Project Approval

Reclamation District 108 adopted the Initial Study/Mitigated Negative Declaration and approved the Reclamation District 108 Slope Stability Flood System Repair Program Sites Project on March 20, 2025.

Project Location

The Project is located on two segments within the Colusa Basin Drainage Canal East Levee, one a 150-foot-long segment between Yolo County Line Road and White Road, and the other a 650-foot-long segment between White Road and Tule Road in Colusa County, California. A spoils area will be utilized and is located in Yolo County between County Road 108 and State Route 45.

Summary Project Description

The Project is intended to repair two critical levee slip sites. The landside levee slopes in two locations have slipped causing deformation of the levee crowns and landside slopes. The Project is being performed to limit the potential risk of additional levee damage or failure. The Project proposes to conduct repairs along two segments of the Colusa Basin Drainage Canal East Levee: a 650-foot-long segment between Tule Road and White Road at Levee Mile 17.2 (Site A), and a 150-foot-long segment between Yolo County Line Road and White Road at Levee Mile 12.7 (Site B). The Project also proposes to use an optional spoils area for depositing excess excavated material (Spoils Area); this area is located in Yolo County between County Road 108 and State Route (SR) 45. The Project is composed of three separate sites that cumulatively total approximately 16.34 acres.

Reclamation District 108, as the Lead Agency, has approved the above-described Project and has made the following determinations:

Reclamation District 108 Slope Stability Flood System Repair Program Sites Project
Final Mitigated Negative Declaration Approval

There is no substantial evidence that the proposed Project will have a significant effect on the environment;

In accordance with the California Environmental Quality Act (CEQA), a Mitigated Negative Declaration for the Proposed Project was prepared. The Mitigated Negative Declaration has been adopted by Reclamation District 108 which is the Lead Agency for the proposed Project. The Mitigated Negative Declaration and record of project approval may be examined at the following website:

<https://www.rd108.org/project-spotlight>

Mitigation Measures were required to be made a condition of approval of the proposed Project;

A Statement of Overriding Considerations was not required to be adopted for the proposed Project; and

A Mitigation Monitoring and Reporting Plan was adopted for the proposed Project.

This is to certify that the Final Initial Study/Mitigated Negative Declaration including comments and responses, the Mitigation Monitoring and Reporting Plan, and record of Project approval is available to the general public at:
