COLUSA COUNTY DEPARTMENT OF AGRICULTURE

JOSEPH J. DAMIANO

AGRICULTURAL COMMISSIONER/SEALER OF WEIGHTS AND MEASURES 100 SUNRISE BLVD., SUITE F COLUSA, CA 95932 530-458-0580

TO: Karen Ross, Secretary
California Department of Food and Agriculture
and the Honorable Board of Supervisors, Colusa County

In accordance with the provisions of Section 2279 and 2272 of the California Food and Agricultural Code, I am pleased to submit the 2012 Colusa County Crop Report. This annual report presents statistical information on acreage, yield, and value of Colusa County's agricultural products.

Agriculture continues to be Colusa County's major producing industry. The 2012 gross production for agriculture was \$711,592,000. This was an increase of approximately 8% when compared to the 2011 value of \$657,735,000. The 2012 crop is the highest value on record for Colusa County.

Rice continues to be the number one crop in both acreage and gross return in Colusa County. The overall yield and price for rice remained stable in comparison to the previous year. Walnut and Almond orchards plantings have increased over the past years and significant acreage of these two crops are coming into production at a time when prices are increasing. The combination of these two crops alone account for an increase of over 55 million in gross receipts for the 2012 crop year in Colusa County.

I must emphasize that the crop report figures show gross values only, and do not reflect a net return to the producer.

I wish to express my sincere appreciation to the processers, producers, and other government agencies who contribute the information that makes this report possible. I also express appreciation to all of my staff, especially Mary Anne Azevedo, Assistant Agricultural Commissioner and Lee Ann Price, Administrative Secretary, who compiled this report.

Respectfully submitted,

Joseph J. Damiano Agricultural Commissioner
