons who are elderly or pregnant, and incarcerated persons with physical, mental, and developmental disabilities (Government Code § 7286(b))
- (j) Training courses required by and consistent with POST guidelines set forth in Penal Code § 13519.10

The Training Officer is responsible for establishing a process to identify correctional officers who are restricted from training other correctional officers for the time period specified by law because of a sustained use of force complaint (Government Code § 7286(b)).

511.10.1 TRAINING FOR CONTROL DEVICES

The Training Officer shall ensure that all personnel who are authorized to carry a control device have been properly trained and certified to carry the specific control device and are retrained or recertified, as necessary.

- (a) Proficiency training shall be monitored and documented by a certified control-device weapons or tactics instructor.
- (b) All training and proficiency for control devices will be documented in the member's training file.
- (c) Members who fail to demonstrate proficiency with the control device or knowledge of this policy will be restricted from carrying the control device until demonstrating proficiency. If a member cannot demonstrate proficiency with a control device or knowledge of this policy after remedial training, the member may be subject to discipline.

511.10.2 PERIODIC TRAINING

Members will receive periodic training on this policy and demonstrate their knowledge and understanding (Government Code § 7286(b)).

Supervisors should conduct and document regular periodic briefings concerning this policy and the storage and use of weapons and control devices. Any test sheets or documentation of performance should be forwarded to the Training Officer to be included in the member's training file.

511.11 USE OF FORCE COMPLAINTS

The receipt, processing, and investigation of public complaints involving use of force incidents should be handled in accordance with the Personnel Complaints Policy (Government Code § 7286(b)).

511.12 POLICY REVIEW

The Sheriff or the authorized designee should regularly review and update this policy to reflect developing practices and procedures (Government Code § 7286(b)).

Colusa County Sheriff's Department

511.13 POLICY AVAILABILITY

The Sheriff or the authorized designee should ensure this policy is accessible to the public (Government Code § 7286(c)).

511.14 PUBLIC RECORDS REQUESTS

Requests for public records involving a correctional officer's personnel records shall be processed in accordance with Penal Code § 832.7 and the Personnel Records and Records and Data policies (Government Code § 7286(b)).

Use of Restraints

512.1 PURPOSE AND SCOPE

This policy establishes guidelines for the application, supervisory oversight, and restrictions on the use of restraints on persons incarcerated in this facility.

This policy shall apply to the use of specific types of restraints, such as four/five-point restraints, restraint chairs, ambulatory restraints, and similar restraint systems, as well as all other restraints, including handcuffs, waist chains, and leg irons when such restraints are used to restrain any incarcerated person for prolonged periods.

This policy does not apply to the use of electrical restraints (see the Electronic Restraints Policy).

512.1.1 DEFINITIONS

Definitions related to this policy include:

Clinical restraints - Restraints applied when an incarcerated person's disruptive, assaultive, and/or self-injurious behavior is related to a medical or mental illness. Clinical restraints can include leather, rubber, or canvas hand and leg restraints with contact points on a specialized bed (four/five-point restraints) or a portable restraint chair.

Therapeutic seclusion - Separated confinement of an agitated, vulnerable, and/or severely anxious incarcerated person with a serious mental illness as part of treatment when clinically indicated for preventive therapeutic purposes.

512.2 POLICY

It is the policy of this department that restraints shall be used only to prevent self-injury, injury to others, or property damage. Restraints may also be applied according to an incarcerated person's classification, such as maximum security, to control the behavior of a high-risk incarcerated person while the person is being moved outside the cell or housing unit.

Restraints shall never be used for retaliation or as punishment. Restraints shall not be utilized any longer than is reasonably necessary to control the incarcerated person. Restraints are to be applied only when less restrictive methods, including verbal de-escalation techniques, have been attempted and are deemed ineffective in controlling the dangerous behavior of an incarcerated person (15 CCR 1029(a)(4); 15 CCR 1058). Each incident where restraints are used shall be documented by the handling staff member and placed in the appropriate file prior to the end of the staff member's shift.

This policy does not apply to the temporary use of restraints, such as handcuffing or the use of leg irons to control an incarcerated person during movement and transportation inside or outside the facility.

512.3 USE OF RESTRAINTS - CONTROL

Supervisors shall proactively oversee the use of restraints on any incarcerated person. Whenever feasible, the use of restraints, other than routine use during transfer, shall require the approval of

Colusa County Sheriff's Department

CA Custody Manual

Use of Restraints

the Shift Supervisor prior to application. In instances where prior approval is not feasible, the Shift Supervisor shall be apprised of the use of restraints as soon as practicable.

Restraint devices, such as restraint chairs, shall only be used on an incarcerated person when it reasonably appears necessary to overcome resistance, prevent escape, or bring an incident under control, thereby preventing injury to the incarcerated person or others, or eliminating the possibility of property damage. Restraints shall not be utilized any longer than is reasonably necessary to achieve the above goals.

Excluding short-term use to gain immediate control, placing an incarcerated person in a restraint chair or other restraints for extended periods requires approval from the Jail Commander or the authorized designee prior to taking action. The medical staff shall be called to observe the application of the restraints, when feasible, prior to the application or as soon as practicable after the application, and to check the incarcerated person for adequate circulation.

The use of restraints for purposes other than for the controlled movement or transportation of an incarcerated person shall be documented on appropriate logs and shall be video recorded unless exigent circumstances prevent staff from doing so. The documentation shall include, at a minimum, the type of restraint used, when it was applied, a detailed description of why the restraint was needed, the name of the person authorizing placement, names of staff involved in the placement, any injuries sustained, when the restraints were removed and the duration of placement (15 CCR 1058).

The following provisions shall be followed when utilizing restraints to control an incarcerated person (15 CCR 1058):

- (a) Restraints shall not be used as punishment, placed around a person's neck, or applied in a way that is likely to cause undue physical discomfort or restrict blood flow or breathing (e.g., hog-tying).
- (b) Restrained incarcerated persons shall not be placed facedown or in a position that inhibits breathing.
- (c) Restraints shall not be used to secure a person to a fixed object except as a temporary emergency measure. A person who is being transported shall not be locked in any manner to any part of the transporting vehicle except for items installed for passenger safety, such as seat belts.
- (d) Incarcerated persons in restraints shall be housed either alone or in an area designated for restrained persons.
- (e) Restraints shall be applied for no longer than is reasonably necessary to protect the incarcerated person or others from harm.
- (f) Staff members shall conduct continuous direct face-to-face observation at least twice every 30 minutes on an irregular schedule to check the incarcerated person's physical well-being and behavior. Restraints shall be checked to verify correct application and to ensure they do not compromise circulation. All checks shall be documented, with the actual time recorded by the person doing the observation, along with a description of the incarcerated person's behavior. Any actions taken should also be noted in the log.

Colusa County Sheriff's Department

CA Custody Manual

Use of Restraints

- (g) The specific reasons for the continued need for restraints shall be reviewed, documented, and approved by the Jail Commander or the Shift Supervisor at least every hour.
- (h) Continuous direct visual observation shall be maintained until a medical opinion can be obtained.
- (i) Within one hour of placement in restraints, a qualified health care professional shall document an opinion regarding the placement and retention of the restraints.
- (j) As soon as practicable, but within four hours of placement in restraints, the incarcerated person shall be medically assessed to determine whether the person has a serious medical condition that is being masked by the aggressive behavior. The medical assessment shall be a face-to-face evaluation by a qualified health care professional.
- (k) As soon as practicable, but within eight hours of placement in restraints, the incarcerated person must be evaluated by a mental health professional to assess whether the incarcerated person needs immediate and/or long-term mental health treatment. If the Jail Commander, or the authorized designee, in consultation with responsible health care staff determines that the incarcerated person cannot be safely removed from restraints after eight hours, the person shall be taken to a medical facility for further evaluation.
- (l) Where applicable, the Jail Commander shall use the restraint device manufacturer's recommended maximum time limits for placement.

512.3.1 COURT APPROVAL

Prior judicial approval should be obtained for the use of restraints when the incarcerated person is in court if the restraints will be visible to a jury.

512.4 USE OF RESTRAINTS - CLINICAL

An Incarcerated person may be considered for clinically ordered restraints or seclusion when exhibiting dangerous behavior that is believed to be a product of a medical or mental illness and that puts the person or others at risk of physical harm, or when medical care is urgently required and the person is not considered competent to give or withhold consent.

Clinical restraints and/or therapeutic seclusion shall only be used when an incarcerated person's safety or the safety of others cannot be protected by less restrictive means, and only upon the direct order of a qualified health care professional and notification of the Jail Commander or the authorized designee prior to taking action. Restraints shall be used no longer than is reasonably necessary to provide for the legitimate safety concerns of the incarcerated person, staff, or others.

The following provisions shall be used any time clinical restraints or therapeutic seclusion is authorized:

- (a) Excluding short-term use to gain immediate control of an incarcerated person exhibiting dangerous or destructive behavior, an incarcerated person may be placed in clinical restraints or therapeutic seclusion only on the orders of a qualified health care professional and only after making a determination that less restrictive interventions

are ineffective to prevent the person from causing property damage or serious self-injury or injury to others.

- (b) Clinical restraints or therapeutic seclusion shall never be ordered or otherwise applied as a means of coercion, discipline, punishment, convenience, or retaliation.
- (c) The qualified health care professional's order may only be in effect for up to 12 hours for adult incarcerated persons.
- (d) Within one hour of the application of restraints or therapeutic seclusion, a face-to-face observation of the incarcerated person to evaluate the need for continued restraint or therapeutic seclusion shall be conducted by a qualified health care professional.
- (e) If deemed clinically necessary, the qualified health care professional who gave the initial order for restraints or therapeutic seclusion may renew the original order for an additional four hours for an adult.
- (f) Incarcerated persons placed in clinical restraints shall be placed in designated cells within the medical unit. The restraints shall be applied in the least restrictive manner possible, based on the qualified health care professional's evaluation and order.
- (g) Incarcerated persons placed in restraints shall only be placed in a face-up position.
- (h) Following the first face-to-face observation, a qualified health care professional shall conduct face-to-face checks every 15 minutes on an irregular schedule to assess the incarcerated person's condition and behavior. The restraints shall be checked for proper application and to ensure that circulation is not compromised. Checks shall be documented in the incarcerated person's medical file.
- (i) Except in the event of a medical emergency for the incarcerated person, only a qualified health care professional shall determine when an incarcerated person shall be released from clinical restraints or therapeutic seclusion.

512.5 RANGE OF MOTION

Incarcerated persons placed in restraints for longer than two hours should receive a range-of-motion procedure that will allow for the movement of the extremities. Range-of-motion exercise will consist of alternate movement of the extremities (i.e., right arm and left leg) for a minimum of 10 minutes every two hours.

512.6 FOOD, HYDRATION, AND SANITATION

Incarcerated persons who are confined in restraints shall be given food and fluids. Provisions shall be made to accommodate any toileting needs at least once every two hours. Food shall be provided during normal meal periods. Hydration (water or juices) will be provided no less than once every two hours or when requested by the incarcerated person.

Offering food and hydration to incarcerated persons will be documented to include the time, the name of the person offering the food or water/juices, and the incarcerated person's response (receptive, rejected). Incarcerated persons shall be provided the opportunity to clean themselves or their clothing while they are in restraints.

512.7 AVAILABILITY OF CPR EQUIPMENT

CPR equipment, such as barrier masks, shall be provided by the facility and located in proximity to the location where incarcerated persons in restraints are held.

512.8 RESTRAINED INCARCERATED PERSON HOLDING

Restrained incarcerated persons should be protected from abuse by other incarcerated persons. Under no circumstances will restrained incarcerated persons be housed with incarcerated persons who are not in restraints. In most instances, restrained incarcerated persons are housed alone or in an area designated for restrained persons (15 CCR 1058).

512.9 PREGNANT INCARCERATED PERSONS

Restraints will not be used on incarcerated persons who are known to be pregnant unless based on an individualized determination that restraints are reasonably necessary for the legitimate safety and security needs of the incarcerated person, the staff, or the public. Should restraints be necessary, the restraints shall be the least restrictive available and the most reasonable under the circumstances.

Incarcerated persons who are known to be pregnant will not be handcuffed behind their backs or placed in waist restraints or leg irons.

Once pregnancy has been confirmed, a pregnant incarcerated person should be advised of the policies and procedures regarding the restraint of pregnant persons (Penal Code § 3407; 15 CCR 1058.5).

512.9.1 INCARCERATED PERSONS IN LABOR

No incarcerated person who is in labor, delivery, or recovery from a birth shall be restrained by the use of leg restraints/irons, waist restraints/chains, or handcuffs behind the body (Penal Code § 3407; 15 CCR 1058.5).

No incarcerated person who is in labor, delivering, or recovering from a birth shall be otherwise restrained except when all of the following exist (Penal Code § 3407; 15 CCR 1058.5):

- (a) There is a substantial flight risk or some other extraordinary medical or security circumstance that dictates restraints be used to ensure the safety and security of the incarcerated person, the staff of this or the medical facility, other incarcerated persons, or the public.
- (b) A supervisor has made an individualized determination that such restraints are necessary to prevent escape or injury.
- (c) There is no objection from the treating medical care provider.
- (d) The restraints used are the least restrictive type and are used in the least restrictive manner.

Restraints shall be removed when medical staff responsible for the medical care of the pregnant incarcerated person determines that the removal of restraints is medically necessary (Penal Code § 3407).

Colusa County Sheriff's Department

CA Custody Manual

Use of Restraints

The supervisor should, within 10 days, make written findings specifically describing the type of restraints used, the justification, and the underlying extraordinary circumstances.

512.9.2 INCARCERATED PERSONS IN RECOVERY AFTER TERMINATED PREGNANCY

Incarcerated persons recovering from a termination of pregnancy shall not be restrained using leg restraints/irons, waist restraints/chains, or handcuffs behind the body unless an exception identified in the Incarcerated Persons in Labor subsection of this policy applies (15 CCR 1058.5).

Restraints shall be removed when medical staff responsible for the medical care of the incarcerated person determines that the removal of restraints is medically necessary (15 CCR 1058.5).

Searches

513.1 PURPOSE AND SCOPE

The purpose of this policy is to provide clear direction on maintaining the safety and security of the facility by conducting searches, in balance with protecting the rights afforded by the United States Constitution.

The introduction of contraband, intoxicants, or weapons into the Colusa County Sheriff's Department facility poses a serious risk to the safety and security of staff, incarcerated persons, volunteers, contractors, and the public. Any item that is not available to all incarcerated persons may be used as currency by those who possess the item, and will allow those in possession of the item to have control over other persons. Any item that may be used to disengage a lock, other electronic security devices, or the physical plant itself seriously jeopardizes the safety and security of this facility. Carefully restricting the flow of contraband into the facility can only be achieved by thorough searches of incarcerated persons and their environment.

Nothing in this policy is intended to prohibit the otherwise lawful collection of trace evidence from an incarcerated person/arrestee.

513.1.1 DEFINITIONS

Definitions related to this policy include:

Contraband - Anything unauthorized for incarcerated persons to possess or anything authorized to possess but in an unauthorized manner or quantity.

Modified strip search - A search that requires a person to remove or rearrange some of their clothing that does not include a visual inspection of the breasts, buttocks, or genitalia of the person but may include a thorough tactile search of an incarcerated person's partially unclothed body. This also includes searching the person's clothing once it has been removed.

Pat-down search - The normal type of search used by correctional officers within this facility to check an individual for weapons or contraband. It involves a thorough patting down of clothing to locate any weapons or dangerous items that could pose a danger to the correctional officer, the incarcerated person, or other incarcerated persons.

Physical body cavity search - A search that includes a visual inspection and may include a physical intrusion into a body cavity. Body cavity means the stomach, rectal cavity, or vagina.

Strip search - A search that requires a person to remove or rearrange some or all of their clothing to permit a visual inspection of the underclothing, breasts, buttocks, anus, or outer genitalia. This includes monitoring of a person showering or changing clothes where the person's underclothing, buttocks, genitalia, or breasts are visible to the monitoring employee.

Searches

513.2 POLICY

It is the policy of this department to ensure the safety of staff, incarcerated persons, and visitors by conducting effective and appropriate searches of incarcerated persons and areas within the facility in accordance with applicable laws (15 CCR 1029(a)(6)).

Searches shall not be used for intimidation, harassment, punishment, or retaliation.

513.3 PAT-DOWN SEARCHES

Pat-down searches will be performed on all incarcerated persons/arrestees upon entering the secure booking area of the facility. Additionally, pat-down searches shall occur frequently within the facility. At a minimum, the staff shall conduct pat-down searches in circumstances that include:

- (a) When incarcerated persons leave their housing units to participate in activities elsewhere in the facility (e.g., exercise yard, medical, program, visiting) and when they return.
- (b) During physical plant searches of entire housing units.
- (c) When incarcerated persons come into contact with other incarcerated persons housed outside of their housing units, such as work details.
- (d) Any time the staff believes the incarcerated persons may have contraband on their persons.

Except in emergencies, staff members may not conduct a pat-down search on an incarcerated person of the opposite gender. Absent the availability of a same gender staff member, it is recommended that a witnessing staff member be present during any pat-down search of an individual of the opposite gender. All cross-gender pat-down searches shall be documented (28 CFR 115.15).

513.4 MODIFIED STRIP SEARCHES, STRIP SEARCHES, AND PHYSICAL BODY CAVITY SEARCHES

Correctional officers will generally consider the reason for the search, the scope, intrusion, manner, and location of the search, and will utilize the least invasive search method to meet the need for the search.

513.4.1 STRIP SEARCHES PRIOR TO PLACEMENT IN A HOUSING UNIT

Strip searches prior to placement in a housing unit shall be conducted as follows:

- (a) No person held prior to placement in a housing unit shall be subjected to a modified strip search or strip search unless there is reasonable suspicion based upon specific and articulable facts to believe the person has a health condition requiring immediate medical attention or is concealing a weapon or contraband. Factors to be considered in determining reasonable suspicion include but are not limited to:
 - 1. The detection of an object during a pat-down search that may be a weapon or contraband and cannot be safely retrieved without a modified strip search or strip search.

Colusa County Sheriff's Department

CA Custody Manual

Searches

2. Circumstances of a current arrest that specifically indicate the person may be concealing a weapon or contraband. A felony arrest charge or being under the influence of a controlled substance should not suffice as reasonable suspicion absent other facts.
 3. Custody history (e.g., past possession of contraband while in custody, assaults on staff, escape attempts).
 4. The person's actions or demeanor, such as refusal to submit to a pat-down search.
 5. Criminal history (e.g., level of experience in a custody setting, including convictions for escape, possession of drugs or weapons, crimes of violence, or being a fugitive or detainee for any of those offenses).
 6. An alert by a metal detector or drug detection device.
 7. Other reliable information that the person possesses drugs, weapons, or contraband.
- (b) Except in the case of a medical emergency, no modified strip search or strip search of an incarcerated person shall be conducted prior to admittance to a housing unit without prior written authorization from the Shift Supervisor.
- (c) The staff member conducting the modified strip search or strip search shall:
1. Document the name and gender of the person subjected to the strip search.
 2. Document the facts that led to the decision to perform a strip search.
 3. Document the reasons less intrusive methods of searching were not used or were insufficient.
 4. Document the supervisor's approval.
 5. Document the time, date, and location of the search.
 6. Document the names, gender, and roles of any staff present.
 7. Itemize in writing all contraband and weapons discovered by the search.
 8. Process all contraband and weapons in accordance with the department's current evidence procedures.
 9. If appropriate, complete a crime report and/or disciplinary report.
 10. Ensure the documentation is placed in the incarcerated person's file. A copy of the written authorization shall be retained and made available to the incarcerated person or other authorized representative upon request.

513.4.2 STRIP SEARCHES UPON ENTRY INTO A HOUSING UNIT

Strip searches will be conducted on all incarcerated person upon admission into a housing unit.

Arrestees who are eligible for release or who will be released when they are no longer intoxicated will not be placed into a housing unit or have unmonitored or unsupervised contact with previously housed incarcerated persons.

Colusa County Sheriff's Department

CA Custody Manual

Searches

Arrestees who are arranging bail shall be permitted a reasonable amount of time, not less than 12 hours, before being placed in a housing unit.

513.4.3 MODIFIED STRIP SEARCHES AND STRIP SEARCHES OF INCARCERATED PERSONS IN A HOUSING UNIT

A strip search of an incarcerated person in a housing unit should be conducted when the person has entered an environment where contraband or weapons may be accessed. This includes but is not limited to the following:

- (a) Upon return from contact visits
- (b) Upon leaving the kitchen, shop, or farm
- (c) Upon return to the housing unit from outside the confines of the facility (e.g., court, work-release, work detail, medical visits)

Incarcerated persons returning from court with release orders shall not be subject to modified strip searches or strip searches unless the reasonable suspicion exists based on specific and articulable facts that the person is concealing a weapon or contraband. The incarcerated person should not be returned to the housing unit, except to retrieve their personal property under the direct visual supervision of staff.

Staff members may conduct modified strip searches and strip searches of incarcerated persons outside the above listed circumstances only with supervisor approval. Staff members and supervisors must make a determination to conduct a strip search by balancing the scope of the particular search, intrusion, the manner in which it is conducted, the justification for initiating it, and the place in which it is conducted. Less invasive searches should be used if they would meet the need for the search. For example, a pat-down or modified strip search may be sufficient as an initial effort to locate a larger item, such as a cell phone.

The staff member conducting a modified strip or strip search outside the above listed circumstances shall:

- Document in writing the facts that led to the decision to perform a strip search of the incarcerated person.
- Document the reasons less intrusive methods of searching were not used or were insufficient.
- Document the supervisor's approval.
- Document the time, date, and location of the search.
- Document the names of staff present, their gender, and their roles.
- Itemize in writing all contraband and weapons discovered by the search.
- Process all contraband and weapons in accordance with the department's current evidence procedures.
- If appropriate, complete a crime report and/or disciplinary report.

Colusa County Sheriff's Department

CA Custody Manual

Searches

- Ensure the completed documentation is placed in the incarcerated person's file. A copy of the written authorization shall be retained and made available to the incarcerated person or other authorized representative upon request.

513.4.4 MODIFIED STRIP SEARCH AND STRIP SEARCH PROCEDURES

All modified strip searches and strip searches shall be conducted in a professional manner under sanitary conditions and in an area of privacy so that the search cannot be observed by persons not participating in the search.

Unless conducted by a qualified health care professional or in case of an emergency, a modified strip search or strip search shall be conducted by staff members of the same gender as the person being searched (Penal Code § 4030). Any cross-gender modified strip searches and cross-gender strip searches shall be documented (28 CFR 115.15).

Whenever possible, a second staff member of the same gender should be present during the search for security purposes and to witness the discovery of evidence.

The staff member conducting a strip search shall not touch the breasts, buttocks, or genitalia of the person being searched. These areas may be touched through the clothing during a modified strip search.

- (a) The searching staff member will instruct the incarcerated person to:
 1. Remove their clothing.
 2. Raise their arms above the head and turn 360 degrees.
 3. Bend forward and run their hands through their hair.
 4. Turn their head first to the left and then to the right so the searching correctional officer can inspect the person's ear orifices.
 5. Open their mouth and run a finger over the upper and lower gum areas, then raise the tongue so the correctional officer can inspect the interior of the person's mouth. Remove dentures if applicable.
 6. Turn around and raise one foot first, then the other so the correctional officer can check the bottom of each foot.
 7. For a visual cavity search, turn around, bend forward, and spread the buttocks if necessary to view the anus.
- (b) At the completion of the search, the incarcerated person should be instructed to dress in either their street clothes, or jail-supplied clothing, as appropriate.

513.4.5 PHYSICAL BODY CAVITY SEARCH

Physical body cavity searches shall be completed as follows:

- (a) No person shall be subjected to a physical body cavity search without the approval of the Jail Commander or the authorized designee and only with the issuance of a search warrant. A copy of any search warrant and the results of the physical body cavity search shall be included with the related reports and made available, upon request,

Colusa County Sheriff's Department

Searches

to the incarcerated person or authorized representative (except for those portions of the warrant ordered sealed by a court).

- (b) Only a physician may conduct a physical body cavity search. Except in exigent circumstances, only a physician who is not responsible for providing ongoing care to the incarcerated person may conduct the search (15 CCR 1206(o)).
- (c) Except for the physician conducting the search, persons present must be of the same gender as the person being searched. Only the necessary staff needed to maintain the safety and security of the medical personnel shall be present (Penal Code § 4030).
- (d) Privacy requirements, including restricted touching of body parts and sanitary condition requirements, are the same as required for a strip search.
- (e) All such searches shall be documented including:
 - 1. The facts that led to the decision to perform a physical body cavity search of the incarcerated person.
 - 2. The reasons less intrusive methods of searching were not used or were insufficient.
 - 3. The Jail Commander's approval.
 - 4. A copy of the search warrant.
 - 5. The time, date, and location of the search.
 - 6. The medical personnel present.
 - 7. The names, gender, and roles of any staff present.
 - 8. Any contraband or weapons discovered by the search.
- (f) Completed documentation should be placed in the incarcerated person's file. A copy of the written authorization shall be retained and made available to the incarcerated person or other authorized representative upon request.
- (g) All contraband and weapons should be processed in accordance with the department's current evidence procedures.
- (h) If appropriate, the staff member shall complete a crime report and/or disciplinary report.

513.4.6 BODY SCANNER SEARCH

When a scanner is reasonably available, a body scanner should be performed on all incarcerated persons/arrestees upon entering the secure booking area of the facility.

If a body scanner is used, members (Penal Code § 4030):

- (a) Within sight of the visual display of a body scanner depicting the body during a scan shall be of the same gender as the person being scanned, except for physicians or licensed medical personnel.
- (b) Should ask incarcerated persons if they are pregnant prior to a body scan and should not knowingly use a body scanner on a person who is pregnant.

Colusa County Sheriff's Department

CA Custody Manual

Searches

The body scanner should generally be used whenever reasonably practicable in place of a modified strip search, strip search, or body cavity search of an incarcerated person in housing unless one of those searches is reasonably necessary after the scan.

513.5 TRANSGENDER SEARCHES

Staff shall not search or physically examine a transgender or intersex incarcerated person for the sole purpose of determining genital status (see the Prison Rape Elimination Act Policy for transgender and intersex definitions). If genital status is unknown, it may be determined during conversations with the person, by reviewing medical records, or, if necessary, by obtaining that information as part of a broader medical examination conducted in private by a qualified health care professional (28 CFR 115.15).

513.6 CONTRABAND SEARCHES

The staff shall always be alert to the possible presence of contraband and shall take immediate action to seize the contraband when practicable. There are several types of searches that contribute to contraband control and to maintaining a safe and secure environment.

513.7 HOUSING UNIT SEARCHES

Housing unit searches shall occur as directed by a supervisor. These searches should include all of the living spaces occupied by incarcerated persons. Housing unit searches should be scheduled in a manner that does not create a pattern where the persons can predict such searches. During a housing unit search:

- (a) All incarcerated persons shall vacate their living areas and be searched by staff.
- (b) Incarcerated persons should be escorted to a separate holding area, such as the recreation yard.
- (c) Staff shall search the living areas of the incarcerated persons, including bedding, personal storage areas, bunks, and other areas with incarcerated person access.
- (d) Any weapons or contraband located shall be processed in accordance with the current evidence procedures.
- (e) The staff shall attempt to identify the incarcerated person who possessed the contraband and file appropriate person discipline and/or crime reports.
- (f) Any alcoholic beverage possessed by incarcerated persons shall be seized and the appropriate person disciplined and/or criminal charges filed.
- (g) Any authorized item found in excess of the limited quantity (e.g., food items, newspapers) shall be seized and discarded.

At the conclusion of the housing unit search, closely supervised incarcerated workers should clean the unit. All authorized incarcerated person personal property shall be respected and living areas should be returned to an orderly condition.

513.8 PHYSICAL PLANT SEARCHES

The following areas of this facility shall be periodically searched for contraband:

Colusa County Sheriff's Department

CA Custody Manual

Searches

- (a) Exercise yards shall be searched for contraband prior to and after each incarcerated person group occupies the yard.
- (b) Holding cells shall be searched prior to and after each incarcerated person occupies the cell.
- (c) Program areas, such as classrooms and multipurpose rooms, shall be searched after each use by an incarcerated person or incarcerated person group.
- (d) Laundry areas shall be searched before and after each incarcerated person group occupies the area.
- (e) Kitchen areas shall be frequently searched for contraband and to account for tools, knives, and food items.
- (f) Incarcerated person visiting and public areas shall be frequently inspected for contraband.
- (g) The facility perimeter shall be searched at least once each shift for contraband.

513.8.1 CANINE-ASSISTED SEARCHES

It is the policy of this facility to use canines to assist the staff in searching for contraband. Such searches shall occur only with the approval of a supervisor. Only canines trained in the detection of contraband, such as drugs, alcohol, and weapons, will be allowed within the secure perimeter of the facility. Canines trained solely in crowd control or to assist in physically subduing individuals will not be used in the facility.

Canines will generally be used to assist the staff in general physical plant or living area searches. Contact between incarcerated persons and canines should be kept to a minimum (see the Canines Policy).

513.9 CRIMINAL EVIDENCE SEARCHES

The Jail Commander or the authorized designee shall be notified, as soon as practicable, any time it is suspected that a crime has been committed in the facility or other area controlled by the facility staff, and there is a need to search for evidence related to the crime.

Any evidence collected in connection with an alleged crime shall be reported, documented, and stored to protect it from contamination, loss, or tampering, and to establish the appropriate chain of custody. A search for evidence may be conducted by staff whenever there is a need for such action.

513.10 TRAINING

The Training Officer shall provide training for staff in how to conduct pat-down searches, modified strip searches, and strip searches in a professional and respectful manner and in the least intrusive manner possible, consistent with facility security needs. This training shall include cross-gender pat downs and searches, as well as searches of transgender and intersex incarcerated persons (28 CFR 115.15).

514.6 RECORD RELEASE REQUIREMENTS

Records subject to public disclosure that are related to an in-custody death investigation shall be made available for public inspection at the earliest time possible or no later than 45 days from the date of a request, unless the record is subject to delayed release, redaction, or other release restrictions as provided by law (Penal Code § 832.10).

Disclosure of in-custody death records during active criminal or administrative investigations may be delayed as follows (Penal Code § 832.10):

- (a) Disclosure may be delayed up to 60 days from the date the death occurred or until the Department is informed of the district attorney's charging decision, whichever is first.
- (b) The Department may continue to delay the disclosure of records after 60 days from the in-custody death if the disclosure could reasonably be expected to interfere with a criminal enforcement proceeding against any person.
- (c) If criminal charges are filed related to the death, disclosure may be delayed until the court case reaches final disposition.
- (d) During an administrative investigation, disclosure may be delayed until the Department determines whether a policy or law was violated related to the death.

The Department shall provide the records when the investigation or proceedings are no longer active or no later than 18 months after the death, whichever is first.

514.6.2 NOTICE OF DELAY OF RELEASE

The Records Supervisor shall provide written notice to the requester as follows when delaying the disclosure of records (Penal Code § 832.10):

- (a) During the initial 60 days, the Records Supervisor shall provide the requester with the specific basis for the determination that the interest in delaying disclosure clearly outweighs the public interest in disclosure and include the estimated date for the disclosure.
- (b) When delay is continued after 60 days, the Records Supervisor shall provide the requester, at 180-day intervals as necessary, with the specific basis for the determination that the disclosure could reasonably be expected to interfere with a criminal enforcement proceeding and include the estimated date for the disclosure.

514.6.3 REDACTION

The Department is authorized to redact records for the following reasons (Penal Code § 832.10):

- (a) To remove personal data or information, such as a home address, telephone number, or identities of family members, other than people's names and work-related information.

Colusa County Sheriff's Department

Reporting In-Custody Deaths

- (b) To preserve the anonymity of whistleblowers, complainants, victims, and witnesses.
- (c) To protect confidential medical, financial, or other information of which disclosure is specifically prohibited by federal law or would cause an unwarranted invasion of personal privacy that clearly outweighs the strong public interest in records about possible misconduct.
- (d) Where there is a specific, articulable, and particularized reason to believe that disclosure of the record would pose a significant danger to the physical safety of any person.

Additionally, the Department may redact a record, including personal identifying information, where, on the facts of the particular case, the public's interest in the nondisclosure of information is clearly outweighed by the disclosure of information (Penal Code § 832.10).

514.7 IN-CUSTODY DEATH PUBLICATION

The Sheriff or the authorized designee should ensure that all specified information relating to the in-custody death is posted on the department's website as prescribed and within the time frames provided in Penal Code § 10008.

Staff and Incarcerated Person Contact

515.1 PURPOSE AND SCOPE

Interaction with incarcerated persons allows for continual assessment of the safety and security of the facility and the health and welfare of the incarcerated persons. However, inappropriate interaction can undermine security and order in the facility and the integrity of the supervision process.

This policy provides guidelines for appropriate and professional interaction between members and incarcerated persons, and is intended to promote high ethical standards of honesty, integrity, and impartiality as well as increase facility safety, discipline, and morale.

Violation of this policy may result in disciplinary action up to and including dismissal. Members who seek information or clarification about the interpretation of this policy are encouraged to promptly contact their supervisor.

Members shall not dispense legal advice or opinions, or recommend attorneys or other professional services to incarcerated persons.

While profanity and harsh language are prohibited, the Department recognizes the necessity for staff to give incarcerated persons direction in a firm, determined, and authoritative manner in order to maintain proper supervision and control. Authoritative directions to persons are particularly instructed when activities or events pose a threat to the safety or security of this facility.

- Whether the relationship would undermine security and order in the facility and the integrity of the supervision process.
- Whether the relationship would be detrimental to the image and efficient operation of the facility.

517.1.1 DEFINITIONS

Definitions related to this policy include:

Safety cell - An enhanced protective housing designed to minimize the risk of injury or destruction of property used for incarcerated persons who display behavior that reveals intent to cause physical harm to themselves or others or to destroy property, or who are in need of a separate cell for any reason, until suitable housing is available.

Sobering cell - A holding cell designed to minimize the risk of injury by falling or dangerous behavior. Incarcerated persons placed on suicide watch will be placed in the designated observation cell.

517.2 POLICY

This facility does not have a safety cell and will designate one of the sobering cells as an observation cell. Staff will employ the use of the observation cell for inmates placed on suicide watch and shall follow the procedures for suicide watch (Policy 724.6 Suicide Watch) to protect inmates from injury or to prevent the destruction of property by an inmate in accordance with applicable law.

A sobering or safety cell shall not be used as punishment or as a substitute for treatment. The Jail Commander or the authorized designee shall review this policy annually with the Responsible Physician.

Biological Samples

518.1 PURPOSE AND SCOPE

This policy provides guidelines for the collection of biological samples from those incarcerated persons required to provide samples upon conviction and/or arrest for certain offenses. This policy does not apply to biological samples collected at a crime scene or taken from a person in conjunction with a criminal investigation. Nor does it apply to biological samples collected from those required to register, for example, as sex offenders.

518.2 POLICY

The Colusa County Sheriff's Department will assist in the expeditious collection of required biological samples from arrestees and offenders in accordance with the laws of this state and with as little reliance on force as practicable.

518.3 PERSONS SUBJECT TO BIOLOGICAL SAMPLE COLLECTION

Incarcerated persons must submit a biological sample (Penal Code § 296: Penal Code § 296.1):

- (a) Upon conviction or other adjudication of any felony offense.
- (b) Upon conviction or other adjudication of any offense if the person has a prior felony on record.
- (c) When arrested or charged with any felony.

518.4 PROCEDURE

When an incarcerated person is required to provide a biological sample, a trained employee shall attempt to obtain the sample in accordance with this policy.

518.4.1 COLLECTION

The following steps should be taken to collect a sample:

- (a) Verify that the incarcerated person is required to provide a sample pursuant to Penal Code § 296 and Penal Code § 296.1.
- (b) Verify that a biological sample has not been previously collected from the offender by querying the individual's criminal history record for a DNA collection flag or, during regular business hours, calling the California Department of Justice (DOJ) designated DNA laboratory. There is no need to obtain a biological sample if one has been previously obtained.
- (c) Use the designated collection kit provided by the California DOJ to perform the collection and take steps to avoid cross contamination.

518.5 CALCULATED USE OF FORCE TO OBTAIN SAMPLES

If an incarcerated person refuses to cooperate with the sample collection process, correctional officers should attempt to identify the reason for refusal and seek voluntary compliance without resorting to using force. Force will not be used in the collection of samples except as authorized

Colusa County Sheriff's Department

by court order or approval of legal counsel and only with the approval of the Shift Supervisor. Methods to consider when seeking voluntary compliance include contacting:

- (a) The incarcerated person's parole or probation officer when applicable.
- (b) The prosecuting attorney to seek additional charges against the incarcerated person for failure to comply or to otherwise bring the refusal before a judge.
- (c) The judge at the incarcerated person's next court appearance.
- (d) The incarcerated person's attorney.
- (e) A chaplain.
- (f) A supervisor who may be able to authorize disciplinary actions to compel compliance, if any such actions are available.

The Shift Supervisor shall review and approve any calculated use of force. The supervisor shall be present to supervise and document the calculated use of force.

518.5.1 VIDEO RECORDING

A video recording should be made any time force is used to obtain a biological sample. The recording should document all staff participating in the process, in addition to the methods and all force used during the collection. The recording should be part of the investigation file, if any, or otherwise retained in accordance with the department's established records retention schedule.

If the use of force includes a cell extraction, the extraction shall also be video recorded, including audio. The video recording shall be retained by the facility in accordance with established records retention schedules. Notwithstanding the use of the video as evidence in a criminal proceeding, the tape shall be retained by the jail administration (15 CCR 1059).

518.6 LEGAL MANDATES AND RELEVANT LAWS

California law provides for the following:

518.6.1 DOCUMENTATION RELATED TO FORCE

The Shift Supervisor or the authorized designee on-duty shall prepare prior written authorization for the use of any force (15 CCR 1059).

The written authorization shall include information that the subject was asked to provide the requisite sample and refused, as well as any related court order authorizing the force.

518.6.2 BLOOD SAMPLES

A blood sample should only be obtained under this policy when:

- (a) The California DOJ requests a blood sample and the subject consents, or
- (b) A court orders a blood sample following a refusal.

The withdrawal of blood may only be performed in a medically approved manner by health care providers trained and qualified to draw blood. A California DOJ collection kit shall be used for this purpose (Penal Code § 298(a); Penal Code § 298(b)(2)).

519.3 RELEASE PROCEDURE

Incarcerated persons who have reached the end of their sentenced term or who are ordered released by the court will be scheduled for release at staggered times on their release date to avoid congestion in the release area. Incarcerated persons scheduled for release shall be escorted by the staff to the transfer/release area to begin the release procedure 30 minutes prior to their scheduled release time.

The Shift Supervisor or release officer shall sign and date the release paperwork on the same day the incarcerated person is to be released.

Incarcerated persons shall not be released or moved during incarcerated person count, change of shift, or at any time that would pose a potential safety threat or disrupt the orderly operation of the facility.

All incarcerated persons must be positively identified by the staff prior to being released from the facility. Incarcerated person identities should be verified using intake records bearing the incarcerated person's name, photograph, and facility identification number or a single digit fingerprint match system, if available.

Before any incarcerated person may be released, the following conditions must be met:

- (a) The identity of the incarcerated person has been verified.
- (b) All required paperwork for release is present. The staff shall review the active incarcerated person file to verify the validity of the documents authorizing the release. The file should also be reviewed for other release-related or pending matters, including:
 - 1. Verifying calculations and release-date adjustments for good time.
 - 2. Any pending arrangements for follow-up, such as medications needed, appointments, or referral to community or social resources.
 - 3. Unresolved grievances, damage claims, or lost property.
- (c) Releasing staff must complete National Crime Information Center (NCIC) and local warrant checks to ensure that there are no outstanding warrants or detention orders.

If any agency has outstanding charges against the incarcerated person, the staff shall notify the agency that the incarcerated person is available for release.

- (d) If an incarcerated person has known mental health concerns, the incarcerated person shall be evaluated by a qualified health care professional and medically authorized for release. To the extent reasonably practicable, individuals who have been determined to be severely mentally ill should be released during business hours to facilitate their ability to receive services immediately after release.
- (e) All personal property shall be returned to the incarcerated person during the release process. The incarcerated person must acknowledge receiving their property by signed receipt. Any discrepancies shall be promptly reported to the Shift Supervisor.

The incarcerated person shall remain in custody until the Shift Supervisor determines whether additional criminal charges should be filed against the incarcerated person for the damage.
- (g) A forwarding address for the incarcerated person should be on file and verified with the incarcerated person for the return of mail.
- (h) Incarcerated persons on probation or parole should be directed by the staff to report to the probation or parole office immediately upon release. The parole authorities having jurisdiction shall be notified of the incarcerated person's release, if required.
- (i) Incarcerated persons shall have access to at least three free telephone calls to plan for a safe and successful release (Penal Code § 4024.5).
- (j) Release standards, release processes, and release schedules shall be made available to an incarcerated person following the determination to release the incarcerated person (Penal Code § 4024.5).

The housing sheet, release log, and daily census log shall be updated accordingly after the incarcerated person's release. The Shift Supervisor shall ensure all release documents are complete and properly signed by the incarcerated person and the staff where required.

519.3.1 DISCHARGE OF INCARCERATED PERSONS WITH MENTAL ILLNESS OR SUBSTANCE ADDICTION

Incarcerated persons who are eligible for release and suffer from mental illness or substance addiction may be offered to stay in the facility for up to 16 additional hours or until normal business hours, whichever is shorter, in order for the incarcerated person to be discharged to a treatment center or be discharged during daylight hours. The incarcerated person may revoke the incarcerated person's consent and be released as soon as possible and practicable (Penal Code § 4024).

519.3.2 DISCHARGE OF INCARCERATED PERSONS CONVICTED OF FELONIES

Incarcerated persons who have been convicted of a felony and meet the conditions in Penal Code § 4852.01 shall be advised of the right to petition for certificate of rehabilitation and pardon prior to release. The Records Section shall inform the incarcerated person in writing of the incarcerated

The jail shall display the required signage that complies with Penal Code § 851.91 advising an arrestee of the right to obtain the Judicial Council forms.

Over-Detention and Inadvertent Releases

520.1 PURPOSE AND SCOPE

This policy is intended to provide guidance to staff and management to prevent and address over-detention or inadvertent release.

520.1.1 DEFINITIONS

Definitions related to this policy include:

Inadvertent release - Any instance of an incarcerated person being mistakenly released.

Over-detention - Any instance of an incarcerated person being mistakenly detained beyond their scheduled release date.

520.2 POLICY

It is the policy of this department to reasonably ensure that over-detention and inadvertent releases do not occur.

520.3 OVER-DETENTION

Any custody member who discovers or receives information of an over-detention, or a complaint from an incarcerated person regarding over-detention (which could be discovered through a grievance), should immediately notify the Shift Supervisor (see the Grievances Policy).

The Shift Supervisor should direct the jail records unit to immediately conduct an investigation to determine the correct release date of the incarcerated person and to report the findings to the Shift Supervisor.

Incarcerated persons who are found to be over-detained shall be processed for immediate release in accordance with the End of Term Release Policy. The Shift Supervisor shall ensure that the Jail Commander is notified, an entry is made to the daily activity log, and that a report is completed.

520.3.1 OVER-DETENTION GRIEVANCES

Any custody member who receives information or a complaint from an incarcerated person regarding over-detention should assist the person with completing a grievance form and forward the form directly to the Shift Supervisor as soon as practicable.

The Shift Supervisor receiving a grievance regarding an over-detention should direct the jail records unit to immediately conduct an investigation to determine the correct release date of the incarcerated person and to report the findings to the Shift Supervisor.

If the Shift Supervisor decides not to release the incarcerated person, the Shift Supervisor should ensure the person receives a grievance hearing within 24 hours of the grievance submission. The hearing documentation should reflect efforts made to investigate the allegation (see the Grievances Policy).

Over-Detention and Inadvertent Releases

520.4 INADVERTENT RELEASE

Whenever an inadvertent release is discovered, the custody member making the discovery shall immediately notify the Shift Supervisor. The notification shall be documented in the daily activity log.

520.4.1 INADVERTENT RELEASE INVESTIGATION

The Shift Supervisor should direct the jail records unit to immediately conduct an investigation to determine the cause of the inadvertent release.

The Shift Supervisor will coordinate a response based upon the seriousness of the threat the incarcerated person may pose to the community. The threat assessment should be based upon the person's criminal history and the reason the person is currently in custody, among other factors.

In the case of an inadvertent release, the Shift Supervisor should immediately notify the Jail Commander and ensure a report is completed. The Jail Commander should notify the Sheriff.

An appropriate evaluation of the circumstances shall be made to determine whether the inadvertent release should be classified as an escape.

520.4.2 RETURNING THE INCARCERATED PERSON TO CUSTODY

When the incarcerated person is located and returned to the facility, the appropriate notifications should be made as soon as possible.

Chapter 6 - Inmate Due Process

Discipline

600.1 PURPOSE AND SCOPE

This policy addresses the fair and equitable application of incarcerated person rules and disciplinary actions for those who fail to comply (15 CCR 1081).

600.2 POLICY

It is the policy of this department to maintain written general categories of prohibited incarcerated person behavior that are clear, consistent, and uniformly applied. Written rules and guidelines will be made available to all incarcerated persons. They will include a process for resolving minor infractions and a hearing process for a more serious breach of incarcerated person rules. Criminal acts may be referred to the appropriate criminal agency.

600.3 DUE PROCESS

Incarcerated persons who are subject to discipline as a result of rule violations shall be afforded the procedural due process by the Sheriff that is established in the policies, procedures, and practices relating to incarcerated person discipline. All incarcerated persons will be made aware of the rules of conduct related to maintaining facility safety, security, and order, as well as clearly defined actions for rule violations. Staff will not engage in arbitrary actions against incarcerated persons. All disciplinary actions will follow clearly established procedures. All disciplinary actions will be fairly and consistently applied (15 CCR 1081 et seq.).

The process for an incarcerated person accused of a major rule violation includes:

- (a) A fair hearing in which the Jail Commander or the authorized designee presents factual evidence supporting the rule violation and the disciplinary action.
- (b) Advance notice to the incarcerated person of the disciplinary hearing, to allow the incarcerated person time to prepare a defense.
- (c) An impartial hearing officer.
- (d) The limited right to call witnesses and/or present evidence on the person's behalf.
- (e) The appointment of an assistant or representative in cases where the incarcerated person may be incapable of self-representation.
- (f) A formal written decision that shows the evidence used by the hearing officer, the reasons for any actions, and an explanation of the appeal process.
- (g) Reasonable actions for violating rules that relate to the severity of the violation.
- (h) The opportunity to appeal the finding.

600.3.1 RULES AND ACTIONS

The Jail Commander is responsible for ensuring that rules and actions are developed, distributed, reviewed annually, and revised as needed.

Incarcerated persons cannot be held accountable for rules of which they are unaware. However, it is impossible to define every possible prohibited act or rule violation that might be encountered in

Colusa County Sheriff's Department

Discipline

a detention facility. Therefore, a current list of recognized infractions that are generally prohibited should be available in each housing unit. All incarcerated persons, regardless of their housing unit, shall have access to these rules. For those individuals with limited literacy, unable to read English, and for persons with disabilities, provisions shall be made for staff to instruct them verbally or provide them with material in an understandable form (15 CCR 1080) (see the Handbook and Orientation Policy).

Disciplinary procedures governing incarcerated person rule violations should address rules, minor and major violations, criminal offenses, disciplinary reports, prehearing detention, and prehearing actions or investigations.

600.3.2 RULE VIOLATION REPORTS

California Penal Code § 4019.5 requires that all disciplinary actions administered be documented. This requirement may be satisfied by retaining copies of rule violation reports, including the disposition of each violation (15 CCR 1084). Rule violation reports are required for major rule violations or any other violation that will require investigation or a formal resolution. The staff member who observed or detected the rule violation or who was charged with investigating a rule violation is responsible for completing the rule violation report. The rule violation report shall include, at a minimum:

- The date, time, and location of the incident.
- Specific rules violated.
- A written description of the incident.
- The identity of known participants in the incident.
- Identity of any witnesses to the incident.
- Description and disposition of any physical evidence.
- Action taken by staff, including any use of force.
- Name and signature of the reporting correctional officer.
- Date and time of the report.

The supervisor investigating the violation shall ensure that certain items are documented in the investigation or rule violation report, including:

- Date and time the explanation and the written copy of the complaint and appeal process was provided to the incarcerated person.
- The incarcerated person's response to the charges.
- Reasons for any actions.
- The identity of any staff or witnesses involved, as revealed by the incarcerated person.
- The findings of the hearing officer.
- The incarcerated person's appeal, if any.

- The appeal findings, if applicable.

600.3.3 POSTING

The Jail Commander or the authorized designee is responsible for conspicuously posting notices about rules, disciplinary procedures, and actions in a conspicuous location, as set forth in 15 CCR 1080.

600.4 RULE VIOLATION PROCEDURES

Minor acts of non-conformance to the rules may be handled informally by any correctional officer (15 CCR 1081).

A violation of rules observed by general service employees, volunteers, or contractors will be reported to a correctional officer for further action. Correctional officers are authorized to recommend informal actions on minor violations.

Any staff member imposing informal discipline shall complete the reporting portion of the disciplinary report and provide the form to the supervisor for review prior to the imposition of the action.

Disciplinary actions that may be imposed for minor rule violations include (15 CCR 1081):

- Counseling the incarcerated person regarding expected conduct.
- Assignment to extra work detail.
- Removal from work detail (without losing work time credits).
- Loss of television, telephone, and/or commissary privileges for a period not to exceed 24 hours.
- Lockdown in the incarcerated person's assigned cell or confinement in the incarcerated person's bunk area for a period not to exceed 24 hours.

An incarcerated person may request that a supervisor review the imposed action. However, this request must be made within one hour of receiving notice of the action. The supervisor should respond to the request within a reasonable time (generally within two hours) and shall have final authority as to the imposition of informal discipline.

600.4.1 MULTIPLE MINOR RULE VIOLATIONS

Staff may initiate a major rule violation report if an incarcerated person is charged with three or more minor rule violations in a consecutive 30-day period. Copies of all minor rule violations will be attached to the major rule violation report. A staff member shall conduct a hearing according to the procedures of a major rule violation.

600.4.2 MAJOR RULE VIOLATIONS

Major rule violations are considered a threat to the safety, security, or efficiency of the facility, its staff members, incarcerated persons, or visitors. Staff members witnessing or becoming aware of a major rule violation shall take immediate steps to stabilize and manage the situation, including

Colusa County Sheriff's Department

immediate notification of a supervisor. The supervisor shall assess the situation and initiate any emergency action, if necessary, and notify the Shift Supervisor.

The staff member who learned of the rule violation shall write and submit a disciplinary report, along with all relevant evidence, to the appropriate supervisor prior to the end of the shift (15 CCR 1081).

600.4.3 PREHEARING DETENTION

Incarcerated persons who are accused of a major rule violation may be moved to administrative restrictive housing for prehearing detention, with the Shift Supervisor's approval, if there is a threat to safety or security. Incarcerated persons placed in prehearing detention are subject to the property and privilege restrictions commensurate with separated confinement (15 CCR 1081).

The Jail Commander or the authorized designee shall, within 72 hours including weekends and holidays, review the status of any incarcerated person in prehearing detention to determine whether continued prehearing restrictive housing is appropriate.

600.5 INVESTIGATIONS

Investigations involving major rule violations should be initiated within 24 hours of the initial report and completed in sufficient time for the incarcerated person to have a disciplinary hearing, which is required within 72 hours of the time the incarcerated person was informed, in writing, of the charges. If additional time is needed, the investigating supervisor will request more time in writing from the Shift Supervisor. The incarcerated person will be notified in writing of the delay.

If upon completion of the investigation, the investigating supervisor finds insufficient evidence to support a major rule violation, the supervisor may discuss alternative actions with the Shift Supervisor, including handling the incident as a minor violation or recommending that charges be removed. Such alternatives shall be documented in the incarcerated person's file.

If the investigating supervisor determines that sufficient evidence exists to support a major rule violation, the supervisor will act as the hearing coordinator and will be responsible for:

- Reviewing all reports for accuracy and completeness.
- Overseeing or conducting any required additional investigation.
- Making a determination as to the final charges.
- Making preliminary decisions about the appointment of a staff member to act as an assistant to the incarcerated person.
- Identifying any witnesses that may be called to the hearing.

600.6 NOTIFICATIONS

An incarcerated person charged with a major rule violation shall be given a written description of the incident and the rules violated at least 24 hours prior to a disciplinary hearing.

Unless waived in writing by the incarcerated person, hearings may not be held in less than 24 hours from the time of notification (15 CCR 1081).

600.7 HEARING OFFICER

The Jail Commander shall appoint at least one hearing officer to preside and conduct disciplinary hearings of major rule violations. The hearing officer should be a qualified supervisor or suitably trained designee who will have the responsibility and authority to rule on charges of incarcerated person rule violations. The hearing officer shall also have the power to impose actions. The hearing officer shall not investigate nor preside over any incarcerated person disciplinary hearing on cases where the hearing officer was a witness or was directly involved in the incident that generated the complaint (15 CCR 1081).

600.8 HEARING PROCEDURE

Incarcerated persons charged with major rule violations are entitled to be present at a hearing unless waived in writing or excluded because their behavior poses a threat to facility safety, security, and order (15 CCR 1081). Staff shall inform the hearing officer when any incarcerated person is excluded or removed from a scheduled hearing and shall document the reasons for the exclusion or removal. A copy of the report shall be forwarded to the Jail Commander.

Hearings may be postponed or continued for a reasonable period of time for good cause. Reasons for postponement or continuance shall be documented and forwarded to the Jail Commander (15 CCR 1081).

The hearing officer shall disclose to the accused incarcerated person all witnesses who will be participating in the hearing. Incarcerated persons have no right to cross-examine witnesses. However, the accused incarcerated person may be permitted to suggest questions that the hearing officer, in the hearing officer's discretion, may ask.

600.8.1 EVIDENCE

Accused incarcerated persons have the right to make a statement, present evidence, and call witnesses at the hearing (15 CCR 1081). Requests for witnesses shall be submitted in writing by the incarcerated person no later than 12 hours before the scheduled start of the hearing. The written request must include a brief summary of what the witness is expected to say.

The hearing officer may deny the request when it is determined that allowing the witness to testify would be unduly hazardous to institutional safety or correctional goals, when the witness's information would not be relevant or would be unnecessarily duplicative, or is otherwise unnecessary. The reason for denying a witness to testify shall be documented in the hearing report. The reason for denial of any documents requested by the incarcerated person shall also be documented in the hearing record.

A witness's signed written statement may be submitted by the incarcerated person as an alternative to a live appearance. The hearing officer shall review and determine whether the statement is relevant to the charges and shall document the reason for exclusion when any written statement is not given consideration.

Colusa County Sheriff's Department

CA Custody Manual

Discipline

Absent a safety or security concern, all staff reports and evidence, including exculpatory evidence, obtained during the disciplinary investigation shall be made available to the accused incarcerated person prior to the hearing.

600.8.2 CONFIDENTIAL INFORMANTS

If information from any confidential informant is to be presented at the hearing, information establishing the reliability and credibility of the informant shall be provided to the hearing officer prior to the hearing. The hearing officer shall review such information to determine whether the informant is reliable and credible.

600.8.3 STAFF ASSISTANCE

A staff member shall be assigned to assist an incarcerated person who is incapable of self-representation at a disciplinary hearing due to limited literacy, developmental disabilities, language barriers, or mental status (15 CCR 1081). The scope of the duties of the assistant shall be commensurate with the reasons for the appointment. The assistant should be allowed sufficient time to confer with the incarcerated person to fulfill the individual's obligations. In these cases, the incarcerated person does not have a right to appoint a person to assist in the individual's disciplinary hearing. The final decision regarding the appointment rests with the hearing officer.

Incarcerated person discipline is an administrative and not a judicial process. Incarcerated persons do not have a right to an attorney in any disciplinary hearing. Additionally, disciplinary matters may be referred for criminal prosecution and jail disciplinary action concurrently as there is no double jeopardy defense for an administrative process.

600.8.4 DISCIPLINARY DECISIONS

Disciplinary decisions shall be based on the preponderance of evidence presented during the disciplinary hearing.

The disciplinary process shall consider whether an incarcerated person's mental disabilities or mental illness contributed to the incarcerated person's behavior when determining what type of discipline, if any, should be imposed (28 CFR 115.78(c)).

600.8.5 REPORT OF FINDINGS

The hearing officer shall write a report regarding the decision and detailing the evidence and the reasons for the disciplinary action. A copy of the report shall be provided to the incarcerated person. The original shall be filed with the record of the proceedings. All documentation related to the disciplinary process shall be retained and a copy should be placed in the incarcerated person's file (15 CCR 1081).

If it is determined that the incarcerated person's charge is not sustained at the end of the disciplinary hearing, the documentation shall be removed from the incarcerated person's file but otherwise maintained in accordance with records retention requirements.

All disciplinary hearing reports and dispositions shall be reviewed by the Jail Commander or the authorized designee soon after the final disposition (15 CCR 1081).

600.9 DISCIPLINARY APPEALS

Incarcerated persons wishing to appeal the decision of the hearing officer must do so in writing within five days of the decision. All appeals will be forwarded to the Jail Commander or the authorized designee for review (15 CCR 1081).

Only appeals based on the following will be considered:

- (a) The disciplinary process or procedures were not followed.
- (b) There was insufficient evidence to support the hearing officer's decision.
- (c) The discipline imposed was not proportionate to the violation committed.

A final disposition shall be rendered as soon as possible if the incarcerated person's appeal is granted or discipline is reduced but no later than 10 days after the appeal. The decision of the review authority shall be final and the result of the appeal shall be provided to the incarcerated person in writing.

600.10 LIMITATIONS ON DISCIPLINARY ACTIONS

The U.S. and state constitutions expressly prohibit all cruel or unusual punishment, disciplinary actions shall not include corporate punishment, group punishment when feasible, or physical or psychological degradation (15 CCR 1083). Additionally, there shall be the following limitations:

- Disciplinary separation shall be considered an option of last resort and as a response to the most serious and threatening behavior, for the shortest time possible, and with the least restrictive conditions possible (15 CCR 1083).
- In no case shall any incarcerated person or group of incarcerated persons be delegated the authority to punish any other incarcerated person or group of incarcerated persons (Penal Code § 4019.5; 15 CCR 1083).
- In no case shall a safety cell, as specified in the Safety and Sobering Cells Policy, be used for disciplinary purposes (15 CCR 1083).
- In no case shall any restraint device be used for disciplinary purposes (15 CCR 1083).
- Food shall not be withheld as a disciplinary measure (15 CCR 1083).
- Correspondence privileges shall not be withheld except in cases where the incarcerated person has violated correspondence regulations, in which case correspondence other than legal mail may be suspended for no longer than 72 hours without the review and approval of the Jail Commander (15 CCR 1083).
- In no case shall access to the courts and/or legal counsel be suspended as a disciplinary measure (15 CCR 1083).
- No incarcerated person may be deprived of the implements necessary to maintain an acceptable level of personal hygiene (15 CCR 1083; 15 CCR 1265).
- Discipline may be imposed for sexual activity between incarcerated persons. However, such activity shall not be considered sexual abuse for purposes of discipline unless the activity was coerced (28 CFR 115.78(g)).

Colusa County Sheriff's Department

CA Custody Manual

Discipline

- No discipline may be imposed for sexual contact with staff unless there is a finding that the staff member did not consent to such contact (28 CFR 115.78(e)).
- No incarcerated person may be disciplined for falsely reporting sexual abuse or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation, if the report was made in good faith based upon a reasonable belief that the alleged conduct occurred (28 CFR 115.78(f)).

600.11 GUIDELINES FOR DISCIPLINARY ACTIONS

Discipline shall be commensurate with the nature and circumstances of the offense committed, the incarcerated person's disciplinary history, and the actions imposed for comparable offenses by other incarcerated persons with similar histories (28 CFR 115.78(b); 15 CCR 1082).

In all cases, actions should be imposed for the purpose of controlling or changing an incarcerated person's behavior, promotion of desired behavior through a progressive disciplinary process, and not for the purpose of punishment (15 CCR 1082).

Acceptable forms of discipline shall consist of but not be limited to the following (15 CCR 1082):

- Loss of privileges
- Extra work detail
- Short-term lockdown for less than 24 hours
- Removal from work details
- Forfeiture of work time credits earned under Penal Code § 4019
- Forfeiture of good time credits earned under Penal Code § 4019
- Disciplinary detention

The Sheriff or the Jail Commander shall be responsible for developing and implementing a range of disciplinary actions for violations.

Incarcerated persons shall be subject to disciplinary actions pursuant to a formal disciplinary process following an administrative finding that the incarcerated person engaged in incarcerated person-on-incarcerated person sexual abuse or following a criminal finding of guilt for incarcerated person-on-incarcerated person sexual abuse (28 CFR 115.78(a)).

To the extent that there is available therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for sexual abuse, the facility shall consider whether to require an incarcerated person being disciplined for sexual abuse to participate in such interventions as a condition of access to programming or other benefits (28 CFR 115.78(d)).

600.12 TRAINING

The Jail Commander or the authorized designee is responsible for ensuring that a wide range of training and disciplinary tools are available to aid staff and that preprinted forms are available for documenting rule violations in a consistent and thorough manner.

Colusa County Sheriff's Department

CA Custody Manual

Discipline

The Training Officer is responsible for developing and delivering, or procuring, training for staff members who participate in the disciplinary hearing process. Training topics should include the legal significance of due process protections and the hearing officer's role in assuring that those protections are provided.

Disciplinary Separation

601.1 PURPOSE AND SCOPE

This policy specifically addresses disciplinary separation and guiding principles relating to the conditions attached to that separation. It will provide guidance to the staff on acceptable practices with regard to management of incarcerated persons in disciplinary separation or classified as requiring special management needs.

601.1.1 DEFINITIONS

Definitions related to this policy include:

Disciplinary separation - A status assigned to an incarcerated person after a disciplinary hearing in which the person was found to be in violation of a jail rule or state or federal law. This status results in separating the person from the rest of the incarcerated person population to serve the consequence imposed.

601.2 POLICY

The Colusa County Sheriff's Department will maintain a disciplinary separation unit to house incarcerated persons who, after an impartial due process hearing, are receiving disciplinary actions for violating one or more jail rules. Restrictions on privileges will be subject to the disciplinary process and in accordance with this policy.

601.3 DISCIPLINARY SEPARATION

Incarcerated persons may be placed into disciplinary separation only after an impartial hearing to determine the facts of the rule violation, in accordance with the department Discipline Policy. The hearing officer shall impose discipline in accordance with the discipline schedule established by the Jail Commander. Maximum disciplinary actions for any one incident, regardless of the number of rules violated, shall not exceed 60 days.

Disciplinary separation in excess of 30 days shall be reviewed by the Jail Commander before the discipline is imposed. The review shall include a consultation with health care staff. Such reviews shall continue at least every 15 days thereafter until the disciplinary status has ended. These reviews shall be documented (15 CCR 1082(g); 15 CCR 1083(a)).

601.4 ACCESS TO SERVICES

The ability to discipline incarcerated persons for conduct violations is not absolute. Absent legitimate government reasons, incarcerated persons continue to have a right to receive certain services. However, incarcerated persons in disciplinary separation, in accordance with the Discipline Policy, or special management incarcerated persons who are disciplined for one or more rule violations, may be subject to loss of privileges or credit for good time and work time.

Services to provide for basic human needs must continue to be made available. There are minimum service requirements that must be maintained to ensure the facility continues to operate in a constitutional manner. All custody staff will adhere to the following policy sections to guide

them in the supervision of incarcerated persons held in disciplinary separation or classified as requiring special management needs.

601.4.1 MEDICATION, CLOTHING, AND PERSONAL ITEMS

Incarcerated persons placed in disciplinary separation are considered special management incarcerated persons and shall not be denied prescribed medication.

Special management incarcerated persons will be provided with clothing that identifies their status, but in no case will this clothing be used to intentionally disgrace the incarcerated person.

Absent unusual circumstances, special management incarcerated persons will continue to have the same access to personal items in their cell as general population incarcerated persons have, including the following:

- Clean laundry
- Barbering and hair care services
- Clothing exchanges
- Bedding and linen exchanges

Incarcerated persons in disciplinary separation shall not be deprived of bedding or clothing except in cases where the incarcerated person destroys such articles or uses them to attempt suicide (15 CCR 1083(a)(2)). The decision to continue to deprive the incarcerated person of these articles must be made by the Jail Commander or the authorized designee and reviewed every 24 hours.

601.4.2 SHOWERING AND PERSONAL HYGIENE

Incarcerated persons in disciplinary separation should be allowed to shower with the same frequency as the general population, if reasonably practicable, but at a minimum shall be afforded the opportunity to shower at least every other day and shave daily (15 CCR 1083(d)). The opportunities for each incarcerated person to shave and shower will be documented on the disciplinary separation unit log.

Exceptions to this policy can only be made when the restriction is determined to be reasonably necessary for legitimate government purposes. Any exceptions to this basic requirement must be reviewed and approved by the Shift Supervisor. The circumstances necessitating a restriction must be clearly documented on the unit log.

601.4.3 DENIAL OF AUTHORIZED ITEMS OR ACTIVITIES

Personal items may be withheld when it reasonably appears that the items will be destroyed by the incarcerated person or it is reasonably believed that the personal item will be used for a self-inflicted injury or to harm others.

Whenever an incarcerated person in disciplinary separation is denied personal care items or activities that are usually authorized to the general population incarcerated persons, except for restrictions imposed as a result of a disciplinary hearing, the correctional officer taking such action shall prepare a report describing the circumstances that necessitated the need to restrict personal

Colusa County Sheriff's Department

Disciplinary Separation

items or activities. The report shall be submitted to a supervisor for review, who will then forward it to the Jail Commander. A copy of the report shall be placed in the incarcerated person's file.

601.4.4 MAIL AND CORRESPONDENCE

Incarcerated persons in disciplinary separation shall have the same privileges to write and receive correspondence as incarcerated persons in general population, except in cases where incarcerated persons violated correspondence regulations. In such cases, mail privilege may be suspended. The Jail Commander or the authorized designee shall approve all mail privilege suspensions that exceed 72 hours. Legal mail shall not be suspended from delivery to the incarcerated person (15 CCR 1083(f)).

601.4.5 VISITATION

Incarcerated persons in disciplinary separation shall have the same opportunities for visitation as general population incarcerated persons, except when the visitation privileges are suspended pursuant to an action imposed by the disciplinary hearing officer. Disciplinary actions that limit or curtail visitation must be clearly documented and approved by a supervisor if not a condition of the original approved discipline.

601.4.6 READING AND LEGAL MATERIALS

Incarcerated persons in disciplinary separation shall have the same access to reading materials and legal materials as the general population incarcerated persons, unless the restriction is directed by a court of law or there is a reasonable basis to believe the materials will be used for illegal purposes or pose a direct threat to the security and safety of the facility. In such cases the basis for the action shall be documented in the incarcerated person's file and unit log. Access to courts and legal counsel shall not be suspended as a disciplinary measure (15 CCR 1083(g)).

601.4.7 EXERCISE

Incarcerated persons in disciplinary separation shall be given a minimum of three hours of exercise per week outside of their cell. Exceptions to this may occur if there are legitimate security or safety considerations. The circumstances relating to the limitation of exercise shall be documented in an incident report. The report shall be reviewed and the restriction shall be approved by a supervisor.

601.4.8 LIMITED TELEPHONE PRIVILEGES

Incarcerated persons in disciplinary separation may have their telephone privilege restricted or denied. Exceptions include the following:

- (a) Making legal calls
- (b) Responding to verified family emergencies, when approved by the sergeant or Jail Commander

All telephone access based on the above exceptions shall be documented on the unit log.

601.4.9 BEDDING AND CLOTHING

Incarcerated persons in disciplinary separation shall not be deprived of bedding or clothing except in cases where the person destroys such articles or uses them for self-harm or to harm others

or for something other than the intended purpose. Clothing and bedding shall be returned to the incarcerated person as soon as it is reasonable to believe the behavior that caused the action will not continue. The decision to continue to deprive the incarcerated person of these articles must be made by the Jail Commander or the authorized designee and reviewed at least every eight hours. This review shall be documented and placed into the incarcerated person's file.

601.5 DIET

Under no circumstances will an incarcerated person be denied food as a means of punishment (15 CCR 1083(e)).

601.6 MENTAL HEALTH

Due to the possibility of self-inflicted injury and depression during periods of separation, health evaluations should include notations of any bruises and other trauma markings, and the qualified health care professional's comments regarding the incarcerated person's attitude and outlook.

- (a) A qualified health care professional should visit each incarcerated person a minimum of once a day and more often if needed. A medical assessment should be documented in the incarcerated person's medical file.
- (b) Mental health staff or a qualified mental health professional should also conduct weekly rounds.

If after placement in separation, mental health or medical staff determine an incarcerated person to have a serious mental illness or an intellectual disability, the person shall be removed from disciplinary separation immediately upon this determination (15 CCR 1083(a)).

Where reasonably practicable, a qualified health care professional should provide screening for suicide risk following admission to the separation unit.

601.7 SAFETY CHECKS

A staff member shall conduct a face-to-face safety check of all disciplinary separation incarcerated persons at least every 30 minutes on an irregular schedule. If an incarcerated person is violent, has mental health problems, or demonstrates unusual behavior, the face-to-face check by custody should occur every 15 minutes on an irregular schedule.

Incarcerated persons who are at risk of suicide shall be under continuous observation until seen by a qualified health care professional. Subsequent supervision routines should be in accordance with orders provided by the qualified health care professional.

Disciplinary separation incarcerated persons shall receive increased monitoring to include at a minimum:

- (a) A visit by the Shift Supervisor once a day.
- (b) Visits by program staff, upon request.
- (c) Visits by a qualified health care professional a minimum of once a day and more often, if needed.

Colusa County Sheriff's Department

CA Custody Manual

Disciplinary Separation

All management, program staff, and qualified health care professional visits shall be documented on the appropriate records and logs and retained in accordance with established records retention schedules.

601.7.1 DOCUMENTATION OF SEPARATION CHECKS

Separation rounds shall be documented on door cards, logs, and/or rounds forms, and include the following:

- (a) Date and time of contact
- (b) Signature or initials of the qualified health care professional making rounds
- (c) Any needed referrals
- (d) All significant findings and observations, medical assessment, treatment, recommendations, notifications, and actions, all of which should be documented in the incarcerated person's health record

601.8 LOG PROCEDURES

All management, program staff, and qualified health care professional visits shall be documented on the appropriate records and logs and retained in accordance with established records retention schedules.

Handwritten logs should be completed in ink. Once an entry is made it should not be modified. If corrections or changes are needed they should be done by way of a supplemental entry.

Electronically captured logs will be maintained in a way that prevents entries from being deleted or modified once they are entered. Corrections or changes must be done by way of supplemental entries. At a minimum the log will contain the following:

- (a) Incarcerated person's name
- (b) Incarcerated person's booking number
- (c) Housing location
- (d) Classification status
- (e) Date and time placed in separation
- (f) Date and time of entry and exit from the cell
- (g) Violation and length of discipline
- (h) Scheduled date of removal from separation
- (i) Medical, psychological, or behavioral considerations
- (j) Counseling for behavior
- (k) Date and time of removal from separation

Log entries should be legible, be entered promptly, and provide sufficient detail to adequately reflect the events of the day for future reference.

Colusa County Sheriff's Department

CA Custody Manual

Disciplinary Separation

The date and time of the observation or incident and the name and identification number of the staff member making the log entry shall be included on each entry.

Supervisors should review the logs frequently during the shift and enter comments as appropriate. At a minimum, supervisors should enter the date and time of each review.

All safety checks will be documented in detail and should include the exact time of the safety check and the identification information of the employee conducting the check. All documentation will be gathered and provided to the Shift Supervisor or the Jail Commander at midnight each day.

601.8.1 LOG INSPECTION AND ARCHIVE OF LOGS

The Shift Supervisor shall review and evaluate the logs and pass any significant incidents via the chain of command to the Jail Commander for review.

The logs will be retained by the Department in accordance with established records retention schedules but in no case less than one year.

Incarcerated Persons with Disabilities

602.1 PURPOSE AND SCOPE

This policy provides guidelines for addressing the needs and rights of incarcerated persons detained by this department in accordance with the Americans with Disabilities Act (ADA).

602.1.1 DEFINITIONS

Definitions related to this policy include:

Disability - The ADA defines a disability as a physical or mental impairment that limits one or more major life activities. These include, but are not limited to, any disability that would substantially limit the mobility of an individual or an impairment of vision and/or hearing, speaking or performing manual tasks that require some level of dexterity.

602.2 POLICY

This department will take all reasonable steps to accommodate incarcerated persons with disabilities while they are in custody and will comply with the ADA and any related state laws. Discrimination on the basis of disability is prohibited.

602.3 JAIL COMMANDER RESPONSIBILITIES

The Jail Commander, in coordination with the Responsible Physician and the ADA Coordinator (see the Accessibility - Facility and Equipment Policy), will establish written procedures to assess and reasonably accommodate disabilities of incarcerated persons. The procedures will include but are not limited to:

- (a) Establishing housing areas that are equipped to meet the physical needs of disabled incarcerated persons, including areas that allow for personal care and hygiene in a reasonably private setting and for reasonable interaction with incarcerated persons.
- (b) Establishing classification criteria to make housing assignments to incarcerated persons with disabilities.
- (c) Assigning individuals with adequate training to assist disabled incarcerated persons with basic life functions, as needed.
- (d) Establishing transportation procedures for moving incarcerated persons with limited mobility.
- (e) Establishing guidelines for services, programs, and activities for the disabled and ensuring that incarcerated persons with disabilities have an equal opportunity to participate in or benefit from all aspects of the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment (28 CFR 115.16).
- (f) Enlisting or contracting for trained service personnel who have experience working with people with disabilities.
- (g) Establishing procedures for the request and review of accommodations.

Colusa County Sheriff's Department

CA Custody Manual

Incarcerated Persons with Disabilities

- (h) Establishing guidelines for the accommodation of individuals who are deaf or hard of hearing, have common disabilities such as sight and mobility impairments and developmental disabilities, or have common medical issues, such as epilepsy.
- (i) Identifying and evaluating all incarcerated persons with developmental disabilities, including contacting the regional center to assist with diagnosis and/or treatment within 24 hours of identification, excluding holidays and weekends (15 CCR 1057).

The Jail Commander is responsible for ensuring the Colusa County Sheriff's Department jail is designed or adapted to reasonably accommodate incarcerated persons with disabilities. At a minimum this includes:

- Access to telephones equipped with a telecommunications device for the deaf (TDD) for incarcerated persons who are deaf, are hard of hearing, or have a speech impairment.
- If orientation videos are used to explain facility rules to newly admitted incarcerated persons, subtitles may be displayed on the video presentation to assist incarcerated persons who have impaired hearing.
- Some cells and dormitories should be equipped with wheelchair-accessible toilet and shower facilities. Incarcerated persons with physical disabilities should be allowed to perform personal care in a reasonably private environment.
- Tables designed for eating should be accessible to those in wheelchairs.

602.4 CORRECTIONAL OFFICERS' RESPONSIBILITIES

Correctional officers should work with qualified health care professionals to aid in making accommodations for those with physical disabilities.

Correctional officers who work in the classification process should be aware of incarcerated persons with disabilities before making housing decisions. For example, persons with mobility issues may require a lower bunk and accessible toilet and shower facilities. When necessary or required, a supervisor of the classification correctional officer should consult with the qualified health care professional or the Responsible Physician regarding housing location.

Correctional officers should assist an incarcerated person with a disability by accommodating the incarcerated person consistent with any guidelines related to the incarcerated person's disability. If there are no current guidelines in place, correctional officers receiving an incarcerated person request for accommodation of a disability should direct the incarcerated person to provide the request in writing or assist the incarcerated person in doing so, as needed. The written request should be brought to the on-duty supervisor as soon as practicable but during the correctional officer's current shift. Generally, requests should be accommodated if the accommodation would not raise a safety concern or affect the orderly function of the jail. The formal written request should still be submitted to the on-duty supervisor.

Requests that are minor and do not reasonably appear related to a significant or ongoing need may be addressed informally, such as providing extra tissue to an incarcerated person with a cold. Such requests need not be made in writing.

Colusa County Sheriff's Department

CA Custody Manual

Incarcerated Persons with Disabilities

602.5 ACCOMMODATION REQUESTS

Incarcerated persons shall be asked to reveal any accommodation requests during the intake classification process. Any such request will be addressed according to the classification process.

Requests for accommodation after initial entry into the facility should be made through the standard facility request process and should be reviewed by a supervisor within 24 hours of the request being made. The reviewing supervisor should evaluate the request and, if approved, notify the Jail Commander, ADA Coordinator (see the Accessibility - Facility and Equipment Policy) and any other staff as necessary to meet the accommodation. The supervisor should make a record of the accommodation in the incarcerated person's file.

A supervisor who does not grant the accommodation, either in part or in full, should forward the request to the Jail Commander and the ADA Coordinator within 48 hours of the request being made. The Jail Commander, with the assistance of the ADA Coordinator and/or legal counsel, should make a determination regarding the request within five days of the request being made.

602.6 TRAINING

The ADA Coordinator should work with the Training Officer to provide periodic training on such topics as:

- (a) Policies, procedures, forms, and available resources for incarcerated persons with developmental disabilities.
- (b) Working effectively with interpreters, telephone interpretive services and related equipment.
- (c) Training for management staff, even if they may not interact regularly with disabled individuals, so that they remain fully aware of and understand this policy and can reinforce its importance and ensure its implementation.

Access to Courts and Counsel

603.1 PURPOSE AND SCOPE

The purpose of this policy is to protect the constitutional rights of incarcerated persons to access the courts and legal counsel, while holding incarcerated persons accountable to the rules and regulations that govern conduct in this facility.

603.2 POLICY

It is the policy of this department that all incarcerated persons will have access to the courts and the ability to consult with legal counsel (15 CCR 1068).

603.3 INCARCERATED PERSON ACCESS

Staff should not unreasonably interfere with incarcerated persons' attempts to seek counsel and where appropriate should assist persons with making confidential contact with attorneys and authorized representatives.

Access to courts and legal counsel may occur through court-appointed counsel, attorney, or legal assistant visits, telephone conversations, or written communication. To facilitate access, this facility will minimally provide:

- Confidential attorney visiting areas that include the means by which the attorney and the incarcerated person can share legal documents.
- Telephones that enable confidential attorney-client calls.
- Reasonable access to legal materials.
- A means of providing assistance through the court process by individuals trained in the law. This assistance will be available to illiterate incarcerated persons and those who cannot speak or read English or who have disabilities that would impair their ability to access.
- Writing materials, envelopes, and postage for indigent incarcerated persons for legal communications and correspondence.

The Jail Commander shall be responsible for ensuring that information regarding access to courts and legal counsel and requesting legal materials or legal assistance is included in the incarcerated persons handbook, which is provided during orientation.

603.4 CONFIDENTIALITY

All communication between incarcerated persons and their attorneys is confidential, including telephone conversations, written communication, and video conferencing. The content of written attorney-client communication will not be reviewed or censored, but the documents may be inspected for contraband.

Outgoing and incoming legal correspondence shall be routed through the staff, who have received special training in inspecting confidential documents and who are accountable for maintaining

confidentiality. Incoming legal correspondence shall be opened and inspected for contraband in the presence of the recipient incarcerated person.

Incarcerated persons may seek the assistance of other incarcerated persons in writing writs and other legal correspondence to the courts, when needed subject to the security and safety needs of the incarcerated persons, staff, and the facility.

603.5 REQUEST FOR ASSISTANCE

Written materials addressing how an incarcerated person can access local attorneys and key legal documents shall be available in each housing unit. Staff shall provide these materials to any incarcerated person upon request. However, staff shall not provide legal advice or assist any person in the completion of any legal document.

Habeas corpus forms shall be made available to any incarcerated person by the staff upon request.

Legal forms filled out by the incarcerated person shall be forwarded to court administration directly or via an appointed legal assistant.

603.6 VISITATION RELATED TO LEGAL DEFENSE

Visits with incarcerated persons that are related to legal defense, including attorneys, paralegals, and investigators, will be permitted only in the areas designated for legal visitation or by way of video visitation to ensure confidentiality (15 CCR 1068(b)). Contact visits may be approved by the Jail Commander for special circumstances.

- (a) Visits shall be of a reasonable length of time to discourage any allegation that the defense of the incarcerated person was hindered due to the length of time allowed for the legally authorized visit. These visits shall be of such a length of time that they do not interfere with the security, order, and discipline of this facility. The permissible time for visitation should be flexible but shall not substantially interfere with other facility schedules, such as medical examinations, meal service, or other required activities.
- (b) Only materials brought to this facility by an approved legal assistant shall be allowed.
- (c) All materials shall be subject to security inspections by the staff and shall be routed through the Shift Supervisor for logging and distribution.

603.7 IN PROPRIA PERSONA (PRO PER) INCARCERATED PERSONS

Incarcerated persons may be granted pro per status by court order only. Any time a court order is received designating an incarcerated person as having been granted pro per status, all relevant records systems at the facility shall be updated to reflect this information. A copy of the court order shall be maintained in the person's file in accordance with established records retention schedules.

The court may, but is not required to, appoint to an incarcerated person who is designated pro per a back-up attorney, paralegal, or other person to assist the person with legal research. All information related to appointed assistants should be recorded in the relevant facility records.

Any provision of legal materials shall be in accordance with court directives and in consultation with the County Counsel.

603.7.1 PRO PER STATUS MISUSE

Any incarcerated person who is granted pro per status and is found to be misusing or abusing that status to the extent that it poses a demonstrable threat to the safety and security of the facility shall be immediately reported to the Jail Commander. The Jail Commander may recommend the suspension or a limitation of the person's pro per privileges if they adversely affect the safety and security of the jail.

Upon the concurrence with the findings and recommendation of the Jail Commander, the Sheriff or the authorized designee shall consult with the Department's legal counsel prior to notifying the court of any intent to limit the described pro per privileges.

The incarcerated person may petition the court if they are dissatisfied with the action taken.

Unless otherwise ordered by the court, the Department shall have no obligation to supply materials beyond those listed above. Replacement of any of the listed items shall be accomplished through a written request to the Shift Supervisor or the authorized designee. Supplies provided by a court legal liaison will be received and distributed by the Shift Supervisor or the authorized designee. All supplies distributed to the incarcerated person will be recorded in the person's pro per activities record. Supplies not listed in this policy are subject to approval by the Jail Commander or the authorized designee.

Access to ballpoint pens, for signature purposes only, will be provided through a supervisor. The use of the pen will be supervised by the staff and taken from the incarcerated person immediately after its use.

Copies of an incarcerated person's final legal (criminal case) work product, upon the person's request, may be provided subject to arrangements with the court.

Incarcerated persons may purchase their own legal books and materials. However, such materials will be subject to safety inspection and rules pertaining to items permitted to be in the person's possession. Personal books must be marked with the person's name and booking number.

Any books or materials found in the incarcerated person's possession beyond what is authorized will be returned or placed in the person's property.

603.7.3 PRO PER INCARCERATED PERSONS INTERVIEWING WITNESSES

A pro per incarcerated person may be permitted to interview prospective witnesses in the regular visitation area. Requests for visits outside of normal visiting hours will be directed to a supervisor for approval and should be accommodated when practicable.

Interviews conducted by pro per incarcerated persons are subject to the following rules and restrictions:

- (a) No interview will be permitted without notification from a judge confirming or validating the prospective witness. The pro per incarcerated person is responsible for providing the judge with the list of prospective witnesses for validation.

Foreign Nationals and Diplomats

604.1 PURPOSE AND SCOPE

This policy addresses the privileges and immunities afforded to members of foreign diplomatic missions and consular posts.

This policy also addresses the legal requirements related to consular notifications that should occur when a foreign national is in custody.

604.2 POLICY

The Colusa County Sheriff's Department Jail will treat foreign diplomatic and consular personnel with due regard for the privileges and immunities to which they are entitled under international law. The Department will investigate all claims of immunity and accept custody of the person when appropriate.

The Colusa County Sheriff's Department Jail will also honor the laws related to foreign nationals in custody by making proper consular notifications and by assisting those who wish to contact their consular representative.

604.3 DIPLOMATIC AND CONSULAR IMMUNITY

604.3.1 AVAILABILITY OF RESOURCES

The Shift Supervisor will ensure that current contact information for the U.S. Department of State and the U.S. Mission to the United Nations is readily available for department members who need to verify a claim of diplomatic or consular immunity. Relevant material for law enforcement published by the U.S. Department of State Bureau of Diplomatic Security should be readily available as well.

604.3.2 ADDRESSING CLAIMS OF DIPLOMATIC OR CONSULAR IMMUNITY

When an arrestee who claims diplomatic or consular immunity is brought to the Colusa County Sheriff's Department Jail the receiving correctional officer shall first inform the Shift Supervisor and then generally proceed as follows:

- (a) Do not accept custody of the person from the transporting correctional officer. The person should not be brought inside the Colusa County Sheriff's Department Jail unless doing so would facilitate the investigation of their claim of immunity.
- (b) Do not handcuff the person, or, if handcuffs have been applied, remove them unless there is an articulable threat that would justify their use.
- (c) If the person has already been accepted into custody, inform the person that they will be detained until their identity and immunity can be confirmed. Attempt to obtain a U.S. Department of State-issued identification card or other identification or documents that may relate to the claimed immunity.
- (d) In all cases, verify the status and level of immunity by contacting the U.S. Department of State or the U.S. Mission to the United Nations, as appropriate.

Colusa County Sheriff's Department

CA Custody Manual

Foreign Nationals and Diplomats

It will be the responsibility of the Shift Supervisor to communicate the claim of immunity to the on-duty supervisor of the arresting department (if not the Colusa County Sheriff's Department). The Shift Supervisor may assist another agency in determining the person's immunity status.

The Shift Supervisor is responsible for ensuring appropriate action is taken based upon information received regarding the person's immunity status.

604.3.3 REPORTING

If the person's immunity status has been verified, the Shift Supervisor should ensure a report is prepared describing the details and circumstances of any detention or custody. A copy of the report should be faxed or mailed as soon as possible to the U.S. Department of State in Washington, D.C., or to the U.S. Mission to the United Nations in New York in cases involving a member of the United Nations community.

604.4 CONSULAR NOTIFICATIONS

604.4.1 CONSULAR NOTIFICATION LIST AND CONTACTS

The Jail Commander will ensure that the U.S. Department of State's list of countries and jurisdictions that require mandatory notification is readily available to department members. There should also be a published list of foreign embassy and consulate telephone and fax numbers, as well as standardized notification forms that can be faxed and then retained for the record. Prominently displayed placards informing incarcerated persons of rights related to consular notification should also be posted.

604.4.2 CONSULAR NOTIFICATION ON BOOKING

Department members assigned to book incarcerated persons shall:

- (a) Inform the foreign national, without delay, that they may have their consular officers notified of the arrest or detention and may communicate with them. Members shall ensure this notification is acknowledged and documented.
- (b) Determine whether the foreign national's country is on the U.S. Department of State's mandatory notification list.
- (c) If the foreign national's country is not on the list for mandatory notification but the foreign national requests that their consular officers be notified, then:
 1. Notify the nearest embassy or consulate of the foreign national's country of the person's arrest or detention by faxing the appropriate notification form. If no fax confirmation is received, a telephonic notification should be made and documented.
 2. Forward any communication from the foreign national to their consular officers without delay.
- (d) If the foreign national's country is on the list for mandatory notification, then:
 1. Notify the nearest embassy or consulate of the foreign national's country, without delay, of the person's arrest or detention by faxing the appropriate notification

3. Forward any communication from the foreign national to their consular officers without delay.
4. Document all notifications to the embassy or consulate and retain the faxed notification and any fax confirmation for the incarcerated person's file.

Members should never discuss anything with consulate personnel beyond the required notifications, such as whether the incarcerated person is requesting asylum. Requests for asylum should be forwarded to the Shift Supervisor.

606.4 REPORTING SEXUAL ABUSE, HARASSMENT, AND RETALIATION

Any employee, agency representative, volunteer, or contractor who becomes aware of an incident of sexual abuse, sexual harassment, or retaliation against incarcerated persons or staff shall immediately notify a supervisor, who will forward the matter to a sexual abuse investigator (28 CFR 115.61). Staff may also privately report sexual abuse and sexual harassment of incarcerated persons (e.g., report to the Jail Commander) (28 CFR 115.51; 15 CCR 1029).

The facility shall provide information to all visitors or third parties on how they may report any incident, or suspected incident of sexual abuse, or sexual harassment to a staff member (28 CFR 115.54; 15 CCR 1029).

Incarcerated persons may report sexual abuse or sexual harassment incidents anonymously or to any staff member they choose. Staff shall accommodate all incarcerated person requests to report allegations of sexual abuse or harassment. Staff shall accept reports made verbally, in writing, anonymously, or from third parties and shall promptly document all verbal reports (28 CFR 115.51; 15 CCR 1029).

Threats or allegations of sexual abuse and sexual harassment, or retaliation, regardless of the source, shall be documented and referred for investigation. Sexual abuse and sexual harassment reports shall only be made available to those who have a legitimate need to know, and in accordance with this policy and applicable law (28 CFR 115.61).

606.4.1 REPORTING TO OTHER FACILITIES

If there is an allegation that an incarcerated person was sexually abused while the person was confined at another facility, the Jail Commander shall notify the head of that facility as soon as possible but not later than 72 hours after receiving the allegation. The Jail Commander shall ensure that the notification has been documented (28 CFR 115.63).

606.5 RETALIATION

All incarcerated persons and staff who report sexual abuse or sexual harassment, or who cooperate with sexual abuse or sexual harassment investigations, shall be protected from retaliation.

Protective measures, including housing changes, transfers, removal of alleged abusers from contact with victims, administrative reassignment, or reassignment of the victim or alleged perpetrator to another housing area, and support services for incarcerated persons or staff who fear retaliation, shall be utilized (28 CFR 115.67; 15 CCR 1029).

The Jail Commander or the authorized designee shall assign a supervisor to monitor, for at least 90 days, the conduct and treatment of incarcerated persons or staff who report sexual abuse or sexual harassment, as well as persons who were reported to have suffered sexual abuse, to determine if there is any possible retaliation. The supervisor shall act promptly to remedy any such retaliation. The assigned supervisor should consider incarcerated person disciplinary reports, housing or program changes, negative staff performance reviews, or reassignment of staff members. Monitoring may continue beyond 90 days if needed. Incarcerated person monitoring

Colusa County Sheriff's Department

shall also include periodic status checks. The Jail Commander should take reasonable steps to limit the number of people with access to the names of individuals being monitored and should make reasonable efforts to ensure that staff members who pose a threat of retaliation are not entrusted with monitoring responsibilities.

If any other individual who cooperates with an investigation expresses a fear of retaliation, the facility shall take reasonable measures to protect that individual against retaliation (28 CFR 115.67).

606.6 FIRST RESPONDERS

If an allegation of incarcerated person sexual abuse is made, the first correctional officer to respond shall (28 CFR 115.64):

- (a) Separate the parties.
- (b) Request medical assistance as appropriate. If no qualified health care or mental health professionals are on-duty when a report of recent abuse is made, staff first responders shall take preliminary steps to protect the victim and shall immediately notify the appropriate qualified health care and mental health professionals (28 CFR 115.82).
- (c) Establish a crime scene to preserve and protect any evidence. Identify and secure witnesses until steps can be taken to collect any evidence.
- (d) If the time period allows for collection of physical evidence, request that the alleged victim, and ensure that the alleged abuser, do not take any actions that could destroy physical evidence (e.g., washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, eating).
- (e) Consider whether a change in classification or housing assignment for the victim is needed or whether witnesses to the incident need protection, both of which may include reassignment of housing.
- (f) Determine whether the alleged perpetrator should be administratively separated or administratively transferred during the investigation.

If the first responder is not a correctional officer, the responder shall request the alleged victim to refrain from any actions that could destroy physical evidence and then immediately notify a correctional officer.

Should an investigation involve incarcerated persons who have disabilities or who have limited English proficiency, the first responder shall not rely on incarcerated person interpreters, incarcerated person readers, or other types of incarcerated person assistants, except in limited circumstances where an extended delay in obtaining an interpreter could compromise incarcerated person safety, the performance of first responder duties, or the investigation of sexual abuse or sexual harassment allegations (28 CFR 115.16).

606.7 SEXUAL ABUSE AND SEXUAL HARASSMENT INVESTIGATIONS

An administrative investigation, criminal investigation or both shall be completed for all allegations of sexual abuse and sexual harassment (28 CFR 115.22). Administrative investigations shall

Colusa County Sheriff's Department

CA Custody Manual

Prison Rape Elimination Act

include an effort to determine whether the staff's actions or inaction contributed to the abuse. All administrative and/or criminal investigations shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Only investigators who have completed department-approved training on sexual abuse and sexual harassment investigation shall be assigned to investigate these cases (28 CFR 115.71).

When practicable, an investigator of the same gender as the victim should be assigned to the case. Sexual abuse and sexual harassment investigations should be conducted promptly and continuously until completed. Investigators should evaluate reports or threats of sexual abuse and sexual harassment without regard to an incarcerated person's sexual orientation, physical gender, or gender identity. Investigators should not assume that any sexual activity among incarcerated persons is consensual.

The departure of the alleged abuser or victim from the employment or control of the jail or Department shall not provide a basis for terminating an investigation (28 CFR 115.71).

If the investigation is referred to another agency for investigation, the Department shall request that the investigating agency follow the requirements as provided in 28 CFR 115.21 (a) through (e). The referral shall be documented. The Department shall cooperate with the outside agency investigation and shall request to be informed about the progress of the investigation (28 CFR 115.71) If criminal acts are identified as a result of the investigation, the case shall be presented to the appropriate prosecutor's office for filing of new charges (28 CFR 115.71).

Evidence collection shall be based on a uniform evidence protocol that is adapted from or otherwise based on the most recent edition of the DOJ's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents," or similarly comprehensive and authoritative protocols developed after 2011 (28 CFR 115.21).

Incarcerated persons alleging sexual abuse shall not be required to submit to a polygraph examination or other truth-telling device as a condition for proceeding with an investigation (28 CFR 115.71).

If a victim considered a vulnerable adult under state law, the assigned investigator shall report the allegation to the designated social services agency as required (28 CFR 115.61).

606.7.1 INVESTIGATIVE FINDINGS

All completed written investigations shall be forwarded to the Jail Commander or, if the allegations may reasonably involve the Jail Commander, to the Sheriff. The Jail Commander or Sheriff shall review the investigation and determine whether any allegations of sexual abuse or sexual harassment have been substantiated by a preponderance of the evidence (28 CFR 115.71; 28 CFR 115.72).

The staff shall be subject to disciplinary actions, up to and including termination, for violating this policy. Termination shall be the presumptive disciplinary action for staff members who have

Colusa County Sheriff's Department

engaged in sexual abuse. All discipline shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the actions imposed for comparable offenses by other staff with similar histories.

All terminations for violations of sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, shall be reported to the law enforcement agency that would handle any related investigation and to any relevant licensing bodies (28 CFR 115.76).

606.7.2 REPORTING TO INCARCERATED PERSONS

The Jail Commander or the authorized designee shall inform a victim incarcerated person in writing whether an allegation has been substantiated, unsubstantiated, or unfounded. If the Department did not conduct the investigation, the Department shall request relevant information from the investigative agency in order to inform the incarcerated person.

If a staff member is the accused (unless the Department has determined that the allegation is unfounded), the incarcerated person shall also be informed whenever:

- (a) The staff member is no longer assigned to the incarcerated person's unit or employed at the facility.
- (b) The Department learns that the staff member has been indicted or convicted on a charge related to sexual abuse within the facility.

If another incarcerated person is the accused, the alleged victim shall be notified whenever the Department learns that the alleged abuser has been indicted or convicted on a charge related to sexual abuse within the facility.

All notifications or attempted notifications shall be documented. When notification is made while the incarcerated person is in custody, the incarcerated person will sign a copy of the notification letter. The letter will be added to the case file (28 CFR 115.73).

606.8 SEXUAL ABUSE AND SEXUAL HARASSMENT BETWEEN STAFF AND INCARCERATED PERSONS

Sexual abuse and sexual harassment between staff, volunteers or contract personnel and incarcerated persons is strictly prohibited. The fact that an incarcerated person may have initiated a relationship or sexual contact is not recognized as a defense to violating this policy.

Any incident involving allegations of staff-on-incarcerated person sexual abuse or sexual harassment shall be referred to the Internal Affairs Unit for investigation.

606.8.1 SEXUAL ABUSE BY CONTRACTOR OR VOLUNTEER

Any contractor or volunteer who engages in sexual abuse within the facility shall be immediately prohibited from having any contact with incarcerated persons. The contractor or volunteer shall be promptly reported to the law enforcement agency that would investigate such allegations and brought to the attention of any relevant licensing bodies (28 CFR 115.77).

606.9 SEXUAL ABUSE VICTIMS

Incarcerated persons who are victims of sexual abuse shall be transported to the nearest appropriate location for treatment of injuries and collection of evidence, and for crisis intervention services (28 CFR 115.82). Depending on the severity of the injuries, transportation may occur by a staff member or by ambulance, in either case with appropriate security to protect the staff, the incarcerated person, and the public, and to prevent escape.

A victim advocate from a rape crisis center should be made available to the victim. If a rape crisis center is not available, the Department shall make available a qualified member of a community-based organization, or a qualified health care or mental health professional from the Department, to provide victim advocate services. Efforts to secure services from a rape crisis center shall be documented. A rape crisis center refers to an entity that provides intervention and related assistance, such as the services specified in (34 USC § 12511), to sexual assault victims of all ages. A rape crisis center that is part of a government unit may be used if it is not part of the criminal justice system (such as a law enforcement agency) and it offers a level of confidentiality comparable to the level at a nongovernmental entity that provides similar victim services (28 CFR 115.21).

606.10 EXAMINATION, TESTING, AND TREATMENT

Examination, testing, and treatment shall include the following (15 CCR 1206):

- (a) Forensic medical examinations shall be performed as evidentiary or medically appropriate, without financial cost to the victim. Where possible, these examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANE)s. If neither SAFEs nor SANEs are available, other qualified medical practitioners can perform the examination. The Department shall document its efforts to provide SAFEs or SANEs (28 CFR 115.21).
- (b) If requested by the victim, a victim advocate, a qualified department staff member, or a qualified community organization staff member shall accompany the victim through the forensic medical examination process and investigatory interviews. That person will provide emotional support, crisis intervention, information, and referrals (28 CFR 115.21).
- (c) Provisions shall be made for testing the victim for sexually transmitted diseases (28 CFR 115.82).
- (d) Counseling for the treatment of sexually transmitted diseases, if appropriate, shall be provided.
- (e) Victims shall be offered information about, and given access to, emergency contraception, prophylaxis for sexually transmitted infections, and follow-up treatment for sexually transmitted diseases (28 CFR 115.82; 28 CFR 115.83). This shall be done in a timely manner.
- (f) Victims of sexually abusive vaginal penetration while incarcerated shall be offered pregnancy tests. If pregnancy results from the abuse, such victims shall receive comprehensive information about, and access to, all lawful pregnancy-related medical services (28 CFR 115.83). This shall be done in a timely manner.

Colusa County Sheriff's Department

CA Custody Manual

- (g) Victims shall be provided with follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody (28 CFR 115.83).
- (h) Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident (28 CFR 115.82; 28 CFR 115.83).
- (i) The health authority or mental health staff shall obtain informed consent from incarcerated persons before reporting information to jail staff about prior sexual victimization that occurred somewhere other than an institutional setting unless the incarcerated person is under the age of 18 (28 CFR 115.81).
- (j) Medical and mental health practitioners shall ensure that information related to sexual victimization that occurred in an institutional setting is limited to medical and mental health practitioners and other staff unless it is necessary to inform jail staff about security or management decisions (28 CFR 115.81).

606.11 PROTECTIVE CUSTODY

Incarcerated persons at high risk for sexual victimization shall not be placed in involuntary protective custody unless an assessment of available alternatives has been made and it has been determined that there is no reasonably available alternative means of separation. Incarcerated persons may be held in involuntary protective custody for less than 24 hours while an assessment is completed.

If an involuntary protective custody assignment is made because of a high risk for victimization, the Jail Commander shall clearly document the basis for the concern for the incarcerated person's safety and the reasons no alternative means of separation can be arranged (28 CFR 115.43).

The facility shall assign these persons to involuntary protective custody only until an alternative means of separation from likely abusers can be arranged, not ordinarily in excess of 30 days.

Incarcerated persons placed in temporary protective custody shall continue to have reasonable access to programs, privileges, education, and work opportunities. If restrictions are put in place, the Jail Commander shall document the following:

- (a) The opportunities that have been limited
- (b) The duration of the limitation
- (c) The reasons for such limitations

Every 30 days, the Jail Commander shall afford each such incarcerated person a review to determine whether there is a continuing need for protective custody (28 CFR 115.43).

606.12 SEXUAL ABUSE INCIDENT REVIEW

An incident review shall be conducted at the conclusion of every sexual abuse investigation unless the allegation has been determined to be unfounded (28 CFR 115.86). The review should occur within 30 days of the conclusion of the investigation.

Colusa County Sheriff's Department

CA Custody Manual

Prison Rape Elimination Act

The review team shall include upper-level management officials and seek input from line supervisors, investigators, and qualified health care and/or mental health professionals, as appropriate:

- (a) Consider whether the investigation indicates a need to change policy or practice in order to better prevent, detect, or respond to sexual abuse.
- (b) Consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification status or perceived status; gang affiliation; or other group dynamics at the facility.
- (c) Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers may enable abuse.
- (d) Assess the adequacy of staffing levels in the area during different shifts.
- (e) Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff.
- (f) Prepare a written report of the team's findings, including but not limited to determinations made pursuant to paragraphs (a)-(e) of this section, and any recommendations for improvement. The report should be submitted to the Sheriff and the PREA coordinator.

The Jail Commander or the authorized designee shall implement the recommendations for improvement or document the reasons for not doing so.

606.13 DATA REVIEWS

This department shall conduct an annual review of collected and aggregated incident-based sexual abuse data. The purpose of these reviews is to assess and improve the effectiveness of sexual abuse prevention, detection, and response policies, practices, and training by:

- (a) Identifying problem areas.
- (b) Identifying corrective actions taken.
- (c) Recommending corrective actions.
- (d) Comparing current annual data and corrective actions with those from prior years.
- (e) Assessing the department's progress in addressing sexual abuse.

The reports shall be approved by the Jail Commander and made available through the department website. Material may be redacted from the reports when publication would present a clear and specific threat to the safety and security of the facility. However, the nature of the redacted material shall be indicated (28 CFR 115.88).

All aggregated sexual abuse data from Colusa County Sheriff's Department facilities and private facilities with which it contracts shall be made available to the public at least annually through the department website. Before making aggregated sexual abuse data publicly available, all personal identifiers shall be removed (28 CFR 115.89).

Prison Rape Elimination Act

606.14 RECORDS

All case records and reports associated with a claim of sexual abuse and sexual harassment, including incident reports, investigative reports, offender information, case disposition, medical and counseling evaluation findings, and recommendations for post-release treatment or counseling shall be retained in accordance with confidentiality laws.

The Department shall retain all written reports from administrative and criminal investigations pursuant to this policy for as long as the alleged abuser is held or employed by the Department, plus five years (28 CFR 115.71).

All other data collected pursuant to this policy shall be securely maintained for at least 10 years after the date of the initial collection, unless federal, state or local law requires otherwise (28 CFR 115.89).

606.15 PRESERVATION OF ABILITY TO PROTECT INCARCERATED PERSONS

The Department shall not enter into or renew any collective bargaining agreement or other agreement that limits the department's ability to remove alleged staff sexual abusers from contact with any incarcerated persons pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted (28 CFR 115.66).

Grooming

607.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure incarcerated person grooming standards are based upon legitimate government interests.

607.2 POLICY

It is the policy of this facility to allow incarcerated persons choice in personal grooming, except when a valid government interest justifies that grooming standards be established. The Jail Commander or the authorized designee shall establish incarcerated person grooming standards specific to classification, work status, facility safety and security, or health and hygiene. Any established standards should not unreasonably interfere with religious observances. Grooming standards should be identified in the incarcerated person handbook.

607.3 HAIRCUTS

Incarcerated persons will be provided haircuts and hair-cutting tools subject to established facility rules. If hair length, style, or condition presents a security or sanitation concern, haircuts may be mandatory. Incarcerated persons who significantly alter their appearance may be required to submit to additional booking photos.

Incarcerated persons shall not cut names, numbers, or other designs into their hair. Incarcerated persons shall not manipulate their hair into any style, including but not limited to braids, ponytails, cornrows, or twists, that could facilitate the concealment and movement of contraband and weapons.

607.3.1 HAIR CARE SERVICES

The Jail Commander or the authorized designee shall establish written procedures for incarcerated person hair care services (15 CCR 1267(a)). The procedures will include schedules for hair care services and allow rescheduling for conflicts, such as court appearances.

Incarcerated persons shall generally be permitted to receive hair care services once per month after being in custody for at least 30 days. Staff may suspend access to hair care services if an incarcerated person appears to be a danger to themselves or others or to the safety and security of the facility.

607.4 SHAVING

Incarcerated persons may shave daily. Facial hair shall be clean and well groomed. Long beards may allow persons to conceal weapons or contraband. Incarcerated persons may be required to trim facial hair if it poses a security or safety risk. Incarcerated persons may be required to submit to new booking photographs if their appearance is significantly altered due to facial hair. Incarcerated persons with facial hair who work around food shall wear appropriate facial coverings.

An incarcerated person may be denied access to razors if they appear to be a danger to themselves or others, or if such access may jeopardize the safety and security of the facility.

Grooming

Incarcerated persons may be restricted from significantly altering their appearance for reasons of identification in court (15 CCR 1267(b)).

607.5 NAILS

Nail clippers will be kept at the control station and will be issued to incarcerated persons upon request. Incarcerated workers are required to keep their nails clean and trimmed. Incarcerated persons with long nails may be required to trim their nails if there is a security concern and the person is admitted to general population.

607.6 GROOMING EQUIPMENT

Grooming equipment is to be inventoried and inspected by the staff at the beginning of each shift and prior to being issued to incarcerated persons. The staff shall ensure that all equipment is returned by the end of the shift and is not damaged or missing parts.

Grooming equipment will be disinfected before and after each use by the methods approved by the State Board of Barbering and Cosmetology to meet the requirements of (16 CCR 979; 16 CCR 980; 15 CCR 1267(c)). Cleaning methods include:

- Removing foreign matter.
- Cleaning tools with soap or detergent and water.
- Immersing non-electrical equipment in disinfectant.
- Spraying electrical equipment with disinfectant.
- Storing cleaned equipment in clear, covered containers that are labeled as such.

Disinfectant solution shall be changed at least once per week or whenever the solution is cloudy or dirty. Solution will be stored in covered containers with labeled instructions for its use and the Environmental Protection Agency registration number.

607.7 PERSONAL CARE ITEMS

Incarcerated persons are expected to maintain their hygiene using approved personal care items.

No incarcerated person will be denied the necessary personal care items. For sanitation and security reasons, personal care items shall not be shared (15 CCR 1265 et seq.).

Nondiscrimination

608.1 PURPOSE AND SCOPE

The constitutional rights of persons regarding discrimination are protected during incarceration. These protections extend to administrative decisions (e.g., classification, access to programs, availability of services). This policy is intended to guide the staff toward nondiscriminatory administrative decisions and to detail an incarcerated person complaint and discrimination investigation process.

608.2 POLICY

All decisions concerning incarcerated persons housed at this facility shall be based on reasonable criteria that support the health, safety, security, and good order of the facility.

608.3 INCARCERATED PERSONS REPORTING DISCRIMINATION

Incarcerated persons who wish to report an allegation of discrimination may communicate with facility management in any way, including:

- (a) Confidential correspondence addressed to the Jail Commander or the Sheriff or other government official, including the courts or legal representative.
- (b) Verbally to any supervisor or other staff member of this facility.

608.3.1 HANDLING COMPLAINTS OF DISCRIMINATION

Staff shall promptly forward all written allegations of discrimination by incarcerated persons to the Shift Supervisor. If the allegation is presented verbally, the receiving staff member shall prepare an incident report identifying the circumstances prompting the allegation, the individuals involved, and any other pertinent information that would be useful to investigating the allegation.

Unless the complaint submitted by the incarcerated person is clearly identified as confidential and addressed to the Jail Commander, Sheriff, or other official, the Shift Supervisor shall review the complaint and attempt to resolve the issue. In any case, the Shift Supervisor shall document the circumstances of the allegation and what actions, if any, were taken to investigate or resolve the complaint. All reports of alleged discrimination shall be forwarded to the Jail Commander for review and further investigation or administrative action as needed.

Administrative evaluations and response to allegations of discrimination shall be based upon objective criteria:

- (a) The incarcerated person's classification
- (b) The incarcerated person's criminal history
- (c) Current and past behavior and disciplinary history
- (d) Housing availability
- (e) The availability of programs
- (f) The ability to safely provide the requested services

608.4 DISCRIMINATION COMPLAINT AUDITS

The Jail Commander should perform an annual audit of all incarcerated person discrimination complaints to evaluate whether any policy or procedure changes or training are indicated. The Jail Commander should record these findings in a confidential memorandum to the Sheriff. Specific details of complaints and identifying information, such as names of the involved persons, dates, or times, are not part of this process and should not be included in the memorandum. If the audit identifies any recommended changes or content that may warrant a critical revision to this Custody Manual, the Jail Commander should promptly notify the Sheriff.

Any training issues identified as a result of this audit should be forwarded to the Training Officer, who shall be responsible for ensuring all necessary and required training is scheduled and completed.

608.5 DISCRIMINATION PROHIBITED

Discriminating against an incarcerated person based upon actual or perceived race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, age, disability, pregnancy, genetic information, veteran status, marital status, and any other classification or status protected by law is prohibited.

Reasonable and comparable opportunities for participation in services and programs including vocational, educational, and religious programs shall be made available to incarcerated persons in a nondiscriminatory manner.

The Jail Commander should periodically conduct interviews with incarcerated persons and staff members to identify and resolve potential problem areas related to discrimination before they occur.

Grievances

609.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a process by which incarcerated persons may file grievances and receive a formal review regarding the conditions of their confinement.

609.2 POLICY

It is the policy of this department that any incarcerated person may file a grievance relating to conditions of confinement, which includes release date, housing, medical care, food services, hygiene and sanitation needs, out of cell time opportunities, classification actions, disciplinary actions, program participation, telephone and mail use procedures, visiting procedures, and allegations of sexual abuse (15 CCR 1073).

Grievances will not be accepted if they are challenging the rules and policies themselves, state or local laws, court decisions, or probation/parole actions.

Retaliation for use of the grievance system is prohibited.

609.3 GRIEVANCE PROCEDURES

Staff shall attempt to informally resolve all grievances at the lowest level. All attempts to resolve a grievance shall be documented in the incarcerated person's file. If there is no resolution at this level, the incarcerated person may request a grievance form.

The incarcerated person should be advised to complete the form and return it to any staff member. A grievance should be filed by an incarcerated person within 14 days of the complaint or issue.

Incarcerated persons cannot file a grievance on behalf of another incarcerated person but an incarcerated person may assist another incarcerated person in the preparation of a grievance. Custody staff may take reasonable steps to assist the incarcerated person in the preparation of a grievance if requested.

Upon receiving a completed grievance form, the staff member shall acknowledge receipt of the grievance by signing the form and giving a copy to the incarcerated person. The staff member receiving the form shall gather all associated paperwork and reports and immediately forward it to a supervisor.

609.3.1 EXCEPTION TO INITIAL GRIEVANCE FILING

Incarcerated persons may request to submit the grievance directly to a supervisor or mail it directly to the Jail Commander if they reasonably believe the issues to be grieved are sensitive or that their safety would be in jeopardy if the contents of the grievance were to become known to other incarcerated persons.

Incarcerated persons with limited access to mail privileges, who are in restrictive housing or are indigent may deposit their grievances in the locked grievance box within their housing unit or place their grievance in a sealed envelope labeled "Grievance" and deposit it in the regular mailboxes.

Colusa County Sheriff's Department

CA Custody Manual

Grievances

These envelopes will be delivered directly to the Jail Commander and not forwarded to the United States Postal Service.

609.3.2 TIMELY RESOLUTION OF GRIEVANCES

Upon receiving a completed incarcerated person grievance form, the supervisor shall ensure that the grievance is investigated and resolved or denied in a timely manner, as established by the Jail Commander. The supervisor shall assign the investigation of the grievance to the manager in charge of the department the incarcerated person is grieving.

Grievances related to medical care should be investigated by the medical staff or the authorized designee. The findings of that investigation, along with any recommendations, shall be forwarded to the sergeant. Any appeals of the findings of the medical staff shall be forward to the Jail Commander as the final level of appeal.

Grievances about food-related matters should be investigated by the food services manager. The findings of that investigation, along with any recommendations, shall be forwarded to the sergeant. Any appeals shall be forwarded to the Jail Commander as the final level of appeal.

Other grievances relating to programs or other services provided by the Department shall be investigated by the custody staff with the assistance of the supervising employee in charge of those services. Findings relating to the investigation will be forwarded to the sergeant. Any appeals shall be forwarded to the Jail Commander as the final level of appeal.

609.3.3 APPEALS TO GRIEVANCE FINDINGS

Incarcerated persons may appeal the finding of a grievance to the Jail Commander as the final level of appeal within five days of receiving the findings of the original grievance. The Jail Commander will review the grievance and either confirm or deny it. If the Jail Commander confirms the grievance, corrective actions will be initiated. In either case, the incarcerated person shall receive a written response to the appeal.

Appeals related to sexual abuse allegations shall be confirmed or denied by the Jail Commander within 10 calendar days.

609.3.4 RECORDING GRIEVANCES

The Jail Commander should maintain a grievance log in a central location accessible to all supervisors. The supervisor who originally receives a grievance shall record the grievance, along with its finding, on the grievance log. Periodic reviews of the log should be made by the Jail Commander or the authorized designee to ensure that grievances are being handled properly and in a timely manner. A copy of each grievance should be filed in the incarcerated person's official record and maintained throughout the incarcerated person's period of incarceration.

The original grievance should be retained in a file maintained by the Jail Commander or the authorized designee, and shall be retained in accordance with established records retention schedules.

609.3.5 FRIVOLOUS GRIEVANCES

Incarcerated persons shall use the grievance process only for legitimate problems or complaints. If there is concern that an incarcerated person is abusing the grievance process, the person shall be informed that continued behavior may result in disciplinary action.

609.4 TRAINING

The Training Officer shall ensure that all custody staff receive initial and periodic training regarding all aspects of this policy. All training delivered should include testing to document that the employee understands the subject matter.

609.5 ADDITIONAL PROVISIONS FOR GRIEVANCES RELATED TO SEXUAL ABUSE

The following apply to grievances that relate to sexual abuse allegations (28 CFR 115.52; 15 CCR 1029):

- (a) Incarcerated persons may submit a grievance regarding an allegation of sexual abuse at any time.
- (b) Third parties, including fellow incarcerated persons, staff members, family members, attorneys, and outside advocates, are permitted to assist incarcerated persons in filing such grievances and to file such grievances on behalf of incarcerated persons if the incarcerated person agrees to have the grievance filed on the person's behalf. Staff members who receive a grievance filed by a third party on behalf of an incarcerated person shall inquire whether the incarcerated person wishes to have the grievance processed and shall document the incarcerated person's decision.
- (c) Grievances may be submitted to any staff member and need not be submitted to the member who is the subject of the complaint
- (d) Staff receiving a grievance shall forward the grievance to a supervisor. Grievances shall not be forwarded to any supervisor who is the subject of the complaint. The supervisor receiving the grievance shall refer the grievance to the Shift Supervisor for investigation. Incarcerated persons and staff are not required to attempt to informally resolve grievances related to sexual abuse.
- (e) The Shift Supervisor shall ensure that grievances related to sexual abuse are investigated and resolved within 90 days of the initial filing. The Shift Supervisor may grant an extension of up to 70 days if reasonable to make an appropriate decision. If an extension is granted, the incarcerated person shall be notified and provided a date by which a decision will be made.
- (f) At any level of the process, including the appeal, if the incarcerated person does not receive a response within the allotted time, including any properly noticed extension, the incarcerated person may consider the absence of a response to be a denial at that level.
- (g) Incarcerated persons may be disciplined for filing a false grievance related to alleged sexual abuse only when it is determined that the incarcerated person filed the grievance in bad faith.

Grievances

609.5.1 EMERGENCY GRIEVANCES RELATED TO SEXUAL ABUSE

Any incarcerated person who believes the person or any other incarcerated person is in substantial risk of imminent sexual abuse may file an emergency grievance with any supervisor. The supervisor shall determine whether immediate action is reasonably necessary to protect the incarcerated person and shall provide an initial response within 48 hours.

The supervisor shall refer the grievance to the Shift Supervisor, who will investigate and issue a final decision within five calendar days.

The initial response and final decision shall be documented and shall include a determination whether the incarcerated person is in substantial risk of imminent sexual abuse and identify actions taken in response to the emergency grievance (28 CFR 115.52).

609.6 ACCESS TO THE GRIEVANCE SYSTEM

All incarcerated persons shall be provided with a grievance process for resolving complaints arising from facility matters with at least one level of appeal.

Incarcerated persons will receive information concerning the grievance procedure during the orientation process. Information will also be contained in the incarcerated persons handbook. Information regarding the grievance process will be provided to incarcerated persons in the language they understand.

The information will include (15 CCR 1073):

- (a) A grievance form or instructions for registering and appealing a grievance, including relevant dates.
- (b) A process for submission and handling of anonymous grievances.
- (c) Instructions for the resolution of the grievance at the lowest appropriate staff level.
- (d) The appeal process to the next level of review.
- (e) Written reasons for denial of a grievance at each level of review.
- (f) A provision for a non-automated initial response within a reasonable time limit which shall not exceed a period of 15 calendar days.
- (g) A provision for resolving questions of jurisdiction within the facility.
- (h) Provisions for providing a copy of the grievance, appeal, response, and related documents to the incarcerated person.
- (i) Consequences for abusing the grievance system.

Voting

610.1 PURPOSE AND SCOPE

This policy establishes the requirement for providing eligible incarcerated persons the opportunity to vote during elections, pursuant to election statutes (15 CCR 1071).

610.2 POLICY

The Department will assist incarcerated persons who wish to vote in an election.

610.3 PROCEDURES

Prior to each election, the Jail Commander will designate a correctional officer to be a liaison between the Department and the county elections office. The designated correctional officer will be responsible for assisting incarcerated persons who have requested to vote.

Incarcerated persons should be advised of voting methods during the incarcerated person orientation.

Chapter 7 - Medical-Mental Health

Health Care Administrative Meetings and Reports

700.1 PURPOSE AND SCOPE

The Department recognizes that the delivery of effective health care requires open and frequent communication between the Responsible Physician and the Jail Commander. This policy provides guidelines for the continuous monitoring, planning, and problem resolution in providing health care that addresses the medical needs of the incarcerated person population and prevents potential outbreaks of communicable and contagious illness.

700.1.1 DEFINITIONS

Clinical practice guidelines are used to assist clinical decision-making, assess and assure the quality of care, educate individuals and groups about clinical disease, guide the allocation of health care resources, and reduce the risk of legal liability for negligent care.

Clinical setting - An examination or treatment room, either on- or off-site, which is appropriately supplied and equipped to address a patient's health care needs.

the names of attendees and a list of the topics discussed. The minutes should be retained in accordance with established records retention schedules.

The data for the quarterly report should be gathered by the Responsible Physician via monthly meetings with all facility Shift Supervisors and qualified health care professionals. The monthly meetings should cover the following topics:

- Health care services
- Quality improvement findings
- Infection control efforts
- Incarcerated person grievances
- Environmental inspections report

700.2.1 STATISTICAL REPORTS

Access to Health Care

701.1 PURPOSE AND SCOPE

The provision of adequate health services in a custody setting is a constitutional right afforded to all incarcerated persons. The purpose of this policy is to provide custody personnel and qualified health care professionals with a process to inform newly booked incarcerated persons of the procedure to access health care services and how to use the grievance system, if necessary.

701.2 POLICY

It is the policy of this department that all incarcerated persons, regardless of custody status or housing location, will have timely access to a qualified health care professional and receive a timely professional clinical judgment and appropriate treatment.

The Colusa County Sheriff's Department facility will provide medical, dental, and mental health services as necessary to maintain the health and well-being of incarcerated persons to a reasonable and socially acceptable standard (15 CCR 1200 et seq.; 15 CCR 1208).

701.3 ACCESS TO CARE

Incarcerated person medical requests will be evaluated by qualified health care professionals or health-trained custody staff. Health care services will be made available to incarcerated persons from the time of admission until they are released. Timely access to services will be provided within seven days of request. Information regarding how to contact the medical staff will be posted in all incarcerated person housing areas (15 CCR 1200 et seq.; 15 CCR 1208). Medications and community health resources and referrals may be provided upon request when the incarcerated person is released.

Unreasonable barriers shall not be placed on an incarcerated person's ability to access health services. Health care that is necessary during the period of confinement shall be provided regardless of an incarcerated person's ability to pay, the size of the facility, or the duration of the person's incarceration. Such unreasonable barriers include:

- Punishing incarcerated persons for seeking care for their health needs.
- Deterring incarcerated persons from seeking care for their health needs by scheduling sick call at unreasonable times.

All routine requests for medical attention shall be promptly routed to a qualified health care professional.

Any incident of an incarcerated person refusing medical treatment or causing a disruption in the delivery of health care services shall be documented in an incident report. The original incident report shall be forwarded to the Responsible Physician and a copy sent to the Jail Commander.

701.4 HEALTH CARE GRIEVANCES

Custody personnel should authorize and encourage resolution of incarcerated person complaints and requests on an informal basis whenever possible. To the extent practicable, custody personnel

Colusa County Sheriff's Department

CA Custody Manual

Access to Health Care

should provide incarcerated persons with opportunities to make suggestions to improve programs and conditions.

Incarcerated persons will be informed of the grievance process during incarcerated person orientation. The grievance process is also explained in the incarcerated person handbook, which all incarcerated persons receive and which they should have additional access to in their housing units. Grievances will be handled in accordance with the Grievances Policy (15 CCR 1073(a)).

Custody personnel should minimize technical requirements for grievances and allow incarcerated persons to initiate the grievance process by briefly describing the nature of the complaint and the remedy sought. For simple questions and answers regarding clinical issues, incarcerated persons may meet with a qualified health care professional or may submit a written correspondence.

Incarcerated person grievances regarding health care issues will be investigated by an uninvolved member of the medical staff. If no such person is available or does not exist, an outside peer should be sought to investigate the grievance. The incarcerated person should be provided with a written response in accordance with the schedule set forth in the Grievances Policy. Responses to incarcerated person grievances should be based on the community standard of health care.

Copies of grievances and the facility's response shall be sent to the Jail Commander, who, in consultation with the Responsible Physician, shall serve as the final authority in response to all incarcerated person grievances.

If an incarcerated person is not satisfied with the response, the incarcerated person may appeal the grievance as outlined in the Grievances Policy.

701.5 POSTING AVAILABLE RESOURCES

A listing of telephone numbers for medical, dental, mental health and ambulance services shall be posted at the facility's medical area and in the primary staff control station, along with a schedule of availability.

Non-Emergency Health Care

702.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a daily triage system of incarcerated person requests for health care services. This is to ensure that the health needs of the population are addressed properly and in a timely manner.

702.2 POLICY

It is the policy of this department to provide daily access to qualified health care professionals or health-trained custody staff in order for incarcerated persons to request medical services (15 CCR 1200). All health care requests will be documented, triaged, and referred appropriately by medical staff. Qualified health care professionals will conduct sick call and clinics for health care services on a scheduled basis to ensure a timely response to requests for medical services (15 CCR 1211).

The Responsible Physician, in coordination with the Jail Commander or the authorized designee, is responsible for developing a process that includes:

- (a) A process for incarcerated persons to request health services on a daily basis.
- (b) A priority system for health care services to acquire and address requests for routine health care, and for urgent or emergent injuries, illnesses, and conditions.
- (c) Making health care request forms available in each housing unit and to all incarcerated persons upon request.
- (d) A system in which health care requests are documented, triaged, and referred appropriately.
- (e) Restrictions that prohibit non-health services personnel from diagnosing or treating an illness.

702.3 HEALTH CARE REQUESTS

During the collection of health care requests from incarcerated persons, care should be taken to protect the confidentiality of the person and the nature of the health issue. The collector shall date and initial the request when the collection takes place. The requests shall be triaged to determine the priority of need and the proper place for health care to be delivered.

Incarcerated persons will be instructed on how to obtain medical services during the orientation process and in the incarcerated person handbook. Incarcerated persons shall submit a medical request form to the housing unit correctional officer or the health-trained staff delivering medications, or a nurse, if appropriate.

Medical request forms should be available in languages representative of the population. Incarcerated persons who communicate in a language not available in printed form shall have access to interpreter services.

Incarcerated persons with disabilities should be provided with appropriate assistance or accommodation to ensure they are able to request health care services.

Colusa County Sheriff's Department

CA Custody Manual

Non-Emergency Health Care

The housing unit correctional officer shall ensure the reason for seeking medical attention is on the medical request form. If no reason is given, the correctional officer shall encourage the incarcerated person to indicate whether the matter is urgent or confidential. The correctional officer shall forward all requests to the jail nurse.

702.4 TRIAGE OF HEALTH CARE REQUESTS

Qualified health care professionals shall perform a daily triage. Sick call shall be available to incarcerated persons at least five days a week and shall be performed by a qualified health care professional.

Other qualified health care professionals should schedule incarcerated persons in need of specialized treatment for the next available providers' clinic. The wait for the next available providers' clinic should not exceed two days. The qualified health care professional shall document the referral in the providers' scheduling book and on the incarcerated person's medical record.

The frequency and duration of sick call should be sufficient to meet the needs of the incarcerated person population but should be conducted at least weekly by a qualified health care professional. If an incarcerated person's custody status precludes attendance at sick call, arrangements shall be made to provide sick call services in the place of the person's detention (15 CCR 1211).

702.5 GUIDELINES FOR ELECTIVE PROCEDURES OR SURGERY

The Responsible Physician and the Jail Commander shall work cooperatively to develop guidelines that govern elective procedures or surgery for incarcerated persons. The guidelines must include decision-making processes for elective procedures or surgery that is needed to correct a substantial functional deficit or an existing pathological process that threatens the well-being of the incarcerated person over a period of time. Any discussion of this nature with the incarcerated person should be conducted in a language easily understood by the person and should be carefully documented in the person's medical record. This record should be maintained in accordance with established records retention schedules.

702.6 REQUESTS FOR OUTSIDE MEDICAL CARE

Incarcerated persons who request access to health care services outside the facility may do so with advance authorization from the Jail Commander or the authorized designee. The person shall be required to provide proof of sufficient private funds available to pay for all costs associated with transportation to the off-site facility and all costs associated with the medical services, diagnostics, treatment plans, medications, or any other costs associated with off-site medical care.

Referrals and Coordination of Specialty Care

703.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a process for referring incarcerated persons who need health care or specialty care that is beyond the resources available in the facility. The policy includes guidelines regarding transportation under appropriate security provisions and the formulation of advance written agreements for around the clock or on-call availability of alternate services. Specialty care includes specialist-provided health care, such as nephrology, surgery, dermatology, and orthopedics.

703.2 POLICY

It is the policy of this department that incarcerated persons have access to necessary hospitalization and specialty services for serious medical needs. This facility will provide, either directly or through contracted sources, specialty care and emergency medical services to incarcerated persons when the need is determined by the Responsible Physician (15 CCR 1206(b); 15 CCR 1206(c)).

703.3 JAIL COMMANDER RESPONSIBILITY

The Jail Commander or the authorized designee, in coordination with the Responsible Physician, is responsible for establishing written agreements with outside specialty health care services for emergency and urgent care that is not available within the facility. In addition, a plan shall be developed for the secure transportation of incarcerated persons to a facility where such care is available.

703.4 REFERRAL TO OFF-SITE MEDICAL CARE

A qualified health care professional shall evaluate the incarcerated person, and if indicated, shall recommend specialty appointments in writing on the order sheet in the incarcerated person's medical record. A referral form should be completed and any supporting documentation attached. The written referral shall be reviewed and authorized, if appropriate, by the Responsible Physician.

A court order is generally required when an incarcerated person requires medical or surgical treatment necessitating hospitalization. A court order is not required for an incarcerated person in need of immediate medical or hospital care, but an application for a court order should be made as soon as practicable when the person's condition requires them to be gone from the facility more than 48 hours (Penal Code § 4011.5).

703.5 OFF-SITE COORDINATION

The qualified health care professional is responsible for recommending off-site medical and psychiatric care for incarcerated persons, coordinating outside appointments, and notifying supervisory custody staff of off-site transportation needs. The Jail Commander should establish a written transportation procedure that ensures incarcerated persons are transported securely and in a timely manner for medical, mental health, dental clinic, or other specialty appointments. The

Colusa County Sheriff's Department

procedure shall include the secure transfer of medical information to the receiving health care service.

Any conflicts that arise regarding off-site consultation trips will be communicated by the correctional officer responsible for transportation to the Responsible Physician and the Jail Commander or the authorized designee so that modifications may be made.

The jail supervisor shall keep a log of missed appointments to determine if transportation issues are impeding the ability of incarcerated persons to access appropriate medical care. Any issues identified shall be discussed and resolved between the Responsible Physician and the Jail Commander (15 CCR 1206(c); 15 CCR 1206(n)).

Emergency Health Care Services

704.1 PURPOSE AND SCOPE

The purpose of this policy is to establish plans and procedures for responding to medical emergencies in the facility when the level of medical or mental health services exceeds the licensure or certification of staff who are on-duty, and to define staff training requirements.

It is the policy of this department that emergency medical, mental health, and dental services are available 24 hours a day. These services may include off-site health care services.

704.3 PROCEDURES

The Jail Commander or the authorized designee shall work cooperatively with the Responsible Physician to develop plans and procedures for responding to emergency medical incidents that occur when the level of medical or mental health services needed exceeds the licensure or certification of staff who are on-duty. The plans should include: on-site emergency first aid, basic life support and crisis intervention; emergency evacuation of an incarcerated person from the facility, including security procedures to ensure an immediate transfer when appropriate; on-call physicians, dentists, and mental health professionals; predetermined back-up health care services when the emergency health facility is not located in a nearby community; and the identification of primary, secondary, and tertiary acute care facilities.

The plan may additionally include but is not limited to these components:

705.1 PURPOSE AND SCOPE

The purpose of this policy is to establish prenatal and postpartum health care services for incarcerated persons who are pregnant. Services may include assistance recovering from the effects of potentially unhealthy lifestyles, which could include tobacco use, alcohol and drug abuse or addiction, and a lack of previous adequate medical care. Because of unhealthy lifestyle choices prior to incarceration, many incarcerated person pregnancies are classified as high-risk. This policy is intended to protect the health of the pregnant person and the fetus.

705.2 POLICY

It is the policy of this department that a qualified health care professional should provide comprehensive prenatal and postpartum care for all pregnant persons during their incarceration.

The purpose of this policy is to establish the responsibility of the health authority as arranging for all levels of health services, assuring the quality of all health services, identifying lines of medical authority for the incarcerated person health program, and assuring that incarcerated persons have access to all health services.

The policy also establishes properly monitored processes, policies, procedures, and mechanisms to ensure that the contracted scope of services is adequately and efficiently delivered.

The health authority is defined as the Responsible Physician, health services administrator, or health agency responsible for providing all health care services or coordinating the delivery of all health care services (see the Health Care Administrative Meetings and Reports Policy).

706.2 POLICY

The health authority is responsible and accountable for all levels of health care and has the final authority regarding clinical issues within this jail. The health authority is responsible for establishing, implementing, and annually reviewing/revising policies for all clinical aspects of the health care program and for monitoring the appropriateness, timeliness and responsiveness of care and treatment. The health authority also approves all medical decisions and protocols.

706.3 SELECTION PROCESS

The Sheriff or the authorized designee shall select a health authority using an existing department procurement or selection process. The individual or organization selected shall be designated as the health authority for incarcerated person health care on behalf of the facility.

Aside from any monetary or term considerations, the contract between the Department and the selected individual or organization shall minimally include:

The health authority or the authorized designee will meet at least monthly with custody representatives to discuss the health care program and any issues that require correction or adjustment.

Security regulations are applicable to facility staff and health care personnel (15 CCR 1200(a)).

The health authority is responsible for arranging the availability of health care services. The qualified health care professionals should determine what medical services are needed on a case-by-case basis. The Jail Commander shall provide the administrative support for making the health care services available to incarcerated persons. Clinical decisions are the sole province of qualified health care professionals and should not be countermanded by non-health care professionals.

If routine health services are provided by medical personnel outside this facility, all department policies regarding treatment, transfer, transportation, or referral of emergencies shall be followed.

The health authority is responsible for ensuring that the health services manual complies with all applicable state and federal law and that a review and update is conducted annually.

An annual audit of the quality and adequacy of health care services shall be done, with corrective action taken when deficiencies are identified (15 CCR 1202).

706.5 LACTATION PROGRAM

The health authority should ensure that the policy is posted in all locations where medical care is provided and is communicated to members who interact with or oversee pregnant or lactating incarcerated persons (Penal Code § 4002.5).

Health Appraisals

707.1 PURPOSE AND SCOPE

The purpose of this policy is to establish the process for conducting health appraisals on all incarcerated persons following their arrival at this facility and for the continuity of care for incarcerated persons who remain in custody for extended periods. Further, it is to ensure the incarcerated person's health care needs are met and that health care started at one facility continues as needed.

707.2 POLICY

It is the policy of this department that all incarcerated persons will receive a comprehensive health appraisal within 14 days of incarceration unless there is documented evidence that the incarcerated person has received a health appraisal within the previous 90 days. In addition to the initial health appraisal, the person should have an annual evaluation to reassess their health status and to provide access to preventive medicine through education and lifestyle programs.

707.3 INITIAL HEALTH APPRAISAL

- (a) Qualified health care professionals shall have access to the daily incarcerated person roster. From this, they can determine who needs a health appraisal and hands-on physical evaluation. The health appraisal should include:
 - 1. A review of earlier medical screening information.

707.4 ANNUAL HEALTH EXAMINATIONS

The Responsible Physician will determine the criteria for periodic health examinations for incarcerated persons. Incarcerated persons should be scheduled for an annual health examination within 14 days of the person's annual incarceration anniversary (15 CCR 1208.5). The examination should include:

- A review of current vital signs and weight.
- A TB skin test and review of the results.
- An evaluation of any health-related issues arising since the last health evaluation.
- Initiation of treatment, as appropriate.

708.2 POLICY

This department will encourage incarcerated persons to maintain a healthy lifestyle by providing health education and wellness information.

708.3 HEALTH CARE ENCOUNTERS

During health care encounters, the qualified health care professionals should instruct incarcerated persons at the time service is rendered on how to avoid preventable diseases, such as athlete's foot, flu and the common cold, tooth decay, and sexually transmitted diseases. Such instruction should be documented in the health record. Documentation should include the topics discussed, the written materials provided, if any, and that the incarcerated person acknowledged an understanding of the information.

Informative brochures from various health organizations should also be available to incarcerated persons in the medical unit.

Appropriate topics for incarcerated person education include:

708.4 GENERAL HEALTH PROMOTION INFORMATION

Whenever possible, written materials and audio and video presentations should be made available to incarcerated persons for educational purposes. These materials are often available in bulk quantity through the public health department and other community-based organizations.

All items intended for distribution to the incarcerated person population shall be approved by the Jail Commander to avoid any conflict with rules regarding contraband in the facility.

Classes should also be conducted to inform the incarcerated person on various healthy lifestyles. Class schedules should be posted in advance, curriculum and lesson plans developed, and attendance rosters maintained.

All documentation regarding health education and self-care should be retained in incarcerated person medical files in accordance with established records retention schedules. Statistics on program offerings and attendance may be used to determine program effectiveness and interest.

708.5 FAMILY PLANNING SERVICES

All incarcerated persons shall be offered family planning services at least 60 days prior to a scheduled release date (Penal Code § 4023.5).

Transfer Screening

709.1 PURPOSE AND SCOPE

This policy recognizes that incarcerated persons are frequently transferred within the correctional authority's system and to facilities outside the system. This policy establishes a process for medical screening of transferred incarcerated persons to ensure continuation of care and avoid unnecessary diagnostics.

709.2 POLICY

It is the policy of this department that incarcerated persons who are transferred to another jail, correctional system, or health care facility will be screened prior to transfer to ensure that the receiving facility can assume and continue proper care. Medical needs of the incarcerated person will be clearly communicated to the receiving facility, including the ongoing treatment plan, scheduled surgeries, and outside appointments.

Incarcerated persons who are transferred to other facilities shall be sent with a discharge summary that includes information about the incarcerated person's medical and mental health condition, the current treatment plan, and any medications, if needed (15 CCR 1206(n)).

709.3 TRANSFERS

Any incarcerated person being transferred to another correctional or health care facility will be medically screened prior to transfer as described below.

The medical screening should include:

- (a) A determination of whether the incarcerated person is being treated for a medical, mental health, or dental problem.
- (b) A determination of whether the incarcerated person has any apparent, current medical, mental health, or dental needs or complaints.
- (c) What medication, if any, the incarcerated person is presently prescribed.
- (d) Whether the incarcerated person has any evidence of abuse or trauma.
- (e) Whether the incarcerated person has any physical deformities or special daily living assistance needs.
- (f) The incarcerated person's classification and clearance status (i.e., general population, separation).
- (g) Whether the incarcerated person has any pending follow-up appointments or requirements.

Completed discharge summaries, including the medical screening results, shall accompany incarcerated persons being transferred to another department's jurisdiction to ensure that the receiving health care service can assume and continue necessary care. A release of information authorization is not required.

- Current health conditions

Transfer Screening

- Current treatments and medications
- Upcoming appointments and diagnostic studies
- Allergies
- Copies of any health information that is critical to continuity of care

If the receiving facility requests a copy of the medical record, it will be supplied within five working days.

The discharge summary and any related medical records being transferred shall be placed in a file or envelope that maintains the confidentiality of the incarcerated person's medical information. The transporting personnel shall be provided separate written instructions regarding medication or health interventions, including necessary precautions that are required en route. The transporting personnel shall also document on the transfer log the date, time, and name of the person receiving the incarcerated person and the medical records.

709.3.1 EXTENDED TRANSPORTATION OF INCARCERATED PERSONS

When an incarcerated person will be in transfer status for several days and housed temporarily at various custody facilities along the way, a medical transfer packet shall be prepared by the qualified health care professional in a form that will advise the temporary housing facilities of any medical needs of the incarcerated person. When medically appropriate, a small supply of medication should be provided with the medical transfer packet so it will be available to the temporary housing facility as needed.

709.4 RECEIVING TRANSFERRED INCARCERATED PERSONS

When an incarcerated person being transferred to this facility arrives without a full and comprehensive medical transfer packet from another facility, the incarcerated person shall be medically screened and receive a comprehensive health appraisal in accordance with the Medical Screening Policy and Health Appraisals Policy. The medical department of the sending facility should be promptly contacted to determine if the transferred incarcerated person has any medical needs that require immediate attention or any scheduled surgeries or appointments with community health care services. Arrangements should then be made with the sending facility for the delivery of a more detailed review of the incarcerated person's medical needs.

Medical Screening

710.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a medical screening process for newly booked incarcerated persons so that medical, mental health, and dental issues are properly identified and addressed, and to obtain a medical clearance when necessary.

710.2 POLICY

It is the policy of this department that a medical screening be performed on all incarcerated persons upon arrival at the intake area to ensure that existing, emergent, and urgent health care, dental, or mental health needs are identified, risks are assessed, and incarcerated persons with contagious and communicable diseases are properly classified and housed for their health and the health of the general population (15 CCR 1051; 15 CCR 1206.5(a); 15 CCR 1207).

710.3 ELEMENTS OF MEDICAL SCREENING

The medical screening shall be performed by health services personnel when available, but may also be performed by health-trained correctional staff. The Responsible Physician, in cooperation with the Jail Commander, shall establish protocols for use by health-trained correctional staff during the medical screening. All completed medical screenings should be forwarded to the Responsible Physician. A review of any positive finding shall be performed by a qualified health care professional.

Regardless of training, no incarcerated person should be allowed to conduct health care evaluations or provide treatment to any other incarcerated person.

All incarcerated persons shall complete a medical screening as part of the booking process. If an arrestee refuses to cooperate with the medical screening, the screener will complete as much of the health assessment as reasonably possible and the arrestee will be closely observed until the arrestee cooperates with the remainder of the screening process.

The Responsible Physician should work cooperatively with the Jail Commander to develop the medical screening forms, which should be applicable for general health, mental health, and suicide screening purposes. The forms should be completed no later than 24 hours after the arrival of an incarcerated person but prior to an incarcerated person being housed in the general population. All medical screening forms shall be forwarded to the medical unit and the qualified health care professionals shall be alerted to those that need priority attention.

710.3.1 MEDICAL SCREENING INQUIRY

The medical screening inquiry should include a review of the incarcerated person's prior jail medical record, if any, and document the following:

- History of infectious or communicable diseases that are considered serious in nature; current treatment, symptoms, medications, chronic illness, or health issues, including communicable diseases, or special health requirements, and/or dietary needs (15 CCR 1051)

- Mental illness, including psychiatric hospitalizations within the last three months
- Gender issues
- History of or current suicidal ideation
- Acute allergies
- History of or current prescription or illegal drug use, including the time of last use
- History or current symptoms of substance abuse withdrawal
- Current, recent, or suspected pregnancy; any history of gynecological problems and present use and method of birth control
- Appearance or history of developmental disabilities, body deformities, or other physical abnormalities
- Incarcerated persons who have given birth in the past year and are charged with murder or attempted murder of their infants shall be referred to mental health services at the time of booking (15 CCR 1207.5)
- Any other health issues as identified by the Responsible Physician

Qualified health care professionals should assist in developing specific mental health medical screening questions and should provide training in analyzing incarcerated person responses. The Responsible Physician should establish the role of the qualified health care professional in the medical screening process.

Should the medical screening identify a need for a more comprehensive medical assessment of the incarcerated person, a qualified health care professional should initiate appropriate follow-up action, which may include transporting the incarcerated person to an off-site medical facility.

710.3.2 MEDICAL SCREENING OBSERVATION

The staff member completing the medical screening observation shall document the following observations:

- Appearance (e.g., sweating, tremors, anxious, disheveled)
- Behavior (e.g., disorderly, appropriate, insensible)
- State of consciousness (AVPU):
 - Alert - spontaneously responsive

- Breathing (e.g., persistent cough, hyperventilation)
- Skin (e.g., lesions, jaundice, rashes, infestations, bruises, scars, recent tattoos, needle marks or other indications of drug abuse)
- Any other observable health symptoms

The Jail Commander and the Responsible Physician should develop a procedure through which it can be reliably determined what prescription medications the incarcerated person is taking and the medical urgency for continuing those medications without interruption.

710.3.3 DOCUMENTATION

Written documentation of the medical screening should include the name of the screener, the date and time, and the following information:

- Immediate or scheduled referral to a medical, dental, or mental health professional
- Guidance regarding housing placement, including disciplinary detention if necessary (15 CCR 1051)
- Guidance regarding activity limitations and work assignment
- The incarcerated person's responses to questions asked by the interviewer
- Other individualized observations and recommendations

The initial medical screening should become part of the incarcerated person's medical record and should be retained in accordance with established records retention schedules.

710.4 MEDICAL SCREENING DISPOSITIONS

Persons who are brought to the facility and are obviously in need of immediate medical attention shall be referred to an emergency medical facility for clearance. Conditions that require a medical clearance prior to booking include but are not limited to the following:

- Unconsciousness
- Uncontrolled bleeding
- Significant injuries from a motor vehicle accident
- Significant injuries from an altercation
- Significant injuries from handcuffs or other restraint devices
- Knife wounds, gunshot wounds, or lacerations

- Active seizures
- Suspected or known complications of diabetes
- Exhibits behavior indicating a potential danger to themselves or others
- Active tuberculosis or other serious contagious diseases
- Actively suicidal
- Any other medical condition which, in the opinion of the booking personnel, should be urgently referred for evaluation by medically trained personnel

Incarcerated persons with these medical conditions are not suitable for admission to the facility until medically cleared by a qualified health care professional. This department requires medical clearance from an outside entity when such incarcerated persons are identified.

Medical clearance documentation shall include the medical diagnosis, treatment received at the emergency medical facility, any medications prescribed, any ongoing medical requirements, and any follow-up medical care that may be indicated before the arrestee is accepted for booking.

The Jail Commander is responsible for notifying local police agencies and medical facilities of the jail admission refusal policy and the required clearance documentation.

Based upon the information obtained during the screening process, the medical classification disposition of the incarcerated person shall be one of the following:

- General population or other appropriate cell assignment
- General population or other appropriate cell assignment and timely referral to appropriate health care services
- Immediate referral to health care services prior to housing

710.5 HEALTH APPRAISAL

Generally, a comprehensive health appraisal should occur within 14 days of booking (see the Health Appraisals Policy). However, when it is appropriate and based on an incarcerated person's health condition, an early health appraisal should be recommended. An incarcerated person may also be cleared for housing in general population with a prompt referral to the appropriate health care services when it is in accordance with the incarcerated person's overall classification. Upon the identification of an incarcerated person who may be in a behavioral crisis, a physician's opinion will be secured within 24 hours, or next sick call, whichever is earliest (15 CCR 1052).

710.5.1 MEMBERS CONDUCTING HEALTH APPRAISALS

Medical screening should be completed by licensed health personnel or trained facility staff, with documentation of staff training regarding site-specific forms with appropriate disposition based on responses to questions and observations made at the time of screening (15 CCR 1207).

The initial mental health screening takes place at the time of booking, and is for the safety of the incarcerated person and the general population. It helps the custody staff to make appropriate classification and housing decisions and to ensure that the treatment and intervention needs of the person are met.

712.2 POLICY

It is the policy of this department that all individuals booked into the facility shall receive an initial mental health screening by a qualified mental health professional, qualified mental health staff, or health-trained custody staff. 712.3 MENTAL HEALTH SCREENING

The initial screening is designed to identify whether mental health conditions exist that require immediate or ongoing intervention. The screening shall be performed prior to the incarcerated person being placed in general housing and should include:

Special Needs Medical Treatment

713.1 PURPOSE AND SCOPE

This purpose of this policy is the proper treatment and management of incarcerated persons with chronic diseases and special needs. This is accomplished by utilizing nationally recognized, generally accepted clinical guidelines and establishing communication between qualified health care professionals and custodial personnel.

713.1.1 DEFINITIONS

Definitions related to this policy include:

Chronic disease program - The incarcerated person has regular clinic visits during which a qualified health care professional monitors the medical condition and adjusts treatment as necessary. The program also includes patient education for symptom management.

713.2 POLICY

It is the policy of this department that all individuals identified as having chronic diseases or special needs are enrolled in a chronic disease program to decrease the frequency and severity of the symptoms, prevent disease progression and complication, and foster improved function.

When a qualified health care professional recognizes that an incarcerated person requires accommodation due to a special need, correctional personnel should be notified in writing. Consultation between the qualified health care professional and custodial personnel should occur regarding the condition and capabilities of persons with known special needs prior to a housing, work or program assignment, transfer to another facility, or the imposition of disciplinary action.

Qualified health care professionals shall furnish special needs information regarding incarcerated persons to custodial personnel in order for them to accurately classify and house persons in the facility.  2. A special needs communication form should be completed and sent to the classification unit, the Shift Supervisor, and the housing officer to ensure the person is properly housed.
 3. Current medications being taken by the incarcerated person should be verified and continued as deemed appropriate by the Responsible Physician.
 4. A health assessment shall be completed within 14 days of incarceration and a physical examination conducted within six months of incarceration.
 5. The status of a special needs incarcerated person should be evaluated, at minimum, every 90 days to determine the need for the continued designation.
- (b) The Jail Commander or the authorized designee and the Responsible Physician or the authorized designee should consult with one another prior to taking action regarding any special needs incarcerated person with regard to housing, program or work assignments, disciplinary measures, or transfers to other facilities.
1. When immediate action is required and prior consultation is not reasonably practicable, that consultation should occur as soon as practicable but no later than 72 hours post-action.
- (c) Individual treatment plans are used to guide treatment for episodes of illness. The format for treatment planning may vary, but should include, at a minimum:
1. The frequency of follow-up for medical evaluation and adjustment of treatment modality.
 2. The type and frequency of diagnostic testing and therapeutic regimens.
 3. When appropriate, instructions about diet, exercise, adaptation to the correctional environment, and medication.
- (d) Reasonable effort should be made to obtain health information and records from previous health care services, with the consent of the incarcerated person, when the person has a medical problem that was being treated prior to incarceration.
- (e) Upon transfer to another correctional facility, a summary of the person's current condition, medications, and treatment plan will be forwarded to the receiving facility in a sealed envelope to maintain incarcerated person privacy.
- (f) Requests for health information from community health care services must be submitted with the person's written consent. If the incarcerated person does not consent, the community health care service may be advised that the person is an incarcerated person and the health information may not be provided without the person's written consent.
- (g) Critical specialty medical procedures or treatment, such as dialysis, which cannot be provided at the Colusa County Sheriff's Department do not require a court order unless the care is expected to prevent the incarcerated person from returning within 48 hours (Penal Code § 4011.5).

Communicable Diseases

714.1 PURPOSE AND SCOPE

This policy is intended to provide guidelines for facility staff to assist in minimizing the risk of contracting and/or spreading communicable diseases. The policy offers direction in achieving the following goals:

- (a) Managing the risks associated with bloodborne pathogens (BBP), aerosol transmissible diseases (ATD), and other potentially infectious substances.
- (b) Providing appropriate treatment for ill incarcerated persons while minimizing the risk of the spread of disease.
- (c) Making decisions concerning the selection, use, maintenance, limitations, storage, and disposal of personal protective equipment (PPE).
- (d) Ensuring proper reporting to local, state, and federal agencies.
- (e) Establishing procedures for the identification, education, immunization, prevention, surveillance, diagnosis, medical isolation (when indicated), treatment, and follow-up care for new incarcerated persons, and for incarcerated persons or employees who have contracted a communicable disease from an ill person.
- (f) Providing appropriate treatment, counseling, and confidentiality should an employee become exposed to a communicable disease.
- (g) Protecting the privacy rights of all personnel who may be exposed to or contract a communicable disease during the course of their duties.

714.1.1 DEFINITIONS

Definitions related to this policy include:

Aerosol transmissible disease (ATD) - A disease or pathogen for which droplet (whooping cough, influenza, streptococcus) or airborne (measles, chickenpox, tuberculosis) precautions are required.

Aerosol transmissible disease (ATD) exposure - Any event in which all of the following has occurred:

- An employee has been exposed to an individual who has or is suspected to have an ATD, or the employee is working in an area or with equipment that is reasonably expected to contain aerosol transmissible pathogens associated with an ATD.
- The exposure occurred without the benefit of applicable exposure controls required by this section.
- It reasonably appears from the circumstances of the exposure that transmission of disease is likely sufficient to require medical evaluation.

Airborne precautions - Include the use of an Airborne Infection Isolation Room (AIIR) that meets the American Institute of Architects/Facility Guidelines Institute (AIA/FGI) standards for AIIRs, for

Colusa County Sheriff's Department

Communicable Diseases

infectious agents such as measles, chickenpox, or tuberculosis in addition to medical personnel wearing masks or respirators.

Bloodborne pathogens (BBP) - Pathogenic microorganisms that are present in human blood and can cause disease in humans. These pathogens include but are not limited to hepatitis B virus (HBV), hepatitis C virus (HCV), and human immunodeficiency virus (HIV).

Bloodborne pathogen exposure - Includes but is not limited to the contact of blood or other potentially infectious materials with the eye, mouth, other mucous membranes, non-intact skin, needle sticks, human bites, cuts, abrasions, or any contact with blood or body fluids that is synonymous with bloodborne pathogen exposure as defined by the federal Centers for Disease Control and Prevention (CDC).

Ectoparasitic infections - Parasites that live on the skin, such as lice (pediculosis) and scabies (sarcoptic mange). Both infections are communicable and may lead to secondary infections.

HBV - Hepatitis B

HIV - Human Immunodeficiency Virus

Medical isolation - Housing in a separate room with a separate toilet, hand-washing facility, soap and single-service towels, and with appropriate accommodations for showering.

NIOSH - National Institute for Occupational Safety and Health

Nosocomial - Acquired during hospitalization. Nosocomial infections are infections that present 48 to 72 hours after admission to a hospital.

OSHA - Occupational Safety and Health Administration

Personal protective equipment (PPE) - Respiratory equipment, garments, gloves, and other barrier materials designed to reduce employee exposure to hazards.

Source control measures - The use of procedures, engineering controls, and other devices or materials to minimize the spread of airborne particles and droplets from an individual who has or exhibits signs or symptoms of having an ATD.

Standard precautions - Infection control practices used to prevent the transmission of disease that can be acquired by contact with blood, bodily fluids, non-intact skin (including rashes), and mucous membranes. Applies to all incarcerated persons receiving care, regardless of diagnosis or presumed infection status.

Universal precautions - A set of precautions designed to prevent transmission of HIV, HBV, and other bloodborne pathogens when providing first aid or health care.

714.2 POLICY

It is the policy of this department to maintain an effective program that focuses on the identification, education, immunization, prevention, surveillance, diagnosis, medical isolation (when indicated), treatment, follow-up and proper reporting to local, state and federal agencies of communicable

The ECO shall retain minutes of these meetings in accordance with established records retention schedules. The ECO also shall coordinate with the local public health entity on appropriate policy and procedure.
- (d) Conducting an assessment on the incidence and prevalence of tuberculosis (TB) within the facility's population and the surrounding community. If the statistics indicate a risk, the ECO shall develop a written plan that addresses the management of TB, from testing to follow-up care.
- (e) Communicating with employees, other employers, and the local health officer regarding the suspected or diagnosed infectious disease status of referred incarcerated persons, including notification of exposed employees.

714.3 COMMUNICABLE DISEASE PROGRAM COMPONENTS

714.3.1 SURVEILLANCE

Surveillance takes place throughout the period of the incarcerated person's confinement and is done in a variety of encounters and inspections. These include but are not limited to the following:

- (a) **Medical screening** - Each newly booked incarcerated person shall be evaluated for health care needs and signs and symptoms of infectious disease. The receiving screening includes questions regarding known symptoms of TB, HIV, sexually transmitted diseases (STDs), and HBV. The individual completing the medical screening should observe the incarcerated person for obvious signs of infection (15 CCR 1206.5(a)).
- (b) **Health assessment** - Incarcerated persons shall have a health assessment within the first 14 days of incarceration. The health assessment process includes screening for symptoms of communicable disease. Incarcerated persons will have a Purified Protein Derivative (PPD) test or a chest X-ray for TB and a blood test for STDs. Voluntary HIV testing is provided based on identified risk.
- (c) **Periodic health assessments** - Annual testing for TB is performed on all incarcerated persons who are in the facility for one year or more.
- (d) **Sick call and referrals** - At any time during incarceration, an incarcerated person may request to be evaluated for an infectious disease through the sick call process.

Colusa County Sheriff's Department

CA Custody Manual

Communicable Diseases

Health and correctional staff can request that an incarcerated person be evaluated if they notice any signs of potentially infectious disease.

- (e) **Contact investigation** - When an incarcerated person housed in the general population develops symptoms of an infectious disease, the Responsible Physician should work cooperatively with the Jail Commander or the authorized designee and the public health department to provide appropriate screening and testing of potentially exposed persons.
- (f) **Environmental health and safety inspections** - The health and safety of the facility environment shall be inspected by the local public health entity and reported to the Jail Commander at least quarterly in a written report. Conditions identified as adversely affecting the health and safety of the incarcerated persons and/or employees or visitors shall be promptly addressed and corrected.

714.3.2 IDENTIFICATION

Any incarcerated person suspected of having a communicable disease will be evaluated by a qualified health care professional as soon as reasonably practicable. Incarcerated persons suspected of having communicable diseases will be appropriately isolated until disease confirmation and the period of communicability is determined. Long-term housing consideration will be based upon the classification status as well as the behavior, medical needs, and safety of incarcerated persons and staff. These incarcerated persons shall be examined by a qualified health care professional within 24 hours. The instructions of the qualified health care professional regarding care of the patient and sanitizing of eating utensils, clothing, and bedding shall be carefully followed (15 CCR 1206.5(a); 15 CCR 1206.5(b)(6)).

714.3.3 TREATMENT

Qualified health care professionals shall provide care as directed by the Responsible Physician and consistent with scientific evidence-based medicine (15 CCR 1206.5(a)).

- (a) The Responsible Physician and the Jail Commander shall collaborate on treatment planning with the public health department, as appropriate.
- (b) Complete documentation of the signs, symptoms, diagnostic results, treatment, and outcome of care provided to incarcerated persons who are suspected or confirmed as having a communicable disease will be entered into the incarcerated person's health record.

714.3.4 COMMUNICATION

The Responsible Physician shall ensure the following notifications are made whenever a communicable disease is identified (15 CCR 1206.5(b)(3); 15 CCR 1206.5(b)(8)):

- (a) Notification to the public health department of all reportable diseases and conditions shall be made as soon as practicable. This is done by completing appropriate forms, and if necessary, contacting the public health department directly for situations of multiple spread occurrences.
- (b) The Responsible Physician and the Jail Commander shall be kept informed of any incidence of communicable disease.

Colusa County Sheriff's Department

CA Custody Manual

Communicable Diseases

- (c) The Jail Commander shall be apprised of any medical situation that raises the risk of disease level for incarcerated persons, correctional officers, or any other staff members.

714.3.5 CONTINUOUS QUALITY IMPROVEMENT

A continuous quality improvement (CQI) committee shall be formed consisting of the Responsible Physician, the Jail Commander or the authorized designee, and a representative from the public health entity. The purpose of the committee is to monitor infection control issues and evaluate infection control processes to ensure effectiveness.

Monthly statistics should be collected by health care services and assembled into a report presented by the Responsible Physician or the authorized designee, detailing surveillance activities, disease identification, and cases treated. The committee should meet quarterly and should discuss topics specific to infection control and communicable disease. Minutes of the meetings should be retained in accordance with established records retention schedules.

714.3.6 EMPLOYEE TRAINING

The Responsible Physician or the authorized designee shall provide education to all correctional staff who have contact with infected incarcerated persons during the initial employee orientation and annually thereafter. The Training Officer shall schedule this training and shall retain all associated records in accordance with established records retention schedules.

714.3.7 DATA COLLECTION AND REPORTING

The health authority shall be responsible for ensuring the systematic collection and analysis of data to assist in the identification of problems, epidemics, or clusters of nosocomial infections. All reportable illnesses as defined by the public health department shall be reported as required (15 CCR 1206.5(b)).

714.3.8 STANDARD PRECAUTIONS

Standard precautions shall be used by health care practitioners to minimize the risk of exposure to blood and bodily fluids of infected patients. The health authority shall be responsible for establishing basic guidelines including but not limited to (15 CCR 1206.5(b)(4)):

- Washing hands or using hand sanitizer before and after all patient or specimen contact.
- Handling all blood and bodily fluids such as saliva, urine, semen, and vaginal secretions as if they are known to be infectious. Where it is not possible to distinguish between body fluid types, all body fluids are to be assumed infectious.
- Wearing gloves for potential contact with blood and other bodily fluids.
- Placing used syringes immediately in a nearby, impermeable container. Do not recap or manipulate any needle in any way.
- Wearing protective eyewear and a mask if splatter with blood or other body fluids is possible.
- Handling all linen soiled with blood and/or bodily secretions as infectious.

Colusa County Sheriff's Department

CA Custody Manual

Communicable Diseases

- Processing all laboratory specimens as infectious.
- As appropriate, wearing a mask for TB and other ATDs.

714.3.9 TRANSMISSION-BASED PRECAUTIONS

Transmission-based precautions may be needed in addition to universal precautions for selected patients who are known or suspected to harbor certain infections. These precautions are divided into three categories that reflect the differences in the way infections are transmitted. Some diseases may require more than one category.

- (a) Airborne precautions are designed to prevent the spread of ATDs, which are transmitted by minute particles called droplet nuclei or contaminated dust particles. These particles, because of their size, can remain suspended in the air for long periods of time, even after the infected person has left the room. Some examples of diseases requiring airborne precautions are TB, measles, and chicken pox.
 1. An incarcerated person requiring airborne precautions should be assigned to a designated respiratory isolation room with special ventilation requirements. The door to this room must be closed at all possible times. If an incarcerated person must move from the isolation room to another area of the facility, the incarcerated person should wear a mask during transport. Anyone entering the isolation room to provide care to the incarcerated person must wear a respirator.
- (b) Droplet precautions are designed to prevent the spread of organisms that travel on particles much larger than the droplet nuclei. These particles do not spend much time suspended in the air, and usually do not travel beyond a few feet of the incarcerated person. These particles are produced when an incarcerated person coughs, talks, or sneezes. Examples of disease requiring droplet precautions are meningococcal meningitis, influenza, mumps, and German measles (rubella).
 1. All staff should wear masks within 3 feet of the incarcerated person. Incarcerated person movement should be restricted to the minimum necessary for effective facility operations. The incarcerated person should wear a mask during transport.
- (c) Contact precautions are designed to prevent the spread of organisms from an infected incarcerated person through direct (touching the incarcerated person) or indirect (touching surfaces or objects the incarcerated person touched) contact. Examples of incarcerated persons who might be placed in contact precautions are those infected with the following:
 1. Antibiotic-resistant bacteria
 2. Hepatitis A
 3. Scabies
 4. Impetigo
 5. Lice

The following guide shall be used to determine the appropriate precautions that are necessary to reduce the risk of infection transmission while incarcerated persons are being transported.

Colusa County Sheriff's Department

714.3.10 ENVIRONMENTAL HEALTH AND SAFETY

The Responsible Physician or the authorized designee shall conduct a monthly inspection of areas where health services are provided to verify the following:

- The equipment is inspected and maintained to the manufacturer's recommendations.
- The area is clean and sanitary.
- The appropriate measures are being taken to ensure the unit is occupationally and environmentally safe.

714.3.11 REGULATED WASTE

The Department in coordination with the health authority, will provide for the management of biohazardous materials and waste and the establishment of a protocol for the decontamination of equipment used in medical and dental treatment. Medical and dental equipment decontamination shall comply with all applicable local, state and federal regulations. Precautions may include, but are not limited to:

- (a) Discarding biohazardous waste in red plastic bags marked with the word BIOHAZARD and displaying the international symbol for biohazardous material. Contaminated disposable PPE shall be discarded in these receptacles.
- (b) Whenever a large amount of fluid blood is present, an absorbent powder should be used to gelatinize the fluid, which should assist in clean up. Standard precautions shall be used when removing the product, that should then be placed in a red biohazard bag.
- (c) Used biohazard bags shall be stored in covered, rigid waste receptacles in designated locations pending weekly removal by a biohazard waste removal contractor.

Colusa County Sheriff's Department

CA Custody Manual

Communicable Diseases

- (d) Records documenting biohazardous waste removal, spore count logs and cleaning logs shall be retained in accordance with established records retention schedules.

714.4 ECTOPARASITE CONTROL

Ectoparasite control will be initiated, where clinically indicated, immediately following the medical screening or when the incarcerated person manifests signs and symptoms of lice or scabies (15 CCR 1212).

- (a) Any incarcerated person who indicates parasitical infection upon entering the facility shall be treated by a qualified health care professional.
- (b) Any incarcerated person suspected of having lice/scabies may be referred to sick call by a correctional officer.
- (c) An incarcerated person may access sick call if the person believes there is a problem with lice/scabies.
- (d) A qualified health care professional shall evaluate any incarcerated person with a lice/scabies complaint. If there are positive findings, the incarcerated person shall be treated for the infestation accordingly.
 - 1. The lice and scabies treatment guidelines will be followed by the qualified health care professional, if a physician's order for the medication administration is obtained.
 - (a) The prescribing physician shall be notified if the incarcerated person is pregnant, as certain medications are contraindicated for pregnant persons. An alternative topical application must be prescribed in these situations.
 - (b) Documentation in the medical record should include the patient's symptoms, observations regarding the condition, patient education, and prescribed treatment.
 - 2. The incarcerated person's clothing and linen shall be removed from the person's cell placed in a plastic bag and sent to the laundry. These items are considered contaminated and must be disinfected by:
 - (a) Machine washing (hot cycle), machine drying (hot cycle), dry cleaning or ironing, or
 - (b) Storage in a plastic bag for non-washable items for 10-14 days (head lice), seven days (pubic lice). This method is not recommended for body lice.
 - (c) Isolation is not necessary as long as clothing and bedding are properly disinfected and incarcerated persons do not share items.
 - 1. An incarcerated person having poor hygiene should be housed in a single cell until 24 hours after beginning treatment.
 - 2. Gloves are to be used for direct contact until the incarcerated person has been treated and the clothing/bedding have been removed for disinfecting.

Colusa County Sheriff's Department

CA Custody Manual

Communicable Diseases

3. Cell mates, sexual partners, and any personnel having direct hands-on contact with an infected incarcerated person should be evaluated for prophylactic treatment because of the long incubation period of the scabies parasite.

714.5 EMPLOYEE EXPOSURE CONTROL

All facility staff who may come in contact with another person's blood or bodily fluids shall follow these procedures and guidelines. For the purposes of this policy, contact with blood or bodily fluids is synonymous with BBP exposure.

All employees shall use the appropriate barrier precautions to prevent skin and mucous membrane exposure whenever contact with blood or bodily fluid is anticipated. Disposable gloves shall be worn, if reasonably possible, before making physical contact with any incarcerated person and when handling the personal belongings of an incarcerated person.

Should gloves come in contact with blood or other bodily fluids, the gloves shall be disposed of as contaminated waste. Care should be taken to avoid touching other items (e.g., pens, books, personal items in general) while wearing disposable gloves in a potentially contaminated environment. All procedures involving blood or other potentially infectious materials shall be done in a way to minimize splashing, spraying, or otherwise generating droplets of those materials.

Eating, drinking, smoking, applying lip balm, and handling contact lenses shall be prohibited in areas where the potential for exposure exists.

714.5.1 IMMUNIZATIONS

All facility staff members who may be exposed to, or have contact with, a communicable disease shall be offered appropriate treatment immunization. The ability of staff to provide health care services is predicated on a safe and secure working environment where employees feel safe to do their work, and that assures public safety.

Staff shall also receive a TB test prior to job assignment and voluntary annual testing thereafter, at no cost to the employee.

The HBV immunization shall be available to all employees who have direct incarcerated person contact and who test negative for HBV antibodies. The immunization is voluntary and provided at no cost to the employee. Employees who decline the offer of immunization and/or test shall be required to sign a waiver. Employees receiving immunization and testing shall be required to sign a consent form. Employees may reverse their decision to decline at any time by signing a consent form.

714.5.2 PERSONAL PROTECTIVE EQUIPMENT (PPE)

The PPE is the last line of defense against communicable disease. Therefore, the following equipment is provided to all personnel to assist in the protection against such exposures:

- Disposable latex gloves
- Safety glasses or goggles

Colusa County Sheriff's Department

CA Custody Manual

Communicable Diseases

- Rescue mask with a one-way valve
- Alcohol (or similar substance) to flush skin

The PPE should be inspected at the start of each shift and replaced immediately after each use and when it becomes damaged.

714.5.3 DECONTAMINATION OF PERSONAL PROTECTIVE EQUIPMENT

After using any reusable PPE, it shall be washed or disinfected and stored appropriately. If it is not reusable (e.g., disposable gloves), it shall be discarded in a biohazard waste container.

Any PPE that becomes punctured, torn, or loses its integrity shall be removed as soon as reasonably feasible. The employee shall wash up and replace the PPE if the job has not been terminated. If the situation resulted in a contaminated non-intact skin event, the affected area shall be decontaminated as described below.

A contaminated reusable PPE that must be transported prior to cleaning shall be placed into a biohazard waste bag. Gloves shall be worn while handling the biohazard waste bag and during placement into the biohazard waste container. The gloves shall be included with the waste.

714.5.4 DECONTAMINATION OF SKIN AND MUCOUS MEMBRANES

Personnel shall wash their hands as soon as possible following the removal of potentially contaminated gloves. Antibacterial soap and warm water or an approved disinfectant shall be used, paying particular attention to the fingernails.

If an employee's intact skin contacts someone else's blood or body fluids or other potentially infectious materials, the employee shall immediately wash the exposed part of the employee's body with soap and warm water and/or an approved disinfectant as soon as possible. If the skin becomes grossly contaminated, body washing shall be followed by an approved hospital strength disinfectant. If large areas of the employee's skin are contaminated, the employee shall shower as soon as reasonably possible, using warm water and soap and/or an approved disinfectant. Medical treatment should be obtained.

Contaminated non-intact skin (e.g., injured skin, open wound) shall be cleaned using an approved disinfectant and then dressed or bandaged as required. Medical treatment is required. All hand, skin, and mucous membrane washing that takes place shall be done in the designated cleaning or decontamination area. Cleaning shall not be done in the kitchen, bathrooms, or other locations not designated as a cleaning or decontamination area.

714.5.5 DECONTAMINATION OF CLOTHING

Contaminated clothing such as uniforms and undergarments shall be removed as soon as reasonably feasible and rinsed in cold water to prevent the setting of bloodstains. If the clothing may be washed in soap and hot water, do so as soon as reasonably possible.

If the clothing must be dry-cleaned, place it into a biohazard waste bag and give it to the ECO. The ECO will secure a dry cleaner that is capable of cleaning contaminated clothing, and shall inform

Colusa County Sheriff's Department

CA Custody Manual

Communicable Diseases

the dry cleaner of the potential contamination. The cost of dry cleaning shall be paid according to labor contract agreements.

Contaminated leather boots shall be brushed and scrubbed with detergent and hot water. If the contaminant soaked through the boot, the boot shall be discarded and replaced. The cost of replacement shall be paid according to labor contract agreements.

714.5.6 DECONTAMINATION OF VEHICLES

Contaminated vehicles and components such as the seats, radios and doors, shall be washed with soap and warm water and disinfected with an approved germicide as soon as reasonably feasible.

714.5.7 DECONTAMINATION OF THE CLEANING AREA

The ECO shall designate a location in the facility that will serve as the area for cleaning/decontamination. This area is to be used to keep equipment clean and sanitary and for employees to wash any potential contamination from their bodies. This area is to be thoroughly cleaned after each use and to be maintained in a clean and sanitary order at all times between each use. The application of cosmetics, smoking of cigarettes and consumption of food and drink are prohibited in this area at all times.

714.6 SHARPS AND ITEMS THAT CUT OR PUNCTURE

All personnel shall avoid using or holding sharps (needles) unless they are assisting medical personnel or collecting them for evidence. Unless required for reasons related to evidence preservation, employees are not to recap sharps. If recapping is necessary, a one-handed method shall be employed to avoid a finger prick. Disposal, when possible, shall be into a puncture-proof biohazard container.

All sharps and items that cut or puncture (e.g., broken glass, razors and knives) shall be treated cautiously to avoid cutting, stabbing or puncturing one's self or any other person. In addition, if a sharp object contains known or suspected blood or other body fluids, that item is to be treated as a contaminated item. If the item is not evidence, touching it with the hands shall be avoided. Rather, use a device such as tongs or a broom and a dustpan to clean up debris. If the material must be touched, protective gloves shall be worn.

714.7 POST-EXPOSURE REPORTING AND FOLLOW-UP REQUIREMENTS

In actual or suspected employee exposure incidents, proper documentation and follow-up action must occur to limit potential liabilities and to ensure the best protection and care for the employees.

714.7.1 EMPLOYEE RESPONSIBILITY TO REPORT EXPOSURE

To provide appropriate and timely treatment should exposure occur, all employees shall verbally report the exposure to their immediate supervisor and complete a written exposure report as soon as possible following the exposure or suspected exposure. That report shall be submitted to the employee's immediate supervisor. Employees should document in the exposure report whether they would like the person who was the source of the exposure to be tested for communicable diseases (15 CCR 1206.5(b)(8)).

Colusa County Sheriff's Department

CA Custody Manual

Communicable Diseases

714.7.2 SUPERVISOR REPORTING REQUIREMENTS

The supervisor on-duty shall investigate every exposure that occurs as soon as possible following the incident, while gathering the following information:

- (a) Name and employee identification number of the employee exposed
- (b) Date and time of incident
- (c) Location of incident
- (d) What potentially infectious materials were involved
- (e) Source of material or person
- (f) Current location of material or person
- (g) Work being done during exposure
- (h) How the incident occurred or was caused
- (i) PPE in use at the time of the incident
- (j) Actions taken post-event (e.g., clean-up, notifications)

The supervisor shall advise the employee of the laws and regulations concerning disclosure of the identity and infectious status of a source, and of information contained in this policy regarding source testing.

If the ECO is unavailable to seek testing of the person who was the source of the exposure, it is the responsibility of the exposed employee's supervisor to ensure testing is sought according to the guidelines in this policy.

714.7.3 MEDICAL CONSULTATION, EVALUATION, AND TREATMENT

Any employee who was exposed or who suspects the employee was exposed to HIV or to hepatitis B or C should be seen by a physician or qualified health care professional as soon as reasonably possible.

The doctor or qualified health care professional should be given the supervisor's report and the employee's medical records relevant to the visit and examination. The blood of the exposed employee shall be tested.

The qualified health care professional will provide the ECO and/or the Department's risk manager with a written opinion/evaluation of the exposed employee's medical condition. This opinion should only contain the following information:

- If a post-exposure treatment is indicated for the employee.
- If the employee received a post-exposure treatment.
- Confirmation that the employee received the evaluation results.
- Confirmation that the employee was informed of any medical condition that could result from the exposure incident and whether further treatment or evaluation will be required.

Colusa County Sheriff's Department

CA Custody Manual

Communicable Diseases

- Whether communicable disease testing from the source is warranted, and if so, which diseases the testing should include.

All other findings or diagnosis shall remain confidential and are not to be included in the written report.

714.7.4 COUNSELING

The Department shall provide the exposed employee (and the employee's family if necessary) the opportunity for counseling and consultation.

714.7.5 CONFIDENTIALITY OF REPORTS

Most of the information involved in this process must remain confidential. The ECO shall ensure that all records and reports are kept in the strictest confidence. The ECO shall be responsible for maintaining records containing the employee's treatment status and the results of examinations, medical testing and follow-up procedures.

The Department's risk manager shall be responsible for keeping the name and Social Security number of the employee and copies of any information provided to the consulting health care professional on file.

This information is confidential and shall not be disclosed to anyone without the employee's written consent (except as required by law). Test results from persons who may have been the source of an exposure are to be kept confidential as well (15 CCR 1206.5(b)(5)).

714.7.6 SOURCE TESTING

Testing of a person who was the source of an exposure to a communicable disease should be sought when it is desired by the exposed employee or when it is otherwise appropriate.

There are five methods to obtain such testing. It is the responsibility of the ECO to ensure the proper testing and reporting occurs. These methods are:

- (a) Obtaining voluntary consent from any person who may be the source of an exposure to test for any communicable disease.
- (b) Filing a report with the county health officer when an employee is exposed to the bodily fluids of an arrestee. The county health officer may pursue testing for HIV or hepatitis B or C.
- (c) Seeking consent for testing or applying for a court order for HIV, hepatitis B, and hepatitis C testing.
- (d) Seeking a court order when the person who may be the source of an exposure will not consent to testing and the exposure does not fall under a statutory scheme for testing. This covers testing for any communicable disease as deemed appropriate by a qualified health care professional and documented in the request for the court order.
- (e) Under certain circumstances, a court may issue a search warrant for testing an adult when an employee of the Colusa County Sheriff's Department qualifies as a crime victim.

Colusa County Sheriff's Department

Communicable Diseases

714.7.7 EXPOSURE FROM A NON-INCARCERATED PERSON

Upon notification of an employee's exposure to a non-incarcerated person (e.g., visitor, attorney, volunteer, vendor) the ECO should attempt to determine if the person who was the source of the exposure will voluntarily consent to testing. If consent is provided, the following steps should be taken:

- (a) A qualified health care professional should notify the person to be tested of the exposure and make a good faith effort to obtain voluntary informed consent from the person or the person's authorized legal representative to perform a test for HIV, hepatitis B, hepatitis C, and other communicable diseases the qualified health care professional deems appropriate.
- (b) The voluntary informed consent obtained by the qualified health care professional must be in writing and include consent for three specimens of blood. The ECO should document the consent as a supplement to the Exposure Control Report.
- (c) The results of the tests should be made available to the source and the exposed employee.

If consent is not obtained, the ECO should promptly consult with the County Counsel and consider requesting that a court order be sought for appropriate testing.

714.7.8 EXPOSURE FROM AN INCARCERATED PERSON

If the ECO receives notification from an employee of a potential exposure from an incarcerated person, the ECO should take the following steps:

- (a) Seek consent from the person who was the source of the exposure and seek a court order, if consent is refused.
- (b) Take reasonable steps to immediately contact the county health officer and provide preliminary information regarding the circumstances of the exposure and the status of the involved individuals to determine whether the county health officer will order testing.
- (c) Remain in contact with the county health officer to determine whether testing of the incarcerated person will occur and whether the testing satisfies the medical needs of the employee.
- (d) The results of the tests should be made available to the incarcerated person and the exposed employee.

Since there is potential for overlap between the two statutory schemes, the ECO is responsible for coordinating the testing with the county health officer to prevent unnecessary or duplicate testing.

If the exposed employee is not covered by either statutory scheme, the ECO should seek consent or a court order in the same manner as for a non-incarcerated person.

Aids to Impairment

715.1 PURPOSE AND SCOPE

This policy acknowledges the high priority of incarcerated person health and recognizes that some incarcerated persons will require adaptive devices to assist them with daily living activities on a temporary or permanent basis.

The Colusa County Sheriff's Department has established this policy for physicians and dentists to review and evaluate the need for adaptive devices, while considering facility security concerns regarding the use of such items.

When a physician or dentist determines that the medical condition of an incarcerated person indicates that an adaptive device is clinically appropriate, the parameters of this policy will determine if authorization for the use of such items during incarceration should be granted, and if any equipment modifications are indicated for safety or security purposes.

715.1.1 DEFINITIONS

Definitions related to this policy include:

Adaptive device - Any orthotic, prosthetic, or aid to impairment that is designed to assist an incarcerated person with the activities of daily living or that is clinically appropriate for health, as determined by the Responsible Physician or dentist.

Aids to impairment - Includes but is not limited to eyeglasses, hearing aids, pacemakers, canes, crutches, walkers, and wheelchairs.

Orthoses - Specialized mechanical devices such as braces, shoe inserts, or hand splints that are used to support or supplement weakened or abnormal joints, limbs, and/or soft tissue.

Prostheses - Artificial devices designed and used to replace missing body parts, such as limbs, teeth, or eyes.

715.2 POLICY

It is the policy of the Department that, in accordance with security and safety concerns, medical and dental orthoses or prostheses and other adaptive devices should be permitted or supplied in a timely manner when the health of the incarcerated person would otherwise be adversely affected or when such devices are necessary to reasonably accommodate a disability recognized under the American with Disabilities Act (ADA) (42 USC § 12101 et seq.), as determined by the Responsible Physician or dentist (15 CCR 1206(d); 15 CCR 1207).

715.3 FACILITY-OWNED MEDICAL EQUIPMENT

All adaptive devices belonging to the Department shall be marked and numbered, identifying them as department property.

- (a) A medical equipment inventory form shall be completed by the intake correctional officer for all medical equipment issued to the incarcerated person, regardless of who owns the property.

Colusa County Sheriff's Department

CA Custody Manual

Aids to Impairment

- (b) Upon the release of an incarcerated person, the releasing correctional officer shall review the medical equipment issued to the person and contact the medical clinic for instructions regarding any department-owned adaptive device.

715.4 MEDICAL OR DENTAL ORTHOSES, PROSTHESES, OR ADAPTIVE DEVICES

The following applies to incarcerated persons with any orthopedic or prosthetic devices (Penal Code § 2656):

- (a) An incarcerated person shall not be deprived of the possession or use of any orthopedic, orthodontic, or prosthetic device that has been prescribed or recommended and fitted by a physician or dentist (see the following exception).
- (b) Any such device that may constitute an immediate risk of bodily harm to any person in the facility or that threatens the security of the facility should be brought to the attention of the Jail Commander. If the Jail Commander has probable cause to believe such a device constitutes an immediate risk of bodily harm to any person in the facility or threatens the security of the facility, the Jail Commander may remove the device and place it in the person's property.
- (c) The Jail Commander shall return the device to the incarcerated person if circumstances change and the cause for removal no longer exists.
- (d) The Jail Commander shall have the incarcerated person examined by a physician within 24 hours after a device is removed.
- (e) The Jail Commander should review the facts with the ADA Coordinator and shall address the issue in conjunction with the Incarcerated Persons with Disabilities Policy.
- (f) The physician shall inform the incarcerated person and the Jail Commander if the removal is or will be injurious to the health or safety of the person. When the Jail Commander is so informed but still does not return the device, the Jail Commander shall inform the physician and the person of the reasons and promptly provide the person with a form, as specified in Penal Code § 2656, by which the person may petition the Superior Court for return of the appliance. The Jail Commander shall promptly file the form with the Superior Court after it is signed by the incarcerated person. The Jail Commander should consider the following alternatives to removal of the device:
 - 1. Reclassifying the incarcerated person to another housing unit or administratively separating the person from the general population.
 - 2. With physician or dentist approval, modify the adaptive device to meet the medical needs of the incarcerated person and the safety and security needs of the facility.

Once an adaptive device has been approved for use, the qualified health care professional shall enter the authorization into the incarcerated person's health file. If the person requires special housing, the qualified health care professional shall document this in writing and notify custody or classification personnel appropriately. The qualified health care professional shall document the general condition of the prosthesis and have the person sign in the medical record that they received the prosthesis.

Colusa County Sheriff's Department

CA Custody Manual

Aids to Impairment

Any prostheses that are brought to the facility by family members or others after the person has been incarcerated shall be subject to a security check. The facility shall accept no responsibility for loss or damage to any adaptive device.

715.5 REQUESTS FOR MEDICAL AND DENTAL PROSTHESES

All requests for new or replacement medical or dental prostheses shall be individually evaluated by the Responsible Physician or dentist and reviewed for approval by the Jail Commander. Considerations for approval shall be based upon:

- Medical needs of the incarcerated person.
- The anticipated length of incarceration.
- The safety and security of the facility.

Detoxification and Withdrawal

716.1 PURPOSE AND SCOPE

Significant percentages of incarcerated persons have a history of alcohol and/or drug abuse. Newly incarcerated individuals may enter the facility while under the influence of a substance or they may develop symptoms of alcohol or drug withdrawal. This policy is intended to ensure that the staff is able to recognize the symptoms of intoxication and withdrawal from alcohol or drugs, and that those persons who are intoxicated or experiencing withdrawal are provided appropriate medical treatment.

This policy also identifies protocols to be used by qualified health care professionals. These protocols are appropriate for incarcerated persons who are under the influence of alcohol or drugs or who are experiencing withdrawal from any type of substance abuse.

716.1.1 DEFINITIONS

Definitions related to this policy include:

Alcohol withdrawal - A medical condition characterized by physiological changes that occur when alcohol intake is discontinued in an individual who is addicted to alcohol.

Detoxification - The process by which an individual is gradually withdrawn from drugs by the administration of decreasing doses of the drug on which the person is physiologically dependent, or a drug that is cross-tolerant to the dependent drug, or a drug that medical research has demonstrated to be effective in detoxifying the individual from the dependent drug.

716.2 POLICY

Withdrawal from alcohol or drugs can be a life-threatening medical condition requiring professional medical intervention. It is the policy of this department to provide proper medical care to incarcerated persons who suffer from drug or alcohol overdose or withdrawal.

To lessen the risk of a life-threatening medical emergency and to promote the safety and security of all persons in the facility, staff shall respond promptly to medical symptoms presented by incarcerated persons.

The Responsible Physician shall develop written medical protocols on detoxification symptoms necessitating immediate transfer of the incarcerated persons to a hospital or other medical facility, and procedures to follow if care within the facility should be undertaken (15 CCR 1213).

Incarcerated persons who are booked into the facility who are participating in a narcotic treatment program shall, with the approval of the director of the program, be entitled to continue in the program until conviction (Health and Safety Code § 11222).

716.3 STAFF RESPONSIBILITY

Staff should remain alert to signs of drug and alcohol overdose and withdrawal. These symptoms include but are not limited to sweating, nausea, abdominal cramps, anxiety, agitation, tremors, hallucinations, rapid breathing, and generalized aches and pains. Any staff member who suspects

Colusa County Sheriff's Department

CA Custody Manual

Detoxification and Withdrawal

that an incarcerated person may be suffering from overdose or experiencing withdrawal symptoms shall promptly notify the Shift Supervisor, who shall ensure that a qualified health care professional is promptly notified.

716.4 MEDICAL STAFF RESPONSIBILITY

The qualified health care professional will evaluate the incarcerated person using approved protocols in order to determine the most appropriate care plan, which will be based on the patient's history, current physical status, and treatment needs. Any patient who cannot be safely treated in the facility will be referred to an appropriate treatment facility off-site.

716.5 PROCEDURE

Incarcerated persons who are observed experiencing severe, life-threatening intoxication (overdose) or withdrawal symptoms will be promptly seen by a physician or referred to an off-site emergency facility for treatment. Detoxification shall be conducted under medical supervision at the facility or in a hospital or community detoxification center under appropriate security conditions.

If the qualified health care professional determines that an incarcerated person is at risk for progression to a more severe level of withdrawal, the person will be appropriately housed in an area where they can be kept under constant observation by qualified health care professionals or trained correctional staff.

716.6 WITHDRAWAL AND DETOXIFICATION PROTOCOLS

Protocols are available to the qualified health care professionals to guide the care and treatment of individuals who are intoxicated or experiencing drug and/or alcohol withdrawal. These protocols, which have been developed and approved by the Responsible Physician, fall within nationally accepted guidelines and are reviewed annually.

When dealing with persons who are in a custody situation, qualified health care professionals shall utilize detoxification protocols in accordance with local, state, and federal laws.

No direct supervision is required at the time of identifying and initiating care. Overall supervision is provided by the Responsible Physician. Qualified health care professionals shall evaluate and provide care to patients utilizing written procedures and/or physician orders.

716.7 ALCOHOL WITHDRAWAL SYMPTOMS CHART

The following chart describes typical symptoms of mild, moderate, and severe withdrawal. It is to be used as a guide for determining when to refer incarcerated persons to a qualified health care professional. Not all symptoms are always present.

	MILD	MODERATE	SEVERE (Delirium Tremens)

Clinical Performance Enhancement

717.1 PURPOSE AND SCOPE

This department recognizes the importance of ensuring that qualified health care professionals are competent in their clinical skills and that the clinical performance enhancement review addresses areas in need of improvement.

717.1.1 DEFINITIONS

Definitions related to this policy include:

Clinical performance enhancement review - The process of having a qualified health care professional's work reviewed by another professional (peer review) of at least equal training in the same general discipline (e.g., review of the facility's physicians by the Responsible Physician).

Independent review - The assessment of a qualified health care professional's compliance with discipline-specific and community standards. The review is an analysis of a practitioner's clinical practice. This review may be conducted by someone who may or may not be directly employed by the institution. However, if the review was prompted by an incarcerated person complaint, the reviewing practitioner must not have been previously involved in the care of that incarcerated person.

717.2 POLICY

It is the policy of this department to conduct a biannual peer review of all qualified health care professionals. The clinical performance enhancement review process is neither an annual performance review nor a clinical case conference process. It is a professional review focused on the qualified health care professional's clinical skills. Its purpose is to enhance competence and address areas in need of improvement.

An immediate peer review may be authorized by the Responsible Physician if serious problems of practice arise with a specific qualified health care professional.

717.3 COMPONENTS OF THE CLINICAL PERFORMANCE ENHANCEMENT

The clinical performance enhancement review process is to be conducted biannually on all qualified health care professionals. The result of these reviews shall be kept confidential. Documentation from the review shall include:

- Name of the individual being reviewed.
- Date of the review.
- Name and credentials of the reviewer.
- Confirmation that the review was shared with the qualified health care professional.
- Summary of findings and corrective action, if any.

If a clinical performance enhancement review identifies a serious concern, the Responsible Physician shall implement an independent review by someone who is not directly employed by

Colusa County Sheriff's Department

CA Custody Manual

Clinical Performance Enhancement

this department. The result of this review shall be shared with the appropriate health care service by the Responsible Physician, and a plan of correction shall be implemented.

The Responsible Physician will keep a log of clinical performance enhancement reviews of all qualified health care professionals to ensure compliance with this policy.

717.4 HEALTH CARE COMPLAINTS

The Jail Commander, in cooperation with the Responsible Physician, shall be responsible for developing and implementing a process by which incarcerated persons may submit complaints about the health care services they have received. There shall also be a means of collecting and analyzing the observations of other qualified health care professionals, correctional staff, or other nonmedical staff regarding the delivery of health care services.

The Responsible Physician shall convene a panel of independent physicians to review the practice of the physician about whom complaints or observations have been made. The Responsible Physician shall take appropriate action at the recommendation of the panel.

717.5 RECORDS

All clinical performance enhancement review reports and complaint investigations shall be considered confidential. The contents of such files shall not be revealed to other than the involved employee or authorized personnel, except pursuant to lawful process or as otherwise authorized or required by statute.

Clinical Decisions

718.1 PURPOSE AND SCOPE

This policy recognizes that a coordinated effort between the Responsible Physician and the Jail Commander is needed to ensure an adequate health care system. It emphasizes the importance of clinical decisions being the sole responsibility of the qualified health care professional.

718.1.1 DEFINITIONS

Definitions related to this policy include:

Clinical decisions - The process of formulating a differential diagnosis with information gathered from an incarcerated person's medical history and physical and mental examinations, developing a list of possible causes, and ordering tests to help refine the list or identify a specific disease.

Differential diagnosis - A systematic method of identifying unknowns or diagnosing a specific disease using a set of symptoms and testing as a process of elimination.

718.2 POLICY

Clinical decisions and actions regarding incarcerated person health care are the sole responsibility of qualified health care professionals and should not be countermanded by others. The Responsible Physician shall be responsible for arranging for appropriate health resources and for determining what services are needed. The Jail Commander or the authorized designee shall be responsible for providing the custodial support to ensure a safe and secure environment for the delivery of the services and its accessibility to the incarcerated persons (15 CCR 1200(a); 15 CCR 1206(k)).

718.3 MEDICAL AUTONOMY

Clinical decisions shall be made only after a thorough evaluation of the patient's complaint and physical or mental condition. The implementation of clinical decisions is to be completed in an effective and safe manner that does not violate the security regulations of the facility.

718.4 PROBLEM RESOLUTION

Any issues arising because of the clinical decision process shall be reviewed under the provisions of the Continuous Quality Improvement Policy using medical records, grievances, staff complaints and any other relevant data.

Health-Trained Custody Staff

719.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a process for incarcerated persons to access 24-hour health care services in the event that a qualified health care professional is not on-site.

719.2 POLICY

It is the policy of this department that a designated health-trained staff member shall be responsible for coordinating the delivery of health care services in the facility any time that qualified health care professionals are not available on-site (15 CCR 1028). Additionally, in facilities that do not have full-time qualified health care professionals, the Jail Commander shall appoint a staff member to act as a liaison to coordinate health care delivery in the facility under the direction of the Responsible Physician.

719.3 DUTIES OF THE HEALTH-TRAINED STAFF

The Jail Commander or the authorized designee, in coordination with the Responsible Physician, shall be responsible for developing a job description for health-trained staff positions. Designated health-trained staff shall be responsible for:

- Reviewing the screening forms completed during the booking process for any follow-up care needed.
- Managing triage of health care requests.
- Preparing incarcerated persons and their medical records for sick call.
- Assisting with the implementation of orders regarding diets, housing, and work assignments.

719.4 TRAINING

The Jail Commander, Training Officer and the Responsible Physician shall be jointly responsible for developing a training curriculum for the health-trained staff positions and for the delivery of that training, which shall include:

- Instruction on proper action in the case of a medical emergency.
- Documentation requirements.
- Appropriate triage of health care requests and follow-up.
- Confidentiality of health information.

719.5 UNREASONABLE BARRIERS

No member of the Colusa County Sheriff's Department correctional facility shall create unreasonable barriers to an incarcerated person's access to health care services. The following are examples of conduct that are likely to create unreasonable barriers and are prohibited:

- (a) Punishing incarcerated persons for seeking care for their serious health needs.

Colusa County Sheriff's Department

CA Custody Manual

Health-Trained Custody Staff

- (b) Deterring incarcerated persons from seeking care for their serious health needs by scheduling sick call at unreasonable times.

Licensure, Certification, and Registration Requirements

720.1 PURPOSE AND SCOPE

The purpose of this policy is to recognize that incarcerated persons are entitled to health care services that are provided by qualified health care professionals working within the scope of their respective licensure, certification, registration, and training. This policy also establishes a credentials verification process.

720.2 POLICY

It is the policy of this department that all qualified health care professionals who provide health care services to incarcerated persons meet the same standards as those working in the community, including required licenses, certifications, and restrictions, including those defining the recognized scope of practice specific to the profession (15 CCR 1203). Job descriptions shall include minimum qualifications and specific duties and responsibilities, and shall be approved by the Responsible Physician.

The current credentials and job descriptions for all qualified health care professionals are on file at the facility and retained in accordance with established records retention schedules.

Any health care provided to incarcerated persons at the facility that is not provided by a physician is provided in accordance with a standing order or direct order issued by personnel qualified under governing laws to give such orders (15 CCR 1203; 15 CCR 1204).

720.3 CREDENTIALING AND FILE MAINTENANCE

A completed file of current licenses, certifications, registration, reference checks, and applications shall be maintained by the Department Personnel Department and by the Responsible Physician or the authorized designee at this facility.

- (a) The Responsible Physician or the authorized designee should obtain confirmation of current licensure, certification, and registration prior to making any offer of employment.
- (b) Inquiries into any sanctions or disciplinary actions of state boards, employers, and the U.S. Department of Health and Human Services' National Practitioner Data Bank should be conducted prior to making any offer of employment.
- (c) Individuals should be required to pass a job-related, pre-employment background investigation. Employment references may be obtained via mail or over the telephone with documentation.
- (d) Each employee should be held responsible for providing renewal verification of licenses, certificates, and registration prior to the expiration date.
- (e) Any group or individual providing health care services must complete the credentialing process that is appropriate for their profession and must provide the facility a copy

Colusa County Sheriff's Department

CA Custody Manual

Licensure, Certification, and Registration Requirements

of current licensure and, when appropriate, a Drug Enforcement Administration certificate to prescribe controlled substances.

- (f) To be eligible for hire, all clinical health care personnel must possess and maintain a current CPR certification and provide documentation to the Responsible Physician or the authorized designee.

720.4 STUDENTS AND/OR INTERNS

If the health care services provided to an incarcerated person are performed by any intern, resident, or student who is authorized to provide specific health care services as part of a formal medical training program, the individuals in training will work under the control and supervision of a qualified health care professional. Assigned tasks shall be commensurate with the intern, student, or resident's level of training.

There shall be a written agreement between the facility and the entity sponsoring the training program that covers the scope of work, duration of the agreement, and any legal or liability issues.

Any student, intern, or resident working in the facility shall participate in a facility orientation that includes but is not limited to topics such as fire safety, facility security, items considered contraband, and incarcerated person culture.

All students, interns, or residents shall be required to agree in writing to abide by all facility policies, including those relating to hostages, facility security, and the confidentiality of information.

All training provided, written agreements, and/or contracts shall be maintained in the intern, resident, or student's file by the Responsible Physician or the authorized designee in accordance with established records retention schedules.

Incarcerated Person Assistants

721.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines and establish parameters for the appropriate use of incarcerated persons as assistants in the provision of health care services.

721.2 POLICY

It is the policy of this department that all incarcerated person assistants shall be under direct supervision and used in a manner that does not give them control or authority over other incarcerated persons, access to confidential medical information, or authority to make treatment decisions or provide patient care. Incarcerated person assistants shall not be used as a substitute for qualified health care professionals.

721.3 INCARCERATED PERSON ASSISTANTS

Incarcerated persons who have received appropriate training may perform limited duties involving assistance to other incarcerated persons, however, only while under the direct supervision of qualified health care professionals. The duties that incarcerated person assistants may perform include the following:

- Peer support and education
- Emotional support activities for incarcerated persons who are ill
- Assisting disabled incarcerated persons with daily living activities such as providing escort assistance or assistance with bathing and dressing
- When qualified and properly trained and when participating in a formal suicide prevention plan, incarcerated person assistants may serve as a companion to other incarcerated persons who are at risk of suicide

721.4 PROHIBITED DUTIES

Incarcerated person assistants shall not be used for any direct patient care activities, diagnostic or treatment decisions, dispensing of medications, scheduling health care appointments, or any form of patient care normally provided by a qualified health care professional.

721.5 TRAINING

Incarcerated person assistants assigned to health care services shall receive education and training specific to their anticipated duties to ensure that they understand and can perform their duties in a safe and lawful manner.

Suicide Prevention and Intervention

722.1 PURPOSE AND SCOPE

This policy establishes the suicide prevention and intervention program to identify, monitor and, when necessary, provide for emergency response and treatment of incarcerated persons who present a suicide risk while incarcerated at the department detention facilities.

This policy is intended to reduce the risk of self-inflicted injury or death by providing tools to the staff that will allow a timely and organized emergency response to suicide, suicide attempts, or an incarcerated person's unspoken indications that suicide is being considered. The three key components of this plan are evaluation, training, and screening with intervention.

722.2 POLICY

It is the policy of this department to minimize the incidence of suicide by establishing and maintaining a comprehensive suicide prevention and intervention program designed to identify incarcerated persons who are at risk of suicide and to intervene appropriately whenever possible. The program shall be developed by the Jail Commander or the authorized designee and the Responsible Physician, approved by the local public health entity, and reviewed annually by the Jail Commander. A copy of this policy shall be maintained in each unit of the facility where it can be easily accessed by all staff members (15 CCR 1029(a)(8); 15 CCR 1030).

722.3 SUICIDE PREVENTION TEAM

The Jail Commander in cooperation with the Responsible Physician shall establish a suicide prevention team. The team will evaluate and approve the suicide prevention and intervention program annually. The suicide prevention team will consist of qualified health care professionals and the Jail Commander or the authorized designee. The yearly evaluation will include a review of all current policies to ensure they are relevant, realistic, and consistent with the mission of the program. The program and policies will be updated as needed (15 CCR 1030).

The suicide prevention team shall also ensure that the facility is evaluated annually to identify any physical plant characteristics or operational procedures that might be modified to reduce the risk of suicide. This should be accomplished by conducting a review of suicides and suicide attempts, physical inspection, review of various facility inspection reports, and by participating in incarcerated person/management team meetings. If physical modifications are recommended, the team shall ensure the Jail Commander is promptly notified.

It shall also be the responsibility of the suicide prevention team to coordinate with the Training Officer to ensure that suicide prevention training is provided in compliance with applicable statutes and standards.

722.4 STAFF TRAINING

All facility staff members who are responsible for supervising incarcerated persons shall receive initial and annual training on suicide risk identification, prevention, and intervention, to include, at minimum (15 CCR 1030):

Colusa County Sheriff's Department

CA Custody Manual

Suicide Prevention and Intervention

- The provisions of this policy.
- Identification of the warning signs and indicators of potential suicide, including training on suicide risk factors.
- Identification of the demographic and cultural parameters of suicidal behavior, including incidence and variations in precipitating factors.
- Responding to suicidal and depressed incarcerated persons.
- Communication between corrections staff, court staff, and health care personnel.
- Using referral procedures.
- Housing observation and suicide watch-level procedures.
- Follow-up monitoring of incarcerated persons who attempt suicide.
- Communication between members and arresting/transporting correctional officers.
- A plan for mental health consultation following return from court as needed.

Recommendations for modification to suicide training should be directed to the Jail Commander, who shall review the recommendations and approve, if appropriate.

722.5 SCREENING AND INTERVENTION

All incarcerated persons shall undergo medical and mental health screening during the intake process (15 CCR 1030). A portion of the intake medical screening is devoted to assessing incarcerated persons at risk for suicide. Upon an incarcerated person entering the facility, the person should be assessed by custody staff for the ability to answer medical and mental health screening questions.

Any incarcerated person who appears to be unable to answer the initial medical screening questions shall be examined by a qualified health care professional at a designated hospital and receive medical clearance before acceptance into the jail. Incarcerated persons who refuse to answer these questions shall be placed under observation until the screening can be completed, or until sufficient information is obtained to allow the staff to make appropriate decisions concerning housing and care.

Staff members shall promptly refer any incarcerated person who is at risk for suicide to classification, health services, and mental health services. The incarcerated person shall remain under direct and constant observation in a safe setting until designated staff makes appropriate health care and housing decisions (15 CCR 1030).

Special situations may arise where a screening and intervention is appropriate for an incarcerated person when the person is placed in restrictive housing, following a hearing, and after a transfer or change in classification (15 CCR 1030).

722.6 SUICIDE WATCH

Incarcerated persons should only be housed on suicide watch with the approval of a qualified health care professional and the Shift Supervisor. If a qualified health care professional is not

Colusa County Sheriff's Department

CA Custody Manual

Suicide Prevention and Intervention

present in the jail, the Shift Supervisor may make the decision to place an incarcerated person on suicide watch but should notify a qualified health care professional as soon as practicable. Incarcerated persons placed on suicide watch shall be closely monitored and housed in a cell that has been designed to be suicide resistant. Prior to housing the incarcerated person, the staff should carefully inspect the cell for objects that may pose a threat to the person's safety.

Qualified health care professionals are primarily responsible for the treatment of incarcerated persons on suicide watch. Correctional officers and general employees are responsible for the physical safety of incarcerated persons. All staff members should coordinate their efforts to ensure that incarcerated persons do not have the means or the opportunity to injure themselves.

An observation log shall be maintained for each incarcerated person on suicide watch. A staff member shall be designated to make a direct visual observation of the incarcerated person twice every 30 minutes at approximately 15-minute intervals. A Shift Supervisor and a qualified health care professional, if available, must observe the incarcerated person at least once every five hours. Each staff member who is required to observe the incarcerated person shall make notations in the observation log documenting the time of observation and a brief description of the person's behavior.

An incarcerated person classified as actively suicidal must be continuously monitored by direct visual observation of a correctional officer. While monitoring may be supplemented by video monitoring, it may never be a substitute for direct visual monitoring.

The status of suicidal incarcerated persons should be readily identifiable in a manner discernible by staff. When standard-issue clothing presents a security or medical risk to the incarcerated person or others, the incarcerated person shall be supplied with a security garment that is designed to promote the person's safety and not cause unnecessary humiliation and degradation. Use of the security garment shall be documented in the incarcerated person's health record. Suicidal persons shall not be permitted to retain undergarments or any other item that can be fashioned into an implement for hanging (e.g., plastic bags, shoelaces, sheets). Incarcerated persons shall not be permitted to keep personal property while housed on suicide watch and shall not be permitted to possess razors or other sharp objects, such as pencils, items with staples, or any other item that may be used to cause a self-inflicted injury. Physical restraints should only be used as a last resort measure. The decision to use or discontinue use of restraints should be made in consultation with qualified health care professionals.

Incarcerated persons who are not actively suicidal but who have expressed suicidal thoughts or have a recent history of self-injurious behavior should be observed by staff at irregular intervals, not to exceed every 15 minutes.

722.6.1 INTERVENTION

Any suicide attempt is a medical emergency. Staff should take action to facilitate emergency medical care and preserve and collect evidence as necessary. A qualified health care professional should be summoned immediately any time the staff suspects a suicide attempt is imminent. Staff should take reasonable and appropriate precautions to mitigate the ability of the incarcerated

Colusa County Sheriff's Department

CA Custody Manual

Suicide Prevention and Intervention

persons to injure themselves, and should consider establishing and maintaining a non-threatening conversation with the person while awaiting assistance. If a qualified health care professional is not immediately available, the incarcerated person should be placed in an appropriate and safe location until such time as qualified health care professionals or the Responsible Physician is available.

Following a suicide attempt, staff should initiate a medical emergency response and initiate and continue appropriate life-saving measures until relieved by qualified health care professionals. The arriving medical staff should perform the appropriate medical evaluation and intervention. The Responsible Physician or the authorized designee should be notified in situations when referral and transportation to the emergency room of a local hospital is required (15 CCR 1030).

722.6.2 NOTIFICATION

In the event of an attempted or completed suicide, the Jail Commander should be promptly notified. The Jail Commander should notify the Sheriff.

The location where a suicide or attempted suicide has occurred should be treated as a crime scene after the incarcerated person has been removed from the cell or after emergency medical care is rendered. The area should be secured and access-controlled to preserve evidence until the appropriate investigation can be completed.

All suicides or attempted suicides shall be documented in an incident report. Any injury must be documented in an incarcerated person injury report (15 CCR 1030).

All in-custody deaths, including those resulting from suicide, should be investigated and documented in accordance with the Reporting In-Custody Deaths Policy (15 CCR 1030).

722.7 FOLLOW-UP

Qualified health care professionals should evaluate any incarcerated person placed in suicide watch within 24 hours of placement or at the next available physician's visit, whichever is earliest. After evaluation, qualified health care professionals should make a recommendation whether to keep the incarcerated person on suicide watch. Only a qualified health care professional may remove an incarcerated person from suicide watch.

All changes in incarcerated person status should be reported to the qualified health care professional to ensure the person receives appropriate care. The incarcerated person's health record should be updated to reflect all contacts, treatment, and any other relevant information, and the records maintained in accordance with established records retention schedules.

Although the goal of this program is to significantly reduce the risk of in-custody deaths, the ongoing care of suicidal incarcerated persons after release must also be considered. Incarcerated persons who are at risk for suicide should work with local or area mental health resources and their families after release. A correctional officer should complete the necessary application, documenting the reasons why the incarcerated person is believed to be suicidal. The completed application should accompany the released incarcerated person to the designated facility.

Colusa County Sheriff's Department

Suicide Prevention and Intervention

722.7.1 DEBRIEFING

Any suicide attempt or death of an incarcerated person or on-site staff member requires a staff debriefing. Information will be communicated to the oncoming Shift Supervisor and staff to apprise them of the incident and the actions taken with regard to the incident. Such debriefing will be appropriately documented and shall be reviewed by administration, security, and the Responsible Physician.

722.8 TRANSPORTATION

Incarcerated persons at risk for suicide pose additional challenges during transport and while being held in court holding facilities. The transportation staff should take reasonable steps to closely monitor at-risk incarcerated persons whenever they are transported or held in any cell that is not designated as a suicide-watch cell. All additional security and monitoring measures implemented by the staff should be documented in the incarcerated person's record. The transporting correctional officer should ensure that the suicide threat or other danger is communicated to personnel at the receiving facility.

Nursing Assessment Protocols

723.1 PURPOSE AND SCOPE

The purpose of this policy is to establish standards for evaluating and treating incarcerated persons with medical issues that are easily and effectively treated or triaged by nursing personnel who have been properly trained in the use of nursing assessment protocols.

723.1.1 DEFINITIONS

Definitions related to this policy include:

Nursing assessment protocols - Written instructions or guidelines that specify the steps to be taken in evaluating an incarcerated person's health status and providing medical treatment. Protocols may include first-aid procedures for the identification and care of ailments that ordinarily would be treated with over-the-counter (OTC) medication or through self-care. These protocols also may address more serious symptoms, such as chest pain, shortness of breath, or intoxication. The protocols provide a sequence of steps to evaluate and stabilize an incarcerated person until a qualified health care professional is contacted and orders for further care are received.

723.2 POLICY

It is the policy of this department that medical care performed by personnel other than a physician shall be performed pursuant to a written protocol or order of the Responsible Physician.

723.3 PROTOCOL DEVELOPMENT AND AUTHORIZATION

The facility's Responsible Physician or the authorized designee shall develop, review, and authorize all nursing protocols used for the treatment of incarcerated persons, and shall develop, deliver, or procure appropriate training for the nurses on their use. Each nursing assessment protocol will have a signed declaration indicating it has been reviewed and approved by the nursing administrator and the Responsible Physician.

The protocols developed shall be appropriate for the training and experience of the health care services staff members who will deliver the services. Each protocol shall comply with the standards of practice for the level of care the health care services staff members are authorized to provide. The protocols shall only include the use of OTC medications.

The Responsible Physician shall review the nursing assessment annually, revising as necessary and dating and signing approved protocols (15 CCR 1204).

723.4 TRAINING

Nurses will be trained and approved in the nursing assessment protocols prior to their use. The training shall be documented and should include:

- (a) Evidence that new nurses have been trained.
- (b) Demonstration of knowledge and skills.
- (c) Evidence of annual review of skills.

Colusa County Sheriff's Department

CA Custody Manual

Nursing Assessment Protocols

- (d) Evidence of retraining when protocols are introduced or revised.

723.5 AUTHORIZED USE OF PROTOCOLS

Nursing staff may use a nursing assessment protocol only after they have been trained and authorized by the Responsible Physician. Nursing assessment protocols shall only be used after a nurse fully evaluates the incarcerated person's complaint and the incarcerated person's condition meets the appropriate criteria.

Incarcerated persons may only be treated using a nursing protocol for the same condition on two consecutive visits. If the incarcerated person requests service for the same condition a third time, the incarcerated person should be referred to a physician's assistant, nurse practitioner, registered nurse, or physician.

The assessment protocols only include the use of OTC medication. When OTCs are administered per the protocol, they do not require the signature of a physician. However, the order and the administration of the medication shall be documented on the medication administration record.

A registered nurse (RN) is considered the minimum certification level required to independently initiate medical treatment. The RN must be present to physically assess the incarcerated person; an assessment cannot be done via telephone or electronically.

Licensed vocational nurses (LVNs) are generally prohibited from independently initiating any standardized protocol. Under very specific circumstances (e.g., early detoxification, a history of a seizure disorder), it may be acceptable for an LVN to initiate a standing order following a telephone consultation with a physician, physician's assistant, psychiatrist, dentist, or other person who meets the minimum certification level to initiate such orders. Under these circumstances, it is essential that the incarcerated person be personally evaluated within 24 hours by a physician's assistant, nurse practitioner, registered nurse, or physician.

Nursing assessment protocols shall not include the administration of any prescription medication, with the exception of protocols addressing an emergency or a life-threatening situation. Treatment with prescription medication may only be initiated upon a written or verbal order from a physician, physician's assistant, psychiatrist, dentist, or other person who is licensed to dispense medication in the state, either independently or under the supervision of a physician.

Infirmary Care

724.1 PURPOSE AND SCOPE

This policy recognizes that some incarcerated persons will need care for an illness or diagnosis that requires daily monitoring, daily medication and/or therapy, or assistance with daily activities at a level that requires skilled nursing intervention. Such persons are best served in an area expressly designed and operated for providing medical care in close proximity to qualified health care professionals.

724.1.1 DEFINITIONS

Definitions related to this policy include:

Infirmary - An area specifically designed and operated for providing medical care to incarcerated persons who need skilled nursing care for a period of 24 hours or more. It is expressly intended for persons who do not need hospitalization or placement in a licensed nursing facility, but whose care cannot be managed safely in an outpatient setting. It is not the area itself but the scope of care provided that makes the bed an infirmary bed.

Infirmary care - Care provided to patients with an illness or diagnosis that requires daily monitoring, medication and/or therapy, or assistance with daily activities at a level requiring skilled nursing intervention.

Within sight or sound of a qualified health care professional - The patient can gain the professional's attention through visual or auditory signals.

724.2 POLICY

It is the policy of this department that infirmary care is provided when appropriate to meet the serious medical needs of incarcerated persons. The Responsible Physician shall be responsible for developing and maintaining an infirmary manual, that shall be available in the infirmary. The infirmary manual shall include but is not limited to:

- Nursing care procedures.
- A definition of the scope of infirmary care services available.
- Provisions for a physician to be on-call or available 24 hours a day.
- Guidelines regarding the availability of health care personnel, who shall be on-duty 24 hours a day when incarcerated persons are present and shall have access to a physician or registered nurse.
- Provisions ensuring that all incarcerated persons are within sight or sound of a staff member.
- Provisions for an infirmary record that is separate from the complete medical record of the incarcerated person.
- Requirements for compliance with applicable state statutes and local licensing.

Colusa County Sheriff's Department

CA Custody Manual

Infirmary Care

Admission to and discharge from the infirmary shall be controlled by medical orders or protocols issued by a qualified health care professional after a clinical evaluation and the establishment of a treatment plan.

724.3 DOCUMENTATION REQUIREMENTS FOR INFIRMARY PATIENTS

A complete inpatient health record shall be kept for each incarcerated person housed in the infirmary and should include:

- The admitting order that includes the admitting diagnosis, medications, diet, activity restrictions, diagnostic tests required, and frequency of vital sign monitoring and other follow-up.
- Complete documentation of the care and treatment given.
- The medication administration record.
- A discharge plan and discharge notes.

724.4 INFIRMARY REQUIREMENTS

Incarcerated persons in the infirmary shall have access to operable washbasins with hot and cold running water at a minimum ratio of one basin for every 12 incarcerated persons, unless state or local building or health codes specify differently. Sufficient bathing facilities shall be provided in the infirmary to allow incarcerated persons to bathe daily. At least one bathing facility shall be configured and equipped to accommodate incarcerated persons who have physical impairments or who need assistance to bathe. Water for bathing is thermostatically controlled to temperatures ranging from 100 to 120 degrees.

Incarcerated persons in the infirmary shall have access to toilets and hand-washing facilities 24 hours a day and can use the toilet without staff assistance. Toilets are provided at a minimum ratio of one for every 12 persons in the male infirmary and one for every eight persons in the female infirmary. Urinals may be substituted for up to one-half of the toilets in the male infirmary. All housing units with three or more persons shall have a minimum of two toilets.

Medical Equipment and Supply Control

725.1 PURPOSE AND SCOPE

This policy outlines the control and inventory process to be utilized in accounting for all medical equipment and supplies. Medical equipment and supplies can pose a hazard for both the incarcerated person population and the staff. Unauthorized possession of medical equipment and supplies constitutes possession of contraband. Unauthorized use of medical equipment and supplies violates incarcerated person rules detailed in the incarcerated person handbook. Since it is necessary to have a well-stocked medical space within the secure perimeter of the facility, there must be a plan to ensure that equipment and medical supplies are accounted for and tightly controlled.

725.2 POLICY

It is the policy of this department that all medical equipment, including sharps, dental instruments, needles and other items must be tightly controlled so they cannot be used as weapons or to facilitate the injection of drugs or other substances. Additionally, these tools and supplies must be controlled to prevent exposure to biohazards.

725.3 STAFF RESPONSIBILITIES

It is the responsibility of the Jail Commander to ensure that the incarcerated person handbook clearly defines the unauthorized possession and/or use of medical equipment and supplies as a rule violation that may result in discipline.

The Responsible Physician or the authorized designee shall create and maintain an inventory log for all medical equipment and supplies. This log will be utilized by medical personnel who work within the facility to track and control medical equipment and supplies. When not in use, all medical equipment and supplies shall be stored in a secure manner to prevent unauthorized access.

At the beginning of each shift, the qualified health care professional shall inventory the medical supplies and equipment within their control. Any time a disposable item is used, the log shall reflect its use and disposal. At the end of each shift, the qualified health care professional will conduct another inventory using the supply and equipment log, and reconcile any disposable supplies used during their shift.

If there is a discrepancy that indicates that medical supplies or equipment are missing, the Shift Supervisor shall be immediately notified. The Shift Supervisor shall initiate a search for the missing supplies and/or equipment. The Shift Supervisor shall document the incident and any actions taken and provide the Jail Commander with a complete report.

Continuation of Care

726.1 PURPOSE AND SCOPE

The purpose of this policy is to establish and maintain a proactive health system in the facility that fosters the continuation of health care needs that, if discontinued, would have a negative effect on the health of the incarcerated person. The sole objective is to maintain or improve the health of the incarcerated persons. This policy is intended to ensure that incarcerated persons receive health services in keeping with current community standards as ordered by qualified health care professionals.

726.2 POLICY

It is the policy of this department that all incarcerated persons shall have access to the continuation of care for a health issue, provided the treatment plan meets community standards. The incarcerated person's health care needs will be assessed by qualified health care professionals and continued as determined or referred after release (15 CCR 1206.5(a); 15 CCR 1210).

726.3 CONTINUATION OF CARE

The Jail Commander is responsible for coordinating with the Responsible Physician to ensure that all incarcerated persons receive appropriate health care, including but not limited to:

- (a) Newly booked incarcerated persons shall have a medical screening as part of the booking and classification process. This screening includes documentation of acute or chronic health issues or conditions, existing injuries, and medications or treatments the incarcerated person is currently receiving.
 - 1. Any prior jail health records, including those from other facilities, should be reviewed.
 - 2. Current medications will be verified and continued as deemed appropriate by the Responsible Physician or the authorized designee.
- (b) A health assessment is completed on or before the 14th day of continuous incarceration.
- (c) Continuation of birth control measures, upon request by the incarcerated person, as prescribed by a physician, nurse practitioner, certified nurse midwife, or physician assistant (Penal Code § 4023.5).
- (d) Individual treatment plans that are used to guide treatment. The format for planning may vary but should include, at a minimum:
 - 1. The frequency of follow-up for medical evaluation and adjustment of treatment modality.
 - 2. The type and frequency of diagnostic testing and therapeutic regimens.
 - 3. When appropriate, instructions about diet, exercise, medication, and adaptation to the correctional environment.
 - 4. Custody staff is informed of the treatment plan when necessary to ensure coordination and cooperation in the ongoing care of the incarcerated person.

Colusa County Sheriff's Department

CA Custody Manual

Continuation of Care

- (e) Reasonable effort should be made to obtain information and records relating to previous health care professionals, with the consent of the incarcerated person, if the incarcerated person is currently under medical care.
- (f) Upon transfer to another facility, a medical discharge summary of the incarcerated person's current condition, medications, and treatment plan will be forwarded in a sealed envelope (to maintain confidentiality) to the receiving facility.
- (g) Response to requests for health information from medical facilities and health care professionals, with the incarcerated person's written consent.
- (h) When incarcerated persons are sent out of the facility for emergency or specialty medical treatment, written information regarding the incarcerated person's reason for transfer, pertinent medical problems, and list of current medications should be sent with the incarcerated person and may be given to those providing care upon request. The name and telephone number of a contact person the medical facility can call should be included with the patient's health information. Upon the incarcerated person's return to the facility, treatment recommendations should be reviewed by the Responsible Physician or the authorized designee and appropriate plans should be made for continuing care in the facility based on the treating facility's diagnosis, recommended medications, and other treatment.
- (i) Upon release from the facility, incarcerated persons should be given written instructions for the continuation of care, including but not limited to:
 - 1. The name and contact information of health care facilities for follow-up appointments.
 - 2. Prescriptions and/or an adequate supply of medication for those with chronic medical or psychiatric conditions.

Continuous Quality Improvement

727.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a Continuous Quality Improvement (CQI) process of health care review in an effort to identify improvement needs in policies, processes or staff actions, and to develop and implement better health care strategies to improve the processes and outcomes of the health care services delivered at this facility.

727.2 POLICY

It is the policy of this department that an internal review and CQI process for incarcerated person health care delivery and outcomes is developed and maintained, measurable goals and objectives are established and reviewed annually, and that the process itself is periodically reviewed and updated as needed. The process should be supervised by the Responsible Physician. The data evaluated should result in more effective access to services, an improved quality of care, and a better utilization of resources.

727.3 CQI TECHNIQUES AND MONITORING

The CQI process may be applied to any aspect of health care delivery and health service outcomes, including, but not limited to, monitoring and reviewing the following:

- Quality of the medical charts, by the Responsible Physician or the authorized designee
- Investigations of complaints and grievances
- Corrective action plans and plan outcomes
- Deaths in custody, suicide attempts, sentinel events, and incident and management of serious communicable disease outbreaks
- Plans for employee education and training, using investigation findings
- Records of internal review activities
- Quarterly reports to the Responsible Physician and Jail Commander
- Legal requirements for confidentiality of medical records
- Credentialing (assessing and confirming qualifications), privileging (authorization to provide services), and training of employees and the associated peer review processes
- Condition and effectiveness of the care environment
- Adequacy and quality of supplies and equipment
- Quality of care provided to individual patients
- Accuracy and efficiency of pharmacy services and medication administration
- Ease of access to care

Continuous Quality Improvement

- Risk minimization tactics
- Data describing the types, quality and quantity of care provided
- Accreditation compliance

727.4 CQI COMMITTEE MEETINGS

The jail CQI committee should meet quarterly under the direction of both the committee chair and the Responsible Physician. The CQI meetings may be conducted at the same time as quarterly administrative meetings, but CQI minutes must be produced and maintained separately from any other minutes.

The CQI minutes are not subject to disclosure outside of the CQI program, including requests from local, regional and national entities. Other interested parties with a need to know are only entitled to the disclosure of information that includes:

- (a) Problems that may have been identified.
- (b) Solutions that have been agreed upon.
- (c) Persons responsible for implementing the corrective action.
- (d) The time frame for implementing the corrective actions.

Informed Consent and Right to Refuse Medical Care

728.1 PURPOSE AND SCOPE

This policy recognizes that incarcerated persons have a right to make informed decisions regarding their health care. It establishes the conditions under which informed consent should be obtained prior to treatment, when medical care may proceed without consent, the documentation process for the refusal of medical care, and the retention of refusal forms.

728.1.1 DEFINITIONS

Definitions related to this policy include:

Informed consent - The written agreement by an incarcerated person to a treatment, examination, or procedure. Consent is sought after the incarcerated person has received the material facts about the nature, consequences, and risks of the proposed treatment, the examination or procedure, the alternatives to the treatment, and the prognosis if the proposed treatment is not undertaken, in a language understood by the person.

728.2 POLICY

It is the policy of this department that generally, all health care examinations, treatments, and procedures shall be conducted with the informed consent of the incarcerated person. Exceptions include emergencies, life-threatening conditions, and a court order (15 CCR 1214).

728.3 INFORMED CONSENT

The qualified health care professional initiating treatment shall inform the incarcerated person of the nature of the treatment and its possible side effects and risks, as well as the risks associated with not having the treatment.

For invasive procedures or any treatment where there is some risk to the incarcerated person, informed consent is documented on a written form containing the signatures of the person and a health services staff witness.

A signed informed consent shall be obtained and witnessed by the prescribing psychiatrist for the initiation of psychotropic medication.

Appropriate arrangements shall be made to provide language translation services as needed before an incarcerated person signs any informed consent form.

For minors and conservatees, the informed consent of a parent, guardian, or legal custodian applies where required by law. Absent informed consent in non-emergency situations, a court order is required before involuntary treatment can be administered to an incarcerated person.

728.4 REFUSAL OF TREATMENT

When an incarcerated person refuses medical, mental health, or dental treatment or medication, they shall be counseled regarding the necessity of the treatment/medication and

Colusa County Sheriff's Department

the consequences of refusal. The incarcerated person shall then be requested to sign a form acknowledging that the person refused an examination and/or treatment.

The form shall be filled out completely by the qualified health care professional and include the incarcerated person's name, booking number, treatment/medication refused, the risks or consequences of refusal, and the person's mental status. The form must be signed by the incarcerated person and a witness.

In the event that the incarcerated person refuses to sign, a notation to this effect shall be documented on the incarcerated person signature line. This shall require a signed acknowledgement by two witnesses.

Documentation regarding the incarcerated person's mental status shall be noted in the medical record, along with a brief note describing the intervention of the qualified health care professional.

The completed form is to be placed in the incarcerated person's medical record.

It is the responsibility of the qualified health care professional to refer all refusal forms to the Responsible Physician.

Any time there is a concern about the decision-making capacity of the incarcerated person, an evaluation shall be conducted, particularly if the refusal is for critical or acute care.

Any time an incarcerated person refuses to take their medication, attend sick call, or attend a scheduled medical appointment, a signed refusal must be obtained by the qualified health care professional.

The refusal form shall be a permanent part of the incarcerated person's medical record.

The incarcerated person may revoke their refusal at any time.

728.4.1 STERILIZATION

This department shall not perform any sterilization procedure on an incarcerated person, without the person's consent, unless the procedure is necessary to save the person's life. A sterilization procedure may be performed with the incarcerated person's consent under the following conditions (Penal Code § 3440(b)):

- (a) Less invasive measures are not available, have been refused by the incarcerated person, or have been deemed unsuccessful.
- (b) A second physician, approved to provide medical services for the facility but not employed by the county, confirms the need for the procedure.
- (c) The incarcerated person has been advised of the impact and side effects of the procedure, and that refusal will not affect the person's ability to receive future medical treatment.

If a sterilization procedure is performed, this department shall provide psychological consultation before and after the procedure, as well as the appropriate medical follow-up (Penal Code § 3440(c)).

Colusa County Sheriff's Department

CA Custody Manual

Informed Consent and Right to Refuse Medical Care

The Records Supervisor shall also submit data annually to the Board of State and Community Corrections regarding the race, age, medical justification, and method of sterilization for any sterilization procedure performed (Penal Code § 3440(d)).

728.4.2 INVOLUNTARY ADMINISTRATION OF PSYCHOTROPIC MEDICATION

Psychotropic medication may only be administered involuntarily to an incarcerated person in emergency circumstances or as otherwise allowed by law and only with a physician's order. The medication administered shall only be what is required to treat the emergency condition and administered for only as long as the emergency continues to exist. A court order shall be sought or legal consent shall be obtained if the Responsible Physician anticipates further dosage will be necessary or beneficial (Penal Code § 2603; 15 CCR 1217).

In cases of non-emergencies, certain conditions must be met as described in Penal Code § 2603(c) prior to the involuntary administration of the psychotropic medication, including a documented attempt to locate an available bed in a community-based treatment facility in lieu of seeking to administer involuntary medication (Penal Code § 2603).

The reason medication was involuntarily administered should be documented in the incarcerated person's health care record.

728.5 RECORDS

The Jail Commander or the authorized designee shall work with the Responsible Physician to develop medical care consent and refusal forms and a system for retaining records in the incarcerated person's health file in accordance with established records retention schedules.

Management of Health Records

729.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a uniform manner of maintaining the active health records of incarcerated persons for easy accessibility during clinical treatment, and the storage methods for inactive health records. This policy also addresses practices that will ensure the confidentiality of health record information by separating it from custody records.

729.1.1 DEFINITIONS

Definitions related to this policy include:

Protected health information - Information that relates to the incarcerated person's past, present, or future physical or mental health or condition, the provision of medical care to the incarcerated person, or the past, present, or future payment for the provision of health care to the incarcerated person (45 CFR 160.103).

729.2 POLICY

It is the policy of this department to maintain the confidentiality of incarcerated persons' protected health information. Incarcerated person health records will be maintained separately from custody records and under secure conditions, in compliance with all local, state, and federal requirements.

The Responsible Physician or the authorized designee will establish standardized facility procedures for recording information in the file and for the control and access to incarcerated person health records. Incarcerated workers shall not have any access to incarcerated person health records.

729.3 INITIATING A HEALTH RECORD

Following the initial medical screening process, the qualified health care professional shall initiate a health record for each incarcerated person. The Responsible Physician shall be responsible for developing and implementing procedures for standardized record formatting (15 CCR 1205 et seq.).

729.4 CONFIDENTIALITY OF AN INCARCERATED PERSON'S HEALTH RECORDS

Information regarding an incarcerated person's health status is confidential. Active health records shall be maintained separately from custody records. Access to an incarcerated person's health record shall be in accordance with state and federal law (Health Insurance Portability and Accountability Act (HIPAA) of 1996, Public Law 104-191 and the implementing regulations) (15 CCR 1205).

The incarcerated person's protected health information may be disclosed, with the incarcerated person's written authorization, to any person so designated. A fully completed authorization for release and/or a disclosure of protected health information form shall be required prior to disclosure based upon informed consent (15 CCR 1205).

Colusa County Sheriff's Department

Management of Health Records

The incarcerated person's protected health information may be disclosed by the qualified health care professional without the incarcerated person's authorization under certain circumstances and when approved by the Responsible Physician or the authorized designee. Those circumstances include:

- (a) To known qualified health care professionals who are members of the health care team responsible for the incarcerated person's care.
- (b) To custody staff regarding incarcerated persons as reasonably necessary to protect the safety, security, and good order of the facility. Examples may include information that the incarcerated person may be:
 - 1. Suicidal.
 - 2. Homicidal.
 - 3. A clear custodial risk.
 - 4. A clear danger of injury to self or others.
 - 5. Gravely disabled.
 - 6. Receiving psychotropic medications.
 - 7. A communicable disease risk.
 - 8. In need of special housing.
- (c) To the local public health officer when an incarcerated person is part of a communicable disease investigation.
- (d) Pursuant to a court order or valid subpoena duces tecum, accompanied by satisfactory assurance that the incarcerated person has been given notice and an opportunity to file an objection or efforts have been made to secure a protective order as required under HIPAA (45 CFR 164.512).
- (e) To a law enforcement officer for purposes of a criminal investigation, to avert a serious threat to the health or safety of any person or to fulfill mandatory reporting requirements.
- (f) To a law enforcement officer when the incarcerated person has died as a result of criminal conduct.

The incarcerated person's limited protected health information may also be disclosed to a law enforcement officer for purposes of identifying or locating a suspect or when the incarcerated person is a victim of a crime. When reasonably possible, the approval of the Jail Commander should be obtained prior to disclosure.

Attorneys requesting health record information regarding an incarcerated person shall be advised that an authorization for release and/or a disclosure of medical information form or an attorney release form signed by the incarcerated person is required.

Family members may be informed of the incarcerated person's custody status and whether the incarcerated person is receiving medical care. Family members requesting additional information must provide a proper authorization for release and/or a disclosure of medical information form.

CA Custody Manual

Management of Health Records

The Jail Commander, in consultation with the Responsible Physician, shall designate personnel who will be responsible for reviewing all requests for access to medical records and who will propose related policies and procedures and other activities designed to facilitate proper documentation of health care and access to records.

729.4.1 ADDITIONAL STATE PRIVACY PROTECTIONS

The health services administrator and Responsible Physician or the authorized designee shall ensure that privacy protections comply with state law requirements regarding privacy and confidentiality applicable to the specific type of medical records requested, including:

- (a) Records associated with human immunodeficiency virus (HIV) or acquired immunodeficiency syndrome (AIDS) (Health and Safety Code § 121025).
- (b) Records of patients in alcohol or substance abuse treatment programs (Health and Safety Code § 11845.5).

729.5 HEALTH RECORD CONTENTS

- (a) To standardize record keeping and to identify responsibilities, the following should apply to incarcerated person health records (15 CCR 1205):
 - 1. The qualified health care professional or the authorized designee should be responsible for ensuring that all required information and forms are included in the medical records. There should also be a periodic informal review as described in the Continuous Quality Improvement Policy.
 - 2. The qualified health care professional or the authorized designee should be responsible for ensuring incoming written findings and recommendations are returned with the incarcerated person from any offsite visit and filed in the incarcerated person's medical record.
- (b) Incarcerated persons' health records shall minimally contain but are not limited to:

729.6 ACTIVE INCARCERATED PERSONS HEALTH RECORDS

Active incarcerated person health records will be accessible to qualified health care professionals as necessary for the provision of medical treatment and other uses allowed by law, or the Jail Commander or the authorized designee under exigent circumstances, to protect the safety, security, and good order of the facility.

All entries in the incarcerated person's health record will have the place, date, time, signature and title of each individual providing care and should be legible.

Documentation in the incarcerated person's health record is done in the subjective, objective, assessment, and plan (SOAP) format. An incarcerated person's health record is initiated at the first health encounter following the initial medical screening.

If an incarcerated person has been previously incarcerated, the previous health record should be reactivated. If a new record has been initiated and a previous record exists, medical records personnel should merge the two records in order to compile a complete history, unless mandated statutory retention schedules have provided for the destruction of one file and there is a need to create a new file.

New information shall be entered on the health record at the completion of each encounter.

All the incarcerated person's health records shall be returned to the file prior to the end of each watch.

729.7 INACTIVE MEDICAL RECORDS

When an incarcerated person is released from custody, medical records personnel should remove the incarcerated person's health record from the active file.

The health record should be reviewed for completeness. Any loose documents should be filed according to the established health record format.

The health record should be securely stored in the area designated for inactive incarcerated person health records, in accordance with established records retention schedules but no less

than 10 years from the date of the last clinical encounter. Adult records and juvenile records may have different jurisdictional retention requirements.

Inactive incarcerated person medical records may be stored off-site. Health record information from inactive files may be transmitted to specific and designated physicians or medical facilities upon the written request or authorization of the incarcerated person.

729.8 ELECTRONIC MEDICAL RECORDS

If medical records are maintained in an electronic format, the system should be structured with redundancies to ensure the records will survive any system failure.

729.9 HIPAA COMPLIANCE

The Jail Commander, in consultation with the Responsible Physician, shall ensure that a health record protection and disclosure compliance plan conforming to the requirements of HIPAA is prepared and maintained. The plan should detail all necessary procedures for security and review of the access and disclosure of protected health information.

At minimum, the plan will include:

- Assignment of a HIPAA compliance officer who is trained in HIPAA compliance and will be responsible for maintaining procedures for and enforcing HIPAA requirements, including receiving and documenting complaints about breaches of privacy.
- Ongoing training on HIPAA requirements, depending on the level of access the member has to protected health information.
- Administrative, physical, and technical safeguards to protect the privacy of protected health information.
- Procedures for the permitted or required use or disclosure of protected health information and the mitigation of harm caused by improper use or disclosure.
- Protocol to ensure privacy policies and procedures, any privacy practices notices, disposition of any complaints, and other actions, activities, and designations required to be documented, are maintained for at least six years after the date of creation or last effective date, whichever is later.

Incarcerated Person Health Care Communication

730.1 PURPOSE AND SCOPE

The purpose of this policy is to establish and maintain effective communication between the treating qualified health care professionals and custody personnel. This communication is essential at all levels of the organization to ensure the health and safety of all occupants of the facility.

730.2 POLICY

It is the policy of this department that effective communication shall occur between the Jail Commander and the treating qualified health care professionals regarding any significant health issues of an incarcerated person. All health issues should be considered during classification and housing decisions in order to preserve the health and safety of the occupants of this facility.

When a qualified health care professional recognizes that an incarcerated person will require accommodation due to a medical or mental health condition, custody personnel shall be promptly notified in writing.

The Jail Commander shall be responsible for establishing measurable goals relating to processes that enhance good communication between the qualified health care professionals and the custody staff. The Jail Commander should also establish, in writing, the desired performance objectives relating to practices that support good communication between the qualified health care professionals and the custody staff. The Jail Commander should review the documents annually for any necessary revisions or updates in support of continuous improvement in the delivery of health care services.

730.3 MANAGING SPECIAL NEEDS INCARCERATED PERSONS

Upon an incarcerated person's arrival at the facility, the qualified health care professional, in conjunction with the custody staff, should determine if the incarcerated person has any special needs.

- (a) If staff determines that an incarcerated person has special needs, a communication form or other appropriate documentation relating to special needs should be completed and sent to classification personnel, the Shift Supervisor, and the housing officer. This is to ensure that the person is assigned to a housing unit that is equipped to meet their special needs.
- (b) The qualified health care professional should arrange for the appropriate follow-up evaluation.
- (c) The health care of special needs incarcerated persons should be continuous and ongoing. At minimum, the person should be seen by the Responsible Physician or a qualified health care professional at least once every 90 days to evaluate the person's continued designation as a special needs incarcerated person.

730.4 NOTIFICATION TO SUPERVISORS

In the event that there is no mutual agreement regarding an individual or group of incarcerated persons who require special accommodation for medical or mental health conditions, supervisors in the respective chain of command within the health care and custody staff should address these issues.

730.5 NOTIFICATION TO THE SHERIFF FOR MEDICAL RELEASE

Supervisors, through the chain of command, should advise the Sheriff when a terminally ill incarcerated person may be appropriate for early release or medical probation under Government Code § 26605.6 because the incarcerated person would not reasonably pose a threat to public safety and the person has a life expectancy of six months or less, or the person requires 24-hour care or acute long-term inpatient rehabilitation services.

Forensic Evidence

731.1 PURPOSE AND SCOPE

The purpose of this policy is to maintain credibility between the incarcerated persons and the facility's qualified health care professionals by establishing clear guidelines restricting facility health care professionals from participating in the collection of forensic evidence for disciplinary or legal proceedings.

731.1.1 DEFINITION

Definitions related to this policy include:

731.2 POLICY

Qualified health care professionals of this facility are generally prohibited from participating in the collection of forensic evidence or performing psychological evaluations for disciplinary or legal proceedings.

Qualified health care professionals of this facility should not be involved in the collection of forensic evidence except when complying with state laws requiring the collection of blood samples from incarcerated persons, provided the incarcerated person has consented to the procedure and staff are not involved in any punitive action against the incarcerated person.

Qualified health care professionals of this facility may collect blood or urine for testing for alcohol or drugs when it is done for medical purposes and under a physician's order. Qualified health care professionals of this facility may conduct incarcerated person-specific, court-ordered laboratory tests and examinations or radiology procedures with the consent of the incarcerated person.

Oral Care

732.1 PURPOSE AND SCOPE

The intent of this policy is to ensure that incarcerated persons have access to dental care and treatment for serious dental needs. While the focus of this policy is primarily on urgent and emergent dental care, as with medical or mental health care, dental care is available based upon patient need.

732.1.1 DEFINITIONS

Definitions related to this policy include:

Infection control practices - Are defined by the American Dental Association (ADA) and the Centers for Disease Control and Prevention (CDC) as including sterilizing instruments, disinfecting equipment, and properly disposing of hazardous waste.

Oral care - Includes instruction in oral hygiene, examinations, and treatment of dental problems. Instruction in oral hygiene minimally includes information on plaque control and the proper brushing of teeth.

Oral examination - Includes taking or reviewing the patient's oral history, an extra-oral head and neck examination, charting of teeth, and examination of the hard and soft tissue of the oral cavity with a mouth mirror, explorer, and adequate illumination.

Oral screening - Includes visual observation of the teeth and gums, and notation of any obvious or gross abnormalities requiring immediate referral to a dentist.

Oral treatment - Includes the full range of services that in the supervising dentist's judgment are necessary for proper mastication and for maintaining the incarcerated person's health status.

732.2 POLICY

It is the policy of this department that oral care is provided under the direction of a dentist licensed in this state and that care is timely and includes immediate access for urgent or painful conditions. There are established priorities for care when, in the dentist's judgment, the incarcerated person's health would otherwise be adversely affected (15 CCR 1215).

732.3 ACCESS TO DENTAL SERVICES

Emergency and medically required dental care is provided to each incarcerated person upon request. Dental services are not limited to extractions. It is the goal of dental services to alleviate pain and suffering, ensure that incarcerated persons do not lose teeth merely as a consequence of incarceration and to provide appropriate dental service whenever medically required to maintain nutrition (15 CCR 1215).

Access to dental services should be as follows:

- (a) All incarcerated persons wishing to see the dentist for a non-emergency issue shall complete a sick call form. Requests should be triaged according to the nature and severity of the problem and should be seen by a dentist according to assigned priority.

Colusa County Sheriff's Department

CA Custody Manual

Oral Care

Incarcerated persons requesting dental services on weekends or after hours will initially be evaluated by a qualified health care professional and referred appropriately.

- (c) Incarcerated persons who are furloughed or sentenced to work release or another form of community release may see their own dentist pursuant to approval of scheduling arrangements with facility medical and custody staff. The incarcerated person will be financially responsible for any payment. The Department is under no obligation to the incarcerated person to this appointment.
- (d) Records documenting all dental treatment should be maintained in the incarcerated person's medical record file and retained in accordance with established records retention schedules. Examination results should be recorded on a uniform dental record using a numbered system.
- (e) Medications prescribed by a dentist should be administered in accordance with pharmacy procedures and documented in the incarcerated person's medical record.
- (f) Necessary dental services identified by a dentist that are not available on-site should be provided by referral to community resources as deemed necessary by the facility dentist.

732.4 DENTAL CARE OPTIONS

Incarcerated persons should be offered a dental screening by a qualified health care professional or a dentist within 14 days of incarceration, unless such a screening was completed within the past six months. This dental screening should include an evaluation of the current dental status and instruction on oral hygiene and preventive oral education.

Incarcerated persons should be offered a dental examination, supported by diagnostic X-rays if necessary, by a dentist within 12 months of incarceration.

Incarcerated persons who are scheduled to be incarcerated for less than 12 months should have access to the treatment of dental pain, fillings, extractions of non-restorable teeth, cleaning and treatment of symptomatic areas, and repair of partials and dentures.

- (c) Procedures, schedules, and responsibilities for coordinating annual inspections by the county health department, including how deficiencies on the inspection report are to be corrected in a timely manner.
- (d) A list of approved equipment, cleaning compounds, chemicals, and related materials used in the facility, and instructions on how to operate, dilute, or apply the material in a safe manner.
- (e) Record-keeping of self-inspection procedures, forms, and actions taken to correct deficiencies.
- (f) Training requirements for custody staff and incarcerated workers on accident prevention and avoidance of hazards with regard to facility maintenance.

Consideration should be given to general job descriptions and/or limitations relating to personnel or incarcerated persons assigned to carrying out the plan. Specialized tasks, such as changing air filters and cleaning ducts or facility pest control, are more appropriately handled by the Department or by contract with private firms.

Incarcerated persons engaged in sanitation duties shall do so only under the direct supervision of qualified custody staff. When incarcerated work crews are used, additional controls should be implemented to account for all equipment and cleaning materials.

All staff shall report any unsanitary or unsafe conditions to a supervisor. Staff shall report repairs needed to the physical plant and to equipment by submitting a work order to a supervisor. Shift Supervisors will conduct cleaning inspections on a daily basis. The Jail Commander or the authorized designee will conduct weekly safety and sanitation inspections of the facility.

800.3 WORK ORDERS

All reports of unsafe or unsanitary conditions, as well as repairs needed to the physical plant and equipment, shall be documented in a work order. The Jail Commander will designate a staff person to receive these work orders and take appropriate action to ensure the repairs are made or

action is taken. All work and action taken will also be documented. Requests for budget resources above and beyond already budgeted maintenance items shall be reported to the Jail Commander.

800.4 SAFETY DATA SHEETS

Materials and substances used in the operation and maintenance of the facility may qualify as hazardous material. Hazardous material is required to have a companion Safety Data Sheet (SDS) that is provided by the manufacturer or distributor of the material. The SDS provides vital information on individual hazardous materials and substances, including instructions on safe handling, storage, disposal, prohibited interactions and other details relative to the specific material.

The Jail Commander shall be responsible for ensuring that a written hazard communication plan is developed, implemented and maintained at each workplace. Each area of the facility in which any hazardous material is stored or used shall maintain an SDS file in an identified location that includes (29 CFR 1910.1200(e)(1)):

- (a) A list of all areas where hazardous materials are stored.
- (b) A physical plant diagram and legend identifying the storage areas of the hazardous materials.
- (c) A log for identification of new or revised SDS materials.
- (d) A log for documentation of training by users of the hazardous materials.

800.4.1 SDS USE, SAFETY, AND TRAINING

All supervisors and users of SDS information must review the latest issuance from the manufacturers of the relevant substances. Staff and incarcerated persons shall have ready and continuous access to the SDS for the substance they are using while working. In addition, the following shall be completed (29 CFR 1910.1200(e)):

- (a) Supervisors shall conduct training for all staff and incarcerated persons on using the SDS for the safe use, handling, and disposal of hazardous material in areas they supervise.
- (b) Upon completion of the training, staff and incarcerated persons shall sign the acknowledgement form kept with each SDS in their work area.
- (c) Staff and incarcerated persons using the SDS shall review the information as necessary to be aware of any updates and to remain familiar with the safe use, handling, and disposal of any hazardous material.

800.4.2 SDS DOCUMENTATION MAINTENANCE

Changes in SDS information occur often and without general notice. Any person accepting a delivery, addition or replacement of any hazardous material shall review the accompanying SDS. If additions or changes have occurred, the revised SDS shall be incorporated into the file and a notation shall be made in the SDS revision log.

Colusa County Sheriff's Department

CA Custody Manual

Sanitation Inspections

Supervisors shall review SDS information in their work areas semiannually to determine if the information is current and that appropriate training has been completed. Upon review, a copy of the SDS file and all logs shall be forwarded to the Maintenance Supervisor or the authorized designee.

800.4.3 SDS RECORDS MASTER INDEX

The Maintenance Supervisor or the authorized designee will compile a master index of all hazardous materials in the facility, including locations, along with a master file of SDS information. They will maintain this information in the safety office (or equivalent), with a copy to the local fire department. Documentation of the semiannual reviews will be maintained in the SDS master file. The master index should also include a comprehensive, current list of emergency phone numbers (e.g., fire department, poison control center) (29 CFR 1910.1200(g)(8)).

800.4.4 CLEANING PRODUCT RIGHT TO KNOW ACT

In addition to SDS information, printable information regarding ingredients of certain products used by staff and incarcerated persons shall be readily accessible and maintained in the same manner as an SDS (Labor Code § 6398.5; Health and Safety Code § 108952(f); Health and Safety Code § 108954.5(c)).

800.5 POLICY

It is the policy of the Department to maintain a safe and sanitary facility. To accomplish this goal, the Department will maintain a written plan that contains schedules and procedures for conducting weekly and monthly sanitation inspections of the facility.

Hazardous Waste and Sewage Disposal

801.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a system for disposing of hazardous waste. The Department recognizes that the effectiveness of a disposal system depends not only on the written policies, procedures, and precautions, but on adequate supervision and the responsible behavior of the staff and incarcerated persons. It is the responsibility of everyone in the facility to follow hazardous waste disposal instructions, utilizing prescribed precautions and using safety equipment properly.

801.1.1 DEFINITION

Definitions related to this policy include:

Hazardous waste - Material that poses a threat or risk to public health or safety or is harmful to the environment (e.g., batteries, paints, solvents, engine oils and fluids, cleaning products).

801.2 RESPONSIBILITIES

The Jail Commander or the authorized designee shall be responsible for:

- (a) Contracting with a hazardous waste disposal service.
- (b) Developing and implementing a storage and disposal plan that has been reviewed and approved by a regulatory agency.
- (c) Including hazardous waste issues on internal health and sanitation inspection checklists.
- (d) Including hazardous waste issues in the incarcerated person handbook and ensuring that incarcerated persons receive instruction on proper handling and disposal during incarcerated person orientation.
- (e) Developing and implementing procedures for the safe handling and storage of hazardous materials until such time as the contractor removes the items from the facility.
- (f) Ensuring the staff is trained in the proper identification of hazardous waste and the appropriate handling, storage, and disposal of such items.

801.3 SAFETY EQUIPMENT

The Jail Commander and the county emergency manager shall ensure that appropriate safety equipment is available. All supervisors shall be knowledgeable in how to access the safety equipment at all times. The county may coordinate with local fire departments or contracted vendors to obtain the necessary safety equipment.

801.4 TRAINING

The Training Officer shall be responsible for ensuring that all facility personnel receive appropriate training in the use of appropriate safety equipment and the identification, handling and disposal of

Colusa County Sheriff's Department

CA Custody Manual

Hazardous Waste and Sewage Disposal

hazardous waste. Training records shall be maintained, including the course roster, curriculum, instructor name and credentials, and testing instruments.

801.5 SUPERVISOR RESPONSIBILITY

Supervisors are responsible for monitoring any hazardous waste containment issue, ensuring that employees have the appropriate safety equipment, that any exposed persons receive immediate medical treatment, and that the appropriate measures are taken to lessen the exposure of others. Supervisors shall ensure that incident reports are completed and forwarded to the Jail Commander in the event of an exposure to staff, incarcerated persons, or visitors.

801.6 POLICY

It is the policy of this department that any sewage and hazardous waste generated at the facility shall be handled, stored, and disposed of safely and in accordance with all applicable federal and state regulations and in consultation with the local public health entity.

801.7 SEWAGE DISPOSAL

All sewage and liquid waste matter must be disposed of into a public system of sewerage or, if public sewerage is not available, into a private system of sewage disposal in accordance with the requirements of the local public health entity.

The institution's use of the private system must be discontinued, and the private system must be properly abandoned when public sewerage becomes available.

801.8 HAZARDOUS WASTE

Hazardous waste generated in the facility shall be properly disposed of in designated containers and stored until removed by the contractor. At a minimum, staff shall use universal standard precautions when in contact with hazardous materials.

Housekeeping and Maintenance

802.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines to ensure that the facility is kept clean and in good repair in accordance with accepted federal, state and county standards.

802.2 RESPONSIBILITIES

The Jail Commander shall establish a plan for housekeeping and maintenance of the facility. The plan should include but is not limited to (15 CCR 1280):

- (a) Schedules that determine the frequency of cleaning activities on a daily, weekly, or monthly timetable, by area of the facility.
- (b) Supervision of the staff and incarcerated persons to ensure proper implementation of the procedures and to ensure that no incarcerated person supervises or assigns work to another incarcerated person.
- (c) Development and implementation of an overall sanitation plan (e.g., cleaning, maintenance, inspection, staff training, incarcerated person supervision).
- (d) Development of inspection forms.
- (e) All incarcerated person responsibilities, which should be included in the incarcerated person handbook.
- (f) A process to ensure that deficiencies identified during inspections are satisfactorily corrected and documented.
- (g) Detailed processes for the procurement, storage, and inventory of cleaning supplies and equipment.
- (h) A process for the preventive maintenance of equipment and systems throughout the facility.
- (i) Staff supervision of the provision and use of cleaning tools and supplies.

To the extent possible, cleaning and janitorial supplies shall be nontoxic to humans. Any poisonous, caustic, or otherwise harmful substances used for cleaning shall be clearly labeled and kept in a locked storage area.

802.3 SANITATION SCHEDULE

A daily, weekly, and monthly cleaning schedule will be established by the housing unit supervisor. The facility staff should implement a site-specific plan for cleaning and maintenance of each area of the jail (e.g., housing, food preparation, laundry, loading dock/trash storage, barber shop, warehouse, common areas). The following recommendations include but are not limited to specific areas and items:

- (a) Daily cleaning:
 - 1. Sweep and then wet mop the entire jail floor
 - 2. Clean all cell block areas

CA Custody Manual

Housekeeping and Maintenance

3. Empty all trash receptacles
 4. Clean all toilets and sinks
 5. Clean all showers
- (b) Weekly cleaning:
1. Dust bars and window ledges
 2. Clean air conditioning/heating grates
 3. Clean mattresses (mattresses are also to be cleaned prior to being issued to a new incarcerated person)
 4. Pour water down floor drains to test for flow
- (c) Monthly cleaning:
1. Walls
 2. Ceilings
 3. Bunk pans

802.4 TRAINING

All custodial staff and incarcerated workers assigned cleaning duties shall receive instruction commensurate with their tasks, including proper cleaning techniques, the safe use of cleaning chemicals, and areas of responsibility.

802.5 INSPECTION CHECKLIST

The Jail Commander or the authorized designee should develop an inspection checklist that includes the cleaning and maintenance items that will be checked by supervisors on a daily, weekly and monthly basis throughout the facility.

The inspection checklist will closely correspond to the established cleaning and maintenance schedule.

Inspection checklists shall be forwarded to the Jail Commander or the authorized designee for annual review, filing and retention as required by the established records retention schedule.

802.6 POLICY

It is the policy of this department to maintain a sanitation and preventive maintenance schedule to keep the facility clean and in good repair.

Physical Plant Compliance with Codes

803.1 PURPOSE AND SCOPE

The purpose of this policy is to establish the timeline, process and responsibilities for facility maintenance, inspections and equipment testing in compliance with all applicable federal, state and local building codes.

803.2 POLICY

It is the policy of this department that all construction of the physical plant (renovations, additions, new construction) will be reviewed and inspected in compliance with all applicable federal, state and local building codes. All equipment and mechanical systems will be routinely inspected, tested and maintained in accordance with applicable laws and regulations.

803.3 COMPLIANCE WITH CODES AND STATUTES

Plumbing, sewage disposal, solid waste disposal and plant maintenance conditions will comply with rules and regulations imposed by state regulatory entities governing such practices.

803.4 RESPONSIBILITIES

The Jail Commander shall be responsible for establishing and monitoring the facility maintenance schedule, the inspection schedules of the Shift Supervisors and correctional officers, and ensuring that any deficiencies discovered are corrected in a timely manner.

Copies of the local jurisdiction's applicable health and sanitation codes shall be kept in the facility by the Jail Commander or the authorized designee. The Jail Commander or the authorized designee is responsible for developing internal health and sanitation inspection checklists, for maintaining valid licensing and sanitation certificates and inspection reports, and for proof of corrective actions.

803.5 PROCEDURE

All safety equipment (e.g., emergency lighting, generators, and an uninterruptible power source (UPS)) shall be tested at least quarterly. Power generators and UPS equipment should be inspected weekly and load-tested quarterly or according to the manufacturer's instructions. All completed inspection forms shall be kept on file for review by the appropriate department committees or external agencies.

Any remodeling or new construction shall have prior approval of the local fire, building, and health authorities. Any required plans and permits will be procured prior to the commencement of any changes to the facility.

The following areas of the facility shall be inspected and evaluated for functionality, wear, and rodent or pest infestation. The list is not meant to be all-inclusive:

- Admissions
- Food services

- Incarcerated person housing
- Laundry
- Barbershop
- Loading dock/trash storage
- Warehouse
- Water systems and plumbing
- Emergency generators
- Fire safety equipment
- The entire physical structure of the facility, including roof, walls, exterior doors, mechanical systems, and lighting

803.6 PLUMBING - FLOOR DRAINS

Floor drains must be flushed weekly and all traps must contain water to prevent the escape of sewer gas. Grids and grates must be present.

Water Supply

804.1 PURPOSE AND SCOPE

The Colusa County Sheriff's Department recognizes the importance of providing the facility with safe, potable water. The purpose of this policy is to establish guidelines for testing the facility's water to ensure that the water is safe to consume.

804.2 POLICY

In compliance with standards set by law, this facility will ensure the continued supply of safe potable water for use by incarcerated persons, staff, and visitors through rigorous annual testing of water supplies (42 USC § 300f et seq.).

804.3 PROCEDURE

The Jail Commander shall ensure that the facility's potable water source is tested by an independent public or private testing service at least once each year. Water quality will be certified to be in compliance with all state and local regulations. Corrective measures shall be promptly taken if the test results fall below acceptable regulatory standards.

In the event that water testing reveals any significant hazards to the incarcerated persons or staff at the facility, the Sheriff, Jail Commander, and the Department health authority shall take immediate action to mitigate the problem.

The testing results, valid certificates of the sampling entity, and the testing laboratory shall be kept in accordance with established records retention schedules.

Where the facility's water supply is obtained from a private source, the source shall be properly located, constructed, and operated to protect it from contamination and pollution, and the water shall meet all current standards set by the applicable state and/or local authority regarding bacteriological, chemical, and physical tests for purity.

For facilities not served by a public or regulated private water supply, the water should be tested daily by the local authority within the facility's jurisdiction.

804.4 EMERGENCY PLAN

The Jail Commander and the Department health authority shall develop a plan for the supply of potable water for drinking and cooking in the event that a man-made or natural disaster interrupts the regular water supply. The plan shall address methods for providing clean potable water for a minimum of three days, and should have contingency plans for emergencies lasting longer than three days. The plan should also include contingencies for the use of non-potable water to flush toilets and remove effluent from the facility.

Vermin and Pest Control

805.1 PURPOSE AND SCOPE

The purpose of this policy is to establish inspection, identification and eradication processes designed to keep vermin and pests controlled in accordance with the requirements established by all applicable laws, ordinances and regulations of the local public health entity.

805.2 POLICY

It is the policy of this department that vermin and pests be controlled within the facility. The Jail Commander or the authorized designee shall be responsible for developing and implementing this policy, in cooperation with the Responsible Physician and the local public health entity, for the sanitation and control of vermin and pests, and to establish medical protocols for treating incarcerated person clothing, personal effects, and living areas, with specific guidelines for treating an infested incarcerated person (15 CCR 1212; 15 CCR 1264).

805.3 PEST CONTROL SERVICES

The Jail Commander or the authorized designee shall be responsible for procuring the services of a licensed pest control professional to perform inspections of the facility and to treat areas as required to ensure that vermin and pests are controlled.

805.4 PREVENTION AND CONTROL

Many infestations and infections are the result of a recently admitted incarcerated person who is vermin-infested or whose property is vermin-infested. Most infestations are spread by direct contact with an infected person or with infested clothing and bedding. Incarcerated persons with lice or mites should be treated with approved pediculicides as soon as the infestation is identified to avoid spreading it. To reduce the chance of further transmission, separate quarters for incarcerated persons undergoing treatment for lice should be used as described in the Communicable Diseases Policy.

Because the use of the treatment chemicals can cause allergic reactions and other negative effects, treatment should be done only when an infestation is identified and not as a matter of routine.

Clothing, bedding, and other property that is suspected of being infested shall either be removed from the facility or cleaned and treated by the following methods, as appropriate or as directed by the pest control provider or the Responsible Physician (15 CCR 1264):

- Washing in water at 140 degrees for 20 minutes
- Tumbling in a clothes dryer at 140 degrees for 20 minutes
- Dry cleaning
- Storing in sealed plastic bags for 30 days
- Treating with an insecticide specifically labeled for this purpose

Colusa County Sheriff's Department

CA Custody Manual

Vermin and Pest Control

Head lice and their eggs are generally found on the head hairs. There may be some uncertainty about the effectiveness of some available pediculicides to kill the eggs of head lice. Therefore, some products recommend a second treatment seven to 10 days after the first. During the interim, before the second application, eggs of head lice could hatch and there is a possibility that lice could be transmitted to others.

Pubic lice and their eggs are generally found on the hairs of the pubic area and adjacent hairy parts of the body, although they can occur on almost any hairy part of the body, including the hair under the arm and on the eyelashes.

Pubic lice and their eggs are generally successfully treated by the available pediculicides. However, when the eyelashes are infested with pubic lice and their eggs, a physician should perform the treatment.

Successful treatment depends on careful inspection of the incarcerated person and proper application of the appropriate product. The area used to delouse incarcerated persons needs to be separate from the rest of the facility. All of the surfaces in the treatment area must be sanitized. There must be a shower as part of the delousing area.

The supervisor shall document the date of treatment, the area treated, the pest treated, and the treatment used.

805.5 LABELING AND SECURE STORAGE OF COMPOUNDS

Containers of pest exterminating compounds shall be conspicuously labeled for identification of contents. The containers shall be securely stored separately from food and kitchenware, and shall not be accessible by incarcerated persons.

Incarcerated Person Safety

806.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a safety program to reduce incarcerated person injuries by analyzing causes of injuries and identifying and implementing corrective measures.

806.2 RESPONSIBILITIES

The Sheriff shall appoint a staff member who will be responsible for the development, implementation, and oversight of the safety program. This program will include but not be limited to (15 CCR 1280):

- A system to identify and evaluate hazards, including scheduled inspections to identify unsafe conditions.
- Analysis of incarcerated person injury reports to identify causes and recommend corrective actions.
- Establishment of methods and procedures to correct unsafe and/or unhealthful conditions and work practices in a timely manner.

806.3 INVESTIGATION OF REPORTED INCARCERATED PERSON INJURY

Whenever there is a report of an injury to an incarcerated person that is the result of accidental or intentional acts, other than an authorized use of force by custody staff, the Sheriff or the authorized designee will initiate an investigation to determine the cause of the injury and develop a plan of action whenever a deficiency is identified. Injuries resulting from use of force incidents will be investigated and reported in accordance with the Use of Force Policy.

806.4 INVESTIGATION REPORTS

The Shift Supervisor shall ensure that reports relating to an incarcerated person's injury are completed and should include the following:

- Incident reports
- Investigative reports
- Health record entries
- Any other relevant documents

806.5 ANNUAL REVIEWS

The Sheriff or the authorized designee shall conduct an annual review of all injuries involving incarcerated persons for the purpose of identifying problem areas and documenting a plan of action to abate circumstances relating to incarcerated person injuries.

The plan of action should include but not be limited to:

- The area where the deficiencies have been identified.
- Strategies to abate the deficiency.

Colusa County Sheriff's Department

CA Custody Manual

Incarcerated Person Safety

- Resources needed to correct a deficiency.
- The person or persons responsible for taking corrective action and the target completion date.

The Sheriff shall consult with the Department risk manager to coordinate corrective action or to seek managerial/administrative guidance for implementing corrective action.

806.6 POLICY

It is the policy of the Colusa County Sheriff's Department to provide a safe environment for individuals confined at this facility, in accordance with all applicable laws, by establishing an effective safety program, investigating incarcerated person injuries, and taking corrective actions as necessary to reduce accidents and injury.

Incarcerated Person Hygiene

807.1 PURPOSE AND SCOPE

This policy outlines the procedures that will be taken to ensure the personal hygiene of every incarcerated person in the Colusa County Sheriff's Department jail is maintained. The Colusa County Sheriff's Department recognizes the importance of each incarcerated person maintaining acceptable personal hygiene practices by providing adequate bathing facilities and hair care services, and the issuance and exchange of clothing, bedding, linens, towels, and other necessary personal hygiene items.

807.2 POLICY

It is the policy of the Colusa County Sheriff's Department facility to maintain a high standard of hygiene in compliance with the requirements established by all state laws, ordinances, and regulations (15 CCR 1069). Compliance with laws and regulations relating to good incarcerated person hygiene practice is closely linked with good sanitation practices. Therefore, the need to maintain a high level of hygiene is not only for the protection of all incarcerated persons, but for the safety of the correctional staff, volunteers, contractors, and visitors.

807.3 STORAGE SPACE

There should be adequate and appropriate storage space for incarcerated person bedding, linen, or clean clothing. The inventory of clothing, bedding, linen, and towels should exceed the maximum incarcerated person population so that a reserve is always available (15 CCR 1263).

The facility should have clothing, bedding, personal hygiene items, cleaning supplies, and any other items required for the daily operation of the facility, including the exchange or disposal of soiled or depleted items. The assigned staff shall ensure that the storage areas are properly maintained and stocked. The Jail Commander should be notified if additional storage space is needed.

807.3.1 BEDDING ISSUE

Upon entering a living area of the Colusa County Sheriff's Department jail, every incarcerated person who is expected to remain overnight shall be issued bedding and linens including but not limited to (15 CCR 1270):

- (a) Sufficient freshly laundered blankets to provide comfort under existing temperature conditions. Blankets shall be exchanged and laundered in accordance with facility operational laundry rules.
- (b) One clean, firm, nontoxic, fire-retardant mattress (16 CFR 1633.1 et seq.).
 - 1. Mattresses will be serviceable and enclosed in an easily cleanable, nonabsorbent material and conform to the size of the bunk. Mattresses will be cleaned and disinfected when an incarcerated person is released or upon reissue.

Colusa County Sheriff's Department

CA Custody Manual

Incarcerated Person Hygiene

2. Mattresses shall meet the most recent requirements of the State Fire Marshal, the Bureau of Home Furnishings' test standard for penal mattresses, and any other legal standards at the time of purchase (15 CCR 1272).
 3. Mattresses shall be free of holes and tears. Mattresses with holes, tears, or that lack sufficient padding shall be replaced upon request with mattresses that meet the requirements of 15 CCR 1270 (15 CCR 1271).
- (c) One freshly laundered sheet.
1. Two blankets or a sleep bag may be issued in place of one mattress cover or one sheet at the request of the incarcerated person.
- (d) One clean bath towel.

Linen exchange, including towels, shall occur at least weekly and shall be documented in the daily activity log (15 CCR 1271). The Shift Supervisor shall review the daily activity log at least once per shift.

The Jail Commander or the authorized designee shall conduct both scheduled and unannounced inspections of the facility to ensure that bedding issuance policies and procedures are carried out in accordance with the applicable laws and regulations.

807.3.2 CLOTHING ISSUE

An incarcerated person admitted to the facility for 72 hours or more and assigned to a living unit shall be issued a set of facility clothing. The issue of clothing appropriate to the climate for incarcerated persons shall include but is not limited to: (15 CCR 1260):

- Clean socks.
- Clean outer garments.
- Clean undergarments (e.g., shorts, undershirt, bra and two pairs of panties).
- Footwear.

Incarcerated persons who are issued a change of clothing upon admission to the facility may have their personal clothing returned after laundering, at the discretion of the Jail Commander.

All issued and exchanged clothing shall be clean and free of holes or tears, reasonably fitted, durable, and easily laundered and repaired. Undergarments shall be clean, free of holes or tears, and substantially free of stains. Individuals shall be able to select the garment type more compatible with their gender identity and gender expression (15 CCR 1260).

Clothing shall be exchanged twice each week, at a minimum (15 CCR 1262). All exchanges shall be documented on the daily activity log. The Shift Supervisor or unit supervisor shall review the daily activity log at least once per shift.

Additional clothing may be issued as necessary for changing weather conditions or as seasonally appropriate. An incarcerated person's personal undergarments and footwear may be substituted

Colusa County Sheriff's Department

for the institutional undergarments and footwear, provided there is a legitimate medical necessity for the items and they are approved by the medical staff.

Each incarcerated person assigned to a special work area, such as food services, medical, farm, sanitation, mechanical, and other specified work, shall be clothed in accordance with the requirements of the job, including any appropriate protective clothing and equipment, which shall be exchanged as frequently as the work assignment requires. All issued clothing shall be clean, free of holes and tears (15 CCR 1261).

The Jail Commander or the authorized designee shall conduct both scheduled and unannounced inspections of the facility to ensure that clothing issuance policies and procedures are carried out in accordance with the applicable laws and regulations.

The Jail Commander or the authorized designee shall ensure that the facility maintains a sufficient inventory of extra clothing to ensure each incarcerated person shall have neat and clean clothing appropriate to the season.

An incarcerated person's excess personal clothing shall be mailed, picked up by, or transported to a designated family member or stored in containers designed for such purpose. All incarcerated person personal property shall be properly identified, inventoried, and secured. Incarcerated persons shall sign and receive a copy of the inventory record.

807.4 LAUNDRY SERVICES

Laundry services shall be managed so that daily clothing, linen and bedding needs are met.

807.5 INCARCERATED PERSON ACCOUNTABILITY

To ensure incarcerated person accountability, incarcerated persons are required to exchange item for item when clean clothing, bedding, and linen exchange occurs.

Prior to being placed in a housing unit, incarcerated persons shall be provided with an incarcerated person handbook listing this requirement.

807.6 PERSONAL HYGIENE OF INCARCERATED PERSONS

Personal hygiene items, hair care services, and facilities for showers will be provided in accordance with applicable laws and regulations. This is to maintain a standard of hygiene among incarcerated persons in compliance with the requirements established by state laws as part of a healthy living environment.

Each incarcerated person held more than 24 hours who does not have the following personal care items because of either indigency or the absence of an incarcerated person canteen shall be issued the following items (15 CCR 1265):

- Toothbrush
- Dentifrice
- Soap
- Comb

Colusa County Sheriff's Department

CA Custody Manual

Incarcerated Person Hygiene

- Shaving implements

The Jail Commander or the authorized designee may modify this list to accommodate the use of liquid soap and shampoo dispensers. Personal hygiene items should be appropriate for the incarcerated person's gender. Sanitary pads, panty liners, and tampons will be provided to all incarcerated persons as requested at no cost and no maximum allowance (Penal Code § 4023.5). Additional hygiene items shall be provided to incarcerated persons upon request, as needed.

Personal care items shall be issued within the first 12 hours of a housing assignment. Incarcerated persons shall not be required to share personal care items or disposable razors (15 CCR 1265). Used razors are to be disposed into approved sharps containers. Other barbering equipment capable of breaking the skin must be disinfected between individual uses, as prescribed by the California Board of Barbering and Cosmetology to meet the requirements of 16 CCR 979 and 16 CCR 980 (15 CCR 1267(c)).

Incarcerated persons, except those who may not shave for reasons of identification in court, shall be allowed to shave daily (15 CCR 1267(b)). The Jail Commander or the authorized designee may suspend this requirement for any incarcerated person who is considered a danger to others.

807.7 BARBER AND COSMETOLOGY SERVICES

The Jail Commander or the authorized designee shall be responsible for developing and maintaining a schedule for hair care services provided to the incarcerated person population and will have written policies and procedures for accessing these services (see the Grooming Policy). The Jail Commander shall ensure that the rules are included in the incarcerated person handbook.

807.7.1 SCHEDULE FOR HAIR CARE SERVICES

Incarcerated persons shall have the ability to receive hair care services once per month (15 CCR 1267(b)). Records of hair care services shall be documented in the daily activity log.

Prior to being placed in a housing unit, incarcerated persons will be given an incarcerated person handbook, which details how to request hair care services.

807.8 AVAILABILITY OF PLUMBING FIXTURES

Incarcerated persons confined to cells or sleeping areas shall have access to toilets and washbasins with hot and cold running water that is temperature controlled. Access shall be available at all hours of the day and night without staff assistance.

The minimum number of plumbing fixtures provided for incarcerated persons in housing units is:

- One sink/washbasin for every 10 incarcerated persons (24 CCR 1231.3.2(2)).
- One toilet to every 10 incarcerated persons (urinals may be substituted for up to one-third of the toilets in facilities for male incarcerated persons) (24 CCR 1231.3.1).

807.9 INCARCERATED PERSON SHOWERS

Incarcerated persons will be allowed to shower upon assignment to a housing unit and at least every other day thereafter, or more often if possible. Absent exigent circumstances, no person

Colusa County Sheriff's Department

shall be prohibited from showering at least every other day following assignment to a housing unit. If showering is prohibited, it shall be approved by the Jail Commander or the authorized designee, and the reasons for prohibition shall be documented (15 CCR 1266).

There should be one shower for every 20 incarcerated persons unless federal, state, or local building or health codes differ. Showering facilities for incarcerated persons housed at this facility shall be clean and properly maintained. Water temperature shall be periodically measured to ensure a range of 100 to 120 degrees for the safety of incarcerated persons and staff, and shall be recorded and maintained (24 CCR 1231.3.4).

Transgender and intersex incarcerated persons shall be given the opportunity to shower separately from other incarcerated persons (28 CFR 115.42).

807.10 DELOUSING MATERIALS

Delousing materials and procedures shall be approved through consultation with the Responsible Physician or qualified health care professionals.

807.11 RESPONSIBILITIES

Chapter 9 - Food Services

Food Services

900.1 PURPOSE AND SCOPE

900.4 MENU PLANNING

All menus shall be planned, dated, and available for review at least one month in advance of their use. Records of menus and of foods purchased shall be kept on file for one month. Menus shall provide a variety of foods and should consider food flavor, texture, temperature, appearance, and palatability. The dietitian shall ensure that the meals meet the nutritional and hot food requirements of 15 CCR 1240 and 15 CCR 1241(15 CCR 1242).

Colusa County Sheriff's Department

CA Custody Manual

Food Services

Any changes to the meal schedule, menu, or practices should be carefully evaluated by the food services manager in consultation with the Jail Commander, dietician, medical staff, and other professionals, and shall be recorded. All substitutions will be of equal or better nutritional value and meet the caloric requirements set forth in 15 CCR 1241. If any meal served varies from the planned menu, the change shall be noted in writing on the menu and/or production sheet.

Menus as planned, including changes, shall be evaluated by a registered dietitian at least annually (15 CCR 1242). Facility menus shall be evaluated at least quarterly by the food services supervisory staff to ensure adherence to established daily servings.

Copies of menus, foods purchased, annual reviews, and quarterly evaluations should be maintained by the food services manager in accordance with established records retention schedules.

900.5 FOOD SAFETY

Temperatures in all food storage areas should be checked and recorded at the beginning of each shift, but shall be checked and recorded at least once daily. Holding temperatures for cold and hot foods shall be checked and recorded every two hours. Hot food shall be reheated to 165 degrees if it falls below 135 degrees at any time.

All reach-in or walk-in refrigerators and cold storage must maintain food temperature as outlined in the Food Storage Policy.

One sample for each meal served shall be dated and maintained under refrigeration for testing in the event of a food-borne illness outbreak. Sample meals shall be discarded at the end of three days if no food-borne illness is reported.

Food production shall be stopped immediately if there is any sewage backup in the preparation area or if there is no warm water available for washing hands. Food production shall not resume until these conditions have been corrected (15 CCR 1245(a)).

900.6 THERAPEUTIC DIETS

The food services manager shall be responsible for ensuring that all incarcerated persons who have been prescribed therapeutic diets by qualified health care professionals are provided with compliant meals. A therapeutic diet manual, which includes samples of medical diets, shall be maintained in the health services and food services areas for reference and information.

More complete information may be found in the Prescribed Therapeutic Diets Policy.

Persons who are known to be pregnant or lactating shall be provided a balanced, nutritious diet approved by a physician (15 CCR 1248).

All reasonable efforts shall be made to protect incarcerated persons from food-borne illness. Food services staff shall adhere to sanitation and food storage practices and there shall be proper medical screening and clearance of all food handlers in accordance with the Food Services Workers' Health, Safety and Supervision Policy (15 CCR 1230).

Food production and services will be under staff supervision. Food production, storage, and food-handling practices will follow the appropriate federal, state, or local sanitation laws (15 CCR 1246).

900.9 MEAL SERVICE PROCEDURE

Incarcerated person meals that are served in a dining room or dayroom should be provided in space that allows groups of incarcerated persons to dine together, with a minimum of 15 square feet of space per incarcerated person. A dining area shall not contain toilets or showers in the same room without appropriate visual barriers.

Meals shall be served at least three times during each 24-hour period. At least one meal must include hot food. Any deviation from this requirement shall be subject to the review and approval of a registered dietitian to ensure that incarcerated persons receive meals that meet nutritional guidelines.

Incarcerated persons must be provided a minimum of 15 minutes dining time for each meal. There must be no more than 14 hours between a substantial evening meal and breakfast. A substantial evening meal is classified as a serving of three or more menu items at one time, including a high-quality protein, such as meat, fish, eggs, or cheese. The meal shall represent no less than 20 percent of the day's total nutrition requirements. If more than 14 hours pass between meals, approved snacks will be provided. If a nourishing snack is provided at bedtime, up to 16 hours may elapse between the substantial evening meal and breakfast. A nourishing snack is classified as a combination of two or more food items from two of the four food groups, such as cheese and crackers or fresh fruit and cottage cheese.

Incarcerated persons who miss, or may miss, a regularly scheduled meal must be provided with a beverage and a sandwich or substitute meal. Approved snacks should be served to incarcerated persons on medical diets in less than the 14-hour period if prescribed by the Responsible Physician or registered dietitian. Incarcerated persons on medical or therapeutic meals who miss their regularly scheduled meal will be provided with their prescribed meal (15 CCR 1240).

As the meal time approaches, facility staff should direct the incarcerated persons to get dressed and be ready for meals. Incarcerated persons should be assembled and a head count taken, to verify all incarcerated persons in the housing location are present. Staff should be alert to signs of injury or indications of altercations, and should investigate any such signs accordingly. Staff should remain alert to the potential for altercation during incarcerated person movement and meals. Meals shall be served under the direct supervision of staff.

Colusa County Sheriff's Department

CA Custody Manual

Food Services

Staff should direct an orderly filing of incarcerated persons to the dining room or assigned seating in the dayroom. Staff should identify incarcerated persons who have prescribed therapeutic or authorized religious diets so those incarcerated persons receive their meals accordingly.

It shall be the responsibility of the correctional officers to maintain order and enforce rules prohibiting excessive noise and intimidation of other incarcerated persons to relinquish food during mealtime.

The dining room shall have an area designated for incarcerated persons who have been prescribed a longer time to eat by qualified health care professionals, a dietitian, or as deemed appropriate by a supervisor.

To the extent reasonably practical, an adequate number of food services staff and correctional personnel should supervise meal service in central dining areas. If reasonably possible, the supervisor should be present.

The Shift Supervisor should make every attempt to be present during meal services in central dining areas to assess the meal service process, the quality of food, and any health or security issues.

In the interest of security, sanitation, and vermin control, incarcerated persons shall not be allowed to take food from the dining area to their housing areas.

900.10 EMERGENCY MEAL SERVICE PLAN

The food services manager shall establish and maintain an emergency meal service plan for the facility (15 CCR 1243(k)).

Such a plan should ensure that there is at least a seven-day supply of food maintained in storage for incarcerated persons. In the event of an emergency that precludes the preparation of at least one hot meal per day, the Jail Commander may declare an "Emergency Suspension of Standards" pursuant to 15 CCR 1012 for the period of time the emergency exists.

During an emergency suspension, the food services manager shall assign a registered dietician to ensure that minimum nutritional and caloric requirements are met (15 CCR 1242). The Jail Commander shall notify the Board of State and Community Corrections (BSCC) in writing in the event the suspension lasts longer than three days. The emergency suspension of food service standards shall not continue more than 15 days without the approval of the chairperson of the BSCC (15 CCR 1012).

In the event that the incarcerated person food supply drops below that which is needed to provide meals for two days, the Jail Commander or the authorized designee shall purchase food from wholesale or retail outlets to maintain at least a four-day supply during the emergency.

Depending on the severity and length of the emergency, the Sheriff should consider requesting assistance from allied agencies through mutual aid or the National Guard.

Food Services Training

901.1 PURPOSE AND SCOPE

The purpose of this policy is to reduce the risk of potential injury to staff, contractors, and incarcerated workers in the food services areas by developing and implementing a comprehensive training program in the use of equipment and safety procedures.

901.2 POLICY

The Colusa County Sheriff's Department ensures a safe and sanitary environment is maintained for the storage and preparation of meals through the appropriate training of food services staff and incarcerated workers (15 CCR 1230; 15 CCR 1243(g); 15 CCR 1245(a)).

901.3 TRAINING

The food services manager, under the direction of the Jail Commander, is responsible for ensuring that a training curriculum is developed and implemented in the use of equipment and safety procedures for all food services personnel, including staff, contractors, and incarcerated workers.

The training shall include, at minimum:

- (a) Work safety practices and use of safety equipment.
- (b) Sanitation in the facility's food services areas.
- (c) Reducing risks associated with operating machinery.
- (d) Proper use of chemicals in food services areas.
- (e) Employing safe practices.
- (f) Facility emergency procedures.

A statement describing the duties and proper time schedule should be developed for each job function in the facility's kitchen and food services operation. The food services manager, at the direction of the Jail Commander, shall establish an employee/kitchen worker training course, and all staff or incarcerated workers shall be trained on how to assemble, operate, clean, and sanitize kitchen equipment.

Information about the operation, cleaning, and care of equipment, including manufacturer's literature, that is suitable for use as reference material shall be kept in the food services operation area. The reference material should be used in developing training on the use of the equipment and the maintenance and cleaning procedures.

Safety and sanitation shall be the primary consideration in equipment purchase and replacement. Placement and installation of equipment must be carefully planned to facilitate cleaning, sanitizing, service, and repairs. The equipment must also meet any applicable government codes.

901.4 TESTING

A test should be developed to determine and document that the food services worker understands the proper procedures demonstrated during training. Food services workers are required to pass

Colusa County Sheriff's Department

CA Custody Manual

Food Services Training

the test in order to work in the food services area. Upon achievement of a passing score, the food services worker shall acknowledge receipt of the training in writing. The signed document shall be forwarded to the Training Officer and retained in the worker's training file. Contracted service providers should be required to provide documentation and certification of their employees. Only trained personnel are authorized to use food services equipment.

901.5 BRIEFING TRAINING

The food services manager should consider daily briefing training as a method of staff development. Regular and repetitive trainings of short duration (8 to 10 minutes) at the beginning of each shift are an effective and cost efficient way to maintain the competency of staff. A lesson plan and record of attendance should be incorporated into the briefing training. Records of all training, including training for contract workers, should be forwarded to the Training Officer and maintained in the worker's training files in accordance with established records retention schedules.

Dietary Guidelines

Any deviation from these guidelines shall be reviewed by the Sheriff and/or the Jail Commander and the Responsible Physician.

The food services manager or the authorized designee shall ensure that the facility's menus and dietary allowances are evaluated annually by a registered dietitian, and that any changes meet the DRI and DGA guidelines. A registered dietitian must approve menus before they are used (15 CCR 1242).

Menus should be evaluated at least quarterly by the food services manager or the authorized designee.

902.4 MENU CYCLE PLANNING

The food services manager or the authorized designee should plan the menus one month in advance of their use.

Food Storage

908.1 PURPOSE AND SCOPE

The purpose of this policy is to establish food storage methods that are designed to meet manufacturer's recommendations, Health and Safety Codes, state laws and local ordinances, and to safely preserve food, extend storage life and reduce food waste.

908.2 POLICY

Food and food supplies will be stored in sanitary and temperature-controlled areas in compliance with state and local health laws and standards (15 CCR 1243(c); 15 CCR 1245(a)).

908.3 PROCEDURES

The food services manager shall be responsible for establishing procedures to ensure the safe preservation and storage of food in the most cost-effective manner, beginning with the receipt of the raw materials through the delivery of prepared meals.

When receiving food deliveries, food services staff shall inspect the order for quality and freshness, and shall ensure that the order is correct by checking the order received against the order form. All delivery vehicles shall be inspected by food services staff to make certain that the vehicles are clean, free from vermin infestations and are maintained at the appropriate temperature for the type of food being carried.

If food quality and freshness do not meet commonly accepted standards or if it is determined that proper storage temperatures have not been maintained, the employee checking the order in will refuse the item and credit the invoice.

Any food destined for return to the vendor should be stored separately from any food destined for consumption. The food services manager will contact the vendor and arrange for replacement of the unacceptable food items.

Storage temperatures in all food storage areas should be checked and logged on a daily basis. Records of the temperature readings should be maintained in accordance with established records retention schedules.

An evaluation system should be established for food stored in any area with temperature readings outside the normal range, and should include contingency plans for menu changes, food storage relocation or food destruction, as indicated. All actions taken to ensure the safety of the food served should be documented and retained in accordance with established records retention schedules.

908.4 DRY FOOD STORAGE

Canned items and dry food that does not need refrigeration should be stored in a clean, dry, secure storage area where temperatures are maintained between 45 and 80 degrees. Temperatures shall be monitored and recorded once each day on a checklist.

Food Storage

All dry items shall be stored at least 6 inches off the floor and at least 6 inches away from any wall. Only full unopened cans and containers shall be stored in the storerooms. Open containers and packages shall be appropriately stored in the working or holding areas.

All storage areas will be kept locked when they are not in actual use. New food shipments shall be placed behind existing like items and rotated using a first-in first-out rotation method.

Personal clothing and personal items shall not be stored in food storage areas.

908.4.1 MAINTENANCE OF DRY FOOD STORAGE AREAS

Incarcerated workers or staff should clean the storage areas at least once each day by sweeping and mopping all floors and wiping down shelves and walls. Any damaged items should be inspected for spoilage and repackaged or discarded as appropriate. Food services staff should inspect the storage areas to ensure they are clean and orderly. Staff will document the inspection and record the daily temperature on the storage area checklist (15 CCR 1243(m)).

908.5 REFRIGERATED AND FROZEN STORAGE

Unless health codes dictate otherwise, refrigerators must be kept between 32 and 41 degrees. Deep chill refrigerators will be set between 28 and 32 degrees for cook-chill products, dairy, and meat items, to extend shelf life. Other than the defrosting cycle, all freezers must maintain a temperature of 0 degrees or lower.

All freezer and refrigerator storage areas should have at least two thermometers to monitor temperatures. One thermometer should have a display visible to the outside. The second thermometer shall be placed in the warmest place inside the storage area. Daily temperature readings shall be recorded on the storage area checklist. Any variance outside of acceptable temperature range shall be immediately addressed.

All food must be covered and dated when stored. Cooked items shall not be stored beneath raw meats. Cleaned vegetables shall be stored separately from unwashed vegetables. Storage practices shall use a first-in first-out rotation method.

908.5.1 MAINTENANCE OF REFRIGERATED AND FREEZER AREAS

Refrigeration storage units should be cleaned daily, including mopping floors and wiping down walls. A more thorough cleaning should occur weekly to include dismantling and cleaning shelves. - (d) The Jail Commander and the Responsible Physician shall ensure that the diet manual, which includes sample menus of therapeutic diets, shall be available to both the health services and food services workers. A registered dietitian shall review, and the Responsible Physician shall approve, the diet manual on an annual basis.

As a best practice, all therapeutic diet prescriptions should be reviewed and rewritten, if appropriate, on a quarterly basis. This is to reduce the risk of an incarcerated person developing an adverse medical condition or nutritional defect as the result of a diet that is inconsistent with the person's current medical needs. A diet request form should be made available to incarcerated persons.

Pregnant or lactating incarcerated persons shall be provided a balanced, nutritious diet approved by a physician (15 CCR 1248).

909.3 STAFF COMMUNICATION/COORDINATION

909.4 PREPARATION AND DELIVERY OF MEALS

The food services manager or the authorized designee is responsible for reviewing the therapeutic diet lists prepared by the Responsible Physician, counting the number and type of therapeutic meals to be served, and preparing the food according to the therapeutic menu designed by the registered dietitian.

Therapeutic diets may include snacks and oral supplements. Snacks and supplements should be distributed with regularly scheduled meal service or may be distributed with medications. Individual labels or written documents containing the following information should be prepared by the kitchen, clearly identifying each meal and any included snacks:

- (a) Incarcerated person's name
- (b) Incarcerated person's identification number
- (c) Housing location or dining location where the meals will be delivered
- (d) Incarcerated person's therapeutic diet type
- (e) A list of items provided for the meal

The custody staff responsible for meal distribution shall insure that any incarcerated person who has been prescribed a therapeutic meal by the Responsible Physician or the authorized designee receives the prescribed therapeutic meal.

Therapeutic meal receipts should be retained in the incarcerated person's medical record for an amount of time necessary to resolve any dispute about the receipt or composition of a prescribed meal.

Unless a therapeutic diet was prescribed with a specific end date, only the Responsible Physician or the authorized designee may order that a therapeutic diet be discontinued.

Incarcerated persons who are receiving therapeutic diets must receive clearance from the Responsible Physician before they may receive a religious or disciplinary diet.

If prescribed by the Responsible Physician, supplemental food shall be served to incarcerated persons more frequently than the regularly scheduled meals. An incarcerated person who misses a regularly scheduled meal shall receive the prescribed meal.

909.5 THERAPEUTIC AND RELIGIOUS MEAL RECORDS

All information regarding a therapeutic diet is part of an inmate's medical record and is therefore subject to state and federal privacy laws concerning medical records.

All meal records shall be retained in accordance with established retention schedules and applicable statutory regulations.

Accounts

1002.1 PURPOSE AND SCOPE

This policy establishes guidelines and procedures for managing, handling, and accounting of all money belonging to incarcerated persons that is held for their personal use while they are incarcerated in this facility.

1002.2 INCARCERATED PERSON ACCOUNTS

A separate account will be established for each incarcerated person when they are booked into this facility.

When a person is admitted to the jail, a written, itemized inventory of the money in the person's possession shall be completed. Any subsequent deposits to the incarcerated person's fund shall be inventoried and documented. An incarcerated person shall be issued a receipt for all money held until their release.

An incarcerated person may use money in their account for bail or to purchase items from the commissary. Incarcerated persons may receive and release money while in custody. Funds will be made available to incarcerated persons for their use in accordance with the rules and regulations established by the Jail Commander.

1002.3 FUNDING SOURCES

The incarcerated person account will only accept funds for deposit from approved sources. Funds deposited into an incarcerated person's account will first be used to settle the incarcerated person's negative balance, should one exist.

1002.3.1 DEPOSITS DURING BOOKING

With the exception of legally prescribed fees (e.g., booking fees, pay to stay), all money received during the booking process shall be deposited to the incarcerated person's account after the incarcerated person signs an acknowledgement agreeing to the amount.

All monies shall be counted and verified by a correctional officer, the arresting or transporting officer and the incarcerated person. The money shall be deposited into the Kiosk machine located in the pre-booking room. If the incarcerated person's money is over one hundred (\$100.00) an additional member of the department will verify the funds.

Any monies (cash) that is not accepted by the kiosk or if the kiosk is out of service, shall be bundled and placed in the jail's safe with appropriate transmittal documentation, in accordance with Department finance rules.

1002.3.2 DEPOSITS THROUGH THE MAIL

Incarcerated persons wishing to release all or part of their personal funds to a person who is not in custody must sign a Property Release Form. The person to whom the funds are to be released must contact the assigned Booking Officer or Booking Clerk, who will prepare a cash withdrawal transaction document (Property Release Form) for the amount to be withdrawn, and will indicate to whom the money is to be released. That person must furnish a valid driver's license or state-issued identification card to the assigned Booking Officer or Booking Clerk. The assigned Booking Officer or Booking Clerk will then forward the cash withdrawal transaction document to the proper housing area for the incarcerated person's signature and approval.

The balancing of all transactions, cash activity, and itemizing of each type of transaction is kept electronically in the Trinity Fusion™ system.

All monies shall be counted, verified against any transactions, bundled, and transferred to the Sheriff's Financial Department with appropriate documentation, in accordance with Department finance rules.

Any discrepancies found during the balancing procedures shall be promptly reported to the Jail Commander and/or the Fiscal Director.

The Jail Commander or the Fiscal Director will provide direction after their review.

1002.8 SECURE BANKING OF INCARCERATED PERSON FUNDS

All monies collected by custody personnel shall be placed into the kiosk system or secured in the Jail's safe when applicable..

1002.9 AUTOMATED KIOSKS

The use of automated kiosks for the deposit of monies into the incarcerated person account or to transfer incarcerated person monies for the purchase of commissary or other authorized items will meet the financial accounting requirements of this policy and other standard financial practices.

1002.10 POLICY

It is the policy of this department to manage incarcerated person accounts for the purpose of receiving funds from authorized sources for incarcerated persons use.

Counseling Services

1003.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a process for providing counseling and crisis intervention services to incarcerated persons.

1003.2 PROCEDURE

The Jail Commander shall develop procedures to ensure counseling and crisis intervention services are available to incarcerated persons. These services may be provided by:

- (a) Medical/mental health staff assigned to the facility.
- (b) The chaplain or religious volunteers (see the Religious Programs Policy).
- (c) Correctional officers assigned to the facility who have specific training and expertise in this area.

The Jail Commander shall coordinate with the Responsible Physician to develop and confidentially maintain records of counseling and crisis intervention services provided to incarcerated persons and to ensure that those records are retained in accordance with established records retention schedules.

The Jail Commander shall ensure that request forms are available and provided to incarcerated persons who request counseling services. All incarcerated person requests for counseling shall be forwarded to the Shift Supervisor. If an incarcerated person displays behavior indicating a need for counseling or crisis intervention services, the facility employee shall notify the Shift Supervisor. The Shift Supervisor shall assess the need and area of counseling and make a reasonable effort to provide the incarcerated person with the requested counseling as soon as reasonably practicable with consideration given to facility security, scheduling, and available resources. Incarcerated persons who are victims of a sexual abuse or harassment incident will be informed of the availability and continuity of counseling (28 CFR 115.82; 28 CFR 115.83).

1003.3 NON-CRISIS COUNSELING

The Department shall, when reasonably practicable, make counseling services available to assist incarcerated persons who are being released into the community.

1003.4 POLICY

It is the policy of this department to provide counseling and crisis intervention services to any incarcerated person who either requests services or is determined by a health care provider to be in need of counseling or crisis intervention services.

Exercise and Out of Cell Time

1004.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines and procedures ensuring that the Colusa County Sheriff's Department facility will have sufficiently scheduled exercise and out of cell time periods and sufficient space for these activities, as required by law.

1004.1.1 DEFINITIONS

Definitions related to this policy include (15 CCR 1006):

Exercise - The opportunity for physical exertion.

Out of Cell Time - Time spent outside of the sleeping area, where an individual has the opportunity to exercise or participate in recreation.

Recreation - An individual's ability to choose from activities that occupy the attention and offer the opportunity for relaxation and may include reading, games, socialization, entertainment, education, and programs.

1004.2 RESPONSIBILITIES

The Jail Commander or the authorized designee shall be responsible for ensuring there is sufficient secure space allocated for physical exercise and out of cell time, and that a schedule is developed to ensure accessibility to both activities for all incarcerated persons. At least three hours per week of exercise opportunities shall be provided and at least seven hours of out of cell time distributed over a period of seven days for recreation (15 CCR 1065).

1004.3 ACCESS TO EXERCISE

Incarcerated persons shall have access to exercise opportunities and equipment, including access to physical exercise outside the cell and adjacent dayroom areas, and the opportunity to exercise outdoors when weather permits.

The Shift Supervisor shall use the approved daily log sheet to document when incarcerated persons of like classification status are scheduled to exercise each day and shall record the exercise of an incarcerated person, or that the incarcerated person has declined outside exercise.

Log sheets shall be maintained in accordance with established records retention schedules.

1004.4 ACCESS TO OUT OF CELL TIME

Each incarcerated person shall have access to the minimum state-required out of cell time (leisure-time) activities outside the cell and adjacent dayroom areas (15 CCR 1065). The length of time will be determined by the incarcerated person's classification status, security concerns, and operational schedules that preclude out of cell time during a period of time (e.g., meal times, searches, lockdown, court). The staff should ensure that the maximum time possible is provided to the incarcerated persons for this purpose.

Colusa County Sheriff's Department

CA Custody Manual

Exercise and Out of Cell Time

Televisions, newspapers, table games, and other items may also be made available to enhance out of cell time. Consideration will be given to the passive or active out of cell time needs of older incarcerated persons and incarcerated persons with disabilities.

1004.4.1 USE OF THE INCARCERATED PERSON WELFARE FUND

Monies derived from the Incarcerated Person Welfare Fund may be used to purchase and maintain equipment and supplies.

1004.5 SECURITY AND SUPERVISION

The staff supervising incarcerated persons during exercise and out of cell time shall document when each incarcerated person has the opportunity to exercise or recreate, and when each incarcerated person actually participates.

Staff shall be responsible for inspecting exercise equipment to ensure it appears safe for use. Broken equipment or equipment that is in an unsafe condition shall not be used. Incarcerated persons will not be permitted to use equipment without supervision. All equipment shall be accounted for before incarcerated persons are returned to their housing unit.

The supervising staff may terminate the exercise or out of cell time period and escort back to the housing unit any incarcerated person who continues to act in an aggressive or disorderly manner after being ordered to stop by the staff. Whenever an exercise or out of cell time period is involuntarily terminated, the staff will document the incident and rationale for terminating the exercise period. The Shift Supervisor will determine whether disciplinary action is warranted.

1004.6 EXERCISE SPACE

Exercise areas, as specified by federal, state, and/or local laws or requirements, should be sufficient to allow each incarcerated person the required minimum amount of exercise. Use of outdoor exercise is preferred but weather conditions may require the use of covered/enclosed space. Dayroom space is not considered exercise space.

Incarcerated persons on separation status shall have access to the same facilities as other incarcerated persons unless security or safety considerations dictate otherwise. When incarcerated persons on separation status are excluded from use of regular facilities, the alternative area for exercise use shall be documented.

1004.7 INABILITY TO MEET REQUIREMENTS

In the event that the incarcerated person population exceeds the ability of the facility to meet the exercise and out of cell time requirements, the facility should notify the governing body about the deficiency in space for exercise, that it may violate the law and/or the requirements, and request funds to remedy the situation. The facility should document all action taken to try to remedy the situation, including funding requests, population reduction requests, and all responses to those requests.

Exercise and Out of Cell Time

1004.8 POLICY

It is the policy of this department to provide incarcerated persons with access to exercise opportunities, exercise equipment, and out of cell time activities in accordance with state laws or requirements.

Education, Vocation, and Rehabilitation

1005.1 PURPOSE AND SCOPE

This department provides educational and vocational programs that are designed to help incarcerated persons improve personal skills, assist in their social development, and improve employability after release. The ability of the department to offer educational programs is dictated by available funding, incarcerated person classification, and other required incarcerated person programs and routines.

1005.2 PROGRAM REQUIREMENTS

Designated space for incarcerated person education and vocational programs will, whenever practicable, be designed with input from educational/vocational service providers.

Adequate funding is required. If the funding source reduces or eliminates funding in these areas, educational and/or vocational programs may be reduced or eliminated.

While the housing classification of an incarcerated person has the potential to pose security issues, every effort, to the extent reasonably practicable, will be made to provide individualized educational opportunities (15 CCR 1061).

1005.3 PROGRAMS OFFICER

The Programs Officer shall be appointed by the Sheriff or the authorized designee and shall be responsible for managing all aspects of the educational and vocational program. Those duties include but are not limited to:

 - 4. Auto body and painting
 - 5. Basic auto repair
 - 6. Basic office skills
- (i) Other courses as deemed appropriate by the Programs Officer

1005.5 OUTREACH

Information about educational opportunities should be included in the general incarcerated person orientation. At a minimum, incarcerated persons should receive instruction on how to request participation in the incarcerated person education programs, along with eligibility requirements and rules for participation.

1005.6 ELIGIBILITY REQUIREMENTS

Educational/vocational programming (other than televised courses) may be offered to sentenced and pretrial persons. The Sheriff shall ensure that there is equal opportunity for participation for incarcerated persons of each gender.

1005.7 INCARCERATED PERSON REQUESTS

Incarcerated persons should be given a form to request participation in the education program. Incarcerated person requests will be forwarded to the Programs Coordinator, who will have the facility classification staff screen and approve the request.

The Programs Coordinator will notify the incarcerated person whether they have been approved for an education program. If approved, the Programs Coordinator will provide instruction to the person on how to access the program services and will notify the affected facility staff about the incarcerated person's scheduled attendance.

Incarcerated persons may also contact the Programs Coordinator at any time and request information regarding educational opportunities by completing and submitting the appropriate request form.

Colusa County Sheriff's Department

CA Custody Manual

Education, Vocation, and Rehabilitation

Incarcerated persons have the right to refuse to participate in programs other than work assignments or programs that are required by statute or court order.

1005.8 SELF-STUDY PROGRAM

Whenever reasonably feasible, the basic educational program may be presented by self study tutoring and videotape programming.

Incarcerated persons admitted into the high-school equivalency preparation program will be issued the necessary books and supplies. Studying will be done throughout the day at scheduled periods when videotape programming is presented on closed-circuit television.

Upon completion of a GED self-study program, the incarcerated person may be given the opportunity to take the high school equivalency preparation credential examination.

1005.9 HIGH-SECURITY/ADMINISTRATIVE SEPARATION INCARCERATED PERSONS

To the extent reasonably practicable, high-security incarcerated persons and those held in administrative separation may receive individual instruction in the form of a correspondence course.

1005.10 REHABILITATION PROGRAM

The Department provides opportunities for rehabilitation programs that are based upon victim and community input and are fashioned in a way that gives the incarcerated person an opportunity to make amends for the harm done.

The Sheriff and the Jail Commander should work with other justice system partners to create such programs and opportunities. Examples include the following:

- Programs designed to deter domestic violence and substance abuse
- Community service, such as supervised public works projects
- Making restitution to victims
- Paying court fines

1005.11 DISCLAIMER

Nothing in this policy is meant to confer a legal right for incarcerated persons to participate in any educational offering. Educational programming is provided at the sole discretion of the Sheriff and the Jail Commander.

1005.12 CLASSROOM USE AND DESIGN

The demographics of the incarcerated person population should always be considered when developing educational and other programs. Incarcerated person classification and separation requirements also need to be considered.

The Jail Commander should encourage and include educators in the setup and design of classrooms that have been identified for incarcerated person education programs. To the extent reasonably possible, in consideration of the space design and the ability to provide adequate

Colusa County Sheriff's Department

CA Custody Manual

Education, Vocation, and Rehabilitation

security, teachers, education managers, and administrators should be consulted to ensure that their needs are met.

In addition to the traditional classroom approach to educational programming, there are several other delivery methods. These include independent study and computer education programs.

1005.13 NEW CONSTRUCTION OR RENOVATION

Whenever construction of new facilities is considered, the Jail Commander may include education specialists during the design phase to ensure that the needs of education providers are met with regard to security, sound levels, and educational equipment.

The Jail Commander may seek technical assistance from consultants to school districts that provide education programs in correctional settings. There are also networks of educators who can provide valuable consulting services in order to keep pace with rapidly evolving program and legislative issues that are related to education.

1005.14 POLICY

It is the policy of this department to provide educational and vocational programs to all eligible incarcerated persons subject to schedule, space, personnel, and other resource constraints.

Commissary Services

1006.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a commissary program that will give incarcerated persons the opportunity to purchase specific items that are not provided to them while in custody.

1006.2 POLICY

It is the policy of this department to provide commissary services so that incarcerated persons who are not on disciplinary restriction and who have funds posted to their incarcerated person accounts may purchase items approved by the Jail Commander (Penal Code § 4025).

1006.3 COMMISSARY MANAGER RESPONSIBILITIES

The Jail Commander shall be responsible for designating a qualified person to act as the Commissary Manager. The Commissary Manager shall be responsible for the accounting and general operation of the commissary, which shall include but is not limited to:

- Maintaining current rules, regulations, and policies of the commissary and ensuring compliance by commissary staff.
- Managing inventory and processing orders in a timely manner.
- Performing weekly audits of high-security items.
- Ensuring that sufficient space is provided either on or off facility property for the storage and processing of commissary orders.
- Ensuring commissary facilities are sanitary and secure.
- Conducting a quarterly inventory of all supplies and immediately reporting any discrepancies to the Jail Commander.
- Ensuring that all incarcerated persons who are approved to purchase commissary items are provided with a printed list of items that are available at local stores if the facility does not operate a commissary.
- To the extent reasonably practicable, ensuring the prices for items offered in the commissary correspond to local retail store prices.

Any commissary inventory or sales issues related to religious diets shall be addressed in the Religious Programs Policy.

1006.4 COMMISSARY ACCOUNTING

The Shift Supervisor shall be responsible for ensuring that all incarcerated persons who have commissary privileges have the opportunity to order and receive commissary items in a timely manner.

All incarcerated persons shall be afforded the opportunity to review an accounting of their money held in their account, including deposits, debits, and commissary goods purchased and received. Any discrepancy of the incarcerated person's funds shall be immediately reported to the Commissary Manager. If the Commissary Manager and the involved incarcerated person cannot

Colusa County Sheriff's Department

settle the discrepancy, the Jail Commander shall be notified and the Jail Commander will resolve the discrepancy.

1006.5 INCARCERATED PERSON WELFARE PACKS

The Jail Commander or the authorized designee shall monitor the provision of welfare packs to indigent incarcerated persons. Welfare packs shall include but not be limited to:

- (a) At least two postage-paid envelopes and two sheet of paper each week to permit correspondence with family members and friends (see the Mail Policy).
- (b) Personal hygiene items, including toothbrush, toothpaste, soap, and other supplies deemed to be appropriate for indigent persons.

The Sheriff may expend money from the Incarcerated Person Welfare Fund to provide indigent incarcerated persons with essential clothing and limited transportation expenses upon release (Penal Code § 4025(i)).

1006.6 ANNUAL AUDIT OF THE COMMISSARY

The Commissary Manager should ensure that an annual audit of the commissary operation is conducted by a certified auditor. The written report prepared by the auditor should be reviewed for accuracy by the Commissary Manager and provided to the Jail Commander.

All surplus funds from the commissary operation should be deposited into the Incarcerated Person Welfare Fund or used in a manner from which the incarcerated persons will benefit. They also may be deposited and used in accordance with expenditures authorized by the board of supervisors. An itemized report on expenditures shall be submitted annually to the board of supervisors (Penal Code § 4025(e)).

Library Services

1007.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for funding of library services and for providing incarcerated persons access to leisure and legal reading materials.

1007.2 RESPONSIBILITIES

The Jail Commander or the authorized designee is responsible for the administration of the library services and should appoint a capable member to serve as librarian to run the daily library operations. The library services shall include access via paper documents or through electronic media to legal reference materials, current information on community services and resources, and religious, educational, and recreational reading material (15 CCR 1064).

The librarian shall ensure that reading materials are provided to the general housing units and that any member assigned to assist with the delivery of library services has received the appropriate training in facility safety and security practices.

1007.3 LIBRARY FUNDING AND MAINTENANCE

The Jail Commander should ensure that funding is available to operate the library. The Jail Commander may use monies from the Incarcerated Person Welfare Fund to offset the cost of salaries, services, and supplies. The librarian may enlist the assistance of the local public library system and other community organizations to maintain and update the library. Donated books and materials should be screened by the librarian for permissible content and safety prior to being distributed to incarcerated persons.

The Department may reject library materials that may compromise the safety, security, and orderly operation of this facility (see the Mail Policy for examples of materials that may be rejected).

The library shall be operated within the physical, budgetary, and security limits of the existing facility.

Books and other reading material should be provided in languages that reflect the population of the facility.

1007.4 LEISURE LIBRARY MATERIALS

Each incarcerated person is allowed to have no more than two books at any given time. Existing selections must be returned before new books may be selected by an incarcerated person. Incarcerated persons who destroy or misuse books and library materials will be subject to disciplinary action and may be required to pay for the material.

1007.5 LEGAL MATERIALS

All incarcerated persons shall have reasonable access to the legal system, which may include access to legal reference materials. Pro per incarcerated persons shall have priority regarding access to legal publications.

Legal information that may be provided through the library includes but is not limited to:

Colusa County Sheriff's Department

CA Custody Manual

Library Services

- Criminal code sections.
- Copies of criminal and/or civil cases.
- Copies of relevant judicial forms.

Incarcerated persons desiring access to the library or legal publications shall submit a completed legal information request to the housing correctional officer. Only one request per incarcerated person per week is allowed unless the incarcerated person is a court-ordered pro per.

The housing correctional officer will collect completed request forms and deliver them to the librarian. Upon receipt the librarian will time stamp, log, and number the request and arrange for the incarcerated person to have access to the library or to legal research services if they are available and do not conflict with scheduling or security concerns. Records of access to legal materials and whether the requests were fulfilled or denied should be documented each day and maintained in the incarcerated person's file in accordance with established records retention schedules.

Pro per incarcerated persons may keep minimal supplies for their case in their cells (e.g., paper, letters, reference materials), provided they do not create a fire hazard or other safety or security concern.

1007.6 ALTERNATE MEANS OF ACCESS TO LEGAL RESOURCES

Nothing in this policy shall confer a right to access a law library. Unless it is specified by court order, the Sheriff may provide access to legal resources by a variety of means that may include public or private legal research services (e.g., web-based legal resources).

1007.7 POLICY

It is the policy of this facility to operate a library service that provides leisure and legal reading materials to incarcerated persons.

1007.8 ACCESS TO LIBRARY

Access to the incarcerated person library or to library materials shall be based on incarcerated person classification, housing location, and other factors that legitimately relate to maintaining the safety and security of the facility.

Incarcerated persons in disciplinary separation shall have the same access to reading materials and legal materials as the general population unless a restriction is directed by the court.

Mail

1008.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the receipt, rejection, inspection, and sending of incarcerated person mail.

1008.2 POLICY

This department will provide ample opportunity for incarcerated persons to send and receive mail, subject to restriction only when there is a legitimate government interest.

1008.3 MAIL GENERALLY

Incarcerated persons may, at their own expense, send and receive mail without restrictions on quantity, provided it does not jeopardize the safety of staff, visitors, or other incarcerated persons, or pose an unreasonable disruption to the orderly operation of the facility.

However, incarcerated persons are only allowed to store a limited amount of mail in their cells as determined by the Jail Commander. Excess mail will be stored with the incarcerated person's personal property and returned at the incarcerated person's release.

1008.4 CONFIDENTIAL CORRESPONDENCE

Incarcerated persons may correspond confidentially with courts, legal counsel, officials of this department, elected officials, the Department of Corrections, jail inspectors, government officials, or officers of the court. This facility will also accept and deliver a fax or interoffice mail from these entities.

Foreign nationals shall have access to the diplomatic representative of their country of citizenship. Staff shall assist in this process upon request.

Facility staff may inspect incoming confidential correspondence for contraband. Facility staff may inspect outgoing confidential correspondence for contraband before it is sealed, provided the inspection is completed in the presence of the incarcerated person. In the event that confidential correspondence is inspected, staff shall limit the inspection to a search for physical items that may be included in addition to the correspondence and shall not read the content of the correspondence itself (15 CCR 1063(c)).

1008.5 SUSPENSION/RESTRICTION OF MAIL PRIVILEGES

Mail privileges may be suspended or restricted upon approval of the Jail Commander whenever staff becomes aware of mail sent by an incarcerated person that involves (15 CCR 1083(f)):

- (a) Threats of violence against any member of the government, judiciary, legal representatives, victims, or witnesses.
- (b) Incoming or outgoing mail representing a threat to the security of the facility, staff, or the public.

Colusa County Sheriff's Department

CA Custody Manual

Mail

The District Attorney or County Counsel should be consulted in cases where criminal charges are considered against an incarcerated person or there is an apparent liability risk to the Department that relates to suspension or restriction of mail privileges.

1008.6 PROCESSING AND INSPECTION OF MAIL BY STAFF

Staff should process incoming and outgoing mail as expeditiously as reasonably possible. All incoming and outgoing mail should be processed within 24 hours and packages within 48 hours. Mail processing may be suspended on weekends, holidays, or during an emergency situation.

Assigned correctional officers should open and inspect all incoming and outgoing general mail of current incarcerated persons. The incoming correspondence may be read as frequently as deemed necessary to maintain security or monitor a particular problem. Mail for incarcerated persons no longer in custody should not be opened.

Outgoing general mail may not be sealed by the incarcerated person and may be read by staff when:

- (a) There is reason to believe the mail would:
 - 1. Interfere with the orderly operation of the facility.
 - 2. Be threatening to the recipient.
 - 3. Facilitate criminal activity.
- (b) The incarcerated person is on a restricted mail list.
- (c) The mail is between incarcerated persons.
- (d) The envelope has an incomplete return address.

When mail is found to be inappropriate in accordance with the provisions of this policy or when an incarcerated person is sent material that is not prohibited by law but is considered contraband by the facility, the material may be returned to the sender or held in the incarcerated person's property to be given to the incarcerated person upon release.

Incarcerated persons are allowed to correspond with other incarcerated persons in this jail, as well as other jails or correctional institutions, as long as they pay for the mailing and the mailing is sent and received through the U.S. Postal Service.

Incarcerated persons shall be notified in writing whenever their mail is held or returned to the sender. Mail logs and records, justification of censoring or rejection of mail, and copies of hold or return notices shall be maintained in the incarcerated person's file in accordance with established records retention schedules.

Cash, government checks, and money orders contained in incoming incarcerated person mail shall be removed and credited to the incarcerated person's account. Personal checks may be returned to the sender or held in the incarcerated person's property to be given to the incarcerated person upon release.

Colusa County Sheriff's Department

1008.6.1 DESIGNATION OF STAFF AUTHORIZED TO READ MAIL

Only staff members designated by the Jail Commander are authorized to read incoming and outgoing non-confidential mail. These staff members should receive training on legitimate government interests for reading and censoring mail and related legal requirements (15 CCR 1063).

1008.6.2 CENSORSHIP OF INCOMING AND OUTGOING NON-CONFIDENTIAL CORRESPONDENCE

In making the determination of whether to censor incoming non-confidential correspondence, consideration shall be given to whether rejecting the material is rationally related to a legitimate government interest, and whether alternate means of communicating with others is available.

The impact the correspondence may have on other incarcerated persons and jail staff is also a factor. Reasonable alternatives should be considered and an exaggerated response should be avoided; for example, discontinuing delivery of a magazine because of one article.

Outgoing non-confidential correspondence shall only be censored to further a substantial government interest, and only when it is necessary or essential to address the particular government interest. Government interests that would justify confiscation of outgoing mail include:

- (a) Maintaining facility security.
- (b) Preventing dangerous conduct, such as an escape plan.
- (c) Preventing ongoing criminal activity, such as threats of blackmail or extortion, or other similar conduct.
- (d) Preventing harassment of those who have requested that no mail be sent to them by the incarcerated person.

Correspondence and material identified for censorship shall be delivered to the Shift Supervisor, who shall make the decision if such mail will be censored.

Notices should be sent to the sender of censored correspondence or publications, even when the sender is the editor or publisher. A single notification may be sent if the publication is received by multiple incarcerated persons.

1008.6.3 DOCUMENTING REJECTED OR CENSORED CORRESPONDENCE

In each case where it is necessary to remove any item, or reject or censor correspondence, a written record must be made of such action, to include:

- (a) The incarcerated person name and number.
- (b) A description of the mail in question.
- (c) A description of the action taken and the reason for such action.
- (d) The disposition of the item involved.
- (e) Signature of the correctional officer.

- (f) Notification to the incarcerated person and sender (unless such notification jeopardizes any investigation or the security of the facility).

1008.7 BOOKS, MAGAZINES, NEWSPAPERS AND PERIODICALS

Unless otherwise in conflict with this policy and prohibited by the Jail Commander, inmates are permitted to purchase, receive and read any book, newspaper, periodical or writing accepted for distribution by the U. S. Postal Service (15 CCR 1066(a)).

Publications, magazines or newspapers shall be accepted only if they are mailed directly from the publisher to a named inmate.

1008.8 REJECTION OF MAGAZINES AND PERIODICALS

The Department may reject magazines, periodicals, and other materials that may inhibit the reasonable safety, security, and discipline in the daily operation of this facility. Generally, books, newspapers, and magazines are accepted only if they are sent directly by the publisher. Materials that may be rejected include but are not limited to (15 CCR 1066(a)):

- Materials that advocate violence or a security breach.
- Literature that could incite racial unrest.
- Sexually explicit material, including pornographic magazines, nude pictures, or pictures or descriptions of sexually explicit activities.
- Obscene publications or writings and mail containing information concerning where or how such matter may be obtained; any material that would have a tendency to incite murder, arson, riot, violent racism, or any other form of violence; any material that would have a tendency to incite crimes against children; any material concerning unlawful gambling or an unlawful lottery; any material containing information on the manufacture or use of weapons, narcotics, or explosives or any other unlawful activity.
- Material that could lead to sexual aggression or an offensive environment for incarcerated persons.
- Material that could create a hostile or offensive work environment.
- Any material with content that could reasonably demonstrate a legitimate government interest in rejecting the material.

Staff shall notify the Shift Supervisor whenever a decision is made to reject books, magazines, or periodicals. The Jail Commander or the authorized designee will be responsible for making the final decision as to the specific magazines, periodicals, and other materials that will be prohibited within this facility.

Religious texts not supplied by facility-authorized entities may be accepted by the chaplain or other religious volunteer who has received training on facility rules involving contraband, and who has been approved by a supervisor to review such documents for distribution.

1008.9 FORWARDING OF MAIL

Any non-legal mail received for a former incarcerated person should be returned to the sender with a notation that the incarcerated person is not in custody. Obvious legal mail should be forwarded to the former incarcerated person's new address if it is reasonably known to the facility. Otherwise, legal mail should be returned to the sender.

1008.10 INDIGENT INCARCERATED PERSONS REQUESTS FOR WRITING MATERIALS

Indigent incarcerated persons shall receive writing materials on a weekly basis, as provided by an approved schedule established by the Jail Commander. Writing materials should include the following (15 CCR 1063):

- (a) At least four pre-stamped envelopes for correspondence with family and friends
- (b) At least eight sheets of writing paper
- (c) One pencil

Indigent incarcerated persons shall receive an amount of pre-stamped envelopes and writing paper sufficient to maintain communication with courts, legal counsel, officials of this department, elected officials, jail inspectors, government officials, and officials of the Board of State and Community Corrections. There shall be no limitation on the number of postage-paid envelopes and sheets of paper permitted for correspondence to the indigent incarcerated person's attorney and to the courts (15 CCR 1063(e)).

Requests shall be screened and granted based on need by the Programs Coordinator. Incarcerated persons should not be permitted to maintain an excess supply of writing materials without the approval of a supervisor.

Telephone Access

1009.1 PURPOSE AND SCOPE

This policy establishes guidelines for permitting incarcerated persons to access and use telephones.

1009.2 POLICY

The Jail will provide access to telephones for use by incarcerated persons consistent with federal and state law. The Jail Commander or the authorized designee shall develop written procedures establishing the guidelines for access and usage (15 CCR 1067). All incarcerated persons will be provided a copy of the telephone usage rules as part of their incarcerated person orientation during the booking process.

1009.3 PROCEDURE

Incarcerated persons housed in general population will be permitted reasonable access to public telephones at scheduled times in the dayrooms for collect calls unless such access may cause an unsafe situation for the facility, staff, or other incarcerated persons. The Jail Commander shall ensure a notice is conspicuously posted near the phones, informing incarcerated persons that non-attorney calls may be monitored and recorded.

Incarcerated persons are not permitted to receive telephone calls. Messages will only be delivered in the event of a verified emergency.

In the event of a facility emergency, or as directed by the supervisor or the Jail Commander, all telephones will be turned off.

For security reasons, incarcerated persons who are awaiting transport to another facility or release to another agency are not permitted to use the telephones.

Teletypewriter or other communication devices (e.g., videophones, third-party communications assistant) will be made available to persons who are known to have, or are perceived by others as having, hearing or speech impairments to allow them equivalent telephone access as those without these disabilities (15 CCR 1067).

The minimum time allowed per call should be 10 minutes, except where there are substantial reasons to justify such limitations. Reasons for denial of telephone access shall be documented and a copy placed into the incarcerated person's file. The rules governing the use of the telephone will be provided to persons during orientation and posted near the telephones.

The staff should monitor the use of public telephones to ensure incarcerated persons have reasonable and equitable access and that the rules of use are observed. Any incarcerated persons refusing to cooperate with the telephone rules may have their call terminated, telephone privileges suspended, and/or incur disciplinary action.

Requirements relating to the use of telephones during booking and reception are contained in the Reception Policy.

1009.4 USE OF TELEPHONES IN HIGH-SECURITY OR ADMINISTRATIVE SEPARATION HOUSING

Incarcerated persons who are housed in high-security or administrative separation may use the public telephones in the dayroom during the time allocated for that classification of incarcerated person to utilize that space. If portable telephones are available in the facility, persons who are housed in high-security or administrative separation units may have reasonable access to the portable telephones.

1009.5 COURT-ORDERED TELEPHONE CALLS

If a court order specifying free telephone calls is received by the facility, or a supervisor determines there is a legitimate need for a free telephone call for a specific incarcerated person, the supervisor may direct that a person use a facility telephone at no charge. Calls placed from a facility telephone should be dialed by a staff member. The staff shall be responsible for ensuring that the incarcerated person is not calling a number that has been restricted by a court order or by request of the recipient. Such a call shall be recorded to the same extent authorized for calls that are not court-ordered.

1009.6 ATTORNEY-CLIENT TELEPHONE CONSULTATION

At all times through the period of custody, whether the incarcerated person has been charged, tried, convicted, or sentenced, reasonable and non-recorded telephone access to an attorney shall be provided to the person at no charge to either the attorney or to the incarcerated person, in accordance with the Access to Courts and Counsel Policy.

1009.7 TELEPHONE CONTRACTS AND CHARGES

The Jail Commander or the authorized designee is responsible for ensuring that rates charged to incarcerated persons are similar to those charged to the general public and that incarcerated persons are afforded a range of feasible calling options.

1009.8 FOREIGN NATIONALS

A foreign national who has been detained may contact their consulate via the public phones provided for incarcerated persons. If the consulate does not accept collect calls, the foreign national shall be allowed to make a reasonable number of direct calls to establish communication with the consulate.

Consular officers who contact the jail to speak with a foreign national to provide consular services should be given reasonable telephone access to the incarcerated person.

Visitation

1010.1 PURPOSE AND SCOPE

The purpose of this policy is to establish rules for visitation and to provide a process for incarcerated person visits and visitors. Visitation is a privilege and is based on space availability, schedules, and on-duty staffing.

1010.1.1 DEFINITIONS

Definitions related to this policy include (Penal Code § 4032):

In-person visit - An on-site visit that may include barriers. In-person visits include interactions in which an incarcerated person has physical contact with a visitor, the incarcerated person is able to see a visitor through a barrier, or the incarcerated person is otherwise in a room with a visitor without physical contact. "In-person visit" does not include an interaction between an incarcerated person and a visitor through the use of an on-site two-way audio/video terminal.

Video visitation - Interaction between an incarcerated person and a member of the public through the means of an audio-visual communication device when the member of the public is located at a local detention facility or at a remote location.

1010.2 POLICY

It is the policy of the Colusa County Sheriff's Department to allow incarcerated person visitation, including video visitation when applicable, as required by law.

1010.3 PROCEDURES

The Department shall provide adequate facilities for visiting that include appropriate space for the screening and searching of incarcerated persons and visitors and storage of visitors' personal belongings that are not allowed in the visiting area.

The Jail Commander shall develop written procedures for incarcerated person visiting, which shall provide for as many visits and visitors as facility schedules, space, and number of personnel will reasonably allow, with no fewer visits allowed than specified by 15 CCR 1062 per week, by type of facility. The procedures are subject to safety and security requirements and should consider:

- The facility's schedule.
- The space available to accommodate visitors.
- Whether an emergency or other conditions justify a limitation in visiting privileges.
- Video visitation if applicable (Penal Code § 4032; 15 CCR 1062).

The visiting area shall accommodate incarcerated persons and visitors with disabilities. Visitors with disabilities who request special accommodations shall be referred to a supervisor. Reasonable accommodations will be granted to incarcerated persons and disabled visitors to facilitate a visitation period.

Visitor logs and records shall be developed and maintained in accordance with established records retention schedules.

Court orders granting a special incarcerated person visitation are subject to county legal review and interpretation.

1010.3.1 VISITOR REGISTRATION AND IDENTIFICATION

 - 2. A physical description of the person
- (c) An official visitor shall present proof of professional capacity. For example, attorney license/Supreme Court card, law enforcement identification, or a business card/letterhead of the business with the visitor's name.

Failure or refusal to provide a valid identification is reason to deny a visit.

1010.3.2 VIDEO VISITATION NOT TO REPLACE IN-PERSON VISITATION

The Department may not substitute video visitation for in-person visitation to meet the requirements of 15 CCR 1062.

1010.4 AUTHORIZATION TO SEARCH VISITORS

Individuals who enter the secure perimeter of this facility are subject to search if there is reasonable cause to believe the visitor has violated the law, is wanted by a law enforcement agency, or is attempting to bring contraband onto the facility property or into the facility. All searches shall be made in accordance with current legal statutes and case law.

The area designated for a visitor to be searched prior to visiting with an incarcerated person shall have a notice posted indicating that any cellular telephone, wireless communication device, or any component thereof shall be confiscated for the period of the visitation and returned to the visitor upon departure from the facility (Penal Code § 4576(b)(3)).

1010.5 VISITING SCHEDULE

The Jail Commander shall designate a person to develop a schedule for incarcerated person visitation that includes daytime, evening, and weekend hours. Any visitation that is denied or terminated early, on the reasonable grounds that the visit may endanger the security of the facility, shall have the actions and reasons documented. A copy of the documentation will be placed into the incarcerated person's file and another copy will be forwarded to the Jail Commander (15 CCR 1062).

1010.7 GENERAL VISITATION RULES

All visitors and incarcerated persons will be required to observe the following general rules during visitation:

- (a) A maximum of two adults and two children will be permitted to visit an incarcerated person at any one time. Children visiting incarcerated persons must be deemed age appropriate by the parent or guardian accompanying the child. The Shift Supervisor may authorize special visitation privileges, taking into consideration the following factors:

- The purpose of the visit
- The relationship of the visitor to the incarcerated person
- The circumstances of the visit

1010.10 CONSULAR VISITS

The Jail Commander or the authorized designee should facilitate visitor access between a detained foreign national and a consular officer when requested by the detainee or consular officer. Additionally, access should also be facilitated when a consular officer requests to visit with a detained foreign national in cases where the detainee does not want a visit.

A foreign national should be allowed to visit with a consular officer in a private interview room. Members should not interfere with, suspend, or cancel official consular visits except in circumstances where the safety, security, or good order of the jail is compromised.

The facility should provide a contact person who is available 24 hours a day, seven days a week, as some incarcerated persons will work evening or overnight shifts.

1012.3.3 HOUSING

Incarcerated persons participating in the Work Release Program should be housed in an area other than general population housing to reduce the possibility of contraband entering the facility.

1013.2 POLICY

The Colusa County Sheriff's Department shall operate an Incarcerated Person Work Program in accordance with all applicable federal, state, or local work safety laws, rules, and regulations, and to the extent that the operation of incarcerated person work programs do not pose a risk to the safety of the staff, other incarcerated persons, or the public. This policy establishes the requirements, selection process, supervision, and training of persons prior to and after entering the facility's Incarcerated Person Work Program.

1013.3 WORK CRITERIA

1013.5 COMMUNITY SERVICE PROGRAM

Sentenced incarcerated persons may be assigned to public works projects with state, municipal, and local government agencies, or to community service projects, with the approval of the Sheriff and in accordance with all applicable laws and regulations.

Assigning incarcerated persons to activities that benefit individuals, businesses or other private entities that are not considered a public works project is prohibited and may constitute a violation of the law.

1013.5.1 PROGRAM GUIDELINES

Any community service program is subject to the approval of the Jail Commander or the authorized designee.

Any such program shall be subject to the following guidelines:

- (a) The program complies with all statutes, ordinances, regulations, labor agreements, permissions, or restrictions relating to incarcerated persons whenever they are assigned to public works and community service projects.
- (b) There are incarcerated persons available who, as a matter of classification, are deemed eligible for participating in the community service programs. Only incarcerated persons who are classified as minimum custody shall be assigned outside the secure perimeter.
- (c) The number of work opportunities available in the community will determine the availability of opportunities to participate in the community service program.

- (e) Victim and community input should be solicited and considered when developing community service programs.
- (f) Poor performance in the work program or violating rules may render the incarcerated person ineligible to participate in the work program. - (b) The incarcerated person must agree in writing to participate in the community service program.

Incarcerated persons may be charged a fee for participating in the program in order to offset the cost of administration and staffing.

1013.6 SUPERVISION OF INCARCERATED WORKERS

- (d) Awarding certificates of achievement for successful completion of vocational, educational, and/or work programs.
- (e) When allowed by law, ordinance, and in consideration with local labor relations, giving monetary compensation for work on government projects.

Religious Programs

1014.1 PURPOSE AND SCOPE

This policy provides guidance regarding the right of incarcerated persons to exercise their religion and for evaluating accommodation requests for faith-based religious practices of incarcerated persons (15 CCR 1072).

1014.1.1 DEFINITIONS

Definitions related to this policy include:

Compelling government interest - A method for determining the constitutionality of a policy that restricts the practice of a fundamental right. In order for such a policy to be valid, there must be a compelling government interest, which is necessary or crucial to the mission of the Department, as opposed to something merely preferred, that can be furthered only by the policy under review.

Least restrictive means - A standard imposed by the courts when considering the validity of policies that touch upon constitutional interests. If the Department adopts a policy that restricts a fundamental religious liberty, it must employ the least restrictive measures possible to achieve its goal.

Religious exercise - Any exercise of religion, whether or not it is compelled by, or central to, a system of religious belief. The key is not what a faith requires but whether the practice is included in the incarcerated person's sincerely held religious beliefs.

Substantial burden - For the purposes of this policy, substantial burden means either of the following:

- A restriction or requirement imposed by the Department that places an incarcerated person in a position of having to choose between following the precepts of the person's religion and forfeiting benefits otherwise generally available to other incarcerated persons, or having to abandon one of the precepts of their religion in order to receive a benefit.
- The Department puts considerable pressure on an incarcerated person to substantially modify the person's behavior in violation of their beliefs.

1014.2 POLICY

It is the policy of this department to permit incarcerated persons to engage in the lawful practices and observances of their sincerely held religious beliefs consistent with the legitimate governmental objectives of the facility.

1014.3 CHAPLAIN

The Sheriff shall appoint an individual to serve as the chaplain for the facility. The chaplain shall be responsible for assisting the Jail Commander with supervising, planning, directing, and coordinating religious programs. The chaplain may be responsible for duties including but not limited to:

Colusa County Sheriff's Department

CA Custody Manual

Religious Programs

- (a) Coordinating religious services.
- (b) Maintaining a list of accepted religious practices that have been approved by the Jail Commander and ensuring the current list is available to the staff.
- (c) Reviewing requests for religious accommodations.
- (d) Providing or arranging for grief counseling for incarcerated persons.
- (e) Distributing a variety of religious texts.
- (f) Developing and maintaining a liaison with a variety of religious faiths in the community.
- (g) Making reasonable efforts to enlist religious leaders from outside the community as necessary.
- (h) Seeking donations for religious programs from the community, when appropriate.
- (i) Working with incarcerated person families when requested.
- (j) Periodically surveying the facility population to assist in determining whether current resources are appropriate for the incarcerated person population.
- (k) Providing guidance to the Sheriff and the Jail Commander on issues related to religious observance.

1014.4 RELIGIOUS BELIEFS AND ACCOMMODATION REQUESTS

Incarcerated persons are not required to identify or express a religious belief. An incarcerated person may designate any belief, or no belief, during the intake process and may change a designation at any time by declaring the person's religious belief in writing to the chaplain. Incarcerated persons seeking to engage in religious practices shall submit a request through the established process. Requests to engage in practices that are on the facility's list of accepted practices should be granted. Requests to engage in religious practices that are not on the approved list shall be processed as provided in this policy.

All requests for accommodation of religious practices shall be treated equally, regardless of the religion that is involved. Equal and consistent treatment of all religions and religious beliefs shall not always require that all incarcerated persons of the same religion receive the same accommodations. Requests for accommodation of religious practices shall be submitted to a supervisor. In determining whether to grant or deny a request for accommodation of a religious practice, the supervisor will work with the chaplain to determine the sincerity of the religious claim of an incarcerated person. Requests should be denied only if the denial or reason for denial would further a compelling interest of the facility and is the least restrictive means of furthering that compelling interest.

A supervisor who does not grant the accommodation, either in part or in full, should promptly forward the request to the Jail Commander, who, after consultation with legal counsel as appropriate, should make a determination regarding the request within 10 days following the incarcerated person's request.

Colusa County Sheriff's Department

CA Custody Manual

Religious Programs

A Jail Commander who does not grant an accommodation, either in part or in full, should forward the request to the Sheriff with the basis for the denial within 14 days of the incarcerated person's original request being made. The Sheriff or the authorized designee will review the denial and respond to the requesting incarcerated person as soon as reasonably practicable.

The Jail Commander and the Sheriff shall be informed of all approved accommodations. The chaplain should make any necessary notifications to staff as necessary to meet an approved accommodation.

All incarcerated person requests for religious accommodations and related determinations shall be fully documented in the person's record.

1014.4.1 SUSPENSION OR REVOCATION OF ACCOMMODATIONS

In an emergency or extended disruption of normal facility operations, the Jail Commander may suspend any religious accommodation. The Jail Commander may also revoke or modify an approved religious accommodation if the accommodated incarcerated person violates the terms or conditions under which the accommodation was granted.

1014.4.2 APPEALS OF SUSPENSION OR REVOCATION OF ACCOMMODATIONS

Incarcerated persons may appeal the Jail Commander's denial, suspension, or revocation of an accommodation through the appeal process.

1014.4.3 ACCOMMODATION REQUESTS REGARDING GROOMING, RELIGIOUS CLOTHING, AND HEADWEAR

Individuals in custody have the right to a religious accommodation with respect to grooming, religious clothing, and headwear in observance of their sincerely held religious belief, at all times and throughout the jail, except if in furtherance of a compelling governmental interest regarding security that may impact the jail, staff, the individual, or others in custody. Religious grooming, clothing, and headwear accommodations shall only be denied when doing so would be the least restrictive means of furthering these governmental interests (Penal Code § 2607). (See the Reception Policy.)

1014.5 DIETS AND MEAL SERVICE

The Jail Commander should provide incarcerated persons requesting a religious diet, including fasting and/or hour of dining, a reasonable and equitable opportunity to observe their religious dietary practice. This should be done within budgetary constraints and be consistent with the security and orderly management of the facility. The chaplain shall provide a list of incarcerated persons authorized to receive religious diets to the food services manager. The food services manager shall establish a process for managing religious meal accommodations.

1014.6 HAIRSTYLES AND GROOMING

Unless it is necessary for the health and sanitation of the facility, incarcerated persons who wear head and facial hair in the observance of their religion will generally not be required to shave or cut their hair. To the extent reasonably practicable, alternative housing may be considered to

accommodate the need for religious hair and grooming, while meeting the health and sanitation needs of the facility (Penal Code § 2607).

Any incarcerated person whose appearance is substantially altered due to changes in facial hair or hair length may be required to submit to additional identification photographs.

1014.7 RELIGIOUS TEXTS

Religious texts should be provided to the requesting incarcerated person, if the texts available do not pose a threat to the safety, security, and orderly management of the facility.

1014.8 UNAUTHORIZED PRACTICES OR MATERIAL

The following list, which is not intended to be exhaustive, includes materials or practices that shall not be authorized:

- (a) Animal sacrifice
- (b) Language or behaviors that could reasonably be construed as presenting a threat to facility safety or security
- (c) Self-mutilation

- (e) Self-defense or military training
- (f) Disparagement of other religions
- (g) Nudity or sexual acts

1014.9 GROUP RELIGIOUS SERVICES

Group religious services may be allowed after due consideration of the incarcerated person's classification or other concerns that may adversely affect the order, safety, and security of the facility.

Alternatives to attendance of group religious services may include but are not limited to:

- The provision of religious books and reading materials.
- Access to religious counselors.
- Recorded religious media (e.g., DVDs, CDs, video tapes).

1014.10 RELIGIOUS SYMBOLS AND IMPLEMENTS

Religious symbols and implements used in the exercise of religion should generally be allowed unless the symbol or implement poses a threat to the safety and security of the facility. Alternatives to the provision of religious symbols and implements may be considered when security, safety, or efficient operations may be jeopardized (e.g., substitution of a towel in lieu of a prayer rug).

Religious Programs

1014.11 RELIGIOUS GARMENTS AND CLOTHING

Incarcerated persons who practice a religion that requires particular modes of dress, garments, headgear, etc., other than standard-issue clothing, should generally be accommodated subject to the need to identify incarcerated persons and maintain security (Penal Code § 2607). (See the Reception Policy for additional guidance.)

Head coverings shall be searched before being worn in the housing areas of the facility and shall be subject to random searches for contraband. Personal head coverings should be exchanged in favor of department-supplied head coverings when available and appropriate.

Incarcerated persons wearing headscarves or other approved coverings shall not be required to remove them while in the presence of or while visible to the opposite gender, if they so desire. Religious garments that substantially cover the person's head and face shall be temporarily removed during the taking of booking and identification photographs.

To the extent reasonably practicable, alternative housing may be considered to accommodate an incarcerated person's need for religious attire, while meeting the security needs of the facility.

1014.12 FAITH- AND MORALS-BASED COUNSELING

The Jail Commander shall be responsible for establishing a plan for incarcerated persons to receive faith- and morals-based counseling from the chaplain or religious volunteers. Incarcerated persons should be reasonably accommodated, including reasonable access to clergy members and spiritual advisers, volunteer religious organizations, faith- and morals-based programs, and other secular volunteer programs.

No incarcerated person shall be required to participate in any such program.

1014.13 SPACE AND EQUIPMENT FOR RELIGIOUS OBSERVANCES

The Jail Commander shall ensure that there are sufficient facilities and resources for the chaplain to serve the incarcerated person population, including providing access to areas of the facility. Space for group worship will be dictated by the availability of secure areas and the classification status of the incarcerated persons to be served. All recognized religious groups should have equal access to the space, equipment, and services which the facility normally provides for religious purposes.

1014.14 COMMUNITY RESOURCES

The chaplain may minister their particular faith and any other similar faiths to incarcerated persons but should also establish contacts with clergy of other faiths who can provide services to persons of other religious denominations.

Whenever the chaplain is unable to represent or provide faith-based services to an incarcerated person, a religious leader or other volunteer from the community, credentialed by the particular faith, should be sought to help provide services. All individuals providing faith-based services should be supervised by the chaplain. All efforts to contact faith-based representatives should be documented and retained in accordance with established records retention schedules.

Religious Programs

Volunteers are another valuable resource that could be utilized extensively in the delivery of the religious program (see the Volunteer Program Policy). A volunteer could ensure that religious personnel who provide programming in the facility possess the required credentials and have the security clearance to enter the facility.

The chaplain, in cooperation with the Jail Commander or the authorized designee, shall develop and maintain communication with faith communities. The chaplain shall review and coordinate with the Jail Commander regarding offers to donate equipment or materials for use in the religious programs. All communication efforts and donations should be documented and retained in accordance with established records retention schedules.

1014.15 TRAINING

The Department shall provide training to facility staff on the requirements of this policy.

The Department shall also provide training in safety and security to the chaplain. The chaplain shall approve and train clergy and religious volunteers. This includes the preparation of a training curriculum, as well as the development and maintenance of training records.

1014.16 STAFF RESPONSIBILITIES

Members shall not show favoritism or preference to any religion and will not discriminate or retaliate against any incarcerated person for participating or not participating in any religion or religious practice. Incarcerated persons are not required to participate in religious programs or activities.

Facility staff will not allow their personal religious beliefs to influence them in the daily management of the incarcerated person population, particularly as it relates to religious practices.

1014.17 SEARCHES REGARDING RELIGIOUS CLOTHING AND HEADWEAR

Unless exigent circumstances exist, when a person in custody is wearing religious clothing or headwear, a correctional officer shall offer to conduct searches of the individual using a correctional officer of the same gender and offer the search to be out of view of members of a different gender (Penal Code § 2607).

Following a search, any religious clothing or headwear purchased, accessed, or retained shall be returned unless there is a reason to confiscate the item due to a security risk. If the item is not returned, the reason shall be documented (Penal Code § 2607).

Chapter 11 - Facility Design

Space and Environmental Requirements

1100.1 PURPOSE AND SCOPE

This policy describes the desired space and environmental requirements for the facility.

1100.2 FACILITY SECURITY AND ACCESSIBILITY

Planned designs for renovations, modifications, additions, or new construction within the facility should facilitate personal communication with incarcerated persons and direct visual observation of all cells, dayrooms, and out of cell time areas. Electronic surveillance may be used to augment the observation of incarcerated persons but shall not be used as a substitute for personal communication.

All locks, detention hardware, fixtures, furnishings, and equipment should have the proper security value for the areas in which they are used. The use of padlocks in place of security locks on cell or incarcerated person housing unit doors is generally prohibited, as unauthorized locking mechanisms may pose a significant threat to the safety and security of the facility in the event of an emergency.

All parts of the facility that are accessible to the public should be accessible to and usable by disabled persons.

1100.3 ENVIRONMENTAL REQUIREMENTS

1100.3.1 LIGHTING LEVELS

Lighting levels shall be adequate for staff and incarcerated persons to perform daily activities. Night lighting levels should permit adequate illumination for supervision but should not unnecessarily interfere with the ability of incarcerated persons to sleep.

1100.3.2 NATURAL LIGHT

All incarcerated persons living areas should provide incarcerated person with exposure to natural light, unless prohibited by security concerns.

1100.3.3 NOISE LEVEL

Noise levels at night should be sufficiently low to allow incarcerated persons to sleep. Nothing in this policy is intended to limit or impair in any way the staff's ability to monitor the jail in a manner that is consistent with safety and security and good correctional practices.

1100.3.4 VENTILATION

The ventilation system shall be sized and calibrated to supply fresh or circulated air in accordance with federal and state laws, codes and jail standards. Toilet rooms and cells with toilets shall be calibrated to have no less than four exchanges of air per hour, unless local codes require a different number of air exchanges.

Other than an emergency situation, incarcerated persons or jail staff shall not adjust or restrict the ventilation systems without the express permission of the supervisor. Any adjustments made

to the ventilation system shall only be allowed for the duration of the emergency or until qualified maintenance personnel can adjust or repair the ventilation system.

1100.3.5 TEMPERATURE LEVELS

Temperature and humidity levels shall be maintained at a level established by facility maintenance personnel and deemed comfortable and cost efficient.

Temperature readings shall be documented for each area of the facility on a regular basis in the floor notes. Staff shall immediately contact facility maintenance in the event that temperatures or humidity levels become uncomfortable.

1100.3.6 CELL FURNISHINGS

Each incarcerated person housed in this facility shall be provided with the following items:

- A sleeping surface and mattress in accordance with federal and state laws, codes, and jail standards
- A writing surface and seat
- A storage area for clothing and personal belongings

1100.4 DAYROOMS

Dayrooms shall be equipped with at least one shower for every 20 incarcerated persons or fraction thereof (24 CCR 1231.3.4), and tables and sufficient seating for all incarcerated persons at capacity. Where incarcerated persons do not have continuous access to their cells, dayrooms shall also be equipped with one toilet, an immediate source of fresh potable water, and lavatory with hot and cold water for every 10 incarcerated persons or fraction thereof (24 CCR 1231.2.9).

1100.5 JANITOR CLOSETS

Janitor closets shall be located near or inside each housing unit. Each janitor closet should contain a sink and the necessary cleaning implements. Access to the janitor closets shall be controlled and supervised by the staff. Only incarcerated persons with a minimum-security classification status shall be allowed access to the janitor closets, and then only under the supervision of staff.

1100.6 EMERGENCY POWER

The facility shall be equipped with a sufficient emergency power source to operate communications, security, and alarm systems in control centers; emergency lighting in corridors, stairwells, all incarcerated person housing areas and security control points; and audio-visual monitoring systems.

1100.7 POLICY

It is the policy of this department to comply with federal and state laws, codes, and correctional standards in matters relating to the jail space and environmental requirements. Any designs for renovations, modifications, additions, or new construction within the facility should be in compliance with federal and state laws, codes, and jail standards.

Smoking and Tobacco Use

1101.1 PURPOSE AND SCOPE

This policy establishes limitations on the use of tobacco products by members and others while on-duty or while in Colusa County Sheriff's Department facilities or vehicles.

For the purposes of this policy, smoking and tobacco use includes but is not limited to any tobacco product, such as cigarettes, cigars, pipe tobacco, snuff, tobacco pouches, and chewing tobacco, as well as any device intended to simulate smoking such as an electronic cigarette or personal vaporizer.

1101.2 POLICY

The Colusa County Sheriff's Department recognizes that tobacco use is a health risk and can be offensive to others. Smoking and tobacco use also presents an unprofessional image for the Department and its members. Therefore, smoking and tobacco use are prohibited by members, incarcerated persons, and visitors in all department facilities, buildings, and vehicles, and as is further outlined in this policy.

1101.3 SMOKING AND TOBACCO USE

Smoking and tobacco use by members is prohibited any time members are in public view representing the Department.

Smoking and the use of other tobacco products is not permitted inside department facilities or any department vehicle, or any other county building (Labor Code § 6404.5).

It shall be the responsibility of each employee to ensure that no person under their supervision smokes or uses any tobacco product inside county facilities and vehicles.

1101.4 ADDITIONAL PROHIBITIONS

No person shall smoke tobacco products within 20 feet of a main entrance, exit, or operable window of any public building, including any department facility or a building on the campuses of the University of California, California State University and the California community colleges, whether present for training or any other purpose (Government Code § 7596 et seq.).

1101.4.1 NOTICE

The Jail Commander or the authorized designee should insure that proper signage regarding smoking and tobacco use prohibitions is posted at each entrance to the facility (Labor Code § 6404.5).

Control Center

1102.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for a control center for monitoring and coordinating the facility security, safety and communications.

1102.2 POLICY

It is the policy of this department to maintain a control center, designated as the Dispatch Center, which shall be secure and staffed 24 hours each day to monitor and coordinate security, safety and communications.

1102.3 COMMUNICATIONS AND MONITORING CAPABILITIES

Booking shall have multiple means of direct communication capabilities with all staff control stations in incarcerated person housing areas, including telephone, intercom, and radio.

The Booking staff shall be responsible for monitoring fire, smoke, and life-safety alarms and shall have the means to summon assistance in the event of an emergency.

1102.4 SECURITY

Access into Booking should be through a sallyport entrance controlled by the staff inside the Booking and/or the Dispatch Center.

At no time should incarcerated persons be allowed to enter Booking.

Crowding

1103.1 PURPOSE AND SCOPE

One of the determining factors in maintaining a safe and secure jail is to limit the incarcerated person population to the number of beds constructed in each incarcerated person classification level. Occasionally, emergencies occur that will require the jail to exceed its approved bed capacity. This policy establishes the approved bed capacity of the facility, addresses temporary population excess, and provides a plan for gathering statistics and projecting long-term space needs via a jail needs assessment.

1103.2 POLICY

It is the policy of the Colusa County Sheriff's Department to manage the incarcerated person population to the extent as is reasonably possible to avoid exceeding the facility's approved bed capacity.

1103.3 RESPONSIBILITIES

The Sheriff is responsible for ensuring that the facility has a sufficient number of housing units in an appropriate configuration so that incarcerated persons can be separated according to the facility's classification plan.

In the event of an emergency that causes the facility to be populated beyond the approved bed capacity, every reasonable effort should be made to reduce the incarcerated person population to the approved bed capacity as soon as reasonably practicable. The Department will take affirmative action to address excess population. In the event that the incarcerated person population remains over capacity or continues to increase, a crowding committee should be formed to examine any and all methods to ensure that the facility population is reduced and remains within the approved bed capacity.

1103.4 FACILITY NEEDS ASSESSMENT

In the event that the jail maintains an average 80 percent occupancy rate consistently for one year, the Department should initiate a jail needs assessment. The assessment initiates a systematic process that is designed to identify a variety of operational issues and program needs, and may indicate when expansion or replacement of the facility is warranted.

1103.5 DAILY INCARCERATED PERSON POPULATION REPORT

The Jail Commander or the authorized designee is responsible for ensuring that detailed daily logs of the facility's incarcerated person population and other demographic information are completed and maintained by the staff. These logs shall reflect the monthly, average daily population of sentenced and non-sentenced incarcerated persons by categories of each gender as of midnight of each day. The number of incarcerated persons occupying holding cells shall also be counted at midnight each day. An incarcerated person population report summarizing this information shall be created daily and distributed to the Sheriff and the Jail Commander (see the Population Management Policy). The Jail Commander shall provide the Board of State and Community
